**Design Consultant:** LiRo Engineers, Inc.  
**Construction Manager:** LiRo Engineers, Inc.  
**Contractor:** Cambria Contracting, Inc.  
**Project/Air Monitor:** Envoy Environmental, Inc.

### PROJECT & WORK LOCATION

Asbestos and Hazardous Materials Abatement of  
Midtown Plaza Project, Phase I -Midtown Tower

**DATE OF ISSUANCE:** October 1, 2010

#### TO OWNER:

Martin Piecuch  
Director of Economic Development  
Empire State Development Corporation  
400 Andrews Street, Suite 100  
Rochester, New York 14604

**CONTRACT NO:** 6148

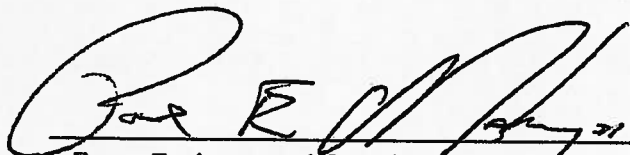

**PROJECT#** E0002

**CONTRACT FOR:** Asbestos and Hazardous  
Materials Abatement of Midtown Plaza  
Project/Air Monitoring Services

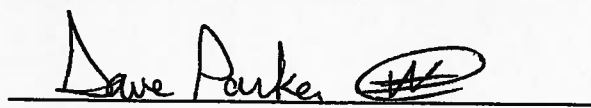

**CONTRACT DATE:** August 19, 2009

To the Project Monitors best knowledge, information and belief, in accordance with the scope of services defined in the "Asbestos Air/Project Monitoring Services" contract, the work performed at the designated location has been reviewed and found to be complete. The project monitor certifies that the asbestos containing materials identified in the contract documents and asbestos demolition survey have been removed in accordance with all applicable regulations, with the exception of the freight elevator and the spandrel beams on the 18<sup>th</sup> and 19<sup>th</sup> floors.

Because the freight elevator was requested by Christa Development to be left operational, the asbestos containing materials in the freight elevator shaft were left in place, because abatement would preclude future operation of the elevator. The spandrel beams on the 18<sup>th</sup> and 19<sup>th</sup> floors are to be abated during Phase Two of the project. Envoy Environmental Consultants, Inc. accepts no responsibility for contents at the buildings which are unknown or inaccessible, or not part of the Project Work Plan. The date of Completion of the Project designated above is hereby established as: August 23, 2010
