FIRST ORDINANCES.

TREMONT STREET ASPHALT IMPROVEMENT.

TREMONT STREET ASPHALT IMPROVEMENT.

By Ald. Kohlmetz—Resolved. That the City Surveyor ascertain and report to tais Council the expense of constructing a steet asphalt pavement on Tremont street.

Adopted.

The Surveyor submitted as such estimate, \$11.401.

By Ald. Kohlmetz—Hesolved, That the following improvement is necessary, viz.:

The construction of a sheet asphalt pavement, the same as now laid on West avenue and Alexander St., two and one-half inches in thickness on Tremont St., irom the crosswalk in Plym u have, to the tast cross walk on Caledonia ave., width of roadway to be as now established, thrty-two (32) feet; also the taking up, 10-ressing and resetting of the old curbstones, where of appro ed quality and where the proper alignments and grades have been disturbed and the substitution of new curvistones for the old which are found defective, the examination of the main and surfaces wers and lot laterals and the cleaning and repairing of the sam where found necessary; also the construction of new lot laterals and the cleaning and repairing of the sam where found necessary; also the construction of the water and gas service pipes, with their appurtenances, where now required or their future u e is contemplated or probable; also the construction of the necessary manholes, new surface sewers and the extension and repairing of existing surface sewers where required.

And, Whereas, The City Surveyor, under the direction of this Council, has made an estimate of the whole expense, thereof, and reported the same at \$11,400, which estimate is hereby approved.

Resolved, further, That the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense thereof, viz.:

One ter of lots and parceis of land on each side of Tremont street. from Plymouth avenue to Caledonia avenue, in proportion to the benefit which each will derive therefrom.

Tremont street. from Plymouth avenue to Caledonia avenue, in proportion to the benefit which each will derive therefrom.

And further Resolved, That the 'tax-payers to be assessed for making such improvements may pay their assessments in three equal payments, as follows:

One-third of the amount assessed within thirty days after the advertisement of the assessment roll; one-third of the amount within one year from the confirmation of said roll, and the remaining one-third within two years from the confirmation of said roll. On all

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS.

By the Clerk-

STATE OF NEW YORK, ASSEMBLY CHAMBER, ALBANY, April 15,1887. To the Honorable the Common Council of the City of Rochester :

Sirss—Certain residents of West avenue have caused to be prepared a bill providing for the removal of the bridge across the Eric canal at West avenue, and the substitution therefor of a lift bridge in direct continuation of the lines of that highway, to be constructed at the avenues of the highway, to be constructed at the expense of the

Soon after this bill was handed to me, I received a remonstrance against the passage of the bill, signed by a number of reputable citizens and tax-payers who reside upon Caledonia avenue.

As soon as the issue was thus formed between the two sections of the city, I informed the promoters of the scheme that they must submit the matter of difference to some local tribunal or board having jurisdiction of the subject matter, and that I would be governed by the decision of such tribunal. Instead of doing this, however, they have contented themselves with muttering threats of dire vengeance against me.

It seems that years ago, before the construction of the present bridge, there were two bridges across the canal at or near the point of crossing, one to accommodate the section of the city which Caledonia avenue and the other for the accommodation of West avenue. These two bridges were removed, and both sections compromised upon the bridge as at present constructed and located.

and both sections compromised upon the oringe as at present constructed and located.

It will thus be seen that the residents of Caledonia avenue have certain equities which I cannot disregard. My duties are purely legislative, and not judicial, and are not those of a local commissioner of highways. Your honorable body, and that alone, has jurisdiction over this matter.

Therefore I desire to submit for your immediate consideration the following proposition:

Shall the present swing bridge over the Erie

Shall the present swing bridge over the Eric canal at West ovenue be removed, and shall a lift bridge be built in lieu thereof which shall be constructed with lines drawn in continuation of the present lines of that thoroughfare?

After having received your recomendations on the subject, I shall govern myself accordingly, and should your decision be in favor of the construction of the proposed bridge, I will devote all my energies towards securing an appropriation from the State treasury to defray the expense of construction.

Yours very truly,

EDWARD W. MAURER,

ROCHESTER, N. Y., April 19, 1887.

Gentlemen. In obedience to the resolution GENTLEMEN. In obedience to the resolution adopted at your special meeting on the 28th of February last, I have prepared a first ordinance and made a detailed estimate for the construction of a stone arched bridge over the Genesee river on the line of Court street. This ordinance is hereby the line of Court street. This ordinance is hereby submitted for your action and further instructions, as I have felt that it would be presumptious in me to dictate, or even suggest, the manner in which to provide the means to meet the cost of the proposed improvement.

Very respectfully Your obedient servant, I. F. QUENBY, City Surveyor, Ordered received and filed.

"This ordinance was adopted by a majority vote of your board, on the theory that a majority of the persons to be assessed had signed a petition for the

persons to be assessed and as special provided for the same.

"If said ordinance had simply provided for the construction of a sewer, then, I think, your action would have been regular, and would have stood unquestioned; but it also made provision for the grading of the roadway of the street, and for the formation of gutters therein—matters not embodied in the petition, and, therefore, to have legally adopted said ordinance the votes of three-fourths (twelve in number) of all the members elected to said Common Council were necessary. OFFICE OF THE CITY ATTORNEY, No. 19 CITY HALL BUILDING, April 19, 1887.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN: I beg leave to report that the action of the New York Central & Hudson River Railroad Company and other against the city of Rochester and John Creegan to enjoin the city from connecting the Upton park sewer with the East avenue sewer, begun on or about September 21st, 1880, and which has been pending for many years past, was brought to trial on December 10th, 1886, at the Monroe Equity Special Term, before Mr. Justice William Rumsey, and resulted in a judgment being entered in favor of the plaintiffs against the defendants with \$135.50 costs.

The time to appeal expires on the 20th inst. I

The time to appeal expires on the 20th inst. The time to appeal expires on the 20th inst. I am of the opinion that, in view of the questions involved therein, and the importance of the litigagation to the residents of that locality affected by the judgment, that an appeal should be taken, to the end that the questions be reviewed by the General Term of the Supreme Court, as it is in no wise clear, in my opinion, that the plaintiffs are entitled to the relief given them in and by the judgment,

and, therefore, for that purpose, recommend that the following resolution be adopted.

Respectfully submitted, IVAN POWERS, City Attorney.

Ordered received, filed and published.

By Alderman Elliott: Resolved, that the City Attorney be, and he hereby is instructed to appeal from the judgment of injunction and costs in the case of The New York Central & Hudson River Railroad Company and others against the City of Rochester and John Creegan to the General Term of the Supreme Court, and to take such steps as may be necessary to render such anneal effectual. to render such appeal effectual.

Alderman Thayer moved that the matter lay on

the table. Adopted.

By Alderman Elliott: Whereas, the Common Council of the City of Rochester, unamiously passed a proposed amendment to the charter which should confer power on this body to order all over-head wires in this City, within three quarters of a mile from the middle of Main Street bridge placed under ground by August 1, 1888; and, Whereas, This Council instructed the City At-

torney if necessary to secure the passage of the bill to drop out from that instrument the date when such wires must be placed under ground; and.

Whereas, it appears that our Assemblyman states that he is unable to secure the passage of the bill as originally proposed by us, and has suggested a sub-

stitute therefor.

Therefore, Resolved, by the Common Council of the city of Rochester, N. Y., that our Senator and Representative in Assembly at Albany be instructed to secure such modifications of said substitute, as will confer power upon the Common Council to authorize any power of the common Council to authorize and the common Council to authorize and the common Council to authorize and the council will conter power upon the common council to authorize any persons, company or companies it chooses so to empower to lay the wires underground, and that there be a clause added to the bill that shall reserve to the city the right for the free use of any conduit or conduits that may be so laid in any part of the said city for such wires as may be necessary for municipal purposes; and also may be necessary for municipal purposes; and also a clause empowering the Common Council to grant to any individual or individuals, or any company now or hereafter to be organized, the use of said conduit or companies shall pay an equally proportionate share of the expense of construction and maintaining said conduit or conduits; and that the clause requiring the layers of said conduits the clause requiring the layers of said conduits to remove and relay the same at their own expense when gas pipes are to be extended, be stricken out. By Ald. Judson—

To the Honorable Common Council:

GENTLEMEN—We, the members of the Excise Board of your city, would respectfully represent that one year ago your Honorable Body saw fit to make a reduction in certain salaries of the city department, and among them was the salaries of our Board. At that time the members of the Board were receiving the small sum of \$900, and they were reduced, without a hearing of the matter, to the sum of \$720. Since that time the salary of nearly every official, whose salary was then reduced, has been restored or raised, except ours, and, further, we desire to say that the duties of our office become more onerous every week, and from the revenue of \$28,000 or \$30,000 per year from our Board, we have by hard work raised the sum to about \$43,000; and there are complaints to be heard and tried by our Board every week of the year, which, as a matter of necessity, takes up much of our time. Many years ago, when the revenue of the Excise Board was less than one-third its present income, the salaries of the Board were partment, and among them was the salaries of our its present income, the salaries of the Board were nearly twice as much as now. And, therefore, we ask in justice that your Board grant us at least a fair salary, and we ask you only to restore our salaries to the sum of \$900 each, as they formerly stood last year

REPORTS OF STANDING COMMITTEES.

By Ald. Kohlmetz-

OFFICE OF THE CITY ATTORNEY, Rochester, N. Y., May 3, 1887.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN: In accordance with your permission I made a motion at the last General Term of the Supreme Court, held in this city, for leave to appeal to the Court of Appeals from the judgment and order of affirmance in the case of Emily Clark against the city. That motion was, on the 20th day of April, 1887, denied by the General Term, and provision must, therefore, be made for the payment of the amounts due Mrs. Clark which are as ment of the amounts due Mrs. Clark, which are as follows:

Judgment of the County Court, damages and

1885, the date of the entry thereof.

Costs of affirmance entered in the judgment, \$138.85, less \$10, amount of deduction therefrom, leaving \$128.85 and interest thereon from Februrary 4, 1887, the date of the entry of the judgment. In my former communications to your honorable

In my former communications to your honorable body on several occasions I have referred to proceedings in an action of Mary C. Leinen against John J. Elter et al., especially the proceedings taken on behalf of the city and the treasurer upon an appeal from an order of the Monroe Special Term declaring void certain taxes and assessments.

To briefly state the steps in the action, will, trust, in view of the fortunate result, be pardonable

upon my part:

In the early part of 1886, among other parcels of land sold, was a tract on Franklin street, upon which was a large amount of county taxes, as well as city taxes and assessments. Upon application of the plaintiff's attorney an order was made referring it to a referee to take proof as to the validity ring it to a referee to take proof as to the validity of those taxes and assessments, and requiring a notice of eight days to be given to Mrs. C. C. Seymour and Mr. W. W. Chapin, holders of city tax sale certificates, and the city-and its treasurer, and the county treasurer and Mr. L. Johnson, the holder of the county tax sale certificates, to appear before the referee. Such notices were given and appearances were made before the referee for the city. ances were made before the referee for the city.

ances were made before the referee for the city. A report was made on June 3, 1886, by the referee, that, in his opinion, the several taxes and assessments were void. On June 29, 1886, a motion for the confirmation of the referee's report was argued before Mr. Justice Dwight, then holding the Special Term, by the plaintiff's attorney, Mr. W. H. Olmsted and Mr. Wm. H. Shuart, guardian ad litem for the infant defendants, and Mr. G. F. Slocum, assistant city attorney, for the city and Mrs. Seymour and Mr. Chapin, and, on July 16, 1886, an order was entered upon the decision of Mr. Justice Dwight, declaring the taxes and assessments to be Dwight, declaring the taxes and assessments to be void, and enjoining the Mayor and County Treas-urer from executing any lease or deed upon any sale therefor.

An offer had been previously made by Messi lmsted and Shuart, which had been partial Olmsted and Shuart, which had been partially favorably considered, for them to pay the sum of \$200 into the treasury, and, thereupon, the taxes and assessments were to be canceled, the city, in that event, of course, being obliged to refund to Mrs. Seymour and Mr. Chapin the amount of their tax sale certificates, a trifle over \$1,000, besides interest.

terest.

After entering upon the duties of my office, and examining the matter, I decided to appeal from the order to the General Term, and did so under your direction, and also obtained leave, upon motion, upon the payment of \$10 terms, to file exceptions to the referee's report, which had been omitted wint to the array of the gorifunction order. ted prior to the entry of the confirmation order, and the direction that the exceptions be filed nunc pro tunc as of a date prior to the motion, and a statement to be inserted in the order of confirmation nunc pro tune as of the date thereof, that it was made upon those exceptions.

The appeal was submitted upon printed briefs in October, 1886, and at the close of the General Term, held January 25th, 1887, a decision was handed down reversing the order of the Special Term, with

down reversing the order of the Special Term, with \$10 costs and disbursements for printing.

On February 3d, 1887, I entered an order of reversal and for \$121.64 costs and disbursements of the appeal in favor of the city and the treasurer against the parties to the action.

A motion for reargument was then made by the parties, plaintiff and defendant, to the original action, to the General Term, which commenced its term on March 29, 1887, in this city, and such motion was denied by the General Term at the close of said March term. On Friday last, April 29, 1887, in accordance with an order of the Supreme Court, obtained by the parties, the referee paid the following sums: lowing sums:

To the undersigned, the amount of said costs and

disbursements, and interest, \$122.75.

To the city treasurer, the amount of an old city tax for the year 1865, \$60.93; assessments which costs, \$407.25 and interest thereon from July 7th,

had been added to the tax rolls for 1886, but which had been the first to be declared void, \$60.02; tax of 1884 and interest, \$769.96; tax of 1885 and interest, \$322, making a total of \$1,226.11 for taxes and assessments alone. The interest on the two city taxes from the time of sale was computed at the rate of 6 per cent., as the holders of the tax

On said April 29th, I paid to the treasurer the sum of \$112.60, the amount due to the city as dis-

bursements for printing on the appeal.

By this result the city is the direct gainer by over one thousand dollars, and in disposing of questions, which had been raised concerning a large amount of taxes and assessments, the gainer indirectly of many hundreds of thousands of dollars.

This favorable result in the Leinen case, together with the favorable result in the Parsons case, an Oak street assessment case, has resulted in a direct oak street assessment case, has resulted in a direct saving to the tax payers of a number of thousand dollars, besides indirectly saving an additional enormously large sum. Respectfully submitted, IVAN POWERS, City Attorney.

By Ald. Kohlmetz: Resolved, that the clerk be, and has brighted as a contraction of the con

To the Hon, the Common Council of the City of Rochester :

Gentlemen: Your Assessment Committee begs

Gentlement Tour Assessment Committee legs leave to submit the following as its report:

In reference to the application of Simeon B. Pomeroy to be relieved from the payment of interest upon an assessment under ordinance No. 1,735 made against lot No. 30 on the south side of Bates street, amounting to \$39.90, exclusive of interest, assessed to John Donolan for the improvement street, amounting to \$39.90, exclusive of interest, assessed to John Donolan for the improvement known as the Park avenue extension, we would report that it appears that Mr. Pomeroy purchased lot No. 30 from one J. W. Hall, who derived his title thereto from one John Donolan, now deceased, through several mense conveyances, and, at that time, it was reported to him (said Pomeroy) by an attorney whom he employed to examine the title for him, that the property was free from all taxes and assessments, but it appears that at that time he neglected to obtain a tax-search from the City Treasurer; that at the time of his purchase, the assessment for said improvement had been levied and was a lien upon the property, amounting to the sum of \$39.90; that no proceedings, it would seem, have ever been taken to enforce said law tax, and Mr. Pomeroy was wholly ignorant of its existence until about October 21, 1886, when, as he was bargaining for the sale of said premises he ordered a tax search, which, when obtained, showed the existence of said assessment obtained, showed the existence of said assessment

and the non-payment thereof.

We deem it proper, under the circumstances, that
Mr. Pomeroy should be permitted to paysaid sum of

Mr. Pomeroy should be permitted to paysaid sum of \$39.90, and interest thereon from the time it became due, at the rate of 6 per centum per annum, until payment be made. In this conclusion the City Treasurer concurs.

In reference to the petition of Sebastian Gnaedier to be relieved from the cost and expenses, in part, at least occasioned by a foreclosure suit begun by the city attorney upon the premises owned by him on Nassau street in the Sixth ward for an unpaid city tax during the year 1883, we would report, that it appears that the petitioner, during the year 1883, was blind, and absent from Rochester, and in New York city for the purpose of having an operation performed, and, during his absence, he had no one to look after his interests, and the tax was levied and remained unpaid for that \$135,390 00 50,000 00 the tax was levied and remained unpaid for that

The petitioner is, at present, in very poor circumstances, and, owing to his impaired eyesight, unable to work, and, also, unable to pay the costs and expenses in full of the suit. The amount of the tax, and interest and expenses of sale at the time of sale, on March 27, 1884, was \$22.56. The city attorney has, very generously, agreed to accept the trivial sum of five dollars in full for his costs and expenses, which will inadequately compensate the psrson making the service of the papers, but no expense, however, in that regard will be caused to

In reference to the application of Henry S. Brown it appears that Mr. Brown was the owner of part lot No. 9, W. W. Mumford tract, on Clifford street, which was assessed for the Clifford street widen-ing under ordinance No. 1,824, and, by reason of the ing under ordinance No. 1,823, and, by reason of the nonpayment thereof, the lands were sold to the city on June 20th, 1878, for the amount then due, and interest and expenses, namely, \$253.00; that, subsequently, a certificate of sale was executed by the Mayor, and the same was recorded in Monroe Country Charles of Fig. 1 boxes from and on April 26. the Mayor, and the same was recorded in Monroe County Clerk's office; thereafter, and on April 26, 1881, Mr. Brown paid said tax sale amount and interest to the City Treasurer, but the apparent lien created by the recording of the certificate by the Mayor, as aforesaid, has never been discharged, Mayor, as aforesaid, has never been discharged, and it would seem that the proper course to effect such object would be for the Mayor to execute, on behalf of the city, a quit-claim deed of all interest acquired by the city under said sale and certificate thereof, as aforesaid, which, of course, should be without expense to the city.

The following resolutions for the purposes and objects aforesaid are recommended for passage by your Honorable Body.

COMMUNICATIONS FROM THE MAYOR AND OTHER

EXECUTIVE OFFICERS AND THEIR REFERENCE.

By the Clerk-

MAYOR'S OFFICE, ROCHESTER, April 28, 1887.

Gentlemen of the common council:

The resolution adopted at your last regular meeting, directing me to ent.r into contracts with the proprietors of the Daily Union and Advertiser, the Democrat and Chronicle, Post-Express and Morning Herald, for the publication of the proceedings, resolutions and ordinances of the comme council, and of the executive board, and of official notices and advertisements of various descriptions, is herewith returned without my approval.

Nothwithstanding the fact that the ably edited newspapers of Rochester have done much, and are still doing much, to enhance the growth and prosperity of our city, and, notwithstanding the further fact, that the price named in the said resolution for the work to be performed is not to be regarded in the light of extravagance, the resolution itself is faulty, not so much in what it says as what what it does not say, to wit, in its failure to clearly and definitely express, in positive terms, what matter shall be published.

Of course it is proper and desirable that all notices, of which the publication is by law required, should be duly published, and it is equally important and desirable that full and sufficient reports of the action of your honorable body, and of the officers of the city, should be laid before the people. But under this resolution much matter might be printed, the publication of which is in no way needed, and the expense to the city thereby very largely and unnecessarily increased.

For instance, there are frequently large portions of your formal proceedings which are sent or transmitted to the executive board for its information and guidance. It certainly is not necessary that they should be published in both instances, and the city compelled to pay therefor So, also, there are many papers presented to, and passed upon by, your honorable body, the pub ication of which is unimportant and unnecessary, but very expensive.

It seems to me that, by proper care in the preparation of the contracts—the resolution gives no discretion in the matter—both in the gives no discretion in the matter—both in the respects above referred to and several others that may occur to you, a great saving might be made for the city, and the result arrived at be equally well attained. While, therefore, I concur, in the main, in the general purpose of your resolution. resolution, I am unable to approve of it in its present form, and take the liberty of suggesting that you appoint a committee to take the matter in charge, confer with

the city attorney and others interested, and prepare forms of contracts which will be clear and definite, and just to all concerned, and submit the same for further consideration. The propriety of giving publication to official matter n the manner, and to the extent, proposed, may well be questioned, in view of the fact that our tax-paying people are already overburdened by the expense attendant upon the administration of their municipal government. Still, I believe it possible, by the exercise of a careful and judicious discretion in the preparation of our official proceedings, advertisements and notices for publication, and by a proper distribution of the same, and condensed as they should be, to so lay them before the public that they may prove to be a benefit commensurate with the expense necessary so to do. It has also been suggested that the funds from time to time created for the purpose of making local improvements, should be also charged with the expense caused by giving the publication necessary to legalize your proceedings as regards said improvements. This is a new and worthy thought, to which further and proper consideration should be given, for it may aid us, to some extent, at least, in solving a somewhat difficult problem.

I trust, upon a review of the public printing matter, and the direction of your thoughtful attention to the same, much good may accrue to our people, and to the varied interests of Rochester, and, to this end, I shall be most happy to

co-operate with you.

CORNELIUS R. PARSONS, Mayor.

Ald. Kelly moved that the communication lie on the table two weeks, and the President of the Board appoint a committee of three to confer with the Mayor, in accordance with his suggestion. Adopted.

Gentlemen of the Common Council:

I hereby return disapproved the action taken at your last regular meeting, fixing the salary of the Excise Commissioners at \$900 each per annum.

Your Board, at its meeting held on the first Monday in April, being the 4th day of the present month, adopted a schedule of salaries for the year, and I am now, as heretofore, un willing to permit the door to be opened to a general increase of the same after they have been once regularly and fairly fixed.

CORNELIUS R. PARSONS, Mayor.

The President stated the question to be "shall the resolution stand notwithstanding the objections

of his honor the Mayor."

The resolution was lost by the following vote: Nays—Ald. Tracy, Sullivan, Marson, Fee, Kohlmetz, Fritzsche, Elliott, Foley, Selye, Hall, Swikehard, Judson, Stein, Kelly, Thayer—15.

CITY SURVEYOR'S OFFICE, ROCHESTER, N. Y., May 3, 1887.

To the Honorable the Common Council of the City of Rochester: GENTLEMEN—In ordinance No. 2,975, for the Me-

dina stone pavement of Pinnacle avenue, it is pro-

vided that the width of the roadway between curbs shall be thirty-six (36) feet. This was based upon the supposition that the width of the avenue throughout was sixty (60) feet, and by the official records in this office it was so established.

On measurements recently made it is found that the actual width from the angle where the avenue deflects westward from a point near the south end of the approach of what is called the Pinnacle avenue canal bridge, to South avenue, is only fifty (50) feet. A roadway thirty-six (30) feet wide between the points named, does not seem to be necessary for public convenience, while it would inflict much in-convenience, if not positive injury upon property owners on that limited portion of Pinnacle avenue; more especiall since the bridge over the canal has been built and the approaches thereto are nearly completed.

Completed.

For the reasons above given, I would respectfully recommend that authority, under ordinance, be given to narrow the roadway on Pinnacle avenue from thirty-six (36) feet to thirty (30) feet, from the south end of the approach to the Pinnacle avenue areal hydron to South avanue.

CITY SURVEYOR'S OFFICE, ROCHESTER, May 3, 1887.

To the Hon. the Common Council of the City of Rochester:

Gentlemen—In obedience to the resolution of Ald. Elliott and adopted at your last regular meeting (April 19th), an examination of the Goodman street sewer between Park avenue and Monroe avenue has been made and the following facts have

been discovered, viz.: First—The manhole near Park avenue was found to be about one-half filled with sediment and the bottom of the manhole to be eight inches above the level given by the record maps in this office.

Second—At the intersection of Brighton avenue

with Goodman street the manhole was not ob-structed but its bottom was found to be nearly six (6) inches above the grade given by the record

Third-At the Harvard street intersection the grade was found to be correct, but the sewer was one-half filled with sand and gravel, though there was a free blow of water over the surface.

Fourth-At the curve where the sewer is de-

flected eastward to intersect the Monroe avenue outlet sewer there was found to be about three (3) inches of sand and gravel sediment, probably that which had fallen through the openings in the man-hole. The bottom of this manhole was about four

(4) inchesbelow the proper grade.

Fifth—The end manbole near Monroe avenue is filled for one-third (1/3) of its depth with a deposit.

The bottom of this manhole seems to be on the

The conclusions would appear to be unavoidable that an attempt was made to build a sewer for the accommodation of a territory for which no adequate outlet could be found and that the sewer itself was constructed on an undulating grade.

Very respectfulty, your obedient servant,
I. F. QUINBY, City Surveyor.

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE.

From the Mayor-

MAYOR'S OFFICE, ROCHESTER, N. Y., May 12, 1887.

Gentlemen of the Common Council:

Gentlemen of the Common Council:
Final ordinance No. 3,197—Frank street improvement—is hereby returned disapproved.
Said ordinance provided for the construction of a Medina stone pavement, and was adopted by your Board upon the presentation of a petition for an improvement of that character, and which was signed by a majority of those to be assessed for the same. Before action was taken, however, a remonstrance was presented to your Board, alleged to have been signed by a majority of those directly interested—and which statement was doubtless true—protesting against the passage of the said ordinance.

dinance.

The situation becoming somewhat complicated, I gave a hearing on Tuesday evening last to those owning property upon the street, the result of which has been the presentation to me of another petition, numerously signed, and indorsed by the assessors as a majority petition, and in which the owners of property on the said Frank which the owners of property on the said Frank street "pray your honorable body to cause Frank street, from Jay street to Lyell avenue, in said city, to be improved by Medina stone curb and gutters, with a gravel roadway, with MacAdam founda-tion."

As above stated, and after a free and full discussion of the question, the wishes of the majority being thus clearly indicated, I have filed with the clerk the new petition and return ordinance No. 3,197 without my approval.

CORNELIUS R. PARSONS, Mayor.

The chair stated the question to be "Shall the ordinance stand, notwithstanding the objections of His Honor, the Mayor.''

The veto was not sustained. By the Clerk—

OFFICE OF EXECUTIVE BOARD. MAY 17, 1887.

To the Honorable, the Common Council of the City of Rochester:

In response to the resolution of your honorable body adopted on March 29, 1887, relating to certain rights of way required for the extension southerly rights of way required for the extension southerly of the Goodman street outlet sewer now in process of construction, the Executive Board directs me to transmit to you the following report:
First—To intercept as originally contemplated, the discharge of Court and William streets outlet

sewer at or near the northern end of the culvert carrying the same under the tracts of the N. Y. C. & H. R. R., it will be necessary to secure certain easements from Frederick S. Minges and Edwin easements from Frederick S. Minges and Edwin S. Hayward. Prior to the passage of ordinance No. 2,963 for the Goodman street outlet sewer, on May 18, 1886, the said parties verbally promised to convey to the city for a merely nominal consideration, the easements required for the construction of a branch of said sewer from Goodman street westerly and southerly through their lands to the railroad culvert as aforesaid, on demand at any time effect the letting of the contract for said Goodman after the letting of the contract for said Goodman

street outlet sewer under said ordinance.
It seems, however, that since such time, the said parties have changed their minds in relation to the parties have changed their minds in relation to the conveyance of said easements to the city, and no terms which the Executive Board feels justified in recommending for your acceptance have yet been reached therefor. Instead of following the plan and route originally contemplated, the said parties now desire that said branch sewer shall be constructed on a different line or route which is fully described in a communication from said F. S. Minges and E. S. Hayward, presented to your Board at its last regular meeting on 3d inst., and then referred to your committee on sewers. This part of the subject is accordingly already before

your Board for consideration.

Second—To intercept the discharge of the Upton Park outlet sewer, and the contemplated Culver Park sewer, it will be necessary to construct an-other branch, or a continuation, of the said Goodother branch, or a continuation, of the said Goodman street outlet sewer, from its southern terminus southerly through Goodman street and under the tracks of the N. Y. C. & H. R. RR... to some suitable point between said railroad and Anderson avenue. From this point the sewer must then be continued easterly to a junction with the Upton Park outlet sewer, unless built through Anderson avenue, whereby excavation of great depth for several hundred feet of distance would be involved, the eastern extension of said sewer must pass through private lands.

the eastern extension of said sewer must pass through private lands.

These lands are owned respectively by the Hol-lister Bros., south of and adjacent to the said rail-road, and by H. H. Craig north of and adjacent to Anderson avenue. It would be desirable to con-struct said extension through the lands of the Ho struct said extension through the lands of the Hollister Bros.; but as these premises are now occu-pied for the storage of lumber and are provided with railroad sidings and driveways so located that any attempt to construct said sewer through the same would entail heavy damages, it becomes, in the opinion of the Executive Board, expedient to locate said sewer from Goodman street easterly to locate said sewer from Goodman street easterly along the division line between the lands owned by the Hollister Bros. on the north, and by H. H. Craig on the south. Along this line as an axis a street 60 feet wide will in the future probably be opened and dedicated to the city; the cutting will be considerably less than if the sewer were to be built through Anderson avenue; there are now no buildings or other obstructions in said course; and for a merely nominal consideration. Messrs. Hollister and Craig have assured the Executive Board lieted 486 families in the following manner:

that they will convey the necessary permanent easements to the city. It is therefore deemed ex-pedient by said board that the projected sewer be pedient by said board that the projected sewer be constructed along said division to intercept the Upton Park outlet sewer. It should also be stated that the officers of the N. Y. C. & H. R. R. Co. will interpose no objections to the construction of said sewer under the tracks of said railroad, provided that the proper precautions are taken by the city to prevent any damages to their property and passengers and any obstruction to their traffic. The Reard size desires to urge upon the attention of Bengers and any observation to that traine. In Board also desires to urge upon the attention of your honorable body the necessity of soon providing for the construction of the two above named branches of the Goodman street outlet sewer, both in order to avoid the payment of annual damages to the owners of a number of lots within the city limits with whom temporary contracts have been made, as well as to prevent the further accountlation of claims for similar damages sustained by numerous other parties in consequence of the flow of sewage in open ditches through their lands in said city,

Respectfully submitted, THOS. J. NEVILLE, Clerk. Referred to Sewer Committee to report at the next meeting.

To the Finance Committee of the Common Council:

To the Finance Committee of the Common Council:

The undersigned, at the request of the late Finance Committee duly empowered by the Common Council, has made a very careful examination of the Treasurer's annual report and of all the financial transactions of the office during the past year, and after the most searching investigation is prepared to say, unreservedly, that the report is correct in every particular.

Were details required to certify this statement they could readily be given, but they would only prove the correctness of the averment. I may briefly say, however, that every dollar of receipts has been traced from original to final entries, and the cash balance on hand was found as reported, whilst vouchers have been produced for every dollar of disbursements. Comparisons of accounts have been made with those of the city's financial agent, the Union Trust Company of New York, and with the several departments of the city government, such as the Executive Board, the Board of Education, Police Department, etc.

It is but simple justice to add to this report that the work of the treasurer's office, in all departments of its business, gives evidence of faithful performance of duty and an obliging regard for private, as well as a just regard for public, interests.

Finally. One excentionally intereresting fact to

public, interests.

Finally, one exceptionally intereresting fact to taxpayers may be here mentioned, viz.: The closetaxpayers may be here mentioned, viz.: The closeness with which the taxes have been collected for the past year. The tax levy, due and payable on and after July 1, 1886, was \$1,123,460.68. To this amount was added, under provisions of certain sections of the charter, unpaid assessments on ordinances, \$36,517.10, and \$28,894.54 for overdue water er. 15, also sundries amounting to \$2,520,42, making a total of \$1,191.392.74. At the date of this report only \$5,956.96 of this large sum remains unpaid, which is a consummation never equalled, in so short a period, in the history of the city, and it is very doubtful if any other city in the Union can make as good a showing. make as good a showing.

By Ald. Kohlmetz—Resolved, That the City Surveyor ascertain and report to this Council the expense of improving East Main street, from Goodman street to Bay street, thence eastwardly from Bay street to the Culver road.

Adopted.

The Surveyor submitted as such estimate \$50,300.
By Ald. Kohlmetz—Resolved, That the following improvement is necessary, viz.:

The construction of a Macadam roadway improvement on East Main street from the easterly curb line, as to be established by the City Surveyor on the easterly side of Goodman street, to Bay street, thence easterly on Bay street to the Culver road, by setting Medina stone curb lines on each side parallel to and fifteen (15) feet from the medial line of the aforesaid streets, within the terminal limits named, and with Medina flag-stone gutters one (1) foot wide, and Medina stone pavement of two (2) feet additional width, on each side within the said curb lines; also the necessary modifications of existing, and the construction of new manholes, lampholes, surface sewers, lot laterals and lot consections; and also the construction of all needed lampholes, surface sewers, lot laterals and lot connections; and also the construction of all needed culverts and Medina stone crosswalks, both parallel and transverse and the sidewalk grading between the curb lines hereinbefore specified and the street lines of the aforesaid streets as they may be hereafter established, such lines not now being positively defined.

And whereas, The City Surveyor, under the direction of this Council, has made an estimate of

the whole expense thereof, and reports the same at \$50,300, which estimate is hereby approved.

Resolved, further, That the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense thereof, viz.:

REPORTS OF SELECT COMMITTEES.

By Ald. Elliott-

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN—The Special Committee appointed on the East Side Sewer reports that Col. George E. Waring of Newport, R. I., was in the city on the 30th and 31st of this month, having stopped on invitation of the committee on his way from California to Newport, R. I. The committee had a conference with him concerning the question of the East Side Sewer and with one member of the committee and Mr. Kuichling of the Executive Board he went over the ground on Decoration Day. For \$5,000 and disbursements he will lay out the sewer and plans for the sewer, make out the specifications, make out the ordinances in such a manner that the Executive Board can let the contracts and supervise the work, the work.

Your committee believes that in a matter of this kind the best talent of the country should be secured to make the preliminary studies and investigations and lay out the plans and specifications. Col. Waring is the leading authority on sewers and sewer constructions in the United States, and he expressed his willingness personally and through the assistance of his partner to co-operate in this matter with the Executive Board of the city, to prepare such plans and lay out such sewer as would be for the best interest of the city, not only for the present but for the future of the city of Rochester. Rochester.

We therefore recommend that the Common Council employ Col. George E. Waring of Newport, R. I., at an expenses not exceeding \$5,000.00 as his fee and at an expense not exceeding \$2,500.00 for miscellaneous disbursements, to go over to the territory, locate the various routes and advise the city as to the best one, make plans and specifications, etc., for such sewer, report the same to this Common Council for its ratification and passage in form of ordinances and that he be instructed to commence his preliminary surveys and examinations at once.

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE.

From the Mayor-

MAYOR'S OFFICE. ROCHESTER, May 20, 1887.

Gentlemen of the Common Council:

Alderman Thayer's resolution, adopted at your last regular meeting, relating to the licensing of roller skating rinks, opera houses, halls, or other places of amusement, is hereby returned disapproved. The discrepancies in the rates named for a license for the various places of ammsement mentioned in the resolution would seem to call for your further consideration of the subject. The objectionable part of the resolution however reads as tionable part of the resolution, however, reads as follows:

tionante part of the resolution, newver, reads as follows:

"The clerk is hereby instructed and empowered, upon payment to the treasurer of the requisite amount, and the production to him of the treasurer's receipt therefor, by any reputable person, company, or corporation, to issue a license to him, them or it, in accordance with the above."

The resolution, by thus providing for the issue of licenses by the city clerk to reputable persons, etc., in effect delegates to that official the power which alone exists in the Common Council, to determine who are reputable and who are not, and, therefore, comes within the condemnation of a general rule of law which forbids a delegation to another of a power of discretion alone vested by law in a legislative or other body or official. We cannot be too careful in the matter of granting licenses for exhibitions and entertainments, and too great publicity, cannot be given to the names of those asking licity cannot be given to the names of those asking for licenses and those to whom licenses are

granted.

As before stated, the power to license is vested in the Common Council, and the same cannot be delegated in the manner proposed to another, and it is for this reason that I return the resolution disapproved.

CORNELIUS R. PARSONS, Mayor.

The President stated the question to be "Shall the resolutions stand, notwithstanding the objections of his Honor the Mayor?"
Lost by the following vote:

The cuts for a short distance on Goodman street before reaching Anderson avenue, and for a still shorter distance eastwardly on Anderson avenue at the highest point would be about two and one-third (2½) feet deeper than that at the highest point of the Goodman street sewer now in progress; but these increased cuts rapidly decrease in both directions, and it is believed the necessary trenching will be in favorable ground, and that the increased cost of carrying the extended sewer as herein recommended would not exceed, even if it equaled, the amount that the increased cost of carrying the extended sewer as herein recommendate. that would have to be paid for the casements, by a different route for a part of the distance through private lands as suggested by the Executive Board.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN: Your Special Committee, to which was referred the matter of condensing the proceedings, have conferred with the City Clerk and City Attorney and find that the only condensation that can be safely made therein so as not to involve ordinances in dispute, is to abridge, as much as possible, the regular minutes, to sum-marize the report of the Police Clerk and the miscellaneous invitations and other matter of which it is not essential for the transaction of the affairs of the city to have a complete record, in the official

minutes of the Common Council proceedings.

The changes by which the expense of advertising ordinances was directed to be added to the cost of the local improvement, thereby releiving the City Treasury from this special expense, have, in the opinion of the Assistant City Attorney given to the Special committee, met the exigencies of the case as much as it would be safe to do so.

COMMUNICATIONS FROM THE MAYOR AND OTHER OFFICERS AND THEIR REFERENCE. EXECUTIVE

From the Mayor-

MAYOR'S OFFICE, ROCHESTER, N. Y., June 8, 1887.

Gentlemen of the Common Council:

A number of years ago, the city of Rochester entered into a contract for a survey of what then constituted and still constitutes the first fourteen

wards of our city, and the making of a map or of maps of the same. After an expenditure of nearly or quite \$50,000, a large portion of which was entirely unnecessary, the project was abandoned in disgust. For some months, the idea of completing the said maps for the use of the assessors has been agitated, and in November last I was authorized to enter into a contract for their completion, but vetoed the resolution on the ground that the proposed contract was to be an oper one, with no indications as to when the work would be finished, or what the ultimate expense of the same would be. The veto was sustained. wards of our city, and the making of a map or of The veto was sustained.

In January last, the Common Council received In January last, the Common Council received proposals for the said survey and the completion of the said maps, the bids varying from \$13,500 to \$41,104; and the contract was awarded to Reuben J. Smith at the figures first above named. After deliberating several months, Mr. Smith has given up the idea of doing the work, and at your last regular meeting a resolution was adopted, awarding the contract to John C. Ryan, at the amount named by him in his bid, viz.: \$20,552.

named by him in his bid, viz.: \$20,552.

I have learned that a survey and maps of the territory embraced in the Fifteenth and Sixteenth wards are quite as essential as those proposed, and that the expense of the same will be fully as great. Therefore, an expenditure of at least \$40,000 will be necessary for a survey and maps of the entire city. It seems to me that, with the present condition of our finances, prudence would dictate that no portion of this work should at present be undertaken, and it has also occurred to me that a cheaper method than the one suggested should be devised for furnishing the assessors with an improved system of maps for their use. The course pursued in Buffalo is worthy of our consideration. In that city, when an owner subdivides a piece of land, he is required to file with the assessors a map of the same, and before a duplicate map can be filed with the cierk of Erie county, or a deed sors a map of the same, and before a duplicate map can be filed with the cierk of Erie county, or a deed recorded of any portion of his subdivision, he must furnish the latter official with a certificate from the assessors that he has complied with the law. A law also prescribes the duty of the clerk of the county aforesaid, in connection with this matter, a violation of which is punishable by a fine. When a portion of a lot is sold, and the deed is given to the assessors, reference is at once had to the map on file in their office, and the new owner's name is placed in pencil upon it, and when the same piece on file in their office, and the new owner's name is placed in pencil upon it, and when the same piece is again disposed of his name is erased and the new purchaser's name is inserted in lieu thereof. This system I am told has been followed in Buffalo for many years and consequently at any time by turning to the maps the assessors are able to determine the ownership of property and its size, for feet and inches, as the case may be, as well as the owner's name, are placed upon the map at the time of purchase. These maps have been accumulating for a long time, are perfect in almost every detail, and have cost that city practically nothing. "It is never to late too mend." Let us at once commence the adoption of such a system; let arrangements be made immediately for copies of the maps now on file in the office of the clerk of Monroe county, placing the same in book form, each ward

maps now on file in the office of the clerk of Monroe county, placing the same in book form, each ward by itself, for the use of the assessors and to be placed in their office. The necessary legislation requiring the filing of maps, and prescribing penalties for failure so to do, can be secured another, winter, and we shall soon have, at a triffling expense, all the maps that are needed, and which will, by the system proposed, constantly grow in value and usefulness.

fulness.

The resolution, therefore, adopted at your meeting held on the 31st day of May, 1887, authorizing the making of a contract for the completion of the unfinished maps of the first fourteen wards of the city of Rochester for the sum \$20,552, is hereby returned dispersersed. turned disapproved.

MAYOR'S OFFICE, ROCHESTER, June 8, 1887.

Gentlemen of the Common Council:

The resolution adopted at your last regular meeting, providing for the employment of Col. George E. Waring of Newport, R. I., in connection with the projected east side sewer, at an expense of \$7,500, for which sum he is or was to go over the territory on the east side of the city, locate the various routes for the proposed sewer, advise the city as to the best one, etc., is hereby returned disapproved.

I do not object to a reasonable expenditure of money preliminary to the great work which is being agitated, and the best route and the ultimate being agitated, and the best route and the ultimate expense of the proposed sewer should be ascertained at an early day, that the people interested may be able to look at the question in an intelligent manner and become thoroughly conversant with its every detail. It is too serious a matter, however, for any mistakes to be made at the outset, and it is not clear to my mind that the mistakes can be avoided by the employment of Col. Waring. It is for this reason, and for other reasons that might be suggested, that I disapprove of your action.

CORNELIUS R. PARSONS, Mayor.

MAYOR'S OFFICE, ROCHESTER, N. Y., June 13, 1887.

Gentlemen of the Common Council.

In my communication of June 8th, relative to the employment of Col. Waring, I stated that it was not clear to my mind that mistakes could be avoided by employing him, and it was for that reason, and for other reasons that might be suggested, that I disapprove of your action. At the time I wrote that communication the action of your board had been for several days before the public, and Col. Waring's mistakes in other communities, both in regard to the construction of sewers and on sanitary matters, were being freely discussed in public; and assuming that the same had already reached the ears of the members of your board, I concluded to return the resolution with as few words of comment as possible, leaving you to judge, under the circumstances, as to whether or not his employment was desirable. I am informed, however, that some of your number have taken exceptions to the phraseology of my communication, and I will, therefore, now endeavor to be more explicit:

therefore, now endeavor to be more explicit:
I have in my possession a letter from an eminent
citizen of Buffalo in which he states: "The trunk
sewer with an outlet into Niagara river, was designed by Col. George E. Waring, who also had the
general supervision." I am also credibly informed
that it is there generally conceded that the said
sewer does not answer the purpose for which it
was intended. The original estimate of cost was
7544.370 while the total expense has been more \$764,370, while the total expense has been more than \$1,000,000.

I am likewise creditably informed that at Memphis important changes in size and capacity of a sewage system were necessitated within three years after its construction by Colonel waring, and that Omaha and other cities have had a similar experience.

perience.

It has been suggested, that, before condemning Colonel Waring, he should have an opportunity to make answer to the charges which are brought against him. But your board should not lose sight of the fact that the Mayor has but five days to approve your proceedings, and must, necessarily, be governed by circumstances. I certainly do not wish to do Colonel Waring the slightest injury or injustice, but I propose to do my duty as I understance. injustice, but I propose to do my duty, as I understand it, and if Rochester should not hesitate, in view of the above suggested experiences of sistercities, I fail entirely to appreciate the circumstances.

A few words in regard to the "other reasons' suggested in my communication of the 8th inst.

am sorry if any member of the special committee having this matter in charge has felt that the in-definite character of my remarks has had a ten-dency to throw a cloud of suspicion over its trans-actions. Ido not believe that any but the purest of motives actuated the members of the committee or motives actuated the members of the communication making their recommendations. It seems to me, however, that the sum of \$7,500 is an exorbitant price to be paid for the service to be rendered, viz.: "To go over the territory upon the east side of the city, locate the various routes for the proposed sewer, advise the city as to the best one, make the plans and specifications, and an estimate of the expense.'

Another objectionable feature of the resolution Another objectionable feature of the resolution is the extraordinary power it confers upon the special committee—the right to make a contract with Colonel Waring, and not requiring the committee to report to your honorable board, that you too may judge of the character of the same, and approve or reject as the interests of the people may demand. This may have been an oversight, but it does not change the character of the resolution upon which I have to pass.

Again, I believe we have engineers in Rochester theroughly conable of undertaking, and carrying

thoroughly capable of undertaking and carrying to a successful issue, the work which it is proposed Colonel Waring should do.

I hope I have now made myself fully understood

in this matter.

Ald. Geo. W. Elliott, Chairman Special Committee of the Common Council on East Side Belt Sewer:

of the Common Council on East Side Bett Sever:

DEAR SIR—In reply to your communication of
the 5th inst., I would say that no person, however
competent, could undertake to do the work required by your committee to make it possible for
the actual construction of the proposed Belt sewer
to commence before the spring of 1888, even should
the man employed with able assistants devote a
large part of his time to the preparation of the preliminary plans and specifications, and the suggestions relating to the disposition of the large amount
of sewerage to be provided.

This last question probably will require the passage of an enabling act by the Legislature of the
State, as will also perhaps that of providing for the
hayment of the heavy outlay involved in this undertaking. Without being relieved in a large measure of the duties now devolving on me in the City
Surveyor's office, I could not, in justice to the city
as well as to myself, undertake the additional work
connected with the East Side Belt Sewer.

the cost of said work.

6. I will submit a thorough discussion of the various methods of sewage disposal and treatment which may here be available, as it appears probable that one or more of such methods may in the future have to be adopted; also estimates of the cost of such disposal or treatment, together with general plans for same.

7. In one year from the date of contract with me, or sooner if possible, I will submit a comprehensive request or the entire tracted accompanied with

8. I will perform all of the work contemplated in the foregoing proposition to the satisfaction of your committee for the sum of eleven thousand dollars, (\$11,000) to be paid in twelve equal monthly installments, and will enter into contract with good and sufficient bonds for the faithful performance of all of the civillations above arranges of ance of all of the stipulations above expressed.

desirable.

I also beg to remark that I have interpreted the scope of your request as broadly as above defined; and further, that this proposal is substantially the same as the one which I submitted to the predecessor of your committee last October. The only essential difference is that the present proposal is committed more representations. somewhat more specific in terms and contemplates the provision of all necessary office room, stationery, labor and incidental traveling expenses by myself instead of by your committee, in consequence of which I have correspondingly increased the sum formerly round. ROCHESTER, N. Y., June 9, 1887.

Geo. W. Elliott, Esq., Chairman Special Committee on East Side Sewer:

DEAR SIR-In compliance with your request I

respectfully submit the following proposition:

1. I will extend such a system of levels as will fully determine the topographical conditions of the territory which will be tributary to the proposed East Side sewer.

2. I will make all necessary instrumental surveys to determine the extent of territory which will become tributary to said trunk sewer, and necessary to indicate the route of main sewers now or here-after to be constructed, and which must be adjusted thereto, together with proof of efficiency of such lateral main sewers.

3. I will make such excavations and examinations

of the soil on the route of the proposed sewer as will determine the existing geological conditions on the proposed route and to the proposed depth of said sewer.

I will carefully study the various conditions involved and make such calculations as may be necessary to determine approximately the amount of surface water and sewage which will be discharged into said sewers at various points and various seasons, and then to adjust said sewer as to form, size, rate of inclination, strength and material of which it is to be constructed, to the varying conditions.

6. I will prepare and submit detailed working drawings and plans for the construction of said sewer.

7. I will also prepare and submit working specifications for said sewer.

8. I will make a study of the different available methods for the disposal of the sewage, such as by chemical precipitation, irrigation, &c., and submit the results in a detailed report.

9. I will submit a carefully considered detailed estimate of the cost of said sewer and adjuncts.

10. I will submit carefully considered suggestions as to the additional legislation which may be

needed in the successful carrying out of the project.

11. I will make a final report and submission of maps, plans, and specifications, in one year from

the date of the contract with me.

12. I will perform all the work embodied in the

foregoing proposal for the sum of twelve thousand dollars payable in twelve equal monthly payments, and if my proposal is accepted, I will enter into contract with good and sufficient bonds for the performance of the professional work indicated.

I have made my proposal thus in detail, not only for the purpose of thoroughly defining the service I propose to perform, but also as an answer to your request to me to "furnish such other information to the Committee as would be essential for a proper undertaking and completion of the work by the Executive Board."

This sum will include the payment of all assistants (to be selected by myself), the cost of stationery, use of instruments and all other expenses, which may be incurred in the course of the investigation, and preparation of plans, specifications, estimates and report, except rent of office and fittings of same and traveling expenses. It also includes my fee as consulting engineer to the committee from date of acceptance to April 1, 1888

This proposition does not include the furnishing of an office for the reason that I suppose the city can furnish a satisfactory office without expense to itself. Nor does it include traveling expenses, for the reason that I have no means of knowing what service in this direction the committee may re-

Further, I desire to say that it is proposed to make the plans and specifications in sufficient detail to admit of beginning the work, if so desired by the Council, immediately on their completion. It does Council, immediately on their completion. It does not contemplate, however, the preparation of such special detailed plans as can properly be prepared by the engineer in charge of construction during the progress of the work.

3. To make gaugings of the flow in the main sewers to be intercepted for a period of several months, in order to determine the amount of sewage to be disposed of in both dry and wet weather, and its relation to drainage area and various degrees of rainfall.

4. To make such boxings and test pits along the line of proposed intercepting sewer and existing sewers requiring change, as may be necessary to determine accurate estimates of costs.

5. To make a study of methods of disposal and matters in connection therewith, applying to the case in hand, including the preparation of plans, showing clearly the method adopted.

My proposition includes in effect the giving of my undivided attention to this matter from the date of acceptance to April 1, 1888, and the doing of any work in the way of survey, preparation of plans, or investigation of methods or appliances, which may be necessary for the determination of the whole question.

The above proposition is made conditional on the committee furnishing me full and free access to all maps, plans, records and tabulated statements relating to the topography and sewerage of the east side of the river, which have been previously prepared, and which are now the property of the

Gentlemen of the Common Council:

Gentlemen of the Common Council:

The resolution adopted at your meeting held on the 3d day of June instant awarding the contracts to the Brush Electric Light Company, the Rochester Electric Light Company and the Edison Electric Illuminating Company, is hereby returned disapproved. I do not, however, desire to be understood as in any manner opposed to the general purpose which the resolution was obviously intended to carry into effect. Each of the companies named is composed almost, if not quite exclusively of our own citizens, and each of them has invested here a large amount of capital which has gone to benefit the city at large and increase its business facilities and enterprises, and it is but just that each of them should be fairly recognized in the contract of the city's illumination. Especially is this the case when, as in this instance, the contract offered supplies to the city its light at a lower rate than that of any other city in the country, if not in the would and of the its light at a lower rate than that of any other city in the country, if not in the world, and at the same time when carried into effect will make ours, same time when carried into effect will make ours, I think, the best lighted city on this continent. But it seems to me that there is a decidedly objectionable feature in the suggestion submitted at that meeting in connection with the awarding of the above contracts, and that is the one reading "to permit the representatives of the city or the Lamp Committee to direct the placing of any and all lamps, and the changing of the location thereof as may be deemed essential for the public interests."

The number of lights to be contracted for under the resolution is 980, and the power and responsibility thus conferred or delegated is greater than it should be and is not contemplated by any provision

should be and is not contemplated by any provision

of the charter.

The contracts are to run for a period of five years, and great injustice might be done if, during this period, one committee of the Common Council should possess the power which such a provision as the one to which I have alluded should now be conferred.

It seems to me that your honorable body should itself prescribe the manner of location of said lamps, and that after such location is once fixed,

no change should be made therein except by your

resolution or direct authorization.

It is but justice to the present lamp committee for me to say that the resolution adopted was, as I am informed, hastily prepared; the authority conferred upon it was not sought by any of its members, and some of them have to me suggested that that particular clause should not be inserted in the contract; but as matters now stand, there is no authority for leaving it out, and it only remains for me to thus interpose my objections, and return the resolution for your further consideration.

CORNELIUS R. PARSONS, Mayor.

The President stated the question to be "Shall the resolution stand, notwithstanding the objections of His Honor, the Mayor."

Gentlemen of the Common Council:

At the adjourned regular meeting of your Board, which was held on the 3d day of June, a resolution was adopted ratifying and confirming the action of the Board of Education, which directed the purchase of a school site at the corner of University avenue and Culver park. Since your said resolution was adopted, I have refused to sanction said action of the Board of Education for reasons which I have given to said Board.

The same reasons which I so gave, preclude my approving your said resolution, and I, therefore, return it without my approval.

GENTLEMEN: The following preamble and resolution of the Board of Police Commissioners of the

of the Board of Police Commissioners of the city of Rochester was this 14th day of June, 1887, duly adopted by a majority vote:

Whereas, The Board of Police Commissioners was authorized to appoint three policemen on the permanent force of policemen, by resolution of the Common Council, October 6, 1886, and in pursuance thereof duly elected one, to wit, Charles Dingman, on the 6th day of November, 1886; and
Whereas, By repeated ballotings for the second of said appointees, so authorized, it has been demonstrated that this Board is unable to agree upon the appointment of such policeman from the names presented for action by the Civil Service Commission, November 6, 1886, to wit, Robert Swanton, Charles F. Schroeder and Hawley Richards, and said Civil Service Commission, under the law, cannot certify other names until choice shall be made therefrom, and upon request of this Board has refused so to do. has refused so to do.

has refused so to do.

Now, therefore, Resolved, That it be referred to the Common Council of the city of Rochester, pursuant to the law in such case made and provided, empowering said Common Council to appoint pending the disagreement of this board of police commissioners, to appoint said second policeman of the three additional members of the police force authorized under the resolution of October 6, 1886, and that the clerk of this board certify this resolution and preamble to the Common Council for its consideration and action. Council for its consideration and action.

I certify the above to be a correct copy of pre-amble and resolution adopted by the police board, this 14th day of June, 1887.

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE.

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, June 28, 1887.

To the Hon. the Common Council:

GENTLEMEN: The Executive Board beg leave to GENTLEMEN: The Executive Board beg leave to respectfully report that Greenleaf avenue has been properly graded and monumented, and it is now ready for acceptance as a public thoroughfare, as its projectors contemplate it should be made.

Respectfully,

THOS. J. NEVILLE, Clerk.

Ordered received, filed and published.

By Ald. Thayer—Resolved, That in accordance with the communication of the Executive Board that Greenleaf avenue be accepted by the city as a public thoroughfare and that the clerk enter the same into the street register and the Executive Board be requested to place the usual street signs. Adopted.

A communication was read from the Executive Board in relation to the dedication of Berlin street, which could not be accepted until the street was

which could not be accepted until the street was fully opened. Ordered received and filed.

From the Treasurer—
GENTLEMEN—July 1, 1885, the city issued local improvement funding loan bonds to the amount of \$300,000, the proceeds of which were used to pay notes and acceptances issued by the city, and advances made by the city, for, and on account of local assessments, rolls which were at that time in the hands of the treasurer, but not then collected. Said bonds were to run five years from the date of issue, but the city reserved to itself the right to redeem the whole or any part of said bonds at any time after two years from the date of said right to redeem the whole or any part of said beings at any time after two years from the date of said issue. Under that reservation we can avail ourselves, after July 1st next, of the privilege therein provided for, and as the amount advanced by the provided for, and as the amount advanced by the city for local improvemeuts, and not yet collected, has been reduced so that to-day it stands upon our books at \$166,-454.98. I would recommend that you adopt a resolution directing the treasurer to notify the Seamen's Bank for Savings in New York city that upon the 1st day of August, 1887, the city will pay bonds held by them numbered 31 to 60 inclusive, to the amount of \$150,000, and that on that day interest will cease thereon. will cease thereon.

I am greatly pleased to say that I have perfected arrangements with the Dime Savings Bank of Brooklyn—the holders of the balance of said issue of bonds—whereby upon the city agreeing that the

bonds held by them shallbe continued at least until the 1st of January, 1889, they will on their part agree that after July 1st next interest will be accepted at the rate of 3 per cent, instead of 4 per cent, per annum. As this will result in a saving to the city of \$1.500 per annum for interest, I would also recommend that you adopt a resolution authorizing and directing the treasurer to enter into such an agreement with the said Dime Savings Bank.

Respectfully submitted,
JOHN A. DAVIS, Treasurer.

Ordered received, filed and published.

By Ald. Thayer—

Resolved, That the treasurer be and he is hereby authorized and directed to notify the Seamen's Bank for Savings that on the 1st day of August, 1887, the city will pay with interest, at the office of the Union Trust Company in New York, Local Improvement Funding Loan Bonds numbered 31 to 60 inclusive, and that on that day all interest will cease thereon. Adopted.

By Ald. Thayer—

Resolved, That the treasurer be and he is hereby authorized and directed to continue bonds Nos. 61 to 90 inclusive, Local Improvement Funding Loan, held by the Dime Savings Bank of Brooklyn, from July 1, 1887, to January 1, 1889, at the rate of 3 per cent. per annum, and that he be and is further authorized to write or stamp upon the face of said bonds as follows: "This bond is hereby continued to Jan. 1, 1889, at the rate of 3 per cent. per annum, at the request of the holder and by authority of a resolution of the Common Council adopted June 28, 1887. Adopted.

OFFICE OF THE EXECUTIVE BOARD. ROCHESTER, July 12, 1887.

To the Common Council:

Gentlemen—The Executive Board beg leave to respectfully report to your honorable body the following facts and circumstances concerning the matter of the application of Fred Minges and Cass Williams for the overing or enclosing of a section of the own ditch known as Listan Park extlet of the open ditch known as Upton Park outlet sewer:

sewer:
The tract of land in question was formerly the property of Bernard Klem, and is traversed in a northerly direction partly by a covered stone sewer and partly by an open ditch, in continuation of said sewer, through which flows the surface and house drainage from the entire Upton park district. The covered stone sewer begins at the south line of Schondr around and of the reinter both 111c of covered stone sewer begins at the south line of Schanck avenue and ends at a point about, 114 feet north of the north line of said avenue, while the open ditch extends from the northerly terminus of said covered sewer to the south line of Hayward avenue, a distance of about 182 feet, across Hayward avenue, the former open ditch has been replaced by a 15-inch pipe sewer or culvert; and the petitioners ask that said line of pipe, or some other suitable closed conduit, be extended southerly upon the bottom of the present open ditch to the northern terminus of the stone sewer above mentioned, in order that the nuisance caused by the open ditch may be abated, the ditch itself filled up and the land used for the erection of dwellings, a number of which have already been built. It is up and the land used for the erection of dwellings, a number of which have already been built. It is the intention of the present owners to immediately prepare the low-lying portions of the tract adjacent to the open ditch for occupation by filling up the same with material excavated from the higher places; and hence prompt action in the premises is desirable. It is alleged by the said owners that the city has acquired no right or privilege from any former owner of the land to discharge the sewage into the ditch mentioned; and, as a fact, no record of any such right or easement has been discovered, even after a careful search among the public documents. The petitioners, however, make no direct claim for compensation for past and future use of said ditch; but on the other hand they have stated that if the city will put in place the said line of 15inch pipe, or some other suitable closed conduit, they will, without further consideration, formally

they will, without further consideration, formally release the city from the payment of all past and future damages sustained by them by reason of the discharge of sewage through said open ditch and such pipe or conduit.

The cost of furnishing the materials and performing the work mentioned in a manner satisfactory to the said parties will probably not exceed \$160.00, and a conduit made of plank will doubtless answer the purpose until the contemplated southerly extension of the Goodman street outlet sewer, to the intersection of Anderson avenue and Beacon

erly extension of the Goodman street outlet sewer, to the intersection of Anderson avenue and Beacon street, shall have intercepted all of the drainage from the Upton Park district, whereupon the old channel will become useless.

In view of these circumstances, it seems expedient for the city to perform the work above indicated in order to avoid possible litigation, which may arise from the inability of the petitioners to properly make use of their lands by reason of the existence and maintenance of the said open ditch.

As the Executive Board, however, has no funds from which to pay for the cost of such new work.

from which to pay for the cost of such new work, it is therefore recommended that the matter be brought to your notice for suitable action,

Respectfully, THOS. J. NEVILLE, Clerk

By Ald. Thayer—Resolved, That the Executive Board be and it hereby is requested to cause a suitable pipe or conduit to be laid upon the bottom of the open ditch now conveying the discharge of the Upton park outlet sewer through the lands of Frederick S. Minges and Cass. Williams, located on the south side of Hayward avenue, and extending to Schanck avenue, and that the City Treasurer pay for the cost of said work, upon the certificate of said Reard a sum not to exceed one hundred pay for the cost of said work, upon the certificate of said Board, a sum not to exceed one hundred and sixty dollars, from the contingent expense fund of this Common Council; said sum to be charged by said Treasurer to the Upton park outlet sewer fund, when created, provided, however, that before such work shall be commenced, and in consideration thereof, the said Frederick S. Minges and Cass. Williams execute a formal release, to be approved of by the City Attorney, to the city, for any and all claims for damages which said parties may have heretofore sustained, or may hereafter sustain, by reason of the flow of sewage through said lands, and in and through said ditch and conduit. duit

REPORT OF THE WOODEN BUILDING COMMITTEE. ROCHESTER, June 22, 1887.

To the Hon. the Common Council of the city of Rochester :

Rochester:

By invitation of the Health Officer of the city we visited the premises, No. 318 N. St. Paul street, Poison Row, which has been recently declared a public nuisance by the Board of Health. The premises were in a horrid condition, full of filth. The odor from the cellar was terrible. The floors, walls, doors, windows and all the interior of the row was unclean and liable to breed disease and pestilence with the full advent of warm weather. The cellar was a perfect trap of stench. The woodwork, stairs, sills, etc., were rickety and rotten, and unsafe to life, unfiit for human civilized beings to live in, aud we fully agree with the Board of Health that in order to abate the nuisance the building should be torn down, the woodwork destroyed, the cellar cleaned out and filled with clean earth, the tumble down privies destroyed and vaults filled up with earth and the lot put in a healthy and clean condition.

REPORTS OF SELECT COMMITTEES.

By the Clerk-

To the Honorable, the Common Council of the City of Rochester:

GENTLEMEN: Your committee, to whom was referred the matter of deciding upon the various propositious submitted to your honorable body by Messrs. Waring, Kuichling, Tubbs, Rafter, Quinby and Peacock for the construction of a belt sewer, would respectfully report, that they have met and given to the matter such consideration as they were given to the matter such consideration as they were able, but the propositions submitted by the various engineers are not all alike definite as to what their proposers intend to do, and your committee desires, before reporting, to personally inquire of the various proposers what their propositions may be held to specifically cover. This they have not had time to do, and ask for further time to do the same, and will use their best endeavors to report at your next meeting. next meeting.

MAYOR'S OFFICE, ROCHESTER, N. Y., July 7, 1887.

Gentlemen of the Common Council:

I return, without approval, the resolution adopted at your last regular meeting relative to the printing and binding of a new edition of three hundred copies of the charter.

dred copies of the charter.

I do not object to the expense to be incurred, but I do object to that portion of the resolution relating to the awarding of the contract. It delegates to the Finance Committee and to the city clerk authority which, I belive, alone rests in the Common Council. My suggestion is that the Finance Committee or clerk be directed to advertise for bids, report the same to the Common Council,

and that the Common Council award the contract, instead of permitting the same to be done by the clerk or the committee, as provided by the resolution. Cornelius R. Parsons, Mayor.

The president of the board stated the question to be: "Shall the resolution stand, notwithstanding the objections of His Honor, the Mayor?" The resolution was adopted by the following

MAYOR'S OFFICE, ROCHESTER, N. Y., July 7, 1887.

Gentlemen of the Common Council:

Final ordinance No. 3,249 is hereby returned disapproved. It provides for the improvement of that portion of East Main street—formerly the Webster plank road—lying between Goodman and Bay sts. The estimated expense of said improvement is \$32,— The estimated expense of said improvement is \$32,-900. There are several reasons at present existing, which, to my mind, should delay further progress in the matter. It is argued by those who desire the improvement (especially by those not residing within the territory assessed therefor) that the property on either side will be greatly benefited and enhanced thereby. I venture to say, however, that there would be no sale for the said property until provision had been made to supply the same with water, and no such provision has thus far been made—except as to a very short distance. No provision has been made for the extension of gas mains. It would be wrong to submit the people on mains. It would be wrong to submit the people on the line of that street to such an enormous expense, leaving things undone which sooner or later might necessitate the tearing up of the same. No provision is made in the ordinance for the construction of sidewalks, and there is probably no street in the city where the same would be more desirable. Moreover on both sides of the street there is at present existing, and has for a long time existed, an open ditch or sewer The one on the southerly side is particularly obnoxious and objectionable. There can be no sidewalks constructed —and it is generally conceded that the conceded in the sense of the roadway—until these ditches or sewers are abandoned and filled up. The -and it is generally conceded that there should be ditches or sewers are abandoned and filled up. The City. Surveyor informs me that this cannot be done until other projected sewers are completed, and that the construction of said sewers cannot be undertaken sooner than September 1st, if even then. Gen. Quinby further says, speaking of the street improvement, that the contractor cannot possibly break ground for the work before the spring of 1888. It seems to me that, under all these circumstances, the final ordinance should not be allowed to stand—should not be in a condition that the stances, the final ordinance should not be allowed to stand—should not be in a condition that the work could at any time be let and commenced when it might be to the disadvantage of those who have to pay the bills. It will be time enough to pass the ordinance in question and permit the letting of the contract proposed, when the city is ready to make the other improvements I have referred to which should as matters of economy and ferred to which should, as matters of economy and propriety, precede or be simultaneous with the work by this ordinance contemplated. CITY SURVEYOR'S OFFICE, ROCHESTER, N. Y., July 12, 1887.

To the Honorable the Common Council of the City of Rochester :

Gentlemen-I regret to inform you that several pieces of work of public improvement provided for under final ordinances passed by your honorable body have not been let in consequence of the esti-mates made in this office being below the bids of the contractors. As a matter of fact the estimates were higher than those for similar works two years since, but the cost of material of almost all of the different kinds has largely increased in value and the labor question has very properly made the con-tractors cautious in making bids on work involving a large outlay, and where the elements of uncertainty, particularly in sewers, are so numerous. It is unfortunate that from these causes and others that might be mentioned, several important pieces of work will have to be delayed until new or amended ordinances and estimates have been prepared and new bids be invited.

I would therefore recommend that the estimates Twould therefore recommend that the estimates for the Scio street improvement, under final ordinance No. 3,222, be increased from \$18,500 to \$24,000, and that Central park sewers, under final ordinance No. 3,229, be increased from \$10,000 to \$14,500. Your ob't servant,

DEAR SIR-In taking land for the opening of a DEAR SIR—In taking land for the opening of a new street from Campbell to Jay, the city took and paid for the same, from the heirs of Barbara Lintz one lot fronting on Campbell street (41½) forty-one and one-half feet. The ordinance called for a street forty feet in width, leaving a strip of land one and one-half (1½) foot in width on the new street and adjoining the property of Mary A. Schwartz. In making the assessment for the im-proving of this street we supposed the city had re-linguished their right to the one and one half feet linquished their right to the one and one-half foot and consequently assessed the said Mary A. Schwartz as fronting on the new street. The tax is \$105.40, which she is willing to pay if the city will give her a deed for the one and one-half foot, and not otherwise, as her land does not front on the street. Together with all necessary connections, switches, slidings, turnouts, turn-tables and suitable stands for the convenient working of the railroad. And be it further resolved, that the conditions, restrictions, limitations and provisions under which this consent is granted, are as

First-The right, franchise and privilege of using the said streets, highways and avenues, for the purposes aforesaid, shall be sold at public auction to the bidder who will agree to give the largest percentage per annum of the gross receipts of said company or corporation with adequate security, as hereinafter provided, for the fulfillment of said agreement, and for the commencement and completion of such road ac-cording to the plan or plans hereinafter set forth, and on the said route herein fixed for its construction, within the time hereinafter desig-

nated and prescribed therefor.
Second—The bidder to which such consent shall be sold shall be an incorporated railroad or railway company, organized to construct, maintain and operate a street railroad in the city of Rochester and state of New York.

Third-The railroad upon said route may be operated by cable motor power, by electricity upon plans hereafter to be approved by the Common Council, by animal or horse power or by any other power other than locomotive steam power, which may be consented to by the common council of the city of Rochester and by a majority of the property owners, obtained in accordance with chapter 252 of the laws of 1884, and chapter 642 of the 252 of the laws of 1884, and chapter 642 of the laws of 1886.

Fourth-That in the construction of the said railroad and its equipment, the materials and work employed shall be of the best quality and character; and the said railroad shall be constructed with the flat grooved girder rail, having the upper surface flush with the pavement. The width of the opening or groove to be not more than three-fourths of an inch; and that the cars thereon, throughout the entire route, shall be run as frequently as the convenience of the public may require, and that no freight cars shall be run upon the route, or any part thereof, in-cluded in the said consent, except during such hours of the night as may be permitted by ordinance hereafter passed by the common council; and the plan of construction, quality and pattern of material, number and location of sidings, switches, turn-outs and turn-tables shall be subject to the approval of the executive board of said city.

Fifth-The bidder to which the aforesaid sale shall be made, and any corporation using the tracks constructed or laid under or in pursuance of this consent, shall comply with the ordinance passed by the common council of the city of Rochester on March 29, 1887, regulating the street railroads, and any amendments thereof except as to the power usel in the propulsion of the cars as otherwise provided for herein, and all such reasonable ordinances or regulations which the local authorities having charge of the aforesaid streets, avenues and highways, or any of them, shall make as to the rate of speed, mode of use of tracks and removal of ice and snow.

Sixth—That the bidder to which the aforesaid sale shall be made, its successors and assigns, shall not charge any passengers more than five cents for any one continuous ride from any point on its road, or any road or line or branch operated by it or under its control, to any other point thereon, or on any connecting branch thereof within the limits of the city of Rochester; but shall make and enforce such rules and regulations as shall secure to each passenger upon such route or routes one continuous ride between any two points on such route or routes, for the single fare of five cents.

Seventh—That the said bidder as to the whole route hereinabove described, and any company or corporation using or operating a road upon the tracks, or any part of the tracks, constructed upon said route under and by virtue of the consent hereby given, or the sale had in pursuance thereof, as to the tracks so used by any such company or corporation, shall be and is hereby required and unqualifiedly bound (1) In all such streets, avenues and highways as may be permanently improved at the time when the work of construction is commenced, to repair and keep in permanent repair, the portion of said streets, avenues and highways upon which the tracks shall be constructed, between the tracks, the rails of the tracks, and a space two width outside of and adjoining the outside rails of the track or tracks, so long as such tracks so constructed shall continue to be used. (2) On all unimproved streets, avenues and highways along said route to macadamize and keep in permanent repair the portion of said unimproved streets, avenues and highways upon which the tracks shall be so constructed, between the tracks, the rails of the tracks, and a space two feet in width outside of and adjoining the outside rails of the tracks, so long as such tracks so constructed shall continue to be used. (3) Whenever any street, avenue or highway along said route shall be improved under an ordinance of the common council, said bidder shall pay the expense of making any such improvement between its tracks, the rails of its tracks, and a space two feet in width outside of and adjoining the outside rails of its track or tracks, and keep the same in permanent repair, so long as such tracks so constructed shall continue to be used. And this obligation in respect to the construction, improvement and repair of the roadways aforesald shall not be dependent upon the requirements of the local authorities, but are hereby made absolute and unqualified obligations, and shall apply to and be operative upon the successor or approximate and topping the successor of the successor upon the successor or successors, assign or assigns, of said bidder, and all companies or corporations which shall at any time use the said track or tracks, or any portion of the same. Eighth—That the said bidder shall commence

Eighth—That the said bidder shall commence the construction of the railroad aforesaid within one month from the time of the sale of the franchise herein provided for, and shall complete such l. ne throughout its entire length, and have the same ready for operation on or prior to the first day of July, 1888, except that, for good cause shown, the time for the completion of such railroad may be extended by the common cour-

cil of the city of Rochester.

Ninth—That consent is hereby given that the said bidder may construct and operate a double track railroad throughout said entire route of the form of construction and manner of operation with cable motor power as follows: The plant consists of a stationary source or sources of power, engines, boilers and machines, which

may be located at either end of the said line, or at any intermediate station or stations upon land to be acquired by said bidder for that purpose. for the propelling power of the cable along the line of the streets, avenues and lighways. The conduits used in the construction of such cable railway shall be of seel; the yokes shall be of a steel "T" rail, bent into the form apbe of a steel "I rail, bent into the form approximating that of a horseshoe, with wings running off on each side at or nearly at right angles into and under the rail on either side of the conduit. The conduit shall be braced by two rods or brace-bars running at a right angle from the outer wheels on the lower circle of the horseshoe form, and nearly on to the end of the horizontal wings, to which they shall be connected by bolts passing through the web of the rail which makes the yoke. The rail used upon the street surfa e shall be of the form known as the street surface rail, and be laid even with the surface of the street, so that vehicles are not obstructed in the passage across the roadway at any angle. The groove in the center of the rail shall not be more than three-fourths of an inch wide, nor more than three-fourths of an inch deep. This groove is for the purpose of the flange of the wheel under the car treading in the groove. The slot rail shall be of the "Z" form, and the space between the two parallel rails shall not exceed three-fourths of an inch, and each slot rail shall be held in its normal condition by brace-rods or bars with double nuts, one on each side of the "Z" or slot rail, for the purpose of adjusting and holding the rail in its normal condition. The brace-rods shall run into and through the chair which the track rail is set and keyed. yokes shall not exceed in distance, one from the other, more than five and a half inches, and shall be continuous from end to end of the road, placed at not more than the above distance. every thirty feet there shall be placed in the lower arc of the yoke or conduit a perpendicular bar of not more than twelve inches, and not less than nine inches in diameter for the purpose of carrying the cable in its passage through the conduit. The intervening spaces between the yokes of the conduits shall be built up of conyours of the conduits shall be not be crete of the proper mixtures to guarantee permanency in construction, and shall be not less than six inches thick from the inner wall of the conduit-yoke, and shall extend outward under the entire structure and six inches beyond, for the purpose of receiving the entire structure and holding it permanently in its position.

Tenth—That the payment of the percentages uponlgross receipts payable under the bid, at such sale, shall be made annually on the 1st day of November, for the year, or part of the year, ending on the next preceding 30th day of September.

Eleventh—That the bidder at the sale aforesaid shall pay the expense of publication of the notice of sale herein provided for and all publication of notices, resolutions, applications and proceedings connected with the consent of the local authorities of the city of Rochester to the sale of said franchise, which expense shall at the time and place of the sale, be paid by the said bidder to the treasurer of the city of Rochester, and which sum so paid for said expenses, shall be in addition to any payments which said bidber shall be required to make under and in pursuance of chapter 2.2 of the laws of 1884, and chapter 642 of the laws of 1884, and

Twelfth—That this consent is given, and the said sale shall be made, upon the express understanding that the conditions herein stated do not relieve said bidder, or any company or corporation, operating the road upon any of the tracks constructed under this consent, from any conditions, obligations, liabilities, payments or duties, to which they might have been liable in the absence of such conditions.

Thirteen—That the said bidder, and any company or corporation, which shall construct, maintain, use or operate said road, or any part thereof, shall at all times comply with and observe such regulations and rules as the executive board of said city may make or give, from time to time, with reference to the crossing of or interference with sewers, water-mains or pipes, electric wires, cables, pipes or conduits, gasmains or pipes, and other structures or appliances in any of the said streets, avenues and highways, and shall also comply with and observe such rules and directions as may, from time to time, be given or made by said executive board, with reference to the construction and maintenance of said road, and every part thereof.

Fourteenth—The consent herein provided for shall be, and hereby is, deemed consent to cross any and all streets, avenues and highways intersecting or crossing said route and any bridge or bridges in the line of said route, so far as the municipal authorities of the city of Rochester have power to give such consent.

Fifteenth—That the highest bidder must at the sale and forthwith, deposit with the city treasurer the sum of \$5,000, either by certified check payable to said treasurer's order and drawn upon some bank in the state of New York, or in cash, as security for the completion of the bid according to the terms and conditions upon which the sale is made; and if the bid be so completed, then the sum so deposited shall be refunded to the bid der; but if the bid be not so completed, then the said sum shall be retained and paid into the treasury of the city of Rochester, as and for full payment of the damages suffered by said city by the non-completion of said bid. If the said check is not delivered, or the money paid, as aforesaid, the right, franchise and privilege will be again put up at public auction for sale, either forthwith, or at such time as the sale thereof may be duly adjurned to by the said treasurer; and any and all re-sales shall be made upon the terms, conditions, restrictions and limitations herein prescribed.

Sixteenth—That the said bidder, and any company or corporation which may at any ime own, control or operate the said road, or any part thereof, shall have and provide a driver or gripman and a conductor upon each car at all times, which conductor shall have charge of such car. Provided that when two or more cars are connected and run as a train but one gripman and one conductor shall be required,

Seventeenth—That the said bidder shall, within ten days after the sale at public auction, execute under its corporate seal, to be attested by its president, treasurer, or secretary, and by virtue of a resolution of its board of directors, an instrument in writing, duly acknowledged, which shall be delivered to the city treasurer, and which shall contain and express the acceptance by the said bidder of this consent of the common council for the construction, maintenance, use and operation of the proposed railroad upon the streets, avenues and highways above mentioned, upon the terms and conditions upon which this consent is granted, and binding said company to abide by, comply with, faithfully perform and keep said terms and conditions, and each of them. And at the time of the delivery of said instrument, said bidder shall deliver to said treasurer, a bond and an undertaking in writing, duly acknowledged, and under seal, in such form, condition, amount, and sureties as shall be required and approved by the said treasurer, which bond, in addition to such conditions as shall be required and approved by said treasurer, which bond, in addition to such conditions as shall be required and approved by said treasurer, which bond, in addition to such conditions as shall be required and approved by said treasurer, which bond, in addition to such conditions of said road, as above provided for, the sum of twenty-five

thousand dollars, and for the non-completion of the said road, as above provided for, the further sum of twenty-five thousand dollars, which said sums shall in said bond be fixed and agreed upon as the liquidated damages to be recovered by the city upon the said bond.

Eighteenth—That the sale at public auction of the right, franchise and privilege mentioned above shall be attended and conducted by the treasurer of the city of Rochester, and shall be held at a public place in said city, to be designated by the said treasurer, and on the earliest practicable day, to be designated by him, or at such time to which the same may be adjourned from the day specified in the notice so published, not exceeding twice and for a period not exceeding four weeks in the aggregate, and only after notice of the time, place and terms shall have been published by the said treasurer three times a week for at least three weeks in two daily newspapers in said city, to be designated by the mayor of said city.

Ninteenth—It is further resolved, that the acceptance aforesaid shall also contain the express provision that the company or corporation which shall be the highest bidder at such sale, its successors or assigns, shall not sell or lease the franchise so to be sold to it, or the said railroad on said route, or any part thereof, to any other company, person, or corporation, or effect any consolidation with any other street railroad corporation, without the consent of the common council of the city of Rochester being first obtained.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN-Your Law Committee would respectfully report that, for the reasons stated in the annexed communications of Police Commissioners James D. Casey and Joseph W. Rosenthal, it is of the opinion that Officers Kron and Bletzer acted under orders of their superior officer, and should be indemnified by the payment by the city of the De indemnined by the payment by the city of the judgments obtained against them by Elmer Murphy; one in the County Court for \$135.12, damages and costs, recovered and docketed, May 15, 1886, and the other in the Supreme Court for costs of appeal to the General Term of \$96.99, recovered and docketed on April 20, 1887, with interest on those sums from their respective dates, and that the following resolution be adopted.

All of which is respectfully supposited.

All of which is respectfully submitted.

By Ald. Kohlmetz

To the Honorable the Common Council of the City of Rochester

GENTLEMEN — Your attention is respectfully called to the status of the following cases:
The case of Eliza B. Wing vs. the City, in which an appeal was taken to the General Term, pursuant to your direction, has been decided adversely to the city by the last General Term, Mr. Justice Smith writing the opinion, and an order and judgment of affirmance, with costs therein, has been entered, upon which several judgments executions have been issued and delivered to the sheriff, and it becomes important that a further appeal in the action be taken to the Court of Appeals immediately. The learned judge admits in his opinion that a number of objections taken to the admission of evidence by me were rightly taken, but endeavors to show that no harm resulted to the defendant thereby. In this last opinion I am of the oplnion that the Conrt of Appeals will differ, and, for that reason, order a new trial.

The case of Kincaid A. Hughson and others, as members of the Board of Health of the town of Brighton against the city, in which case a new trial was ordered by the Court of Appeals, was re-tried in June last, and resulted in a verdict for the plaintiffs, and upon that verdict an order of injuncplaintiffs, and upon that verdict an order of injunction similar to that in the Miller case has been granted. The costs have also been taxed, and final indgment has been, or will immediately be, entered by the plaintiffs' attorney. In this last case I am of the opinion that no right of action exists in fat vor of the plaintiffs, for the reason that the acunder which they claim to recover has been repealed. I am, therefore, of the opinion that I should be directed to take appeals in the two above reentioned actions as the interests of the city will mentioned actions, as the interests of the city will be subserved by my doing so, and if the clerk overbe subserved by my doing so, and if the clerk overrules my objections to a number of the items of
costs and disbursements in the last and the Miller
and ano. vs. The City actions, I should also be instructed to take such steps, by way of a motion or
appeal, as may be necessary to have the action of
the clerk reviewed by the courts.

In the case of The People ex. rel. Maggie Cartmill and others vs. The City of Rochester, commonly known as the "Salvationists case," in which a
judgment was recovered by the city before the
Hon. B. Keeler, Police Justice, and which was removed by certificari proceedings into the Supreme

moved by certiorari proceedings into the Supreme Court, and argued and reargued before the General Term, judgment has been entered, upon the decision of the General Term reversing the judgment of the Police Justice, in the Monroe County Clerk's office on May 10, 1887, for seventy-four dollars and four cents costs. The judgment also bears interest from that date and most beautiful or further than the date and most beautiful or further than the date and most beautiful or further than the control of the cont from that date, and must be paid, as no further appeal can be taken therein by the city, and I am of the opinion that no benefit would be derived by the city by taking a further appeal, if one were al-

lowed.

I, therefore, respectfully request the adoption by your honorable body of the following resolutions.

IVAN POWERS, City Attorney.

Rochester, July 26, 1887.

By Ald. Kohlmetz—Resolved, That the city attorney be, and he hereby is, directed to appeal the case of Eliza B. Wing against The City of Rochesters of the control ter to the Court of Appeals, and the case of Kincaid A. Hughson and others, as the Board of Health of the town of Brighton against The City of Rochester, to the General Term of the Supreme Court, and also take such further steps by way of motion or appeal to review the action of the county clerk upon the judgments for costs in the last, and the Miller and ano. vs. The City actions, if he deems it for the best interests of the city so to do. Adopted.

Ald. Kohlmetz-Resolved, That the certificate of the city attorney that a proper satisfaction piece of the judgment in the case of The People ex rel. Maggie Cartmill and others against The City of Rochester, has been executed, the clerk be, and he hereby is, directed to draw an order in favor of W. Henry Davis, attorney for said relators, for the amount of said judgment, namely, seventy-four dollars and four cents (874.04) and interest thereon from May 10 1887 to be paid from the centificate. from May 10, 1887, to be paid from the contingent fund.

Adopted by the following vote:
Ayes—Ald. Tracy, Sullivan, Marson, Fee, Kohlmetz, Fritzsche, Elliott, Foley, Selye, Hall, Swikehard, Stein, Bohrer, Kelly—14.
By the Clerk—

OFFICE OF THE CITY TREASURER, ROCHESTER, N. Y., July 18, 1887.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN-The undersigned, pursuant chapter 642 of the laws of 1886, and your resolution, duly adopted on the 31st day of May, 1887, on the 5th day of July, 1887, offered for sale, to the highest bidder, the right, franchise and privilege of constructing a street railroad upon and along a portion of Park avenue, as described in said resolution, and duly sold and struck off the same to the Rochester City & Brighton Railroad Company for onetwentieth of one per cent. of the gross receipts of said company per annum, that sum being the highest sum bidder and said company being the highest bidder at such sale.

nighest bidder at such sale.

I further report that pursuant to another resolution, adopted on said May 31st, 1887, by your honorable body, I, on the 8th day of July, 1887, offered for sale, to the highest bidder, the right, franchise and privilege of constructing a street railroad along and upon a portion of East Main street, from the present tracks of the Rochester City & Brighton Railroad Company to Goodman street, said sale borriers how edispaned by the present to law Raifroad Company to Goodman street, said sale having been adjourned by me, pursuant to law, from the 5th day of July, 1887, to and until said 8th day of July, 1887, and, on said last mentioned day, the same was struck off by me to said company for one-twentieth of one per cent. of the gross receipts of said company per annum, that sum being the highest sum bidden for said franchise and right, and said company being the highest bidder.

I further report that there has been delivered to me bonds for the commencement and completion of said several routes in the nenal sum of ten thousand the said succession.

me bonds for the commencement and completion of said several routes, in the penal sum of ten thousand dollars, executed by said company and Chauncey B. Woodworth and William C. Barry, its sureties, and containing therein a liquidated damage clause in each of one thousand dollars, for failure to commence, and two thousand dollars for failure to complete said several extensions within the time directed by said chapter 642, and two several undertakings by and behalf of said company and said sureties, conditioned for the faithful payment by said company of said several percentages bidden, as aforesaid, and for the keeping and inspection by the proper authorities, at all times, of books of account, showing the proceeds of said company, as directed by said chapter 642.

The bonds and undertakings above specified

The bonds and undertakings above specified have been delivered to the Monroe County Clerk for record in his office, as they are a continuing sefor record in his office, as they are a continuing security for future years, and, by recording the same, their contents will be better preserved.

All of which is respectfully submitted.

JOHN A. DAVIS,
City Treasurer.

Ordered received, filed and published. By the Clerk-

To the Honorable, the Common Council of the City of Rochester:

GENTLEMEN: The undersigned, Commissioners of Excise, report that they granted 123 licenses and received therefor \$6,025. Report and bonds filed with the City Clerk.

CONRAD HERZBERGER, POMEROY P. DICKINSON, JAMES MALLEY, Excise Commissioners.

Dated July, 1887. Ordered received, filed and published.

CITY SURVEYOR'S OFFICE, ROCHESTER, N. Y., July 26, 1887.

To the Hon, the Common Council of the city of Rochester .

GENTLEMEN: Pursuant to the resolution introduced by Ald. Foley and adopted at your regular meeting of June 14th, in reference to the proposed intercepting or east side belt sewer, I, as one of the committee, after mature consideration of the question submitted to them, would recommend the acceptance of the first proposition of George W. Rafter.

Rafter.

One important recommendation for the employment of Mr. Rafter is his proposition to commence at once, if the work is awarded him, to gauge by weir measurement the quantities of the dry and storm water sewage that passes from the city into the various outlets on the east side thereof. The necessity for this, and its value in enabling proper computations for the dimensions of the intercepting sewers, in its several parts, cannot be over estimated. The construction of the required weirs and the necessary measurements and records of and the necessary measurements and records of the same, several times a day, if properly performed, will cost more than one thousand dollar a

—the difference between his bid for the work and that of the next lower person, Mr. Peacock, and besides, his proposition is much more definite in detail than those of the gentleman last named.

I regret that I cannot agree with the majority of the committee associated with me in this matter of so great importance to the city, and hope that those who know me will not believe that in my action I have been governed by personal prejudices or unworthy motives.

As to the two other persons who submitted proposals for this special work, I think that, however great their ability to perform it satisfactorily, I could not recommend their employment, but would refer their proposition back to the Common Council for the exercise of its better judgment.

ROCHESTER, N. Y., July 26, 1887.

To the Honorable the Common Council of the City of Rochester:

of Hochester:

GENTLEMEN—On the 4th of April last your honorable body appropriated \$4,250 for salaries of six (6) assistants in the City Surveyor's office for the present fiscal year. Of this amount \$600 will remain unrouched at the end of the year, the salaries now paid these assistants amounting only to \$3,650 per amum, unless proper action is taken by your honorable body to change the present budget as it should be. An unusually large amount of public improvement is in progress this season, and the duties imposed on the employees of this office fully 9.0

warrant the proper application of this unexpended balance to the slight increase in salaries proposed in the accompanying resolution, the adoption of which is recommended.

Very respectfully, your ob't serv't,

To the Honorable the Common Council of the City

of Rochester: GENTLEMEN-We think it proper that we should present to you as briefly as possible the reasons why you are asked to consider new applications for the street railroad franchises on the west side of the river, and to reconsider the resolution already

The Mayor gave a hearing upon the resolution Monday morning, July 25th, to all the street car companies and such citizens as appeared. During the afternoon of that day the Mayor requested the the afternoon of that day the Mayor requested the counsel of the three companies to appear again before him, and Mr. Beckley in our behalf, and Mr. Perkins for the Electric Company appeared, word coming to the Mayor from Mr. Raines' office that he was out but would be sent for. The Mayor read to those present a statement as follows:

"It is claimed by the Rochester City & Brighton Railroad Company, and by the Electric Company, that they each wish to bid on the sale of the franchisc but will be deterred because sufficient notice.

chise, but will be deterred because sufficient notice of the proposed route was not published. The objection of insufficient notice is a serious one, and I, jection or insumment notice is a serious one, and 1, not a lawyer, am in doubt about it. If the objection is sound, it would, of course, be sustained by the courts, and the ultimate object, viz: the building of the line, would be seriously delayed. To avoid this delay, and avoid all further legal compositions of the course plications, I suggest that the counsel for the three competing companies do now agree upon a form of application to the Common Council which shall be free from these legal objections, and upon that form a new application be made to the Common Council Tuesday night, after a reconsideration of the resolution now before me. Upon the passage of a resolution by the Common Council based upon such an agreed form of application no legal objection could

Mr. Perkins stated that the suggestion made by the Mayor was satisfactory to him. Mr. Beckley said that to avoid question and save litigation our company would accept the suggestion of the Mayor, providing the Rochester City & Brighton Railroad Company, through its counsel would agree to it. The Mayor said that he intended to leave town that evening at 7:50, and desired to know whether the suggestion would be accepted and reconsideration of the resolution before him be asked at the meeting this evening, as his time to act upon the resolution would expire before his return. Mr. Beckley stated that he would ask the reconsideration of the resolution and put in on behalf of his company a new application, if the Mayor obtained the consent of Mr. Raines to the proposition of immediate action to-night by the Common Council. This the Mayor undertook to do.

To-day we are informed by the representative of the Rochester City & Brighton Railroad Company that they are not prepared to put in a new application and desire a postponement.
In the absence of the Mayor, and with the purpose of keeping good faith with him, we repectfully ask a reconsideration of the resolution; but we think it due to us that our new applications, made in pursuance of the understanding with the Mayor, should be acted upon to-night and the earliest possible day fixed for the hearing thereon.

We propose to keep good faith with the Common Council and with the people. We want to build and operate cable roads in this city, and in accepting the suggestion of the Mayor we think that no cause can be found by any company to delay by injunctions or other means the completion of a injunctions or other means the completion of a railroad.

To the Honorable, the Common Council of the City of Rochester:

The petition of the Rochester Cable Railroad

Company respectfully shows:

That your petitioner is a corporation, duly organized, chartered and incorporated under, by virtue, and in pursuance of the laws of the State of New York, for the purpose of constructing, maintaining and operating a street surface railroad, for public use, in the conveyance of persons and

maintaining and operating a street surface railroad, for public use, in the conveyance of persons and property in cars, for compensation, in the city of Rochester, County of Monroe.

Your petitioner hereby makes application for the right to construct, maintain, operate and use a street, surface, double track railroad, or, at its option, along any part or parts of the route hereinafter described, a street, surface, single track railroad, with necessary branches, turnouts, sidings and switches, along and upon the route hereinafter described; such railroad to be operated with cable and switches, along and upon the route hereinatter described; such railroad to be operated with cable motor power, and such other power as shall be authorized by the Common Council of the city of Rochester, other than locomotive steam power. The said route is described as follows:

Commencing in the city of Rochester, at the intersection of Brooks systems with Genesee street.

Commencing in the city of Rochester, at the intersection of Brooks avenue with Genesee street, thence upon and along the surface of the soil through, upon and along the following named streets, in the said city, to wit: Along Genesee street to Plymouth avenue, sometimes called South Sophia street, thence along South Sophia street, sometimes so called, and Plymouth avenue to West Main street, thence across West Main street and the tracks of the Rochester City & Brighton Railroad Company to Sophia street, thence along Sophia street across Allen street and the tracks of the Rochester City & Brighton Railroad Company to Center street, thence along Center street to Frank street, thence along Frank street across Lyell avenue and the tracks of the Rochester City & Brighton Railroad Company across Lyell avenue and the tracks of the Rochester City & Brighton Railroad Company to Bloss street, thence along Bloss street to Backus avenue, thence along Backus avenue to the northerly end thereof, thence across and on lands to be acquired by your petitioner to Emerson street, thence along Emerson street and upon such lands thence along Emerson street and upon such lands as it may be necessary to acquire for that purpose to Thrush street, thence along Thrush street to Driving Park avenue, thence along Driving Park avenue to Lake avenue, thence across Lake avenue and the tracks of the Rochester City & Brighton Railroad Company to the easterly line of Lake avenue. nue, thence along Driving Park avenue (sometimes called McCracken street) to the easterly end there-of, with a branch line extending from the main line from the intersection of Driving Park avenue and the street next east of the Driving Park, which street is sometimes called the Boulevard, thence along said street sometimes called the Boulevard to the northerly end thereof, thence northerly across and on lands to be acquired in extension of the line of said street sometimes called the Boulevard to the Big Ridge road, thence along the Big Ridge road to Lake avenue, thence along Lake avenue to the northerly line of said city.

Together with the necessary turntables, turn-

outs, sidings, switches and suitable stands.
Your petitioner proposes to construct, maintain and operate said railroad in such manner as not to

interfere with the beneficial use of the streets along which the same is laid. The rail which your petitioner desires to use is a flat, grooved, girder rail, which will be laid practically level with the surface of the street. The slot in which the grip for the cable runs will not be over three-fourths of an inch in width, and will be so constructed as that the width will not be affected by the action of the elements. The conduits which your petitioner desires to construct will be so constructed as to avoid the necessity of repairs, and so that the streets will not have to be torn up after the conduits are once laid. Connections will be made between the conduits and the sewers, and entrance to such conduits will be through manholes.

Your petitioner will pave and keep in permanent repair the portion of the street between its tracks, the rails of its tracks, and two feet outside and adjoining the outside rail of its track or tracks, so long as it shall continue to use such tracks, and such improvement will be made whether the streets

named are now improved or not.

Your petitioner will not charge any passenger more than five cents for one continuous ride from any point on its road, or on any road or line or branch operated by it or under its control, to any point thereon, or on any connecting branch or line

thereof, within the limits of the city of Rochester.
Your petitioner will immediately, upon obtaining
the franchise for which application is hereby made, enter into an agreement with the city of Rochester, which agreement shall contain all necessary and reasonable restrictions, conditions, limitations and provisions, and will execute and deliver to the city of Rochester a bond, in such penalty as your honorable body may provide, and with satisfactory sureties, conditioned for the faithful performance on its part of all the terms and conditions of such agreement.

Respectfully submitted,

To the Honorable, the Common Council of the City of Rochester:

The petition of the Rochester Cable Railroad Company respectfully represents:

That your petitioner is a corporation, duly organread, chartered and incorporated under, by virtue of and pursuant to the laws of the State of New York, for the purpose of constructing, maintaining and operating a street surface railroad for public use in the conveyance of persons and freight in cars, for compensation, in the city of Rochester, County of Monroe.

Your petitioner has already made application for the right to construct, maintain, operate and use a street surface railroad, extending from the intersection of Sophia and Church streets, through and along Fitzhugh, Spring, Exchange and other streets to the entrance of Mount Hope Cemetery, near May street.

Your petitioner has determined that the convein-ence of the public will be better served, and the cost of construction and operation of a railroad will be lessened by the construction and operation of a railroad between the termini above specified upon the line hereinafter described.

Your petitioner, therefore, hereby makes application for the right to construct, maintain, operate and use a street surface, double-track railroad, with cable motor power, from the intersection of Sophia cable motor power, from the intersection of sophia and Church street, and thence, on the surface of the soil, through, upon and along the following named streets in the city of Rochester,viz.: Along Church street to North Fitzhugh street; thence along North Fitzhugh street to West Main street; thence acrossWest Main street and the tracks of the Rochester City and Brighton Railroad Company to South Fitzhugh street; thence along South Fitzhugh street and over the Erie canal to Spring street; thence along Spring street to Exchange street; thence along Exchange street to Exchange street; thence along Court street street to Court street; thence along Court street and over Court street bridge to South street; thence along South street to Clinton park (for-merly called Green street); thence along Clinton park and over the Erie canal to Pinnacle avenue; thence along Pinnacle avenue to Meigs street; thence along Meigs street to Oakland street; thence thence along Meigs street to Oakland street; thence along Oakland street to South avenue; thence along South avenue to Highland avenue; thence along Highland avenue to Mount Hope avenue; thence along Mount Hope avenue southward to the entrance of Mount Hope eemetery, near May street; together with necessary turnouts, branches, turntables, sidings, switches and suitable stands. Jacob Rauber,

To the Honorable, the Common Council of the City of Rochester:

GENTLEMEN: Your Assessment Committee begs leave to submit the following as their report upon

leave to submit the following as their report upon the subjects and matters following, viz.: The petition of Mathias Kondolf, M. Brayer & Co., Anthony Knope, Otis & Gorsline and Sill Stove Company, in the opinion of your committee should be granted. It appears that Mathias Kon-dolf was the owner of lot number 349, Frankfort

tract, assessed for the Oak street improvement in 1865 to the amount of three hundred and fourteen 1865 to the amount of three hundred and fourteen dollars and eighty-eight cents (\$314.88), of which he paid on August 28, 1865, the sum of two hundred and nine dollars and ninety-two cents (\$209.92). In 1885 there was assessed against the same lot for the new assessment for said improvement the sum of two hundred and fifty-five dollars and one cent (\$255.01.)

M. Brayer & Co. were also formerly the owners of the following lots and parts of lots assessed for said improvement in 1865 for the following amounts and on which they paid on the 5th day of May, 1866,

said improvement in 1865 for the following amounts and on which they paid on the 5th day of May, 1866, the following sums, viz.:

West part of 354: N. W. part of 357; W. part of 358; W. part of 359 and 360 of said tract of E. part of 90 fthe 2,000 acre tract, assessed for \$324.72, and \$1,476, payments being \$108.24 and \$492; tots—S. part of 3 N. of ā.R., S. part of 9 and E. part of 12 and part of 394, and N. part of 393, assessed for \$22.258.28, payment being \$752.76; lots—N. W. of lot 2 N. of R. R., assessed for \$252.76; lots—N. W. of lot 2 N. of R. R., assessed for \$255.20, making a total of payments on said May 5, 1886, of \$1,353. In the new assessment there was assessed against said tots and parts of lots, but against other persons as owners thereof, said Brayer & Co., having conveyed the same to said other persons respectively, between the times of making said assessments in 1865 and 1885, various sums, amounting in the aggregate to three thousand three hundred and fifty-nine dollars and sixty-one cents (\$3,359.61 upon which sum, if it were paid at the present time, there would be a discount made of thirty-three dollars and fifty-nine cents. If interest be computed upon said sums paid by Messys. Kondolf and Brayer & Co., as aforesaid, to the present date, they will amount in the aggregate to the sum of and Brayer & Co., as aforesaid, to the present date, they will amount in the aggregate to the sum of over three thousand, seven hundred and nineteen dollars and ninety-nine cents. The section of the dollars and limety-nime cents. The section of the charter which confers the power upon the Common Council to make the reassessment also directs, in case any payment has been made upon a previous assessment which has been vacated by the courts, it shall be allowed upon the reassessment, but inasmuch as nothing is said in the section. tion as to allowing interest, it leaves that question open and debatable. Your committee is therefore of the opinion, in view of the uncertainty concerning the subject of interest, that it will be to the ad-

ing the subject of interest, that it will be to the advantage of the city that, upon proper releases being executed in the matter provided for in the accompanying resolution, the Treasurer be directed to cancel the new assessments aforesaid.

Eliza W. Clark's petition should be granted. It appears that she became owner of lot 14, section I, Bristol lot, Carthage tract, on the east side of N. St. Paul street, assessed for said street improvement under ordinance No. 2087, \$18048, and which was paid by her December I, 1884. The assessment was made upon an assumed frontage of 68 25-100 feet, while it has since appeared, by reason of a feet, while it has since appeared, by reason of a proper survey being made of the lot, that there is but 66 feet, making an excess collected of her of \$6.01. The assessors are of the opinion that the petitioner should be repaid said excess, and in which

opinion your committee concurs.

Henry L. Fish, as executor of M. Kavanagh's petition, should also be granted. The mistake in the name of the person to whom the certificates were requested to be assigned was due to the pe-

were requested to be assigned was due to the petitioner, however.

The petition of the vestry of St. Paul's Church to have reduced the rate of interest upon unpaid taxes and assessments upon Grace Church property, except those upon which certificates of sale are held by parties other than the city, from twelve to six per cent. per annum, should be granted, providing payment is made within three months from this date.

Ernst L. Moeschler's petition should also be granted. It appears that he is the owner of certain real estate in the city; that he has paid the Treasurer the amount of the tax upon the real estate for this year; that in the tax rolls for the current year he was assessed fourteen dollars and twenty-six cents upon personal property, while it clearly appears that he has not had, within the past year, any presonal estate subject to taxistion personal estate subject to taxation.

Heirs of Mary J. Thomas, petition. It appears that lots numbers 3, 4, 5, 7, 22 and 36, of the Davis and Whitley tract were sold in March, 1886, for the and whitey tract were sold in March, 1886, for the impaid city tax of 1885 and added assessment for the Henry street sewer; that they were struck off to the city by the Treasurer; that included in each lot sale is an item of \$1.50 for expenses of printing and prospective service of notices upon the owners to redeem, which cannot be made before next they should be permitted to do so by having the sum of \$1 on each lot, estimated for the expenses of notice service deducted, and they be required to pay the baiance at the time of sale with interest at the rate of six per cent. per annum, providing such payment be made within one month from this date vacuum Oil Company's petition to be repaid the sum of three dollars and ninety-six cents, paid by it in the years 1885 and 1886 as a water frontage tax it in the years 1880 and 1800 as a water from age tax upon certain property owned by it situate on the south side of Edinburgh street, should be granted, as it appears that the lot in question extends through to Glasgow street, or rather it consists of two several lots. The company has a warehouse two several lots. The company has a warehouse erected upon the entire lot and has used water therein metered by the Executive Board for a numthere of years which warehouse fronts upon said Glasgow street, and hence arose the mistake of making the frontage tax.

The following petitions should be denied:

Conkey avenue property owners to be relieved from payment of their proper proportion of the expense of making crosswalks on said avenue, between Avenue D and Clifford street, under ordinance No. 3.012, to be found at page 220, proceedings of 1886-7, as we find no merit in the applica-

Ann McDermott to be refunded eleven dollars of the assessment paid by her upon property assessed the Glenwood avenue culvert and retaining walls, as it appears that no mistake was made by the assessors, and they have since satisfactorily explained the matter to the petitioner.

Samuel N. Oothout to be repaid certain moneys Samuel N. Oothout to be repaid certain moneys paid by him for taxes and assessments at sales made in 1851 and subsequent years, and for subsequent taxes paid by him, assessed upon a part of a lot on South St. Paul street. It appears that he has had the use and possession of the property for many years and that the value thereof is, in the amount paid by him for said taxes and assessments and besides to grant the petition will be to estaband besides to grant the petition will be to establish a dangerous precedent and violate a well-settled rule of law.

Your committee therefore recommends the

adoption of the following resolution.

W. H. Marson,
W.M. Sullivan,
LEO J. HALL, C. STEIN. D. W. SELYE, Assessment Committee.

Ordered received filed and published.

By Ald. Marson-Resolved, That the foregoing report of the Assessment Committee be adopted. That upon Messrs. Mathias Kondolf and

Brayer & Co. executing, acknowledging and delivering a good and sufficient release, approved by the City Attorney, for the moneys paid by them upon certain lots assessed for the Oak street im-provement in 1865, as stated in said report, with a covenant, that neither of them have transferred said moneys, or any claim therefor, at any time, the Treasurer is directed to cancel the assessment or re-assessment for said Oak street improvement, confirmed in 1885, upon the lots mentioned in said report, and to charge the amount thereof to erroneous assessments.

That the Clerk draw an order upon the Treasurer, payable out of the Contingent Fund, in favor of Eliza W. Clarke for six dollars and one cent (6.01), being the amount of the excess of an assessment made against her lot 14, sec. 1, Bristol lot, Carthage tract, on the east side of North St. Paul street, paid by her on Demember 1st, 1884.

That upon proof being furnished of the payment of the several sums to the Treasurer, mentioned in the resolution of Ald. Stein, to be found in the proceedings of 1886-7, at page 317, the Mayor is authorized to execute an assignment to Julia A. Whitbeck the four tax certificates mentioned in said resolution, the assignments to specify that the same are made without recourse, and to correct the name of the assignee in any previous assign-ments made by him pursuant to said resolution.

ments made by him pursuant to said resolution.
The Treasurer is hereby directed to receive from
the Vestry of St. Paul's Church, if paid within
three months from this date, any and all unpaid
taxes and assessments upon Grace Church property, except those on which Certificates of Sale,
are held by parties other than the city, with inter-

est thereon at six per cent. per annum, instead of twelve per cent., the statutory rate. That upon the payment being made by Ernst L. Moeschler of the tax assessed upon his real estate in the Sixteenth Ward, and the statutory interest, if any, accruing thereon, the Treasurer is hereby directed to cancel the personal property tax as-sessed against said Moeschler in said ward for the year 1887, and to charge the amount to erroneous

That upon the payment being made by the heirs of Mary J. Thomas within one month from this date, of the unpaid city tax of 1885, including any added assessment upon lots numbers three, five, seven, twenty-two and thirty-six of the Davis and Whitley tract, at the time of their sale, in March, 1883, less one dollar on each lot added for prospective expenses for service of Redemption notices, and interest thereon at six per cent. per annum, the treasurer is hereby directed to cancel said taxes, and to charge the deficiency, if any, to

erroneous assessments.

That the clerk draw an order upon the Treasurer payable from the contingent fund, in favor of the Vacuum Oil Company for three dollars and ninetysix cents (\$3.96) the amount of the erroneous water tax paid by it as appears by the foregoing report.

That the petitions of various property owners on Conkey avenue, Mrs. Ann McDermott and Samuel N. Oothout be in all things desired.

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE.

From the Mayor-

MAYOR'S OFFICE, ROCHESTER, N. Y., Aug. 2, 1887.

Gentlemen of the Common Council:

At a meeting of the Common Council, held on the evening of July 26, 1887, upon the recommenda-tion of Police Commissioners James D. Casey and Joseph W. Rosenthal, your Law Committee re-ported in favor of the payment of the sum of

tained by one Elmer Murphy against Officers Kron and Bletzer for false imprisonment. It seems that on the 3d day of December. 1885, the police justice issued a warrant for the arrest of the said Murphy on the charge of stealing a dog. The law requires on the charge of steams a dog. The harvest the police justice to indorse a warrant, which, in this instance, he failed to do, a fact which was not discovered until after the mistake had been made in the arrest of Murphy, and locking him up. It is \$23.11, being the amount of two judgments obconceded that the officers acted in good faith, and conceded that the officers acted in good rath, and simply carried out the orders of their superiors. On the day set for the trial of Murphy the complainant did not appear against him, the matter having been fixed up between them, and the former was discharged. He (Murphy) then commenced a suit against the officers who arrested him—a suit brought upon the grounds above mentioned, and with the result as stated. It is claimed that the city should pay the amount. I fail to see in what manner the taxpayers of Rochester are to blame for the blunder committed, and, therefore, return for the blunder committed, and, therefore, return the resolution providing for the payment of the judgments disapproved. The payment of this money, as suggested, would be in the nature of a gratuity—a clearly illegal proceeding—and one that would render every member of your Board who voted for the same liable to refund the amount to the treasury, at the suit of any taxpayer. In this connection, let me call your attention to the provisions of chapter 53l of the Laws of the State of New York, passed June 15, 1881, and which is entitled, "An act for the protection of taxpayers." A knowledge of this law may be of some service hereafter. Among other things, this statute provides that a taxpayer may. things, this statute provides that a taxpayer may, not only by injunction, prevent the payment of claims of an illegal character, but that in case any officer, board or agent of any town, county, city or village shall audit, allow or pay any illegal claim or village shall audit, allow or pay any illegal claim or demand against such city, county, town or village, the court may decree repayment thereof to the public treasury out of the private property of such officials.

CITY SURVEYOR'S OFFICE. ROCHESTER, N. Y., Aug. 9, 1887.

To the Honorable the Common Council of the City of Rochester:

Gentlemen: In pursuance of the resolution in-General Control of the cost of constructing an iron bridge stimate of the cost of constructing an iron bridge esumate of the cost of constructing an iron oridge over the Genesser river, to connect Driving Park avenue on the west side with Tower street, or the prolongation of Avenue E, on the east side of the said river, he would report: That only one of the three approved kinds of bridges of late years constructed and that would be suitable for the least time. structed, and that would be suitable for the location and for the purposes in view, are:

and for the purposes myew, are the suspension; First, the cantalever; second, the suspension; third, the wrought iron deck or subtrussed bridge. The space to be spanned is about 730 feet, and whichever form of bridge is finally adopted the cost

must necessarily be large. Only approximate estimates can now be submit-

ted for any one of them. Assuming that the bridge is completed and ready to be opened for general use, it is estimated that the cantalever bridge will cost \$110,000; the suspension bridge \$75,000.

As to wrought iron bridge it is difficult, with the data now at hand, to make an estimate that might not be wide of the mark. Such a bridge would require a pier at or near the center of the river, where the debris and detritus from the crest of the

1,
lower falls and the adjacent banks have accumulated for ages to an unknown depth, and to get a secure foundation by excavating through such material, over which a deep and rapid current of water is flowing, brings in an element of uncertainty which a contractor would consider in making a bid for the work, and in any event such a bridge would cost nearly if not quite as much as the cantalever.
After a careful consideration of all the conditions in regard to locality and adaptability, I would recommend the construction of a suspension bridge. Very respectfully, your ob't serv't, I. F. QUINBY, City Surveyor. By Add Salva Backleyd Whet the situative system.
By Ald. Selve—Resolved. That the city surveyor be and hereby is directed to prepare an ordinance for the erection of an iron suspension bridge across the Genesee river, from the foot of Driving Park avenue to the foot of Tower street, on the opposite side of the river. Adopted. By the Clerk—

OFFICE OF THE CHIEF OF POLICE, ROCHESTER, N. Y., Aug. 15, 1887.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN-The ordinance regulating pawn-GENTLEMEN—The ordinance regulating pawn-brokers is very beneficial to the workings of our department. Sneak thieving has become more frequent for the last few months, and the property stolen by such parties as a general thing is disposed of at second-hand stores instead of pawnbrokers' shops. I would most respectfully request of your honorable body to adopt an ordinance making it compulsory for all such second-hand stores to send Computation of an index of the chief of police, the same as pawnbrokers. Hoping this will meet your favorable consideration, I am, gentlemen,

Your most obedient servant,

J. P. CLEARY. Supt. of Police.

On motion of Ald. Swikehard referred to the Committee on Penal Ordinances.

The monthly report of the police clerk, of fines collected during the month of July, 1887, amounting to \$324.50, was received and ordered filed.

To the Hon. the Common Council of the City of Rochester:

Gentlemen—Your Law Committee beg leave to submit as their report upon the subject of the veto by his Honor the Mayor, a resolution providing for the payment of two several judgments obtained by one Elmer Murphy against George H. Kron and John Bletzer, that said veto should be sustained, as it has been held that municipalities are not liable for the acts of officers of the police department in making arrests, or in the discharge of their duties, and, therefore, to order the payment of the above judgments would be in the nature of making a gift of their amounts to the officers, which we are of the opinion cannot be done without subjecting the members of your honorable body to a suit at the hands of taxpayers, under chapter 521 of the Laws of 1881, as amended by chapter 673 of the Laws of 1887, for the return to the treasury of the amount ordered to be paid. By Ald. Marson-

To the Honorable, the Common Council of the City of Rochester:

GENTLEMEN: Your Assessment Committee begs leave to submit the following report, viz: The petition of the Rochester Bridge and Iron

Works Company for repayment to them of \$107.86, erroneously assessed against their property in the Sixteenth ward, in the general city tax rolls for 1887, should be granted. We find that they were assessed at the rate of \$14.25 per thousand, when the rate should have been but \$10.51 per thousand, as there was no water in their structed. The Treasurer should, therefore, be instructed to receive from said company the sum of \$205.65 in full of the from said company the sum of \$305.66, in full of the tax of \$413.52, assessed against it, and charge the remainder of said tax to erroneous assessments.

The petition of Jacob Spahn to have \$15 refunded to him, being the amount charged for a hose attachment on property owned by him on St. Paul street for five consecutive years, should be refunded to him by the Executive Board, as we find that since he became the owner of the property he has

had no such attachment.

The petition of Ellen R. Elsheimer to be permitted to redeem her premises from the assessments

mitted to redeem her premises from the assessments and taxes thereon by paying 6 per cent, interest upon the amounts thereof from the respective dates of sale should be granted.

The petition of the Second Reformed Church, Rochester, owners of lots 167 and 168 of the Riley tract, on the south side of Central avenue, 14th ward, and assessed to the heirs of Henry A. Young in the general city tax-rolls for 1887 to have said tax cancelled, should be granted, for the reason that the deed of conveyage to said thurch was on that the deed of conveyance to said Church was dated, acknowledged and recorded in the Monroe County Clerk's office on the first day of June, 1887 before said tax was levied, but the deed was not delivered to the assessors until after the assessment rolls were prepared, hence the mistake in

making the assessment.

The petition of the Cutler, Laffin and Perkins estate to have a portion of the assessment for constructing a retaining wall in Glenwood Park upon lots 64, 65, 66, 67, 32, 33 and 34 on the south side Ravine avenue should be granted, and the sum of \$7.19 being the amount of the erroneous assessment on 45 feet of said frontage, should be repaid

to said estate.

In the matter of the heirs of Mary J. Thomas, an offer of \$59.22 and interest thereon from March 25, 1886, the date of sale, at the rate of 6 per cent. per annum, is made by them in payment of the general city tax for 1885, assessed upon lots 3, 4, 5, 7, 22 and 36 in the Davis and Whitney tract, which we deem it for the best interests of the city to according the property of the city to according the property of the property o cept, if for no other reason than that they have an equitable claim for such redemption, and we are also informed that by such acceptance a valid defense in their favor will be removed

OFFICE OF EXECUTIVE BOARD ROCHESTER, N. Y., Aug 23, 1887.

To the Hon. the Common Council:

GENTLEMEN: On July 12th, 1887, a resolution was passed by your honorable body authorizing the was passed by your honorable body authorizing the Executive Board to construct, at an expense of not more than \$160.00, a suitable closed conduit upon the bottom of the open ditch now conveying the discharge of the Upton park outlet sewer through certain lands owned by Frederick S. Minges and Cass Williams, and located between Hayward avenue and Schanck avenue, provided that said parties will execute a formal release to the city for any conductivity of the part hay a series which they may have

ties will execute a formal release to the city for any and all claims for damages which they may have heretofore sustained, or may hereafter sustain, by reason of the flow of sewage through said lands. The Executive Board would herewith report that said release was prepared by the City Attorney, and formally executed, by the parties named, on July 18th, 1887. This document was thereupon duly recorded in the Monroe County Clerk's Office, and a satisfactory plank conduit of suitable dimen-

sions, was then built in the ditch by the agents of the Board. The total cost of the work was \$135.18, as per itemized bill and vouchers rendered. The release provides, among other matters, that the said parties "remise, release and forever discharge the City from any and all suits, claims, debts, demands and causes of action that at any time hereafter may accrue to said parties of the first part, vreason of the discharge, outlet or conveyance atter may accrue to said parties of the first part, by reason of the discharge, outlet or conveyance of said sewage through said lands,' and therefore fully meets all of the conditions imposed. As the aforesaid expense of the work has been advanced out of the Highway Fund, it is suggested that the said fund be now reimbursed by the payment of the said sum of \$135.13 from the Contingent Fund, as provided in the resolution mentioned.

Respectfully submitted.

Respectfully submitted,
THOS. J. NEVILLE, Clerk.
Ordered received, filed and published.

By Ald. Selve—Resolved, That the City Treasurer be directed to credit the highway fund with \$135.13, be directed to credit the nighway fund with \$1.50.16, as per bill rendered, being amount expended in the construction of a wooden conduit in land owned by Messrs. Minges and Williams, in accordance with terms of resolution adopted by your honorable body July 12th, and charge contingent fund. Adopted by the following vote:

By the Clerk-

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, Aug. 23, 1887.

To the Common Council:

Gentlement Gouncu:
Gentlement the execution of ordinance No. 3,207, passed May 17, 1887, for the construction of plank walks on Colvin street, from West avenue to Campbell street, it has been found that the proper performance of the work named will cause the filling up of certain drainage ditches and surface sewers on both sides of Colvin street adjacent to the tracks of the N. Y. C. & H. R. R. and the north, and the B. R. & P. R. R. on the south, thereby obstructing the flow of storm water from certain portions of said street into the existing outthereby obstructing the low of storm water from certain portions of said street into the existing outlets. To remedy the difficulties thus presented, the roadway of said Colvin street for a distance of about 90 feet north and south of the railroad crossings should be properly graded by the construction of a considerable amount of embankment thereupon, conforming in some degree to the grade of the new sidewalks, and provision should also be made for the construction of two new surface sewers and drains on each side of said crossing at the foot of the approaches thereto.

The cost of this necessary work cannot legally be paid out of the fund for the construction of the sidewalks under the ordinance mentioned, and it is therefore recommended by the Executive Board that a new ordinance for the performance of the work indicated be passed by your honorable body Respectfully, Thos. J. NEVILLE, Clerk.

Ald. Kelly moved to refer to the City Surveyor to prepare an ordinance. By the Clerk-

On which above described lots and parcels of land the whole expense of said improvement are hereby ordered assessed, the assessment upon each lot and parcel of land to be in proportion to the benefit and advantage which each derives therefrom.

Ald. Fee presented a remonstrance; also the following:

CITY SURVEYOR'S OFFICE, ROCHESTER, N. Y., Aug. 22, 1887.

Ald. Joseph H. Fee:

Dear Sir-An examination of two cellars on Elm street showed that they contained water, and evidently back water from the sewer as indicated by the bad smell. The sewer in Elm street from Main street to Euclid street is only a nine-inch pipe and entirely inadequate to drain the territory which now finds an outlet through it. I find that it was built by private parties several years ago, and was never intended to serve the territory now using it. A portion of Euclid street, and a large portion of Elm street from Main street to the angle now drains into this pipe, which it was never intended to carry. This, together with faulty construction, no doubt is the cause of backwater in the cellars on Elm street. Respectfully, W. J. STEWART, Asst. City Surveyor.

CITY CLERK'S OFFICE, ROCHESTER, N. Y., Aug. 23, 1887.

To the Honorable, the Common Council:

GENTLEMEN—At a meeting of the Board of Health, held July 29th, the following resolution was unanimously adopted:

By Commissioner Kondolf—Whereas, Complaints

have been frequently made by persons living on Elm street of the dangerous condition of the sewer in the street, not having the capacity to carry off the sewage, causing the water to back into the cel-lars and liable to breed malaria and other pestl-

lars and liable to breed malaria and other pesti-lential diseases; and,
Whereas, This Board of Health has been ap-pealed to from time to time to afford relief to the people living on Elm street; therefore,
Resolved, That the sewer be declared a public nuisance and that the Common Council be requested to pass a final ordinance for the relief of the peo-ple living on the street by building a new sewer therein

By Ald. Thayer:-

To the Honorable the Common Council of the City of Rochester:

of Rochester:

The petition of the undersigned respectfully shows, that he is the owner of certain property situated on and adjacent to Monroe avenue and Bowen street in the city of Rochester, over and through which the city has constructed and for many years maintained an open sewer. That said sewer was constructed under a permission granted by your petitioner to the city of Rochester to construct and maintain said sewer for a period of three (3) years, which has long since expired. (3) years, which has long since expired.
Your petitioner further shows that

Your petitioner further shows that said sewer has long since become an intolerable nuisance and has long since become an intolerable nuisance and a great damage to the property of your petioner and the property of others in that vicinity; and your petitioner, as well as others interested in this matter, are unwilling to suffer the said sewer to be continued longer by the city. And your petitioner hereby refers to the annexed map marked "A," which gives a complete diagram of the premises affected, and of the said ditch or sewer.

In order to avoid litigation with the city, and to

GENTLEMEN: Your Assessment Committee, to which was referred the several matters heretofore

which was reterred the several matters hereforder presented, submits the following report: The petition of George J. Binder shows that he is assessed for seventeen and five-twelfths feet for West avenue asphalt improvement, whereas he owned but fourteen and one-half feet fronting on said avenue.

Your commends that the treasurer be directed to receive \$147.13 of George J. Binder for West avenue asphalt improvement, and charge the balance to erroneous assessments.

The City Assessors certify that W. E. Darling is erroneously assessed for water and light on Merriman street

We would, therefore, recommend that \$10.93 be deducted from the amount of Mr. Darling's tax.

The Assessors also recommend that \$6.58 be deducted from the tax on lot No. 156, west side of Park Row, Fifth ward, assessed to Rosa G. Goddard dard.

In the matter of the assessments for the widening of Euclia street, your committee, after a thorough investigation, and hearing all persons appearing, are of the opinion that the assessment roll for Euclid street widening, as made by the City Assessors, and heretofore reported to the Common Council, be confirmed.

second part. second part.

Witnesseth, That the party of the first part has agreed, and by these presents does agree with the party of the second part, for the consideration hereinafter mentioned and contained, and under the penalty expressed in a bond bearing even date herewith and hereunto annexed, to furnish and perform all of the labor required in making the surveys, maps, profiles, plans and estimates of cost of a trunk sewer and appurtenances which shall receive the drainage and sewage from the eastern portion of said City of Rochester, N. Y., and north of the range of hills known as Mount Hope and Pinnacle, in full accordance with the following specifications, as submitted to the Common Council Witnesseth, That the party of the first part has specifications, as submitted to the Common Council of said city, on June 14, 1887, and printed in the official proceedings of said Council, for said date,

First. Said party of the first part shall make all necessary instrumental surveys and take all necessary levels over the territory to be drained by the proposed trunk sewer, to fully supplement the existing topographical map of the eastern part of said city, to define the principal tributary drainage said city, to define the principal tributary drainage to said sewer, and to exhibit the topography thereof correctly by contour lines on a suitable map; also, to perform similar necessary work in districts adjacent to the city limits where the same may be affected by the requisite adjuncts of said trunk sewer, such as storm-overflows, or purification sta-

tions, should the latter be required. Second. Said party of the first part shall indicate Second. Said party of the mist part shall indicate upon said map of the eastern part of said city all existing main outlet sewers tributary to said trunk sewer, and such others as may, in his judgment, become expedient to be constructed in the near future, together with the proper sizes or dimensions these is such man thus prepared also to exsions thereof; such map, thus prepared, also, to exhibit the route of the proposed trunk sewer and, along with a sufficient number of accessory profiles, to satisfactorily demonstrate the efficiency of all the main sewers tributary to or intercepted by

said trunk sewer.

Third—Said party of the first part shall make all necessary excavations, test pits or borings through the soil and down to the underlying rock where required or where the surface of such rock may be above the grade of the bottom of said trunk sewer, along the route of soid sower, as will suffice to the along the route of said sewer, as will suffice to determine the general character of the excavation required for the construction thereof, and shall record all such data upon the maps and profiles afore-

Fourth—Said party of the first part shall make a thorough and exhaustive study of the problems involved in the determination of the proper dimensions and grades of said trunk sewer throughout its entire length, and shall show its capacity for dis-charging surface drainage water at various points together with the discharge of the tributary main

sewers.

Fifth-Said party of the first part shall make all ritin—said party of the first part shall make all necessary general and working maps, plans and drawings and specifications for said trunk sewer and its immediate adjuncts, such as storm overflows, man-holes, lamp-holes and junctions with existing or contemplated tributary sewers, and shall also submit a careful estimate of the cost of cold work.

said work.
Sixth—Said party of the first part shall also submit a thorough discussion of the various methods of sewage disposal and treatment which may here or sewage disposar and treatment which may here be available, as it is probable that one or more of such methods may in the future have to be adopted; also estimases of the cost of such disposal or treatment, together with general plans for same if

required.

Seventh—Said party of the first part shall, within Seventin—Said party of the init part shall, within the period of one year from the date of this agreement, or sooner if possible, submit a comprehensive report on the entire project, accompanied with the maps, plans, profiles, working drawings, specifications, and other data above mentioned, provided that the said data of agreement occurs on or before fications, and other data above mentioned, provided that the said date of agreement occurs on or before the first day of October, 1887, and that provisions for the payments specified shall have been made; and in case that such date shall occur subsequent to the first day of October, 1887, and before the first day of April, 1888, the said period of one year shall be estimated as beginning on the first day of April, 1888, conditioned that provision for the payments specified shall then have been made.

sspecified shall then have been made.

Eighth—The said party of the first part shall also aid, as far as practicable, in the framing of any legislation which may be needed for the construction of said trunk sewer, as soon as the plans therefor shall have been sufficiently matured to enable an intelligent presentation of the project in all of its

bearings to be made.

Ninth—The foregoing specifications, terms and conditions shall be regarded and considered as conconditions shall be regarded and considered as con-templating the performance of such an amount of surveying and engineering work as will enable the Common Council or the Executive Board of said city to proceed, immediately after the presentation city to proceed, immediately after the presentation of the said plans and report, with the letting and construction of said sewer, if desirable; it being understood, however, that the party of the first part shall not be required to secure any easements or rights of way that may be required prior to com-

or rights of way that may be required prior to commencing the construction.

Tenth—The said party of the first part shall provide all necessary office room, stationery, instruments and appliances required in the work, and shall furnish and pay for all assistance and labor, and incidental travelling expenses for himself and assistants, that may be required in the performance of the work above specified and contemplated to be done on his part. Said party of the first part shall also indemnify and save harmless the said city of Rochester from any claims for damage sustained, or alleged to have been sustained, by any persons or corporation by reason of his entry upon their premises for the purpose of making said surveys and examinations.

GENTLEMEN—In submitting for your action an ordinance for changing the grade and crown of the roadway on a portion of Pinnacle avenue, it is due, in justice to this office, to make a brief statement of the facts in the case.

The final ordinance for the improvement of Pinal Continuous and the case.

The final ordinance for the improvement of Pinnacle avenue was passed June 1st, 1886, and the contract let August 6th, of the same year, and the actual work begun a few days afterward. After the advertisement for the work the plans, profiles and specifications for it were on exhibition in the and specifications for it were on exhibition in the City Surveyor's office, and the parties immediately interested had an opportunity and were invited to suggest changes, which, as far as practicable, would have been made. The plans called for a crown of roadway of six (6) inches, for a width between curbs of the thirty-six (36) feet, and this at the request of the abutting property owners. Subsequently, by ordinance passed at their request, the width between the curb lines at the northerly and westerly ends of the avenue was reduced to 30 feet. reduced to 30 feet.

JOHN BERNHARD, BARNARD SCHWAB,

Commissioners.

I concur in so much of the foregoing report as 1 concur in so much of the foregoing report as describes the property necessary to be taken for the improvement contemplated by the ordinance. I find the title of the first parcel to be in John Wohlfart, and award him one dollar, as damages, payable to him. I find the title of the second parcel payable to him. I find the title of the second parcel as found in the majority report, and award the owner, Christina Yackel, one hundred dollars, payable to the mortgagee. I find the record title of the third parcel to be in the heirs of J. H. Parmalee, deceased, whose names and places of residence are unknown, but that George S. Riley, of Rochester, claims to be the owner in fee of said premises by virtue of a defeasance, executed by J. H. Parmalee, the legal effect of which it is claimed constitutes the deed from Riley to Parmalee, a mortgage. 1 am unable to concur

with the other members of the commission in the finding that the last above described premises the finding that the last above described premises have been for more than twenty-two years last past, and now are used by the public for public highway purposes, and in hostility to any right of said Parmelees or their decedent, and that such use has been notorious and continued by and on the part of said public. The fact that the city has constantly assessessed and received taxes on the property and has at least twice before instituted proceedings to acquire the property in question for street purposes, and the property in question for street purposes, and the entire absence of proof of any act on the part of the city or the public showing any use of the property by claim or right, are inconsistent with the findings of a twenty yeart' adverse user. I award the sum of \$1,800.00 as damages to the owner of the preparation of the property and the property of the property, and the money to be deposited in the Monroe County Savings Bank, subject to the order of the court. G. F. Slocum, Commissioner. Ordered received, filed and published.

By Ald. Kohlmetz–Resolved, That the next regular meeting of the Common Council, Tuesday evening, September 20th, 1887, be and hereby is designated as the time when any objections to the confirmation of the report of the commissioners in the matter of widening Hand street will be heard.

By Ald. Foley—Whereas, Thomas D. Wilkin has acquired an interest in lot 57, section "E," of the Greig tract, situated on the south side of Champlain street, in the Eighth ward of this city, and he is willing to pay the city unpaid taxes and assessments against the same, with legal interest, upon condition that the interest of the city in any and all tax or assessment sale certificates heretoand all tax or assessment sale certificates hereto-fore issued to, or now held by, the city, be assigned

to him; Now, therefore, be it Resolved, That upon the Now, ineretore, be it Resolved, that upon the payment to the city treasurer of any and all unpaid taxes or assessments upon lot 57 of the Greig tract, situated on the south side of Champlain street, in the Eighth ward of this city, with interest at the rate of six per cent, upon the same, from the dates of the respective sales, where certificates thereof are now held by the city, and the statuatory rate upon all others held by other persons, and the payment of any costs and disbursements upon any action of or any costs and dispursements upon any action or foreclosure now pending brought by the City Attorney, the Mayor may be, and he hereby is, directed to assign to said Thomas D. Wilkin all the tax and assessment sale certificates now held by the city upon or against said lot; said assignments to specify that they are made without recourse against the city. Adopted.

By Ald. Selye—Resolved, That the City Surveyor be, and he hereby is directed to establish the east-

erly line of Lake avenue from Driving Park avenue to the north line of the Ninth ward on said avenue, and report the obstructions thereon, if any, to the Executive Board that the same may be removed under the direction of said board. Adopted. ROCHESTER, Aug. 29, 1887.

By Ald. Selve-Alderman Selye:

DEAR SIR—At the last session of the Common Council the following resolution was offered by

Council the following resolution was offered by you and was adopted:

"By Ald. Selye—Whereas, Certain ex-City Surveyors have upon retiring from such office at the end of their terms abstracted therefrom certain "field notes" and other data, rightfully belonging among the archieves of the City Surveyor's office.

"Therefore, be it resolved, That upon and after the council of the surveyor's office."

due notice upon such ex-city surveyors as may hold such "field notes" and other data rightfully belonging to the city surveyor's office, that the

city attorney be and he hereby is, directed to take

city attorney be and he hereby is, directed to take such legal measures as may be necessary to restore the same to their rightful custodian—the city surveyor. Adopted.'

The necessity for presenting said resolution, I understand, arose from the failure to find certain field notes relating to a survey for a proposed bridge across the Genesee river at the foot of Driving Park avenue, made previous to 1876, byGeorge W. Rafter, an employee in the City Surveyor's office, under William S. Grantsyn, then City Surveyor; also certain field notes relating to a survey for a proposed bridge across the Genesee river connecting Alexander street with Edinburg street, and made by myself. As Mr. Rafter never was City Surveyor, the resolution, as it stands, leads the public to infer that I have purloined and secreted papers of interest that lution, as it stands, leads the public to inter that I have purloined and secreted papers of interest that properly belong to the City of Rochester; a reputation I do not covet. Regarding the field notes of any employee under my predecessor Mr. Grantsyn, I know nothing, but the field notes relating to the proposed Alexander street bridge made by myself. were carefully reduced to maps, which were properly filed in the office of the City Surveyor, in Section A, of Maps and Profiles.

thon A, of Maps and Promes.

These maps should have been at the service of any inquirer at a moment's notice, and a failure to find them in their proper place by those having them in charge, must have been the result of oversight, as my late assistant, William S. Smith, Jr. discovered them within two minutes after begin-ning the search. Will you have the kindness to bring this explanation to the attention of the Common Council and reconsider said resolution to the extent, and in such a manner, that I may be re-

lieved from the force of its terms.

the force of its con-Very respectfully, OSCAR H. PEACOCK.

Ordered received, filed and published.

Ald. Selve moved that action on the resolution above alluded to be reconsidered. Adopted.

Ald. Selye moved as an amendment that it shall be the duty of the City Attorney to bring action for the recovery of all field notes and other data belonging to the City Surveyor's office that now may unlawfully be in the hands of any person not now connected with the City Surveyor's office.

The resolution as amended was then adopted.

By Ald. Hall—Resolved. That the City Surveyor be directed to establish the lines of Hibbard place.
