Project: A mixed use development including commercial, multifamily and single-family uses. Phase I includes new construction of a +/- 20,355 SF (footprint) 4-story building with 65 residential units, and a +/- 8,500 SF public library. The SPR is for the overall concept plan and Phase I only. Phase II includes future single family residential development and a proposed road accessing them that would be taken over by the city as a city road.

12/12/23 UPDATE: Expected to not be completed but Zoning not issuing termination letter at this time per MoZ

6/27/2023 UPDATE: Jane Forbes spoke with DEC on this, DEC still has not signed off on phase 1 or 2 of development as of 6/22/2023. Seems concern is that not enough testing to inform decision, empty promises from developers to DEC. Concerns about whether the retention pond should go where proposed. DEC says only certain development can occur on phase 2 land, proposed road has to be private and owned by same as land owners because of annual reporting requirements.

6/13/23 UPPDATE: BME has to provide document from Labella/DEC confirming can move forward.

6/6/23 UPDATE: Applicant seeking to move forward with phase 1; says Labella dealing with NYSDEC as they understand they are close to resolving environmental issue on parcel and can move forward. Jane Forbes indicates it is NYSDEC authority that dictates proper development in response to environmental easement. Will request from applicant official comment from NYSDEC approving moving forward for phase 1. Easement precludes single-family development ever. Must show that DEC is OK with whatever is being proposed. Phase one work related to road must also be at city design standards.

5-30-23 UPDATE: Stalled waiting for update from application about resolution of environmental issues with NYSDEC.
