### **Referral 1:**

**Applicant:** Tom Kicior, City of Rochester – DES/A&E  
**Address:** 123 East Main Street and 75 South Avenue  
**Zoning District:** CCD-R Center City District Riverfront

### **Project**

**Description:** The City of Rochester plans to perform several upgrades and renovations to the Rochester Riverside Convention Center and its associated structures. These include a building addition to the southwest face of the convention center along the river, building envelope repairs, and repairs and upgrades to the existing river wall. The addition will be added to the existing convention center and will be a 3,657 square foot, single-level structure that will occupy most of the existing terrace. This new addition will include new restrooms and replacement of an existing elevator. The existing south terrace area of the convention center will be cantilevered approximately 5 feet. The existing river wall has sustained substantial deterioration over the years and is in need of repair. Repairs to the river wall will consist of three parts (removal of debris and loose impediments, fortification of stone portions of the wall with grouting, and the addition of a new up to 18 inch thick concrete face will be poured). These repairs are necessary to ensure the structural integrity of the river wall.

**Quadrant:** Southwest Quadrant

**SERQ:** Type 1

**Lead Agency:** Mayor's Office

**Referral Agency:** Manager of Zoning

**Date of Referral:** January 17, 2023
