

SECTION S645 - BUSINESS SIGN

S645-1 DESCRIPTION

Work consists of furnishing and installing business signs as required in Contract Documents and as directed by Project Manager.

For purposes of this specification, all references are in accordance with *NYSDOT Standard Specifications (US Customary Units dated May 1, 2008)* edition, including any addenda.

S645-2 MATERIALS

Sign board is to be 4 feet wide and constructed from 3/4 inch thick duraply or A-A exterior grade plywood. Height of sign board is to be sufficient to accommodate total number of businesses represented on sign. Sign board is to be painted with two coats of white exterior enamel paint. Lettering is to be done with red exterior enamel paint, and all graphics are to be done with black exterior enamel paint.

Letters are to be 2 inch helvetica medium style. Letters and graphics are to be done by either silk screen process, diecut vinyl letters (permanent adhesive), or stencil.

S645-3 CONSTRUCTION DETAILS

It is responsibility of Contractor to provide business signs to inform potential clientele that existing businesses are still open and operating. Business signs are to be installed prior to any construction work being performed by Contractor on behalf of businesses and City of Rochester.

Business sign must be installed at all access points to project site. Business sign is not required to be installed at other locations, unless otherwise specifically required in Contract Documents. Actual number and size of business signs to be installed will be as shown in Contract Documents.

Business sign must be in place minimum of 2 days before Contractor commences any other form of work on project site, and is to remain in place for minimum of 5 days after substantial completion of project. Business sign is to be maintained in good condition and removed after completion of project.

Two coats of base paint are to be applied evenly to both sides on all edges of sign board. Fastening devices that appear on face of sign board are to be painted to match background color. No fastening devices are to enter into or cover any area of lettering or graphics.

Business sign is to be soundly constructed and securely mounted on its own post or barricade. Business sign is not to be mounted on any building, wall, fence, utility pole, traffic sign post, or tree. Business sign is to be located such as to be easily noticed. Business sign is not to impair in any way or manner visual sight distance of both vehicular and pedestrian traffic. Bottom of sign board is to be at least 5 feet above grade.

S645-4 METHOD OF MEASUREMENT

Quantity to be measured for payment will be number of square feet of business signs installed.

Measurement range for size of business sign to be provided will be as noted, with measurement being rounded to nearest square foot. For example, 10.4 square feet will be rounded to and paid as 10 square feet, 10.5 square feet will be rounded to and paid as 11 square feet.

S645-5 BASIS OF PAYMENT

Unit price bid includes cost of: constructing, furnishing, installing, relocating, maintaining, removing and disposing business sign and post/barricade; and furnishing all labor, material and equipment necessary to complete work.

Payment will be made under:

ITEM NO.	ITEM	PAY UNIT
S645.41	Business Sign - Size A (0 to 10 square feet)	Each
S645.42	Business Sign - Size B (11 to 20 square feet)	Each
S645.43	Business Sign - Size C (21 to 40 square feet)	Each
