WHAT IS THE PURPOSE OF A CERTIFICATE OF NONCONFORMITY?

A nonconformity is any use lawfully being made of land, buildings, or structures, which does not comply with the current Zoning Code in the district in which it is located. This application is used to determine: the pre-existing rights to a nonconformity, the potential change of intensity from one nonconforming use to another nonconforming use; whether or not there has been a period of vacancy that has caused the use to be abandoned or discontinued; if the structure was built for its current use; or to extend a period of vacancy due to extensive rehabilitation of the structure.

Documents that may be helpful are:

- To determine the Intensity of an existing use or for a change of use.
 1. Copies of City Directory listings. City Directories can be found at the Rundel Library, Local History Division, 585-428-8370 or lochist@libraryweb.org and online at <https://roccitylibrary.org/digital-collections/rochester-city-directories/rochester-city-directories-by-decade/#>.
 2. Rent receipts, bills of sale for goods and services, utility records, tax records, receipts from contractors, receipts from associated businesses, etc.
 3. Newspaper ads or articles related to the uses on the site. The Democrat and Chronicle has digitized newspapers going back to the 1870s. These are searchable online (for a small fee) <https://democratandchronicle.newspapers.com/>.
 4. Affidavits, sworn to and notarized, describing both the proposed and the previous uses by persons who are familiar with the property over an extensive period of time, but have no financial interest in the property.
- To prove built-as status. An engineer's report prepared by a licensed design professional in the state of New York, which certifies the original construction for the desired use.
- To extend a period of vacancy due to extensive rehabilitation. Cost estimates for repair, including a project schedule.
