GENTLEMEN—In the matter of the extension of Murray park the Executive Board have to report that one of the parties largely interested in the that one of the parties largely interested in the projected improvement has caused the lines of the proposed street to be altered, thus forming an angle in the street, which appears to be contrary to the intent of the ordinance; and until the property owners unite upon which will be the established lines of the street, it would seem to be a waste of time to solicit prices on the value of the land which it is contemplated to purchase. Respectfully it is contemplated to purchase. Respectfully THOS. J. NEVILLE, Clerk.

Ordered received, filed and published. By the Clerk—

CITY SURVEYOR'S OFFICE, ROCHESTER, N. Y., Sept. 20, 1887.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN: It is found that a large number of the street monuments as established by what is known as the "Beardsley Notes," either fall be-low or project above the grades of the streets as they now exist. Many of these monuments, ac-

they now exist. Many of these monuments, according to all the information that can now be obtained, were originally placed below the sidewalks which had been constructed prior to the surveys upon which the aforesaid notes were based.

Those notes, if accurate, so far as relates to the monuments, would save a large amount of time and labor in this office,—for, as the case now stands, both flag stone and plank walks, in many instances, have to be torn up to find the monuments, or no little of the original survey made over to locate those which are concealed. This is an inconvenience, not to this office alone, but also to the property owners on the respective streets who wish to know how to fix the street lines. know how to fix the street lines.

For these reasons I would recommend that a contract, under the direction of the Common Council, be entered into for bringing all street monuments to the proper grades and replacing such of them as may be found defective.

Very respectfully,

Your obedient servant,

I. F. QUINBY, City Surveyor.

Ald. Kelly moved that the communication be referred to the Executive Board to be recommended to this Council what action is necessary to restore the monuments. Adopted.

By the Clerk-

CITY SURVEYOR'S OFFICE, ROCHESTER, Sept. 19, 1886.

To the Honorable, the Common Council of the City of Rochester:

GENTLEMEN-In response to the resolution of Ald. Kohlmetz and adopted at your meeting of the 6th inst. I would report that the grades of the sidewalks are usually made to conform to those of the curb lines and that the fall from the street line to the inner edge of the curb is three-eights (%) of an inch to the foot.

The curbs on Gorham street were set when the asphaltic improvement was made, and the grades thus established are accurate as believed. Very respectfully, Your obedient servant,

I. F. QUINBY, City Surveyor. Ordered received, filed and published.

By Ald. Kohlmetz-

To the Hon. the Common Council of the City of Rochester:

Rochester:
Gentlemen—Your Law Committee begs leave to report in reference to the following claims:
The claim of William H. Banker for one hundred (\$100) dollars damages alleged to have been sustained by him on the night of July 28th, last, on Alexander street at the corner of Park avenue, should be disallowed, for two reasons, first: that it has not been shown to the satisfaction of your committee that a liability exists against the city for the injury; and, second: in the opinion of your committee, if any liability does exist against the city, it was occasioned by acts of negligence on the part of the employes of the Warren-Scharf Asphat Paving Company in leaving open and unguarded excavations made by it in the repair of the sphalt pavement on Alexander street adjoining

asphalt pavement on Alexander street adjoining the street railroad company's tracks.

the street railroad company's tracks.

The bills of the commissioners of appraisal for the widening of Hand street should be allowed as follows: Bernard Schwab, fifty-four (\$54.00) dollars; John A. Bernhard, (\$60.00) dollars, and G. Fort Slocum, one hundred and eight (\$108.00) dollars for the reason, as we find, that one day charged for he was not present with the other commissioners.

Mr. Powers, the City Attorney, has already taken an apeal to the General Term from an order granted by the Monroe Special term, Mr. Justice Rumsey presiding, in the case of Gertrude Schum against The City of Rochester and others, awarding an injunction, unless the city should stipulate against The City of Rochester and others, awarding an injunction, unless the city should stipulate to waive its right of trial by jury. It was imperatively necessary that the appeal should be taken, as the time granted to the city to stipulate to waive its right of trial by jury, in order to prevent the issuing of an injunction, expires before your Honorable Body could give its consent to such appeal. The questions involved are important, and we concur with the City Attorney that they should be reviewed by the General Term. We therefore recommend the adoption of the following resolutions.

Respectfully submitted,

H. KOHLMETZ, H. G. THAYER, JAMES S. JUDSON, JOSEPH H. FEE, Law Committee.

By Ald. Kohlmetz:

To the Honorable, the Common Council of the City of Rochester:

GENTLEMEN—Your Law Committee begs leave to submit the following as its report: That by section three of chapter six hundred and six of the laws of 1886, as amended by section one of chapter six hundred and thirty-four of the laws of 1887, the Mayor is directed to annually appoint one or more persons to be inspectors of vinegar within the city, who are required to be sworn before entering upon their duties, and who have the power and authority, and it is made their duty, to inspect and examine all vinegar offered for sale. Your honorable body is also required, in case of such appointment being made, to fix and determine the salary or compensation of inspectors so appointed, and such salaries or compensation are directed by the act to be raised, levied or provided for in the annual tax levy. It is also by the act made your duty, where such inspectors are appointed, to provide a room or office, and all necessary chemicals and apparatus for the use of such inspectors and the proper discharge of the duties of their office. Mr. Richard Curran, in June, 1886, was appointed, and on this within the city, who are required to be sworn bedischarge of the duties of their omee. Mr. Richard Curran, in June, 1886, was appointed, and on this day he was reappointed by his honor, the Mayor, as vinegar inspector, and he has, as your commit-tee is informed, duly qualified as such. It there-fore becomes your duty, under said statute, to fix his compensation, and also to make the necessary provisions for office room, etc., for him, as aforesaid, and which action your committee begs leave to suggest should be taken by your honorable body.

H. KOHLMETZ,

JOSEPH H. FEE, GEO. W. ELLIOTT, JAMES S. JUDSON. Law Committee.

Ordered received, filed and published. Ald. Kollmetz moved that the chair appoint a committee of five to investigate the necessary wants of the Vinegar Inspector in relation to chemicals, apparatus, office, salary, &c., and report to this Board at its next meeting. Adopted. By Ald. Kelly-

ROCHESTER, Oct. 4th, 1887.

To the Honorable the Common Council:

GENTLEMEN—Your Map and Survey Committee, to whom was referred the bill of I. F. Quinby (\$3...27) for disbursements and the bill of M. Grenagle for livery (Surveyor's office), respectfully present the following report:

That after investigating the facts in the case find that the bill of the City Surveyor for disburse-ments was incurred for street car tickets and meals furnished employees while detained upon work on the outskirts of the city and for sundry small items disbursed for stakes, &c., for work on public improvements.

While your committee commend the saving of time by the judicious use of street car tickets, and approve the using of the same by employees engaged in work on the outskirts of the city, we do not recommend the furnishing of meals and will not approve of such bills being paid hereafter.

The bill of Mr. Greenagle, \$12, for livery for the use of the City Surveyor in the inspection of improvements throughout the city, would recommend that the bill be paid, and would suggest that in order to save the city expense, that the City Surveyor call upon the Executive Board for the use of one of their horses, owned by them, when the occasion required.

Your committee recommend the adoption of the following resolution.

J. MILLER KELLY, H. KOHLMETZ, C. STEIN.
J. S. JUDSON,
D. W. SELYE,

Committee.

Adopted.

By Ald. Kelly—Resolved, That the City Clerk be authorized and directed to draw orders on the Treasurer in favor of I. F. Quinby for \$37.27 and one in favor of M. Greenagle for \$12, and charge Contingent Fund.

Adopted by the following vote:

Ayes—Ald. Tracy, Sullivan, Marson, Kohlmetz, Fritzsche, Elliott, Foley, Hall, Swikehard, Judson, Stein, Bohrer, Kelly—13. Nays—Ald. Selye—1.

Ald. Elliott moved that the rule relating to bills be suspended and that the health bills be placed upon the budget.

Adopted by the following vote:

Ayes—Ald. Tracy, Sullivan, Marson, Kohlmetz, Fritzsche, Elliott, Foley, Hall, Swikehard, Judson, Stein, Bohrer, Kelly—13.
Nays—Ald. Selye—1.

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE.

By the Clerk--

ROCHESTER, N. Y., Oct. 4, 1887.

o the Honorable, the Common Council of the City of Rochester

GENTLEMEN—I hereby appoint Richard Curran, Esq., as Inspector of Vinegar for and within the city of Rochester, pursuant to Section 3 of Chapter 606 of the laws of 1886, as amended by Section 1 of (hapter 634 of the laws of 1887.

CORNELIUS R. PARSONS, Mayor.

Ordered received, filed and published.

By the Clerk-

OFFICE OF EXECUTIVE BOARD, ROCHESTER, N. Y., Oct. 4, 1887.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN—The Executive Board would respectfully report that Taylor street, which was directed to be graded by your honorable body, is yet in the condition that it was when that section of the city was used as farmland, and a thrifty growth of plum or other fruit trees add to its rural appearance. The Executive Board respectfully suggest that an ordinance for the grading of such a street would be a better means of improving it than to do the work out of the general highway fund, which is supposed to be created for the maintenance of streets already in "existence," and used

for public purposes. Respectfully,
THOMAS J. NEVILLE, Clerk.

Ordered received, filed and published.

By the Clerk-

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, Oct. 4, 1887.

To the Honorable the Common Council of the City of Rochester:

of Rochester:
Gentlemen—The Executive Board herewith respectfully calls the attention of your Honorable Body to the condition of that portion of Jay street sewer west of Childs street. In this sewer is a deposit of twelve inches of mud or silt, and, if not removed, the Ries park sewer, now under construction, and which is to connect with the Jay street sewer, will be comparatively useless, as this obstruction at its outlet will prevent the flow of sewage. An ordinance should be adopted by your Honorable Body for the cleaning of the Jay street. Honorable Body for the cleaning of the Jay street sewer.

Respectfully, THOS. J. NEVILLE, Clerk. Ordered received, filed and published.

By the Clerk-

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, Oct. 4, 1887.

To the Common Council:

GENTLEMEN: Pursuant to your instructions the Executive Board held a conference with the owners of property proposed to be taken for the exers of property proposed to be taken for the ex-tension of Gorham park, and ascertained the prices demanded for the land were considered above its value, and at the request of several of the residents on the park, who would be assessed for the improvement, the Executive Board recom-mend that your Honorable Body take the usual proceedings for the appointment of a commission to condemn the land. to condemn the land.

Respectfully,
THOS. J. NEVILLE, Clerk.

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, Oct. 4th, 1887.

To the Common Council:

GENTLEMEN: In the matter of the acceptance of OBSTILLMENT: In the matter of the acceptance of Dubelbeiss park the Executive Board would respectfully report that a map of said park has been duly filed in the County Clerk's office, but the projector of said park has failed to properly monu-ment it in accordance with the requirements of a resolution adopted by your honorable Board.

The park is laid out from Bay street to that section of Clifford street which is yet in the hands of a commission, and therefore not opened or dedi-cated to public use. Respectfully, THOS. J. NEVILLE, Clerk.

Ordered received, filed and published.

By the Clerk-

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, Oct. 4, 1887.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN—The Executive Board is informed that the assessment rolls for Lewis street sewer and the reconstruction of Caroline street sewer, the former of which was certified by the Assessors November 29, 1886, and the latter September 21, 1886, are not yet confirmed. The confirmation of these are not yet confirmed. The confirmation of these rolls was postponed on motion of Ald. Mandeville and Weider; the Lewis street roll on the ground of alleged bad construction of the sewer, and the Caroline street sewer because no adequate outlet had been provided for it. In the case of the Lewis street sewer the Executive Board caused a thorough inspection to be made, and found no just cause for complaint in regard to its construction, and last fall a proper outlet was provided for the and last fall a proper outlet was provided for the Caroline street sewer.

The contractors for the above improvements

The contractors for the above improvements were paid about one year ago, and in consequence of the non-confirmation of the rolls no provision has been made to collect the money which has been advanced to the contractors.

There is no reason for longer delay in the confirmation of these assessment rolls, as the city has already lost interest on about \$1,800 for one year. Respectfully.

Respectfully

THOMAS J. NEVILLE, Clerk.

Ordered received, filed and published.
By Ald. Marson—Resolved, That the assessment rolls for Caroline street sewer reconstruction, ordinance No. 2,936, and Lewis street sewer, ordinance No. 2,936 be, and hereby are, confirmed.
Adopted by the following vote:

MAYOR'S OFFICE, ROCHESTER, October 13, 1887.

Gentlemen of the Common Council:

I hereby return disapproved the resolution adopted at your last regular meeting authorizing the Executive Board to purchase a lot on the west side of the river, at an expense not exceeding twelve hundred dollars, for the purpose of erecting thereon a hose carriage house for the use of the ing thereon a hose carriage house for the use of the fire department of the city of Rochester. I object to the resolution because of its indefinite character. It should expressly state the size of the lot to be purchased, its location and the exact price to be paid for the same. These are things the taxpayers are entitled to know, and we certainly cannot take its library action. intelligent action ourselves unless they are embodied in your resolution.

MAYOR'S OFFICE, ROCHESTER, N. Y., Oct. 13, 1887.

To the Members of the Common Council:

To the Members of the Common Council:

For the reasons given in my veto of the resolution providing for the purchase of a lot on the west side of the river, to be used for fire department purposes, I also return without my approval the resolution adopted at the same meeting which authorizes the Executive Board to purchase a lot on the east side of the river, to be devoted to like uses. This last resolution, if anything, is more objectionable than the first: for while it also fails to state the size and location of the lot to be purchased, there is no limit whatever to the price to be paid. Both of these resolutions should expressly state where it is proposed to erect these hose carriage houses, the dimensions of the lots on which they are to be erected, and should particu-

hose carriage houses, the dimensions of the lots on which they are to be erected, and should particularly state what they are to cost the city.

OFFICE OF THE CITY ATTORNEY, NO. 19 CITY HALL BUILDING, ROCHESTER, N. Y., October 17, 1887.

Hon. Cornelius R. Parsons, Mayor:

DEAR SIR—In answer to your oral request, I would say that, in my opinion, the construction of the terms of the charter contemplate that the Common Council shall, in the purchase of land especially, exercise whatever discretion may be thereby required, and not leave it to another tribunal or body to exercise such discretion; and,

therefore, the resolutions granting to the Executive Board the discretion, in the one case of selecting a site, including the size and location, and the other, in addition thereto, the cost thereof, are such as the charter seems to require of the Common Council and which ought not to be thus delegated to another body; and, therefore, I am of the opinion that the resolutions should be modified so as to require the Executive Board to ascertain and arount back to the Common Council for their conreport back to the Common Council, for their consideration, the sites that can be obtained, and the cost thereof, and that the Common Council shall then decide which of them shall be selected, and direct the purchase thereof.

Respectfully yours,
IVAN POWERS, City Attorney.

street (sometimes called the Boulevard) to Lake avenue park; and with a branch or loop line of single track commencing at the intersection of Edinburgh street and Plymouth avenue, thence along Edinburgh street to South Fitzhugh street, thence Edinburgh street to South Fitzhugh street, thence along South Fitzhugh street to West Main street, thence across West Main street and the tracks of the Kochester City & Brighton Rainroad Company to North Fitzhugh street, thence along North Fitzhugh street to Church street, thence along Church street to the center line of Sophia street; together with the necessary turn-tables, branches, transcript gripps emitphes and suitable stants. turnouts, sidings, switches and suitable stands.

Your petitioner heretofore made application for Your petationer herectore made approaches the right to construct, maintain, operate and use a railroad upon substantially the line above described, and your honorable body, after the hearing of allegations from all parties appearing, passed a resolution providing for the sale of a franchise. In persuance of that resolution the treasurer of the city of Rochester duly gave public notice of the sale of such franchise, but on the morning of the sale said treasurer was enjoined from making it, at the suit of one of the directors of the Rochester City & Brighton Railroad Company. The injunction was granted upon the ground that some of the tion was granted upon the ground that some of accorditions imposed in the resolution providing for the sale were unreasonable. We were in attendance upon said sale with \$3,000 deposit required by the contract and ready to hid for the franchise. The treasurer adjourned such sale, and a motion was made on his behalf to dissolve such injuntion, which motion was argued before Hon. Charles C. Dwight, one of the justices of the Supreme Court

The said resolution adopted by your honorable body provided that the company which should obtain the franchise should pay a certain portion of the expense of street improvement through the streets in which the road was to run, and should keep the part of the street occupied by the company in repair. Such resolution also required the company which should obtain the franchise to lay and maintain a center grooved rail, the width of the opening of the groove not to exceed three-fourths of an inch. Such resolution also required the com-pany which should obtain the franchise to provide a conductor, as well as a driver or grip-man, upon Such resolution contained certain other conditions and restrictions, all of which would seem to be in the interest of the tax-payers of the city of Rochester and of those having occasion to use the streets along which the proposed road was to be laid and operated. The judge, before whom the motion was argued, did not pass upon any of the questions which were raised before him, except so far as to hold that those questions should be de-cided by the court, after a trial upon the merits, in which trial witnesses could be examined and crossexamined upon the question of the reasonableness of the requirements.

Your petitioner was and is r ady, if it can obtain a franchise, to construct and operate a road upon the line described in the said resolution, in all respects in strict accordance with the terms of said resolution; but the said action can not be tried until December, and the policy of delay which so until December, and the policy of delay which so far has been pursu d by those interested in the Rochester City & Brighton Rairoad Company, and which we believe will be pursued with the view of preventing the construction and operation of any competing line in this city, induces us to make this new application, to the end that your honorable body may adopt, if you shall deem proper, a resolution which shall not contain the restrictions complained of by that company beligning that complained of by that company, believing that thereby the new line can be constructed sooner than by standing on the resolution as adopted.

We take this course, believing nevertheless that the courts will sustain the action taken by your honorable body in the passage of the former reso-We beg to assure you and the citizens of Rochester, that this company proposes, if honorable, earnest and persistent effort can accomplish it, to obtain the right to build and operate a cable road upon the line covered by this application, as well as upon other lines in this city. We believe that competing lines can be built and operated at a profit, and that the people of this city, or at least

a great majority of them, favor the construction and operation of such competing lines. We respec fully ask your honorable body to pass a resolution providing for the publication of the notice required by law of the time and place when you will first consider this application. The said Rochester Cable Rairoad Company desires to operate the railroad upon the line hereinbefore described, we she proton power and therefore agis consent. by cable motor power, and therefore asks consent of the city of kochester hereby that such road may be so operated.

In witness whereof, the said the Rochester Cable Railroad Company has, by its President, hereunto set its hand and caused its corporate seal to be

hereunto affixed.
V. FLECKENSTEIN, President,

Ordered received, filed and published.

to construct and use which is nereuy apparent to construct and use which is nereuy apparent known as the Prall system.

In this system the water is heated at the central station to the desired temperature, but is not allowed to change into steam, the making of steam being prevented by keeping the pipes and boilers full of water. The water thus heated is forced through pipes, to be supplied from the boiler, back to the boiler, maintaining throughout the system a constant circulation. The buildings to be tem a constant circulation. The buildings to be supplied are connected with the hot water circulating main by a small pipe, with an internal diameter of from one-eighth to one-half inch. For ameter of from one-eighth to one-liair inch. For heating and power this pipe is connected inside the walls of the house or building with a converter, which is simply a steam drum or dome. As the water enters the converter, the pressure being removed, it is converted into steam, while the cooled moved, it is converted into steam, while the cooled water passes through a water trap into a return main which is laid with the circulating main in the same trench, and is conveyed back to the central station, where it is pumped back into the boiler, thus utilizing the heat which remains in it.

The steam pressure at the converter is regulated automatically by means of a pressure guage, which can be set. This renders it possible to have any pressure of steam and consequently any de-

automatically by means of a pressure guage, which can be set. This renders it possible to have any pressure of steam, and, consequently, any degree of heat. The pipe conveying the water from the main into a building need in no case have a greater internal diameter than one-half inch.

Actual practice has shown that water heated tofour hundred degrees, Fahrenheit, can be circulated through one mile of pipe, at a speed of about ten feet per second, and returned to the boiler with a loss of no more than two per cent. in heat.

The boilers to be used are absolutely safe up to one thousand pounds pressure, while the pressure to which such boilers will be subjected will never exceed three hundred pounds. The mains to be laid in the streets will be extra heavy, and capable of curtoising from the testing the formula of curtoising from the testing and the streets will be extra heavy, and capable of curtoising from the testing and the streets will be extra heavy. of sustaining from ten to sixteen times the maximum pressure which will ever be brought upon them. Such mains will be first tested by the manufacturer, again tested here before being placed ufacturer, again tested here before being placed in the trench, and then, section by section, again tested after connection is made. Such mains will be covered with a thick coating of asbestos wool, to prevent loss of heat. Over the main will be laid a double brick arch, with an air space between. The pipes will be fitted with automatic safety valves, so arranged that in the event of any damage, either accidental or malicious, the valve will close and shut off the escape of water from the main, allowing only that to escape which might be in the pipe between two safety valves, an amount that would be absorbed by the non-conducting material within the conduit safety valves, an amount that would be absorbed by the non-conducting material within the conduit in which the pipes are laid. The house and building connections will also be provided with safety valves. Should any accident occur, the amount of water contained in the few feet of pipe, of an internal diameter of not to exceed one-half inch, would be of course very small, and could do no damage, as it would be entirely taken up by the covering of the pipes. covering of the pipes.

Buildings which are already supplied with pipes and radiators for steam heating can be connected with this system at very slight expense, the same pipes and radiators being available for use in this system as well as in any other.

The cost to the consumer of heat supplied by this system would not exceed two-thirds of the cost of producing the same heat from his own boilers, or with his own furnace.

This system was in operation last winter in Washington, and its success was demonstrated beyond question. The following is a letter received from Lansburg & Brother, the largest dry goods house in that city:

Lansburg & Brother, Dry Coods, Nos. 420, 422, 424, and 426, 7th street, Washington, D. C., June 29th, 1887,

DEAR SIR: In reply to your inquiry as to the

heating of our building by the Prall system, we would state:

The heat was turned on, on the 10th day of February (at a very inclement season) and kept up until the 28th day of the same month; during that whole period the only objection we had to it was that the heat was too great, yet at no time was the pressure on the "Convertor" greater than greater than ten pounds.
When heated by our boilers, it was generally 9

when heared by our boners, it was generally vo 9:30 a.m. before we got a circulation through all our radiators, yet with the Washington Heat and Power Co.'s pipes, the building, which contains 65,600 cubic feet, was very comfortable when we were ready to open the store each morning,

about 7:30.

In our opinion this system recommends itself, and is in every way preferable to the location of boilers in buildings.

Very respectfully,

LANSBURG & BROTHER.

During the present season, a company organized by leading Boston capitalists has been engaged in putting in in that city a two mile plant, and that putting in in that city a two mile plant, and that company will be in readiness to supply steam for heating and power by the tenth of the present month. It is our intention to invite a committee to visit Boston after the plant there is put in operation, for the purpose of examining carefully into its workings, to the end that a report may be made

to your Honorable Body upon the same.

We respectfully request that this application may be referred to a committee of your Honorable Body, before which we may be allowed to appear and state more in detail as to the characteristics of the said system. And we believe that a careful examination will satisfy every unprejudiced per-son that the application hereby made, should, in the interest of the growth and prosperity of this

city, be granted.

To the Honorable the Common Council of the City of Rochester:

of Rochester:

GENTLEMEN: On the 25th day of October, instant,
I, as administrator of the estate of Anna Graham, deceased, recovered judgment against the
city of Rochester for \$2,309.59 damages and costs.
It was a great surprise to me, and I think to
many others, that the jury rendered so small a verdict; It should have been for \$5,000. In view of
the fact that the judgment is so small I trust that
your honorable body will order its immediate payment. I am greatly in need of funds, not having
sufficient means to assure me against the hardships
of the coming winter. Some of the bills attending
the funeral of my daughter have not yet been
paid, while others have been paid by funds loaned
to me for that purpose by friencs.

to me for that purpose by friencs.

I am informed upon authority that many prominent citizens, and among them some of the largest then cutzens, and among them some of the largest taxpayers, have freely expressed the opinion that this claim ought to be paid at once. I am sure that no taxpayer would begrudge paying his share of this small verdict if he knew the circumstances of the case, and the condition in which I have been

I therefore ask that you order the payment of the judgment in question without delay. Very respectfully yours,

MARY A. GRAHAM. respectfully yours, MARY Kochester, Oct. 26, 1887. Referred to the Law Committee. By Ald. Elhott—

ROCHESTER, N. Y., Oct. 30th, 1887.

MY DEAR ELLIOTT: I send herewith a copy communication to the Common Council from Mrs. Graham, the mother of the girl who was killed in the Court street bridge accident.

The judgment is so small I trust the city will pay it. The city will look to the Western Union for the amount of the judgment, and there is, therefore, nothing to be gained by appealing and piling up the costs and expenses.

It is a case where much more than \$2,000 should be paid to Mrs. Graham. She prefers to take the amount of the judgment, however, rather than go be paid to a....
amount of the judgment, nowever,
through with the trial again.
I hope you will feel that it is a duty as well as a
pleasure to vote to pay the judgment.
Very truly yours,
WALTER S. HUBBELL.

Hon. Geo. W. Elliott.

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE.

By the Clerk-

MAYOR'S OFFICE, ROCHESTER, October 26, 1887.

Gentlemen of the Common Council:

At a meeting of your board, held on the evening of the 18th inst., a resolution of which the following is a copy, was duly adopted:

"By Ald. Fee-Resolved, That for the purpose of securing better and more uniform lighting of the streets of the city of Rochester whereon are now streets of the city of Rochester whereon are now placed gas lamps or electric lights, the Lamp Committee be, and hereby is, authorized and directed to open and keep a book wherein, on or after October 25th, 1887, shall be entered the name of each street in the city of Rochester whereon any such gas lamps or electric lights are now placed, together with the number of said lamps or said lights, the number of said gas lamps not burning, the number of said electric lights not burning; and that such entries shall be made in said book on each and every day thereafter, Sundays excepted. Adonted.'' and every day Adopted.

There certainly can be no objection to the Lamp Committee securing to the people of Rochester all the light under the various contracts which gas companies and electric light companies are bound to furnish, and there, certainly is no objection to the Lamp Committee causing a record to be kept of the public lamps of the city, and those from time to time not found lighted, provided that the same be done without incurring

expense to the city.

The resolution is open to objection, however, because it does no particularize in what manner the work suggested is to be accomplished.

It would seem to clothe the Lamp Committee with power to employ an unlimited number of persons to watch the public lamps, or, at least, whose duty it would be to watch them—and report those out it would be to water them—and report those mot found lighted to some person or persons—the resolution does not say to whom—for record.

I am opposed to every resolution which is not plainly drawn and which does not explicitly state how the object desired is to be accomplished.

The resolution is indefinite, because it confers upon the Lamp Committee unlimited power to employ help, and if it does not mean the employment of additional help, then it should not have been offered in its present form and passed; and if it does not mean the employment of additional help, is faulty, because of its extremely indefinite

character in respect thereto.

A resolution calling upon the gas and electric light companies to furnish to the Common Council light companies to furnish to the Common Council a list of the location of their various lights, and a request to the Police Department, and to all citizens, to report daily by letter or otherwise, to the Superintendent of Police, for instance, all defective lamps, or those not found burning the night previous, would, certainly, be timely and the record could be transmitted each day or week to the City Clerk for your information.

City Clerk for your information.

The resolution, as it stands, is objectionable, and

I hereby veto it.

CORNELIUS R. PARSONS, Mayor.

The President stated that the question to be "shall the resolution stand notwithstanding the objections of His Honor the Mayor." The resolution was lost by the following vote:
Nays—Ald. Tracy, Sullivan, Fee, Kohlmetz,

Fritzsche, Elliott, Foley, Hall, Swikehard, Judson, Stein, Bohrer, Kelly, Thayer—14.

By Ald. Elliott. (by request). That not more than one (1) person be so employed and that the person so employed by the Lamp Committee shall be paid not exceeding (\$70) dollars a month from November 15, 1887, to April 1, 1888, and that said person be required to give a bond in the sum of 500 dollars for the faithful performance of his duty.

for the faithful performance of his duty.

Ald Foley moved that the resolution be referred to the Lamp Committee and His Honor the Mayor.

Lost. Lost.

Ald. Elliott moved as an amendment that the Police Commissioners be asked to require the policemen to report each day the number of lights unlighted on their beats, and that these facts be reported every day to the person so to be employed by the Lamp Committee. Adopted.

The resolution as amended was then adopted.

By Ald Folar.

the line of Locust street, will be submitted for your consideration at your regular meeting to-night.

May I be permitted to say that the swing bridge cannot be adapted to the locality at which it is proposed to place it, at much, if any, less expense than that of a new wrought iron bridge, including the abutments, retaining walls, filling in, sidewalks, etc., for the one or the other.

In the one or the other.

In the near future it is probable, if not inevitable, that public necessity will demand that a substantial stone culvert be constructed through the whole of the "Deep Hollow creek" chasm, from the west line of the city to the Genesee river.

The construction of such a culvert across Locust street would cost but little more than a suitable

street would cost but little more than a suitable bridge, provided that only so much of the filling in be immediately done as to make general traffic through the street practicable—additional filling in to be done gradually and at small expense to the parties to be assessed therefor.

Submitting this suggestion, I am very respectfully, Your obedient servant,

I. F. QUINBY, City Surveyor.

GENTLEMEN-The undersigned begs leave to sub-

GENTLEMEN—The undersigned begs leave to submit herewith the following summary of the work performed under his direction during the past month, on the preliminary survey and examinations for the proposed east side trunk sewer. Within a few days after October 1st four complete leveling parties, each consisting of four men, were placed in the field, under the supervision of Mr. Oscar H. Peacock, to test the levels recorded upon the topographical map of the city made in 1876, also to fully supply ment the work performed by taking all additional necessary levels in the whole of the Sixteenth wat and parts of the Ffth, Seventh, Tenth, Twelfth, birteenth and Fourteenth wards. Nearly the whole of the month was occupied with this work fiside of the city limits, and the data so obtained may now be platted upon the map. Since finishing their work within the city all of the four parties have been engaged in running similar series of levels and surveys in those portions of the towns of Brighton and Ironthose portions of the towns of Brighton and Irondequoit, which are adjacent to the eastern and northern boundaries of the city, in order to obtain sufficient data to exhibit the general topography thereof, and to define the extent of territory in said towns, which may be drained by the proposed

sewer. This part of the work is progressing as rapidly as possible, and will doubtless be completed in a few weeks.

It has also been considered expedient to ascer the same been considered expendent to ascer-tain, by accurate instrumental survey, the extent of the swampy lands and marshes at the head of Iron-dequoit bay, in view of the fact that Thoma-creek and other natural water courses, which have heretofore been used as carriers of raw sewage

creek and other natural water courses, which have heretofore been used as carriers of raw sewage empty into the southern portion of said bay; and the question will arise as to the propriety of continuing the use of these creeks for such purpose. One of the field parties has accordingly been assigned to the survey of this locality, and has been occupied therewith for several days past.

In the meantime, thirty-one self registering flood-water guages, for ascertaining the depth of flow in the principal outlet sewers of the entireastern portion of the city were designed, constructed and erected at as many suitable points. Two rain gauges have also been made and set up at the Rochester Bridge Works and the Municipal Gas Works, through the kind permission of Mr. J. F. Alden and Mr. J. Y. McClintock, respectively. With these two new gauges, in addition to those maintained by the U. S. Signal Service on Powers Block, and by the Executive Board at Mt. Hope reservoir, an accurate record of the depth and distribution of any considerable rainfall in the city will be obtained.

The object of securing the data desired from the aforesaid sewer and rain guages, is to determine, if cossible the relation between the amount of water.

aforesaid sewer and rain guages, is to determine, if possible, the relation between the amount of water which falls as rain upon the drainage areas of the several sewers, and that which actually flows of from said areas through the sewers. The sewer guages, moreover, will indicate whether any of the guages, moreover, will indicate whether any of the existing outlets are occasionally surcharged with storm-water, and to what extent; and the information thus obtained will be of the utmost importance in determining the proper dimensions which should be given, not only to the proposed intercepting sewer, but also, to all other local sewers within the city.

Nothing definite concerning the discharge of the Nothing definite concerning the discharge of the sewers during heavy rainfalls can now be given-since the light rains which have fallen during the past month were quickly absorbed by the soil after a protracted drought, and did not affect to any appreciable extent the ordinary flow of sewage. It is to be hoped that before the winter sets in several characteristics and appear to the property of t sharp and severe rain storms will occur, in order to

A number of measurements of the velocity of the current in the Genesee river, between Brew-A number of measurements of the venery and the current in the Genesee river, between Brewer's dock and Charlotte, have also been made during the present low stage of the water. The results obtained show that on the surface the current is affected greatly by the wind, floating objects moving up, down or across the stream, according to the direction of even slight breezes; but below the surface a very slight and steady current toward the lake is found, the average rate of motion being only one mile in nearly eighteen hours, and the greatest rate one mile in about fifteen hours. This fact is of much significance in determining the availibility of the river as a permanent outfall for the sewage of a large and rapidly growing city. In the hydraulic work above mentioned two careful observers, and sometimes more, are required for constant service in addition to the force of assistants in the field, so that during the greater part of the past month twenty men have been regularly engaged in the prosecution of the work.

During the coming month the surveys and levels

During the coming month the surveys and levels in Brighton and Irondequoit will be continued, and other velocity measurements in the river taken. Experiments will also be made whenever practicable, with the view of ascertaining whether any pronounced current exists in the lake between the river and the bay; but as such experiments can be conducted satisfactorily only in calm weather, it is doubtful whether any reliable data can be secured during the remainder of this year.

It may also be remarked that no definite location for the proposed two locations are the proposed two locations.

for the proposed trunk sewer has yet been decided upon, and that this important conclusion can not be reached until all of the necessary data have first

been secured and thoroughly considered. The work now being performed is of a broad scope, and will be useful in the proper presentation of the problem and its ultimate solution in every aspect. Without it there would be too much left to individual judgment founded upon insufficient premises. Respectfully submitted.

To the Honorable the Common Council of the Citu of Rochester:

GENTLEMEN—Your Law Committee, to which was referred the resolution offered by Ald. Kohlmetz on the 18th day of October, 1887, reciting that one August M. Englert had been theretofore directed to make a certain barn or building to comply with the ordinance of the city, and which said Englert had neglected or refused to do, and that the said Englert be directed to remove said barn from his premises within ten days, would respectfully report.

from his premises within ten days, would respectfully report:

That it has taken the said matter under consideration, and would refer your Honorable Body to the resolution introduced by Ald. Stein, found at page 263 of the Common Council proceedings which, after reciting that the frame building upon the premises of said August M. Englert is a common nuisance, and may be removed and abated as such by the Common Council, directs that unless the outside walls of said building be constructed of

brick or stone, or some metallic or noncombustible material, under the direction of the Fire Marshal, that the said August M. Englert be proceeded against for the penalty prescribed by the charter. And, whereas, it is claimed to your Committee on the part of said Englert that he has complied with the part of said Englert that he has complied with the requirements of the said resolution, your Committee would recommend that that fact be as-certained by the judgment of the court, and that the City Attorney be directed to prosecute a suit for the recovery of such penalty, at once, and that until the determination of such suit, the resolution offered by Alderman Kohlmetz lie on the table.

offered by Alderman Kohlmetz lie on the table. In the matter of the petition for the payment of the claim of Anna Graham, your committee would report that they have taken the same under consideration, and while they have given due weight to the suggestions made by Mrs. Graham and her attorney, Mr. Hubbell, in view of the fact that the points decided by Mr. Justice Macomber at the last Circuit, leaves the matter in some serious doubt as to the ability of the city to recover from the Western Union Telegraph Company, either for this action or for the expense of repairing the bridge, your committee would therefore recommend that the said case should be appealed, and an opinion given by the appellate court as to recommend that the said case should be appealed, and an opinion given by the appellate court as to the correctness of the judge's decision and rulings before whom the case was tried.

Gentlemen of the Common Council:

Final ordinance for Monroe Avenue outlet sewer around Kondolf's pond, is hereby returned disapproved, for the reason that the description of the territory to be assessed for the expense thereof is not, in my opinion, described with sufficient certainty to enable the assessors to intelligently make the assessment, and their action in that regard might cause the expense of the sewer, (estimated as 1300000) to foll more this city.

\$1,500.00) to fall upon this city.

This opinion is concurred in by other city officials who have given the matter attention.

CORNELIUS R. PARSONS, Mayor. The President stated the question to be "shall the ordinance stand notwithstanding the objec-

Gentlemen of the Common Council:

A resolution, adopted at your last regular meetary would seem to empower the Lamp Committee to employ a person for the next five months, at the rate of \$70 per month, to receive daily reports from the Police Department of lamps not found from the Police Department of lamps not found lighted by the policemen on their various beats. I am quite sure the Police Department will cheerfully file such reports with the clerk of your board for your information, and, therefore, the expense proposed would be wholly unwarranted, and the said resolution is hereby returned disapproved.

To the Honorable, the Common Councii:

GENTLEMEN-The Executive Board would respectfully ask your honorable body to cause to be placed at and around Mt. Hope reservoir electric lights sufficient to light up the grounds in that vi-cinity. The city property has suffered depredations about the reservoir's grounds and articles of value about the reservoir's grounds and articles of value have from time to time been stolen. The Executive Board is of the opinion that if proper lights were placed about the reservoir the danger to life, limb and property will be materially lessened, the above described property being bordered by the public highway.

The Executive Board respectfully calls your attention to this matter and ask that immediate ac-tion be taken. Respectfully yours, THOMAS J. NEVILLE, CLERK.

To the Honorable, the Common Council:
GENTLEMEN: On three separate oc asions the
Common Council of this city adopted a resolution Common Council of this city adopted a resolution fixing a time for considering the application of the Rochester Cable Railroad Company for the right to construct and operate a railroad on what is known as the Plymouth avenue route. Each of the resolutions adopted by the Common Council was approved by the Mayor of the city.

The Mayor did not designate two daily newspapers of the city in which the notice for the hearing under each of the resolutions was to be published. He was repeatedly requested so to do by repre-

He was repeatedly requested so to do by representatives of the Rochester Cable Railroad Com-

In consequence of such failure, no hearing has been had upon the application under any of the

The resolutions, which are necessarily quite lengthy, have been published in the official proceedings of the Common Council twice more than would have been necessary, if the Mayor had designated the papers as the law contemplates; and therefore considerable expense has been incurred by the city considerable expense has been incurred by the city of Rochester for printing, which would not have been incurred if the Mayor had taken the trouble to name the daily papers in which publication could be made after the passage of the first resolution.

The morning papers publish to-day a communication from the Mayor to the City Attorney, and an opinion given by the City Attorney in reply.

At the time the Mayor wrote the letter referred

to, and for more than a week prior to the writing of such letter, he knew that the Rochester Cable Railroad Company was ready and willing to pay the expense of publishing the notice required to be given of the time and place for the consideration of that company's application. It was expressly stated to the Mayor at the time when this company, through its authorized representatives, was endeavoring to obtain from the Mayor a designation of the papers in which the notice might be published, as it had been previously publicly stated to the Common Council, that the expense of pub-lishing the notices would be paid by the Cable Company as soon as the amount of the expense was ascertained.

The city clerk and the city attorney have each been informed by representatives of this company that such expense would be paid upon a statement of the amount thereof being furnished. This prop-

of the amount thereof being turnshed. This proposition this company again and now makes.

This company is desirous of obtaining a hearing upon its application, long since presented, and thrice acted upon by your honorable body. It does not recognize any right in the Mayor, after having approved your proceedings with reference to this application, to impose conditions not contemplated by law, or by non-action, when action is expressly enjoined upon him by law, to nullify the resolu-tion adopted by the Common Council.

No taxpayer of Rochester regrets more than does this company the expense which has been made already in the matter of the sale of street railroad franchises; but that expense has been caused mainly by others than this company.

caused mainly by others than this company. The City Attorney seemed to think it necessary or advisable to go outside of the questions asked him by the Mayor, and to state that "if a new resolution for the sale of the route from Plymouth ave. to the city line' (which is a route that nobdy has asked for and does not exist) "be adopted, based upon a new application," it would repeal by implication the former resolution providing for the sale of the franchise. He states further that it (that is, the adoption of such new resolution) may injuriously affect the action now pend-

that it (that is, the adoption of such new resolution) may injuriously affect the action now pending and ready for trial, in which the injunction preventing the sale of the franchise was granted. It is sufficient to remark that the questions submitted to the City Attorney by the Mayor related to the consideration of an application for a franchise, and not to the resolution which might or might not be adopted after such consideration.

The statement that the action referred to may be "injuriously affected" has, of course, no meaning. We do not know whether the City Attorney means to say that the cause of action which the Rochester City & Brighton Railroad Company, through its director, has, is "injuriously affected," or whether the interests of the city will be "injuriously affected," or whether the defence of the treasurer to the cause of action is to be "seriously affected." It does not require the solemn assurance of the City Attorney to establish the proposition that a new grant by the Common Council of a franchise upon the Plymouth avenue line, will by implication repeal a grant formerly attempted to implication repeal a grant formerly attempted to be made.

We respectfully request that the application

heretofore made by this company be duly considered by your honorable body at a time to be fixed. In addition to paying the expense of publishing the notice required by law to be given, which this company hereby agress to do immediately upon a statement being mediately appearance of the amount of grade of the second contraction. statement being made of the amount of such expense, this company hereby agrees to pay at once one-half of the expense of publication of notice and proceedings with reference to the grant of railroad franchises since July 1st last, providing the Rochester City & Brighton Railroad Company will pay

the other half of such expense.

or Hochester, designated by the Mayor of said city. Adopted.
Ald. Kelly moved that the resolution in relation to the Rochester Cable Railroad Company, and published at page 319, current proceedings, be reconsidered. Adopted.
Ald. Kelly moved that the resolution be amended so as to read that the application will be considered January 10th, 1888, instead of December 6th, 1887.

Adopted.

By Ald. Kelly—Whereas, Numerous applications have been made to the Common Council of the city of Rochester by different corporations for railroad franchises in said city, which applications have been acted upon by said Common Council, and notices and resolutions published at considerable expense to the taxpayers of said city, and without benefit to such taxpayers from such action; therefore

Resolved, That no application for a street rail-road franchise by a corporation will be acted upon by this Common Council until all bills for adver-tising incurred since July 1, 1887, on account of any

application for any franchise by any such corpora-tion shall have been paid by such corporation in full to this date, and satisfactory assurances given that all expenses incurred in future on account of any and every application by any corporation, will likewise be promptly paid by the corporation upon whose application the expense is incurred.

Whose application the expense is monitor.

COMMUNICATION FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE. By the Clerk-

MAYOR'S OFFICE, ROCHESTER, November 29, 1887. Gentlemen of the Common Council:

During the past six months several hundred dollars have been expended by the city in the publication of application notices, notices of sale, etc., in connection with the proposed construction of street railroads in Rochester. Long and expensive litigation between corporations seeking franchises here seems more than probable, and in which our city is likely to become more or less involved. It therefore behooves us to proceed cautiously, and in every manner possible, endeavor to protect the interests of those who have the taxes to pay. The printing and advertising thus far done, while required by law, has been rendered for the benefit of certain corporations, and the correspondence which I herewith attach, points to a way in which your board can, in these matters, protect the interest of taxpayers hereafter, and cause to be paid into the treasury now the During the past six months several hundred dol-

sums already expended. Without further suggestions at this time, I leave the matter for your consideration.

CORNELIUS R. PARSONS, Mayor.

MAYOR'S OFFICE, ROCHESTER, R. Y., Nov. 28, 1887.

Ivan Powers, Esq., City Attorney:

Ivan Powers, Esq., City Attorney:

Dear Str:—Will you please inform mo if the city is obliged, in receiving the applications of those desiring to construct street railroads in Rochester, to be operated by cable, horse-power or otherwise, to give publication to all matters in connection therewith, without exacting compensation from the various corporations for so doing? Is there any way in which the city can recover for the printing already done, (say since the first day of May last), for several of such corporations? Has the common council, or the mayor, the right to refuse granting further privileges to any of said corporations, until the expenses for the printing already done for them, and paid for by the city, has been refunded?

Yours etc.,

CORNELIUS R. PARSONS, Mayor.

OFFICE OF THE CITY ATTORNEY, ROCHESTER, N. Y. Nov. 28, 1887.

Hon. C. R. Parsons, Mayor:

DEAR SIR—In answer to your communication of this date, I would say: First—That I am of the opinion that the Com-

mon Council, upon receiving applications for the sale of street railroads in this city, can exact from sale of street fairroads in this city, can exact from such applicants the advancement or security of the amount that will be incurred in the matter of advertising and other printing expenses required by law, and can exact from the bidder at such sale the payment of the amount of such expenses, to the end that they may be repaid to the applicant if another corporation should be the successful bidder on the sale had.

Secondia—That the Common Council can refuse

Secondly-That the Common Council can refuse

Secondly—That the Common Council can refuse to grant further privileges, until the expenses for the printing already done for them, and paid by the city, have been refunded; and
Thirdly—That if a new resolution for the sale of the route from Plymouth avenue to the city line be adopted, based upon a new application, it will, in my estimation, operate as a revocation or repeal, by implication, of the former resolution heretofore adopted for the sale of such route, and, in that event, I cannot perceive how the city can legally exact, from the successful bidder at the sale held under the new and subsequent resolution, the payment of any of the expenses connected with the former proceedings and resolution, and, further, it may injuriously affect the action now pending and ready for trial at the Equity Special Term beginning Monday next, in which Charles F. Pond is the plaintiff of record and John A. Davis, as treasurer of the city, is the defendant.

Respectfully yours,

Respectfully yours,

IVAN POWERS, City Attorney.

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, Nov. 29, 1887.

To the Common Council:

GENTLEMEN—The Executive Board has made an examination of what is known as Lozier Park and would respectfully report that a map has been filed of said Park in the County Clerk's office and all other requirements necessary to make it acceptable as a public street have been fulfilled.

Respectfully,
T. J. NEVILLE, Clerk.

EXECUTIVE BOARD. OFFICE, CITY HALL, ROCHESTER, N. Y., Oct. 18, 1837.

To the Honorable, the Common Council:

GENTLEMEN:—The Executive Board requested the owners of the property to be taken for the ex-

tension of Frost avenue to submit what prices they would be willing to accept for the respective parcels of land, and received a proposition from only one, Frederick Stetzenmyer, who will sell the lots of which he is owner to the city for the purpose named for the sum of \$10,000.

John and Magdalena Weller declined to name any price for their lands, and expressed a willingness to have the subject matter referred to a commission for determination. The application to the court for the appointment of a commission to condemn the land for the proposed street extension seems to be the only action that can be taken by your honorable body.

Respectfully,

T. J. NEVILLE, Clerk..

ROCHESTER, N. Y., Nov. 29, 1887.

To the Honorable, the Common Council:

GENTLEMEN:—The undersigned begs leave to submit herewith his second monthly report of the progress made in the preliminary surveys and ex-

progress made in the preliminary surveys and examinations for the proposed east side sewer. During the whole of the present month the work of taking levels for exhibiting the topography of those portions of the towns of Irondequoit and Brighton north and east of the city limits has been rigorously prosecuted, and is now nearly completed. The territory embraced in these surveys is very large, being bounded on the north, by the general course of the highway known as the Coy road, which is about two and one-half miles north of and parallel to Norton street, or about one and one-half miles south of the lake shore; on the west, by the Genesee river; on the east, by a one and one-half miles south of the lake shore; on the west, by the Genesee river; on the east, by a line running due north from the Forest House; also on the east, by a line running due south from a point on the Hidge road about 3,00 feet east of the Forest House to the Webster Plank road, which is the prolengation of the course of Clifford street; thence by a line parallel with Culver street, and about 2,500 feet east thereof, to the Eric canal. The total area outside of the city limits thus sur-veyed amounts to about nine square miles, or about 5,800 acres; and it is confidently believed that from this work, all questions relating to the

about 5,800 acres; and it is confidently believed that from this work, all questions relating to the natural drainage of the entire eastern portions of the city, may be conclusively answered.

In addition to the foregoing, special instrumental surveys have also been made as follows:

First—Of the head or southern portion of Irondequoit bay from the Webster plank road, or "Floating Bridge," south to the prolongation of the line of University avenue, a distance of about one and one-half miles. This was done for the purpose of ascertaining and exhibiting the amount of marsh adjacent to the mouth of Thomas creek, which is located about midway between the points named.

named. Second—Of the course of Thomas creek from Irondequoit bay to the Erie canal, thereby connecting with surveys of portions of said creek heretofore made by Mr. O. H. Peacock.

Third—Of the course of the creek receiving the discharge of the North avenue outlet sewer, from Norton street to Irondequoit bay.

Fourth—Of the course of the creek receiving the discharge of the Court and William streets and the Goodman street outlet sewers from the city the

named.

Goodman street outlet sewers, from the city line to its intersection with the preceding creek. Fifth—Of the Genesee river, from Brewer's dock to the lake, for the purpose of ascertaining and exhibiting the amount of swampy territory on both sides of the stream. The results of this survey are of much interest and are given in the following

TABLE showing number, length and area of marshes lying adjacent to the Genesee river between Brewer's dock and the R., W. & O. Railroad:

Number	Side of river	Location of beginning north of Brewer's dock, in feet	Total length in feet	Average width in feet.	Area in acres
1. 2. 3. 4. 5. 6. 7. 8.	West. East. West. East West. East. West. East. East.	815 5,050 9,350 14,300 16,150 17,400 18,850 21,000	4,200 5,660 5,950 2,975 2,400 2,600 2,800 4,000	95.14 154.75 234.08 282.06 622.55 277.50 444.11 526.13	9.17 20.13 31.96 19.26 34.30 16.56 28.54 48.30
			30,585		208.22

The calculations for area include, generally, all of the low ground lying between the foot of the slope of the high banks and low watermark on November 9th and 11th, 1887. All of this area is liable to overflow by reason of high water in either river or lake river or lake.

From the above table it will be seen that be-tween Brewer's Landing and Charlotte there are no less than eight distinct and extensive swamps, lying alternately on the west and east sides of the river, and presenting an aggregate frontage of nearly six miles, with an aggregate area of more than two hundred acres.

than two hunc'red acres.

A general reconnoisance has also been made of the territory in the town of Brighton lying east of Culver street and included between the Eric Canal on the north and the prolongation of Highland avenue on the south, with the view of finding some feasible outlet for the surface drainage from the steep slopes of the range of hills extending from Mt. Hope easterly. Nothing definite concerning this problem can now be stated, as the subject requires considerable study before any plan can be formulated. formulated.

Numerous mesurements of the velocity of the current in the river, between Brewer's landing and Charlotte, have likewise been made during this month, the water having been unusally low in consequence of the long-continued drought. By neglecting the very small velocities observed near the shores, as well as the cases where the currents on the one or the other side of the river set up-stream in consequence of the action of even slight winds the average of the results obtaineven slight winds, the average of the results obtained show a mean velocity of one mile in about four-teen and one-half hours, a maximum velocity of one mile in about eleven hours, and a mimimum velocity of one mile in about twenty-four hours. These figures are somewhat more favorable than those submitted in my former report, but not sufficiently as to inspire much confidence in the ability of the river to deal successfully with large quantities of raw sewage.

Concerning the storm discharge of the outlet sewers, little can be said, as there have been no heavy rainfalls to try their capacity, during the past two months.

past two months.

The force employed in the performance of the above described work for the month has averaged fully seventeen men. Should the weather continue favorable, some additional field work will be done in the extreme northern and southern portions of the territory described; but as the surveys are now substantially finished, the work of drawing the maps, and exhibiting thereon the results of the said surveys, will next occupy the attention of my assistants and myself. This work will necessarily require a comparatively long period of time, and on its completion, the question of the most practicable route for the sewer will be considered.

Respectfully submitted, Respectfully submitted,

EMIL KUICHLING, Civil Engineer.

ACTION ON ORDINANCES.

FIRST ORDINANCES.

GLADSTONE STREET PLANK SIDEWALK.

By Ald. Kohlmetz—Resolved, That the City Surveyor ascertain and report to this Council the expense of constructing a plank sidewalk on the east side of Gladstone street, from Clifton street to Tremont street, with the required crosswalks.

to Tremont street, with the required transform.
Adopted.
The Surveyor submitted as such estimate, \$230.
By Ald. Kohlmetz—Resolved, That the following improvement is necessary, viz:
The construction of a pine plank sidewalk four (4) feet and eight (8) inches wide, laid on white oak stringers, on the east side of Gladstone street,

with the necessary crosswalks, sidewalk and crosswalk grading and gutter formation.

And Whereas, The City Surveyor, under the direction of this Council, has made an estimate of the whole expense thereof, and reports the same at \$230, which estimate is hereby approved.

Resolved, further, that the following portions of said city is deemed benefitted and properly ought to be assessed by a local assessment for the whole expense thereof, viz:

One tier of lots and parcels of land on the east side of Gladstone street, from Tremont street to Clifton street, in proportion to the benefit which each will derive therefrom.

And the Clerk is-hereby directed to publish notice

And the Clerk is-hereby directed to publish notice in pursuance of Title VII, Section 172 of the Revised Charter of 1880, of the City of Rochester, that vised Charter of 1800, of the City of Rochester, that all persons interested in the subject matter of said improvement, are required to attend the Common Council, on Tuesday evening, Dec. the 13th, 1887, at 7 o'clock, at the Common Council Chamber, when allegations will be heard.

Adopted.

FINAL ORDINANCES.

FINAL ORDINANCE NO. 3,323,

MONROE AVENUE OUTLET SEWER DITCH AROUND KONDOLF POND.

On motion of Ald. Judson, the Common Council proceeded to hear allegations in relation to the improvement described in the ordinance below, the said Common Council, before determining to make such public improvement, having caused an estimate thereof to be made, and by an entry in their minutes described the portion and part of the city which they deemed proper to be assessed for the expense of such improvement, and also a notice to be heretofore published daily, in at least two of the daily newspapers printed in the city of Rochester, for four days, which notice specified such improvement, the estimated expense thereof, the amount if any, to be paid from the public treasury, and the portion or part of the city to be assessed for the rest of the expense, and which notice also required all persons interested in the subject matter of said improvement to attend the said Common Council at the time appointed in said notice, and, after hearing such allegations from all persons appearing. On motion of Ald. Judson, the Common Council pearing.
Ald. Judson submitted the following:

An Ordinance to construct a pipe sewer around Kondolf's Ice Pond, from Monroe avenue to a point about 300 feet east of Bowen street.

The Common Council of the city of Rochester, do ordain and determine that the following im-

The Common Council of the city of Rochester, do ordain and determine that the following improvement is necessary and should be made, to wit: The construction of a vitrified pipe sewer 15 inches in diameter, beginning at the northerly end of the culvert crossing Monroe avenue about midway between Nichols park and the Eric canal bridge, and extending eastward therefrom and along the lands belonging to Matthias Kondolf to the intersection of the branches of the Monroe avenue and Nichols park outlet sewer ditches; thence westerly on or near the line of the said Nichols park sewer ditch by an 18 inch vitrified pipe sewer to the point where the said Nichols park outlet sewer ditches; thence and Nichols park overed, thence easterly from the aforesaid intersection of the Monroe avenue and Nichols park outlet ditches in the direct prolonged line of the combined outlet ditches across Bowen street and across private property belonging to Messrs. Bowen and Gould by an 18 inch vitrified pipe sewer to its intersection with the existing outlet ditch through said property, with all wells with basket coverings, lateral sewers and lot lateral connections; it being expressly understood, and this ordinance must be so construed, that its object is to abate a nuisance occasioned by a sewerage from a large territory flowing through openditches, and that the proposed sewers are intended to afford a temporary abatement of such nuisance, and therefore the pipes used may be of the second but of good quality, not conforming strictly to the usual specifications for pipe sewer.

And the whole expense should be defrayed by the assessment upon the lots and parcels of land to

be benefited thereby, hereinafter described; and the City Surveyor, under the direction of this Council, having made an estimate of such expense, and reports the same at \$2,100, and said estimate being deemed reasonable, is hereby approved; and the portion of said City, which said Common Council deem will be benefited by and ought to be assessed by a local assessment for the whole expense of said improvement is described as follows:

All the territory included within and described by the following boundary lines, viz:

FINAL ORDINANCE NO. 3,259.

GOODMAN STREET OUTLET SEWER EXTENSION.

On motion of Ald. Judson the Common Council proceeded to hear allegations in relation to the improvement described in the ordinance below. the said Common Council, before determining to make such public improvement, having caused an estimate thereof to be made, and by an entry in their minutes having described the portion and part of the city which they deemed proper to be assessed for the expense of such improvement, and also a notice to be heretofore published daily in at least two of the daily newspapers printed in the city of Rochester, for four days, which notice specified such improvement, the estimated expense thereof, the amount, if any, to be paid from the public treasury, and the portion or part of the city to be assessed for the rest of the expense, and which notice also required all persons interested in the subject matter of such improvement to attend she said Common Council at the time appointed in said notice, and after hearing such allegations from all persons appearing,
Ald. Judson submitted the following:

An ordinance to extend Goodman street outlet sewer from the southerly end thereof to the Upton park out let sewer.

The Common Council of the City of Rochester do ordain and determine that the following improvement is necessary and should be made, to wit:

The construction of an extension of the Good-man street outlet sewer, from the southern termiman street outlet sewer, from the southern terminus of that portion thereof now in process of construction southerly to the N. Y. C. & H. R. R. tracks; thence under the said railroad tracks and still southerly along Goodman street to the prolonged medial line of Anderson avenue; thence underly large the said railroad avenue; thence easterly along Anderson avenue to intersect the easterly along Anderson avenue to intersect the sewer in Beacon street, with all required manholes, lampholes, new surface sewers, old surface sewers cleaned, repaired and connected, lot laterals and lot connections; also, all connections for prospec-tive intercepting sewers, roadway grading and gutter formations on the portions of the streets on the line of the proceed sewers that have not been the line of the proposed sewer that have not been neretofore improved.

And the whole expense should be defraved by the assessment upon the lots and parcels of land to the City Surveyor, under the direction of this Council, having made an estimate of such expense, and reports the same at \$88,800, and said estimate being deemed reasonable, is hereby approved; and the portion of said city, which said Common Council deem will be benefited by and ought to be assessed by a local assessment for the whole expense of said improvement is described as follows:

All the territory included within and described be the following boundary lines, viz.

ROCHESTER, Dec. 13th, 1887.

To the Honorable, the Common Council.

GENTLEMEN—The proposal of the Miller Brewing Company to discontinue a pending suit against the city of IRochester for polluting the water course which supplies its ice pond in the rear of its property on Lake Avenue, was by resolution on date of July 12, 1887, referred to the Executive Board and Water Works Committee.

A resolution on the same date and relating to the

A resolution on the same date and relating to the same subject offered by Ald. Selve was referred to

the Executive Board.
The Water Works Committee and the Executive Board would respectfully report in relation to the subject matter thus referred to them that they have visited and carefully examined the premises and heard the counsel for Miller Brewing Company as to said matter—that we are unanimously of the opinion that there are several legal questions involved, affecting the liability of the city in the premises, which we do not feel ourselves competent to decide.

We respectfully suggest that in this view of the case, the proper committee to investigate the legal questions involved in this ciaim is the Law Com-

mittee, assisted by the City Attorney. Since the reference of this matter was made to us, it has been suggested that if the city through its water works department, would agree to fill the ice pond of the Miller Brewing Co. once each year with Hemlock water, that all claim for pollution of the stream supplying the ice pond would be withdrawn. drawn.

In reference to this latter proffer, we have to

suggest as follows:
First—That the legal liability in the matter is not

First—That the legal liability in the matter is not clare to your committee.

Second—That if a legal liability does exist, there is no reason why the water works fund should become liable for sewer pollution. In other words, we believe that if the city is liable in damages to the Miller Brewing Co., that such damage should be carefully determined and paid in money, and that should said company desire to purchase Hemlock water, they may purchase it and pay its money value therefor, if the city has the water to sell for such a purpose. water pipe extension, which will swell the demand to at least \$100,000. There are many pressing demands for the extension of water mains, but I am of the opinion that, because of the lateness of the season, it would be impracticable to further continue the work during the present year, even if there were funds on hand applicable therefor. In view of this pressing demand and necessity, I am of the opinion that provision should be made to purchase cast iron water pipe and other materials during the coming winter in sufficient quantity to meet the more pressing demands for water pipe extension, so that the work of extension may be prosecuted at the earliest moment in the spring. In order that this may be done, it will be necessary for the Common Council to determine a certain number of streets in which it will direct water mains to be laid, so that the it will direct water mains to be laid, so that the proper sizes and quantity of material may be purchased and also so that the same may be delivered in the several streets as it is received from the

In one several streets as it is receved from the foundry, thus avoiding a double handling.

It may be suggested also that the required materials may be procured much more cheaply during the winter than in the summer after the adoption of our tax levy, and the work of excavating for and laying the pipe can be more cheaply performed before the great mass of the summer work is commenced.

work is commenced.

I respectfully recommend, therefore, that the sum of \$13,000 be raised for the purpose of procuring cast iron pipe, specials, hydrants, gates and lead, during the coming winter, for the extension of water mains, early next spring, in the following named streets for which petitions are on file: Estimated

many others for which petitions are on file should not at a later date, be also extended.

My recommendations may be Summarized as follows:

First-That it be recommended to the Common Council to direct the City Treasurer to raise from time to time as it may be needed on the credit of the city the sum of \$13,000 to pay for the necessary pipe and other materials required to extend the water mains in the list of streets specified in the

foregoing report. Second—That the Executive Board be authorized to procure the said materials during the coming winter at such times and on such terms as may

most favorable to the city.

GRAND RAPIDS, Dec, 6, 1887.

Hon. W. H. Tracy, President Common Council, Rochester, N. Y.
DEAR SIR: I desire herewith to present my resignation of the office of Police Commissioner. I have, up to this writing, refrained from addressing a formal resignation to the Common Council, pending certain investigations as to the acts of the ing certain investigations as to the acts of the Police Commissioners during the time I was a member of that Board. Some time ago I gave my resignation to Aldermon Elliott, to take effect upon the conclusion of the labors of the investigating committee appointed by the Common Council, and of which committee Alderman Common Council, and of which committee Alderman Elliott had the honor of being chairman. At the time of so doing I labored under the impression that the committee's labors would be of short duration, and thus speedy action would be had upon my resignation. I was solely actuated by the desire to face any and all of the responsibility of my acts as a commissioner and as an appointee of your honorable board, while acting in the capacity of said commissioner, and thus under the jurisdiction of the Common Conneil, while they were conducting the investigations referred so above. Should you, after acceptance of mestication, desire my presence during the investigation of the committee's telegram on call. I am undesirous that the city's best interests should suffer by my necessary absence, hence request speedy action, and in this connection beg to thank the members of the Common Council for the uniform kindnesses I have been the recipient of

ACTION ON ORDINANCES.

CITY SURVEYOR'S OFFICE, ROCHESTER, N. Y., Dec. 20, 1887.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen: No bids have been received for the construction of the southern extension of the Goodman street outlet sewer, even under the in-

creased estimate in the amended ordinance there-

for.
The unexpected difficulties encountered by the The unexpected difficulties encountered by the contractor in the northern part of the sewer have been so great that no responsible contractors have been so great that no responsible contractors have been willing to put in bids for the extension, as in it even greater difficulties are anticipated, and especially in passing under the tracks of the N. Y. C. & H. R. R. R. that have been met with in the construction of the northern portion now completed. The estimates heretofore submitted were made after consultation with parties who were supposed to be familiar with the class of work required, but as no one desired to put in bids that were not in excess of the estimates it becomes necessary to still increase them.

increase them.

In this connection it is proper to state that an application has been made to, and has been heard before the Equity Term of the Supreme Court of this judicial district to enjoin the city from constructing any sewer and sewers designed to convey the sewerage of the Upton Park, cliver Park, etc., tarritories into the Goodman street outlet sewer as territories into the Goodman street outlet sewer as

now constructed.

The decision has not yet been handed down, but the decision has not yet been handed down, but it is more than probable that it will be adverse to the city. Should this prove to be the case, another expense, how great it is impossible to foretell, will have to be incurred in the proceedings, and to pay the damages that may be awarded to secure the necessary easements for the right of way through private lease private lands.

private lands.

The depths and dimensions of the Goodman street outlet sewer were, to a large extent determined by the needs for the drainage of the territory named, and that of the Court and William street territory, but there is a large area of the city north of the N. Y. C. & H. R. R. R., which now discharges the drainage into the Goodman street sewer and besides a much larger area which ultimately must be deponmuch larger area which ultimately must be dependent on this sewer.

For the several reasons above given I would recommend that final ordinance No. 3,259 be reconsidered and then amended by making the estimate \$55,000.

Very respectfully, your obedient servant, I. F. QUINBY, City Surveyor. Ordered received, filed and published.

Pierce, eratic exhibitions &c.

Business Manager, Grand Opera House,

Business Manager, Grand Opera House, Rochester, N. Y. By Ald. Fee—Resolved, That upon the payment into the City Treasury of the sum of twenty-five dollars the Common Council be and is hereby re-quested to issue a license to the Grand Opera House in accordance with the foregoing petition. Adopted.

Ald. Fee moved that the President of this Board and Ald. Kelly be added to the Select Committee on the application of the "Rochester Superheated Water Company." Adopted.

Ald. Marson moved that action on the resolution

relating to the acceptance of certain city taxes from S. B. Williams, published at page 348 current

proceedings, be reconsidered. Adopted. On motion of Ald. Marson the resolution was referred to the committee on erroneous assessments.

By Ald. Marson-

To the Honorable the Common Council of the City of Rochester

Gentlemen: Your Assessment Committee submits the following as its report:

The petition of John Ferner and others requesting a reduction of an assessment made against sever in Clarkson street, and that of John Englert and many others for a correction of the Assessment Roll for the expense of the construction of the Hamburgh street sewer should be denied, as we see no just cause for the applications being granted.

The application of Thomas Dransfield, on behalf of his father's estate, for relief from an assessment made for the construction of a Medina roadway improvement in Hill street and a part of Platt street, should be referred to the Law Committee, as the questions there presented are more

of a legal nature than otherwise.

The petition of Mary Scully in the particulars mentioned in the accompanying resolution should

be granted.

The petition of Phœbe Dickinson to have a rebate made to her on account of the Gorham street asphalt improvement on account of curb stones in front of her premises prior to the construction of such improvement, should be granted to the extent of \$8.19, such amount being certified by the assessors to be reasonable and just, under the circumstances.

The petition of James B. Bainbridge to have a rebate made to him of \$24.05 from an assessment made against his property on Hudson street for the asphalt improvement on such street should be

granted.

Your committee therefore respectfully requests the adoption of the accompanying resolutions:

Committee and Executive Board. REPORTS OF STANDING COMMITTEES.

By Ald. Kohlmetz:

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN-Your Law Committee begs leave to submit the following as its report: That the petition of Hon. John Van Voorhis be granted and

that the treasurer be instructed to receive from said Van Voorhis and his wife respectively the amount of the general city taxes against their re-spective premises in the Fifth, Seventh and Tenth wards, during the years 1885, 1886 and 1887, less any and all water rates or assestments added thereto, as of the date when the same was tendered to him, and upon such payment being meda to discharge and upon such payment being made to discharge said city taxes.

Your committee would further report that heretofore an action was begun against the city by Melissa M. Farrar and others to restrain the city from discharging sewage and waters from the Lyell and Saxton street sewer through the ravine through their premises, and which resulted in a judgment being entered in favor of the plaintiffs on the 30th day of December, 1886, for \$117.00 costs and a per-manent injunction after six months from the entry manent injunction after six months from the entry of the judgment and notice thereof, from which judgment an appeal was taken to the General Term, pursuant to authority from your honorable body, on Jan. 12, 1887, and which appeal is now pending undetermined. The plaintiffs have since disposed and conveyed the premises upon which the alleged nuisance existed to others, thus leaving the legal questions involved in the action mere abstract ones. They have offered in each the costs of the legal questions involved in the action mere abstract ones. They have offered, in case the costs of the judgment and interest from the date of entry thereof, and \$20 costs of the appeal, being paid to their attorney to discharge and vacate the judgment, and to discontinue the action without other costs to either party as against the other, and to do whatever may be necessary to effectually remove the injunction created by the judgment. This, your committee, considers to be to the advantage of the city to accept, and such is the advance of the of the city to accept, and such is the advice of the City Attorney. You committee is of the opinion that the

stions of Thomas J. Gamble and Martha J. Patterson should be held for consideration at the next meeting of your committee, at which time the Executive Board will be prepared to render a report in reference to the Gamble claim, which will be an

Your board fully understands, I think, that I am opposed to the delegating of its powers, or the management of it affairs, to its committees. If resolutions of this kind are to prevail, what record have we, from time to time, of what has been done, or of what is being accomplished?

The principle is wrong, and no reason exists for its being practiced. The object, which in this case is desired to be accomplished, is of an important character, and it is rendered so by the fact that the law under which the territory now constituting the character, and it is rendered so by the fact that the law under which the territory now constituting the Fifteenth and Sixteenth wards was admitted to the city, specifically provides a course of procedure when water-mains or lights for the streets are de-

when water-mains or inglus for the streets are desired therein.

The law, I assume, contemplates that all petitions for water mains, and for lights, shall be presented to the Common Council, filed with the City Clerk, and remain under the control and direction of your record and it is for your beard alone to determine. and remain under the control and direction of your board, and it is for your board alone to determine, when the said petitions are presented, whether the same are signed by a majority, or otherwise, and, if signed by a majority, you can then direct, by resolution, in what streets the lights shall be

placed. placed.
The clause, "whenever there are funds applicable," should the resolution be allowed to stand, would be apt to lead to confusion, and might involve the city in serious difficulty.

CORNELIUS R. PARSONS, Mayor.

The President stated the question to be "shall the resolution stand not with standing the objections

of his Honor the Mayor." The veto of the mayor was sustained by the fol-

lowing vote:

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, Dec. 27, 1887.

To the Honorable, the Common Council:

Gentlemen: In response to the resolution offered by Ald. Kelly and adopted by your Board at a special meeting held December 22d, 1887, the Executive Board and the Chief Engineer of the Fire Department present the following suggestions as embodying their opinion as to the advisability of requiring "the presence of at least one steam fire accurring within the city engine at every fire occurring within the city limits:"

limits:"
First—That in the central business portions of the city, the Holly system is very effective, each hydrant being about equivalent to a steam fire engine. In this portion of the city if there should occur a general blowing up of the water mains, steamers would prove of very little account for lack of water from which to take suction.

Second—There are four steam fire engines now in commission and ready at any moment to re-

Second—There are four steam fire engines now in commission and ready at any moment to respond to the call of the Chief of the Fire Department and one is always run to outside fires. At any other fires in the city—should the Chief Engineer see the necessity for the aid of steamers, he can secure their presence in a very few moments by a signal from the nearest fire alarm box.

Third—From the foregoing considerations we are of the opinion that all necessary precautions are now being taken to secure to the fire department all needed appliances for the suppression of fires. Should circumstances of any kind seem to

ment an needed approances for the suppression of fires. Should circumstances of any kind seem to demand the presence of the steamers at every fire the Executive Board will promptly so order. Respectfully submitted,

THOS. J. NEVILLE, Clerk.

CITY CLERK'S OFFICE, ROCHESTER, N. Y., Dec. 27, 1887.

To the Common Council:

GENTLEMEN-In accordance with the provisions of the city charter I hereby report that the following named persons have qualified and taken the oath of office required by law, viz. Jeaob Gerling, City Assessor; Edward D. See-

On motion of Ald. Judson the Common Council proceeded to hear allegations in relation to the improvement described in the ordinance below. the said Common Council, before determining to make such public improvement, having caused an estimate thereof to be made, and by an entry in their minutes having described the portion and part of the city which they deemed proper to be assessed for the expense of such improvement, and also a notice to be heretofore published daily in at least two of the daily newspapers printed in the city of Rochester, for four days, which notice specified such improvement, the estimated expense specified such improvement, the estimated expense thereof, the amount, if any, to be paid from the public treasury, and the portion or part of the city to be assessed for the rest of the expense, and which notice also required all persons interested in the subject matter of such improvement to attend she said Common Council at the time appointed in from all persons appearing,
Ald. Judson submitted the following:

An ordinance to construct the Goodman street sewer extension from the end of the present sewer therein to Beacon street.

The Common Council of the City of Rochester do

ordain and determine that the following improve-ment is necessary and should be made, to wit:

The construction of an extension of the Goodman street outlet sewer, from the southern terminus of that portion thereof now in process of construction southerly to the N. Y. C. & H. R. R. tracks; thence under the said railroad tracks and still southerly along Goodman street to the pro-longed medial line of Anderson avenue; thence easterly along Anderson avenue to intersect the sewer in Beacon street. with all required manholes, lampholes, new surface sewers, old surface sewers cleaned, repaired and connected, lot laterals and lot connections; also, all connections for prospec-tive intercepting sewers, roadway grading and gutter formations on the portions of the streets on the line of the proposed sewer that have not been heretofore improved.

And the whole expense should be defrayed by the assessment upon the lots and parcels of land to the assessment upon the lots and parcels of land to be benefited thereby, hereinafter described; and the City Surveyor, under the direction of this Council, having made an estimate of such expense, and reports the same at \$58,000, and said estimate being deemed reasonable, is hereby approved; and the portion of said city, which said Common Coun-cil deem will be benefited by and ought to be as-sessed by a local assessment for the whole expense of said divergorement is described as follows:

sessed by a local assessment for the whole expense of said improvement is described as follows:
All the territory included within and described by the following boundary lines, viz.:
Biginning at the intersection of Goodman street with the division line between Edwin S. Hayward and Frederick S. MISCELLANEOUS BUSINESS.

By Ald. Kelly-

To the Honorable, the Common Council:

Your special committee, to whom was referred the duty of ascertaining if there were any nuisances in connection with the refining of oil or the manufacture of gas, in this city, that should be abated, and to report its recommendation to your honorable body, would respectfully report:

nonorable body, would respectfully report:
That your committee has examined the mode
of storing and manufacturing petroleum, naphtha,
etc., at the Vacuum oil works, and the manufacture of gas from, and the receipt and storage of
naphtha at the Municipal Gas Light Company's
works, and patiently listened to the complaints
of various residents of this city concerning alleged nuisances from the smoke and noisome
smells emanating from, and the danger of fre leged nuisances from the smoke and noisome smells emanating from, and the danger of fire and of explosions from the works of said oil and gas light companies, and after duly considering the same, we find that a grievous nuisance is caused, and for a long time past has existed, by reason of the conduct of said works respectively. It appears that since the commencement of the manufacture of gas by said gas light company from naphtha, foul and noisome smells have existed in private dwellings and buildings connected with, and on the line of the Platt street and other sewers, which, from the evidence the committee has received, is clearly traceable to the use of naphtha at said gas company's works. naphtha at said gas company's works.

Your committee would further report that by subdivision four of section three, chapter 270, of the laws of 1885, the board of health of the city is given the power, and it is made its duty, "to receive and examine into the nature of complaints made by any of the inhabitants concerning."

nuisances or causes of danger or injury to life and health within the limits of the city; to enter upon or within any place or premises where nuisances or conditions dangerous to life or health nuisances or conditions dangerous to life or nealth are known or believed to exist, and by appointed members or persons to inspect and examine the same and to order the suppression and removal of nuisances and con itions detrimental to life and health found to exist within the limits of its jurisdiction," etc.

diction," etc.

Therefore your committee recommends that immediate steps be taken to abate the nuisances caused by the distilling or refining of oil by the Vacuum Oil Company and the manufacture of gas by the Municipal Gas Light Company as they have been, and are now, conducted in this city, and to that end your committee recommends that a committee of three of your members be amounted to mittee of three of your members be appointed by your president to confer with the Board of Health of the city to determine what steps should be taken by your honorable body, and said Board of Health, or either, for the abatement of the nuisance aforesaid.

REPORTS OF SELECT COMMITTEES.

Bv Ald. Sullivan-

Gentlemen of the Common Council:

The committee appointed by this board at its last meeting, to confer with the board of health of the city, to determine what steps should be taken by your honorable body and said board of health, or either, for the abatement of the nuisances caused by the Vacuum oil company and the Municipal gas light converted the said to be considered to the control of the contr

light company in this city, respectfully reports:
That your committee at three o'clock this afternoon met the board of health and a full discussion was had of the matters in question, in which the vice president of the Vacuum oil company, Mr. Charles M. Everest, and the counsel for that company, Mr. John N. Beckley, and several citizens took part. The following resolution was then passed by a vote of six in the ofference of the country of the company.

The following resolution was then passed by a vote of six in the affirmative and two in the negative: "Resolved, That we recommend to the Common Council the commencement of an action in the name of the attorney general, or otherwise as the counsel for the city may advise, to remove the Vacuum Oil Works and the Municipal Gas Company's Works from the limits of the city as dangerous and offensive nuisances." Your committee therefore respectfully recommends that this board adopt the recommendation contained in said resolution, and offers the following resolution:

contained in said resolution, and offers the following resolution:

Resolved, That the city attorney and Mr. Van
Voorhis, counsel for the city, are hereby instructed to take the proper steps to commence an action
in the name of the attorney general against the
Vacuum Oil Company and another against the Municipal Gas Light Company to abate the nuisances
created by said corporations in this city, and to commence said actions as soon as the consent of the attorney general shall be obtained for the com-mencement thereof.

WM. SULLIVAN, JOSEPH H. FEE, H. KOHLMETZ, Committee. After an extended hearing of counsel on the sub-ject, Ald. Swikehard moved that the foregoing re-port and resolution of the Select Committee be laid upon the table one week.

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE.

From the Mayor-

MAYOR'S OFFICE, ROCHESTER, December 28, 1887.

Gentlemen of the Common Council:

Gentlemen of the Common Council:

"The resolution, adopted at your adjourned regular meeting, held on the evening of December 20th instant, directing the Mayor to enter into a contract with George Belknap to examine all street lamps, electric or gas, and their location, and otherwise to assist the lamp committee, etc., is hereby returned disapproved.

"I am opposed to the resolution because the amount to be paid to Mr. Belknap by its terms, viz: \$313.33, is, in my opinion an unnecessary expense, and should be saved to the treasury.

"Furthermore, by the terms of chapter 410 of the laws of 1884, no officer or clerk can be appointed and no person admitted or promoted to either of the classes arranged under the civil service rules, until he has passed an examination or is shown to be exempt from such examination in conformity with such regulations. The statute prescribes who are exempt from the examinations as follows: are exempt from the examinations as follows:

First—Officers elected by the people, and all sub-ordinates of any such officer, for whose errors or violations of duty such officer is financially respon-sible; and the head or heads of any department of

violations of duty such officer is financially responsible; and the head or heads of any department of the city government, and persons employed in, or who seek to enter, the public service under the educational department of any city, and any subordinate officer, who by virtue of his office, has personal custody of the public moneys or public securities for safe keeping, for which the head of the office is under official bonds.

"The above are not subject to the civil service regulations, and by the terms of the act, all subordinate clerks and officers in the public service of the cities of the state are. It is plain that the office of lamp inspector is subject to competitive examination under the civil service regulations. It is made the duty, by the law, of the mayors of the cities in this state, to aid and facilitate, in all proper ways, the enforcement of the regulations, and the holding of all examinations which may be required under the authority conferred by the civil service law. The resolution in question is palpably an attempt to evade the civil service law under the guise of a contract, which if the mayor enter into he must do it in apparent violation of his duty under the civil service law of the state. There arises a pretext in the giving of a bond, that thereby the party is exempt from the civil service law. The language of the statute has been quoted above, and it is so plain that it cannot be misunderstood. Upon the face of this statute has been quoted above, and it is so plain that it cannot be misunderstood. Upon the face of this resolution it appears that the person is a subordinate officer—subordinate to the Lamp Committee of the Common Council—and is an officer who has been rendering service under an appointment made in violation of the civil service a. s., for which service compensation is now sought to be given indirectly, for that for which it could not be legally paid. The civil service law has now been so long in congraint that it is too late to plead imposes. in operation that it is too late to plead ignorance, in operation that it is too late to plead ignorance, either of its scope, design or purpose, and pretexts, such as this embodied in this resolution, are mere evasions, which should receive neither the commendation nor official approval of men, sincere in the discharge of their duty.

"CORNELIUS R. PARSONS, Mayor."

Ald. Fee moved that the veto of the Mayor be laid upon the table until the next regular meeting. Adopted.

MAYOR'S OFFICE ROCHESTER, January 4, 1888.

Gentlemen of the Common Council:

Your board at its meeting held December 27th, 1887, adopted a resolution of which the following

is a copy:

Resolved, That the Law Committee be authorized to take such remedies in behalf of the city as they shall be advised are competent and necessary to abate any nuisance in the city resulting from the storage or manufacture of petroleum, and to restrain any person or persons or corporations, from conducting naphtha, or petroleum, or any product of petroleum, through any portion of the city of Rochester, by means of pipes laid upon or over or under the ground.

over or under the ground.

"Anything which your board can legally or properly do to prevent a repetition of the unfortuproperly do to prevent a repetition of the unfortu-nate occurrence of two weeks ago will receive my most ready and cordial approval. The offering of the resolution which I have quoted was doubtless prompted because of that terrible disaster, the like of which I trust may never again befall our city. I have, however, repeatedly objected to the practice of attempting to confer in blank, so to speak, upon a committee, unlimited powers for ac-tion which should be taken only by your full board, and after full, public and careful investigation and consideration. Such committees necessarily proconsideration. Such committees necessarily proceed largely in private, and their proceedings must be to a great degree secret and irresponsible. Under the powers ings must be to a great degree se-cret and irresponsible. Under the powers proposed to be given by the reso-lution in question, for instance, the committee could without reporting back to your board, em-ploy numerous and expensive counsel, commence and extend litigation; could take action under erroneous or incompetent or interested advice which might be of the greatest concern to our city and its citizens, to the great injury of both public and private rights and interests, and the city,might thereby be vastly damaged and at the same time made liable for incalculable private injuries sustained by reason of procedure which your board after full and public consideration would never have sanctioned. I am therefore opposed to the granting of any such unlimited, irresponsible power to any committee.

committee. "Another objection to the resolution lies in the fact that the chairman of the law committee, Ald. Kohlmetz, has tendered his resignation of the same, giving as his reasons 'that the members of the committee will not attend the meetings or manifest sufficient interest in their work." "It seems to me that, under the circumstances, the resolution should not be allowed to stand. All the steps necessary to be taken in the matter should be taken by your board alone and after a full report of where such nuisances exist, and a thorough investigation and discussion of the means necessary to abate them. sances exist, and a thorough investigation and dis-cussion of the means necessary to abate them. Such information we have a right to expect from the committee appointed by your president on the 23d of December and which, as I understand, will submit its report at your next regular meeting. "Cornelius R. Parsons, Mayor." The President stated the question to be "shall the resolution stand notwithstanding the objec-tions of his Honor the Mayar."

FINAL ORDINANCE, No. 3,333

BRONSON AVENUE PIPE SEWER.

On motion of Ald. Judson, the Common Council proceeded to hear allegations in relation to the improvement described in the ordinance below, the said Common Council, before determining to make such public improvement, having caused an estimate thereof to be made, and by an entry in their minutes having described the portion and part of the city which they deem proper to be assessed for the expense of such improvement, and also a notice to be heretofore published daily, in at least two of the daily newspapers printed in the City of Rochester for four days, which notice specified such improvement, the estimated expense thereof, the amount if our to be notify from the public the amount, if any, to be paid from the public treasury, and the portion or part of the city to be assessed for the rest of the expense, and which no tice also required all persons interested in the subject matter of such improvement to attend the said Common Council at the time appointed in said no-tice, and, after hearing such allegations from all persons appearing.

Ald. Judson submitted the following:

An ordinance to construct a pipe sewer in Bronson avenue from lot No. 120 of the Greig tract

The Common Council of the City of Rochester to ordain and determine that the following improvement is necessary and should be made, to wit:

The construction of a vitrified pipe sewer eighteen (18) inc es in diameter in Bronson avenue, beginning at a point at or near the prolonged wester-ly line of the land owned by John Clark, it being lot 120, section E. of the Greig tract, and extending westerly therefrom to the Summer street sewer with the necessary manholes, lampholes, surface sewers, lot laterals, lot connections, roadway grad-

sewers, lot laterals, lot connections, roadway grading and gutter formations.

And the whole expense should be defrayed by an assessment upon the lots and parcels of land to be benefited thereby, hereinafter described; and the City Surveyor, under the direction of this Council, having made an estimate of such expense and reports the same at \$2,450 and said estimate being deemed reasonable, is hereby approved; and the portion of said city, which said Common Council deem will be benefited by and ought to be assessed by a local assessment for the whole expense of said improvement is described as follows: said improvement is described as follows:

One tier of lots and parcels of land on each side of Bronson avenue from Summer street to the prolonged westerly line of lot 120, section E. of the

Greig tract.
On which above described lots and parcels of land the whole expense of said improvement are hereby ordered assessed, the assessment upon each lot and parcel of land to be in proportion to the benefit which each will derive therefrom.

MISCELLANEOUS BUSINESS.

By Ald. Kohlmetz-

To the Honorable, The Common Council of The City of Rochester:—

GENTLEMEN: Your Law Committee begs leave to submit the following as its report in relation to the petition of John Van Voorhis as to taxes, in-cluding water-rates and assessments, upon premithe petition of John Van Voornis as to taxes, including water-rates and assessments, upon premises owned by him and his wife respectively, viz: In relation to the premises of his wife, on East avenue, it appears that some years ago the Executive Board, under the direction of Mr. Holley, its chairman, threatened to turn off the water at the premises owned by Mrs. Van Voorhis, but occupied by Mr. Van Voorhis and his family as a place of residence, unless Mrs. Van Voorhis signed a formal written application for the water, notwithstanding the fact that Mr. Van Voorhis tendered the water charges in advance, and, thereupon, an action was begun by Mr. Van Voorhis in the Supreme Court to restrain such contemplated action. The action was tried, and Mr. Van Voorhis succeeded therein, Mr. W. F. Cogswell appearing and trying the case for the Board, owing to Mr. Beckley, the late City Attorney, giving it as his opinion that Mr. Van Voorhis was correct in his position. Mr. Van Voorhis each year tendered to the Board the advance water rates for the ensuing year, but demanded the bills to be mode to him with the each year tenered to the Board the advance water rates for the ensuing year, but demanded the bills to be made to him, which the Board on each occasion refused to do. Mr. Van Voorhis, on behalf of his wife, also tendered to the treasurer the amount of the city taxes, less said water rates,

which had been added to them, which the Treasurer on each occasion refused to accept, believing that he had no power to adjust the matter. The 1885 and 1886 taxes, with the accumulations aforesaid, not being paid, the premises were duly sold by the City Treasurer, The Monroe County Savings Bank being the purchaser at the sales held in March 1886 and 1887. Mr. Van Voorhis, on behalf of his wife, however, is willing to pay the aggregate of the sums tendered by him and her amounting to eleven hundred and ninety-sewen dollars and sixty-seven cents, which we believe is for the interest of the city the treasurer should be directed to be directed to eve is for the treasurer should city the receive, providing the same be paid within one month from this date, and upon such payment being made, that he be directed to cancel receive. payment being made, that he be directed to cancer the general city taxes for the years 1885, 1886 and 1887, including any and all additions by way of water rates, etc., assessed against Mrs. Van Voor-his's premises, known as lot 5, north side of East avenue, Johnson tract, and to charge the balance thereof to erroneous assessments, and upon the certificate of the treasurer that the same has been certificate of the treasurer that the same has been so paid, the clerk should be directed to draw an order in favor of said bank for the excess of the amount of the several certificates held by it over the amount paid for those years by Mrs. Van Voorhis under this resolution, with interest at six per cent. from the respective dates thereof.

It also appeared to your committee that the premises owned by Mr. Van Voorhis, being part of the Strong tract on the west side of North St. Paul street, had during the years 1884, 1885 and 1886 the sum of \$11.00 added to the city takes for each year for alleged water, but which addition was erroue ous, for the reason that no water was used at said premises during those years. Mr. Van Voorhis tendered to the Treasurer the amount of the city taxes during those years, excluding said water additions, which the treasurer on each occasion refused to accept, believing that he had no power to adjust the matter. No water addition has been made to the 1887 tax, as the error was theretofore discovered and rectified. Mr. Van Voorhis is willing to, and in the opinion of your committee, should be allowed to pay, and the Treasurer should be directed to accept from him within one month from this date the sum of five hundred and twelve dollars and ten cents, and upon such payment being made, he should cancel against Mr. Van Voorhis' premises the general city taxes for 1884, 1885, 1886 and 1887, including the addition to the latter for an assessment under ordinance No. 2,225, and the balance thereof should be charged to erroneous assessments

To the Honorable the Common Council of the City of Rochester

GENTLEMEN—Your Assessment Committee begs leave to submit the following as its reports:
That John Straub, J. Ferner, Mary A. Griffing

and P. Neuer, by executors petition for relief from an assessment for Clarkson street pipe sewer, should be granted, as provided in the accompaning resolution.

That Leopold Garson has but 40 feet frontage on North Clinton street, while he was charged for 41 feet frontage, and therefore, is entitled to a rebate

of ten dollars.

We find that Elizabeth Trumpp is assessed in the general city tax for 1887 for \$8.22, upon part of lot 62 Riely's tract, south side of Delevan street, which she was not the owner of, and that such tax was, and is erroneous, and should, therefore, be cancelled; That the Treasurer should be directed to receive from Rosina M. Candee \$167.25, less the discount, for the assessment of the Lowell street improvement, under ordinance No. 3014, and the balance, \$5.55, being the assessment for one foot erroneously assessed to her, should be by him charged to erroneous assessments.

The general city tax for 1887, assessed to the heirs

The general city tax for 1887, assessed to the news of John Wackerman upon the west part of lot 36, Wackerman's subdivision on the north side of Campbell street, in the 15th, ward, of \$3.26, including water rate of ninety cents, should be cancelled by the treasurer, as the land was, before the tax was levied, acquired for the purposes of a street, and said amount should be charged to erroneous

assessments.

According to the City Surveyor the heirs of William C. Peters are entitled to a discount of four dollars and ninety-seven cents upon their premi-ses, lot No. 7, Williams' tract, on the east side of Pinnacle avenue, and Valentine Whitmore is enti-Pinnacle avenue, and Valentine Whitmore is entitled to a deduction of fourteen dollars and eight cents upon the assessment against him upon lots 126 and 143, D. Marsh's subdivision, on the south side of Pinnacle avenue, and the heirs of J. C. Smith are entitled to the repayment of twenty dollars and sixty three cents upon account of the assessment paid, as levied against their premises, lots 1 and 2, Ferguson's subdivision, and lots 87 and 88 Johnson & Atkinson's tract, on the east side of Pinnacle avenue, said assessments being for the Pinnacle avenue improvement, No. 2,975 for old curbstone used in the new improvement, and not credited used in the new improvement, and not credited heretofore to them.

We further find that M. O' Hare is entitled to a

credit of six dollars upon an assessment for Frank street improvement, upon parts of lots 177 and 178, east side of Frank street, and that the treasurer be directed to receive the amount of said assessment, less said six dollars, and charge such amount to

erroneous assessments.

We would further report that in or just prior to the year 1883 Anna Liese conveyed to Joseph No-waski and wife a portion of lot 70 of the Gregory Tract and in said year 1883 had said lot 70 or a por-

tion thereof, including erroneously said portion thus sold, subdivided and a map thereof made and filed, and upon which map said portion thus sold to Mr and Mrs. Nowaski was known as thus sold to Mr and Mrs. Nowaski was known as lot 6. Upon the assessment rolls of the following years 1884, 1885, 1886 and 1887, the assessment of the middle part of said lot 70 was made to said Joseph Nowaski and wife, while the same premises erroneously called said lot 6, of said subdivision was assessed to Anna Liese. The error was not discovered by the Assessors until they began making the assessment roles for Pinnacle avenue Improvement. Mr and Mrs. Nowaski naid their city taxes assessment. The stor Finnacie avenue improve-ment. Mr. and Mrs. Nowaski paid their city taxes for three years regularly upon said so-called mid-dle part of said lot 70, while the taxes upon said lot 6 for the years 1884, 1885, 1886 and 1887 were not paid by reason of said error in the assessment. The Assessors have certified that in their opinion the taxes for the years 1884, 1885, 1886 and 1887 upon said lot 6, Anna Liese's subdivision of part of lot 70 Gregory Tract should for the reasons aforesaid, be cancelled and the amounts thereof charged to erro-

cancelled and the amounts thereof charged to erroneous assessments, in which opinion we concur. In regard to the matter of Ann Sheedy it appears that she was the owner of a lot known as No. 132 on the east side of Oak street; that for the Oak street assessment, so called, an assessment was made upon said property of \$157.44, of which she paid to the treasurer on October 2, 1865, \$52.80, and on January 14, 1867, \$42.30; that in 1865, she was married to Patrick McLean, who subsequently died, and she married John Sheedy; that subsequent to said payments she conveyed the real estate to her daughter Mary McLean, who is still the tate to her daughter Mary McLean, who is still the owner thereof; that a reassessment for said im-provement has been made against said property; that the amounts paid, with interest thereon from the dates of payments, amount, in the aggre-gate, to a sum exceeding the amount of the reas-

sessment.

Your committee is, therefore, of the opinion that non Mrs. Sheedy executing and delivering to the city treasurer a properly acknowledged release and receipt for the sums so paid by her, in the form approved by the city attorney, that the treasurer be directed to cancel the reas sessment.

Your Committee therefore recommends the

ROCHESTER, Jan. 24, 1888.

To the Honorable the Common Council of the City of Rochester:

GENTLEMEN-Your Finance Committee has been notified by the Executive Board that certain appropriations made by this Council for current experience of the current experience of t propriations made by one counter for current ex-penses of tile year ending March 31st, 1888, are in-adequate to meet the requirements of the depart-ments having charge of the expenditure of said funds and application has been made to your committee

to recommend to this Council further appropriations to meet the deficiencies

After a careful consideration of the subject, your committee is of the opinion that, in some departments, there have been legitimate expenditures in excess of the estimates upon which the original expenditures were based, and that a just regard for the public good requires suitable additional appropriations. The Board of Health, whose duties are strictly works of necessity, and can neither be dispensed with nor deferred at pleasure, has, as we have reason to believe, performed its duties promptly and efficiently, and, in so doing, has necessarily exceeded the appropriation originally made for its expenses. Therefore, your committee has no hesitation in recommending a further appropri-After a careful consideration of the subject, your no hesitation in recommending a further appropriation to meet its necessary expenses for the balance of the current year.

The Highway Fund, which is also exhausted, and for which an additional appropriation is strenu-

which an additional appropriation is strent-ously demanded, raises questions of expediency which your Committe has found it difficult to solve upon equally satisfactory grounds. The work in this department, while partially a work of necessity, is largely a matter of discretion: and your committee is of the opinion that had the discretionary part been managed with such pru-dence and economy as would have kept its ex-penditures within the limits of the original appropenditures within the limits of the public would have been better served, and a further appropriation at this time would not have been necessary. Withthis time would not have been necessary. Without pausing here to discuss the details of this department, which have been, and are being warmly discussed by our citizens at large, your committee begs leave to suggest, with all due respect to the honorable gentlemen composing the Executive Board, that if the Executive Board is to exercise its own discretion as to the amounts to be expended annually in the various departments under its supervision, independently of the limitations fixed by the Common Council, then that board should be empowered to council, then that board should be empowered to make its own appropriations, and should hold itself directly responsible to the public, both for the amount of its appropriations, and its methods of expenditure; but, if the Common Council is to be held responsible for the amounts appropriated, then the various departments having charge of public expenditures should, in the exercise of all discretionary powers, so conform to the limitations fixed by the Common Council as to make extra appropriations unnecessary expert in eases of except propriations unnecessary, except in cases of emergency. Otherwise, as it appears to your committee, the recommendations of this committee, and the action of this Council, relating to the appropriations in question, are a mere farce.

In view of the facts as they exist, your Committee finds it necessary to the public good to recommend a further appropriation for the necessary expense of the Board of Health during the balance pense of the Board of Health during the balance of the current year, and equally necessary, under circumstances which your Committee cannot fully justify, to recommend, also, an additional appropriation to protect the public from the annoyances and dangers of uncared-for highways during the balance of the current year, and the expensive law suits that may result from this neglect.

COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFER-ENCES.

By the Clerk-

ROCHESTER, N. Y., Jan. 24th, 1888.

To the Honorable, the Common Council:

GENTLEMEN: The undersigned begs leave to submit herewith the following summary of the work performed under his direction during the month of December, 1887, and the present month, in connection with the maps and plans for the proposed East side trunk sewer:

In this period of time the instrumental surveys and records of levels taken in the preceding two

In this period of time the instrumental surveys and records of levels taken in the preceding two months have been partially mapped and copied, and the contour lines exhibiting the topography of the large districts examined outside of the city limits have been drawn upon the maps to a large extent. This portion of the work is necessarily slow and tedious, as it involves the closest study of the data taken by the field parties in order to trace out accurately the various lines of natural drainage. Neither can a large number of persons work advantageously in the denumber of persons work advantageously in the de-lineation of the typography, since the draughtsman must always keep before him the work alreadyac-complished. It may also be remarked that the chief value of these surveys lies in the correctness with which the physical characteristics of the territory in question are exhibited, and hence in the facility thereby afforded to demonstrate the feasibility of any projected scheme of drainage. Ample time is therefore essential in this work.

The progress in the mapping has also been greatly delayed both by the dangerous illness of my principal assistant, Mr. Oscar H. Peacock, who has been confined to his home ever since the middle of December, and by the complete occupation of my own time for more than three weeks in the examinations relating to the explosion of naptha in the Platt street outlet sewer on Dec. 21, 1887 which examination I had been directed to make by the city authorities. Considerable time has likewise been been required to assist the City Attorney in the defense of a number of suits brought against the corporation. It affords me pleasure, however, to state that in a short time both Mr. Peacock and I sate that in a short time both Mr. Feacock and I can again devote our entire time to the prosecution of the sewer work; and I sincerely hope that on the occasion of my next report, a more satisfactory amount of progress will be exhibited.

It must not be inferred from the foregoing that

there has been any cessation in the preparation of the maps for the said sewer. Two other assistants have continued the work without interruption dur-ing my absence and Mr. Peacock's illness, and both have been faithful in the discharge of their duties; but it cannot be expected that the rate of progress shall be as great as if the circumstances mentioned

had not occurred.

Respectfully submitted,

EMIL KUICHLING, Civil Engineer. Ordered received, filed and published.

ACTION ON ORDINANCES.

FIRST ORDINANCES.

PLATT STREET OUTLET SEWER IMPROVEMENT.

By Ald. Judson—Resolved, That the City Surveyor ascertain and report to this Conneil the expense of sinking a shaft at or near the intersection of Mill street and Factory street and the connection of the bottom of the shaft by means of a tunnel and contact account with the west share of the Genesea a stone sewer with the west shore of the Genesee river when said river is at its lowest stages. Adopted.

The surveyor submitted as such estimate \$8,350. By Ald. Judson-Resolved, that the following

improvement is necessary, viz.:

The sinking of a shaft on the line or on the line produced of the Platt street outlet sewer at the point at or near the intersection of Mill street and Factory street and the construction of a tunnel from the bettern of the gold about a the street. from the bottom of the said shaft to the foot of the high bank or bluff on the west side of the Genesee river, thence connecting the end of the tunnel with the west shore of the aforesaid river at its lowest stages by a stone sewer, the dimensions of the shaft, tunnel and sewer above named to be sufficiently large to receive and discharge into the river all the sewer flowage that may come into them from the territory they are designed to accommodate.

And Whereas, The City Surveyor, under the directions of this Council, has made an estimate of the whole expense thereof, and reports the same at

the whole expense thereof, and reports the same at \$8,350.00 which estimate is hereby approved. Resolved, further, that the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense thereof, viz.:

MAYOR'S OFFICE. ROCHESTER, January 30, 1888.

Peter Sheridan, Esq., City Clerk:

Ŕ

Please call a special meeting of the Common Council for to-day at 12 o' clock, m., that the members of the Board may again take into consideration the following resolution presented at the last regular meeting, but action on which was postponed until February 7th:

"By Ald. Thayer-Resolved, That the City "By Ald. Thayer—Resolved, That the City Treasurer be, and hereby is, authorized to issue the city's note for the sum of twelve thousand dollars, under the authority of Section 81 of the City Charter, and credit the proceeds of said note to the Highway Fund; said note to be discounted under the direction of the Finance Committee, and to be countersigned by the Chairman of the Finance Committee and the discount thereon to be charged to Contingent Fund?" to Contingent Fund."

In answer to the criticisms which have been made on the expenditure of the Highway Fund by the Executive Board, that Board, through its clerk, has submitted the following:

ROCHESTER, Jan. 28, 1888.

Hon. C. R. Parsons, Mayor of Rochester

DEAR SIR: At this date the Highway Fund is exhausted, and under the terms of the Charter the Executive Board is precluded from incurring any indebtedness against said fund, in the absence of moneys in the hands of the City Treasurer to the credit thereof.

The Executive Board has endeavored to administer expenditures of this fund with care and prudence, and believes that its present depleted condition is due to the fact that the requisition of the Executive Board at the commencement of the year for that fund was not honored by the Finance Committee and the Common Council.

It is very unfortunate that the highway fund should be exhausted at this particular juncture. One of the severest storms which has occurred for many years is now upon us. The streets in the outlying wards are blockaded with snow to such a start that they cannot be used for the ord. an extent that they cannot be used for the ordi-nary purposes of traffic, or the passage of the fire department in case of a conflagration. Very many working men are thrown out of employment, who are accustomed to receive such results from their labor in this department as will enable them to feed their families. In view of these facts, it may be well questioned whether the failure to immediately provide funds for the continuing of work in that department may not prove an expensive mistake.

The question as to whether the Executive Board The question as to whether the Executive Board has been extravagant in its expenditures from this fund can be fully determined at the leisure of the Common Council, but the work of the department cannot eease for any extended period without great inconvenience, discomfort and financial loss to our

Your Honor's attention is respectfully invited to the annexed statement, showing the amount of the requisition made by the Executive Board for this fund at the beginning of the fiscal year, the amount allowed by the Common Council and the principal items of expenditure therefrom to date.

Very much of this expenditure was because of work undertaken under the pressure of earnest personal solicitation and demand of the Aldermen of the various wards, each of whom claimed, perhaps with some justice, that as the direct and special representative of his particular ward, he was best qualified to judge of the wishes and needs of that particular locality. of that particular locality.

In consideration of these persistent and imperative demands from individual members of the Common Council for the expenditures from the highway fund for the benefit of their several constituances, it is somewhat difficult for the ordinary observer to appreciate the manliness or justness of observer to appreciate the manilness or justness of the hasty attempt made by some parties to unload all responsibility in the matter of expenditures from this fund upon the board having its immediate custody, which board may have been culpable to the extent to which it yielded to the importunate demands of the parties herein before indicated.

The situation is thus briefly submitted for the consideration of the chief magistrate of the city. The Executive Board has exhausted its powers in the matter, and can no longer continue the work in the interest of the continue of the work in the continue of the continue of the work in the continue of the work in the continue of the work in the continue of the cont in the highway department until the necessary funds are provided therefor.

Respectfully submitted,

THOMAS J, NEVELLE. By order Clerk.

At a meeting of the Finance Committee of the Common Council in April last, the Executive Board presented a detailed statement, by streets, of the amount of money which it was estimated would be necessary to perform the work for which the highway fund is raised. The amounts so stated

the nighway fund is raised. The amount	s so stated

\$185,200 00 With the fact in mind that there are about 237 With the fact in mind that there are about 23 miles of improved and unimproved streets and alleys that need to be cleaned and maintained in the city of Rochester, the above requisition could not be deemed extraordinary, yet the Finance Committee arbitrarily decided that the sum of about \$127,000 was sufficient to defray all expenses of the Street Department for the year.

The expenditures of the Executive Board for the following purposes, to January 1, 1888, as shown by its records are:

The above are the chief items of expenditure which, together with a large number of smaller ones, make an aggregate outlay for all purposes in the street department to January 1, 1888, \$135,000. The difference between the amount of appropriation and the amount of expenditure is made up of smaller them of other sources of income sundry items of other sources of income.

During the year 1886, about three miles of improved streets were constructed, which added to the cost for general repair and care in 1887.

The actual expenditure for several items was

It is estimated that the board has now on hand property purchased out of this appropriation, consisting of a new steam roller, lumber and stone, to the value of \$9,000.

In reply to the foregoing communication from said Executive Board, four members of the Finance Committee of the Common Council make response as follows:

ROCHESTER, N. Y., Jan. 28, 1888.

Hon. C. R. Parsons, Mayor:

DEAR SIR: The undersigned, members of the finance committee of the Common Council, hereby request you to call a special meeting of the Board request you to call a special meeting of the Board of Aldermen for Monday, January 30th, 1888, at 12 m. sharp, for the purpose of considering the resolutions introduced at the last meeting of the Common Council by Alderman Thayer, chairman of the finance committee.

Your committee voted last April to give the Executive Board \$130,000.00, for the highway fund. In 1883 the Executive Board was given for that fund about \$80,000.00; in 1884, \$79,200.00; in 1885, \$87,000.00; in 1886, \$117,457.00, and in 1887, \$130,000.00. We believed, and still believe, that \$130,000.00 for the highway fund was abundantly large to take care of all the streets that it is the duty of the executive board to look after. Ten months of the year have elapsed, and the finance committee of the common council are informed that the appropriation is practically exhausted. We need not say that we are surprised to learn that what we propriation is practically exhausted. We need not say that we are surprised to learn that what we supposed was a liberal appropriation should be depleted, and but ten months of the year passed.

We are persuaded that the circumstances in we are persuaded that the circumstances over which we find ourselves are circumstances over which we have no control. The charter puts upon us the duty of levying taxes. It also puts upon us the duty of making appropriations; but there are several departments to which we make appropriations over which we have no control, and it is not possible for us to say whether or not the expenditures in these departments are wise, economical and tures in these departments are wise, economical and just. Nevertheless, when the appropriations are exhausted all work ceases. We have to take it for granted that the work has been properly done and the affairs economically administered. It we take any other position, then the taxpapers, who have paid their obligations for certain work to be have paid their obligations for certain work to be performed, condemn the Common Council for the non-performance of that work, when, as matter of fact, if every department is given to understand at the teginning of the year that it must live within the appropriations, no extraordinary emergencies occurring, the taxes would be a definite quantity, and wise economy would be absolutely necessary, and the wretched practice forced upon us of making deficiency notes would be forever done away with We protest against the circumstances that We protest against the circumstances that compel us to make additional appropriations. believe it is unbusinesslike and prejudicial to our best interests and of approved municipal methods.

The past year has been a year noted for the lack The past year has been a year noted for the lack of rain, and, until the present week, conspicuous for the absence of any heavy snow storm. It does not appear to your committee or the Common Council, that there has been sufficient increase in the number of streets that are to be cared for out of the highway fund to justify the expenditure of \$130,000 within ten months. No extraordinary emergency had been apparent and yet the funds are gency had been apparent and yet the funds are gone, and, if we refuse to grant the additional ap-propriation asked for, all work upon the thoroughfares of the city ceases and

the members of the Common Council, individually and collectively, receive the condemnation of the people for a condition of things for which they are in no respect responsible.

which they are in no respect responsible.

The finance committees are on record against this anomalous condition of things. We wish to protest, here and now, most emphatically, against the relations in which we are placed, which puts upon one branch of the city government all the blame for shortsightedness, unwise expenditure, and of extravagance of other departments, especially those departments over which we have no control whatever as to how they shall expend their moneys. But it is only another illustration of the oft-quoted statement that the charter of the city of Rognester is of no practical value for a city city of Rochester is of no practical value for a city of 125,000 people.

of 125,000 people. Being, as we are, "between the devil and the deep sea," we, as gracefully as possible, submit to the annoying and unjustifiable circumstances that our mixed charter has put upon us, hoping meanwhile that the citizens of Rochester will. take sufficient interest in municipal politics to give us a charter that makes the responsibility equal and particular, both in the matter of raising money, in the matter of making appropriations, and in the

matter of expending the same.

Had we granted every appropriation asked for by the departments, our tax levy would have been by the departments, our tax levy would nave been swelled several hundred thousand dollars more than it was.

Very respectfully,

H. G. THAYER,

JOHN H. FOLEY,

GEORGE B. SWIKEHARD.

GEORGE W. ELLIOTT.

It has well been said, "it is unfortunate that the It has wen been said, "It is unfortunate that the Highway Fund should be exhausted at this particular juncture," The recent storm, with its neavy fall of snow, and the constant accumulation of ashes and other matters requiring prompt removal, have left our streets in a somewhat deplorable condition. condition.

The loss of compensation to the men formerly employed by the Executive Board on the streets is producing unfortunate results.

The question as to where the blame may lie can be discussed later, but the best interests of our city demand that the necessary funds should be promptly provided, that the relief so urgently desired may be no longer delayed.

By the Clerk-

MAYOR'S OFFICE, ROCHESTER, N. Y., Jan. 26, 1888.

Gentlemen of the Common Council:

Final ordinance number 3,337 [Bronson avenue Final ordinance number 3,337 [Bronson avenue pipe sewer] is returned by me disapproved. There are 17 owners of property on the line of the proposed sewer; of this number 12 or 13 have adequate drainage, and, consequently, oppose the ordinance, and have notified me to that effect. I have filed their petition with the city clerk. The remaining number, four or five who need sewerage, can easily be accomodated by the extension westerly, for a distance of two bunded feet of the present sewer. be accomodated by the extension westerly, for a distance of two hundred feet, of the present sewer in Bronson avenue—a feasible thing to do, as I am informed by one or more attaches of the Surveyor's office, who at my request, have given personal attention to the matter. This can be done at a much less expense to those wanting drainage than by the ordinance proposed; hence my disapproval of the same.

CORNELIUS R. PARSONS,

Mayor

Mayor. The chairman stated the question to be, "shall the ordinance stand, notwithstanding the objections of His Honor, the Mayor." The ordinance was adopted by the following vote:

MAYOR'S OFFICE, ROCHESTER, N. Y., Jan. 26, 1888.

Gentlemen of the Common Council:

The resolution adopted at your meeting held on the 17th day of January, which instructed the City Attorney to take necessary proceedings to acquire lands for the extension of Frost avenue, is hereby returned disapproved. In this connection I submit the following copy of a petition which has been hearded; handed me:

"To the Mayor of the City of Rochester:

DEAR SIR: We, as taxpayers on Frost avenue of your city, having become aware of the proceedings of the Common Council for the extension of Frost avenue, most humbly petition and request

or Frost avenue, most numbly petition and request your honor to use the power vested in you, to veto any proceedings or resolutions for that purpose for the following reasons:

"First—About the time the Common Council passed such a resolution a few advocates of the proposed extersion claimed that the lands neces-

passed such a resolution a few advocates of the proposed extersion claimed that the lands necessary for the purpose could be procured for three or four thousand dollars, but, by reading the report of the Executive Board we find that one property owner will not sell for less than \$10,000, and another owner, whose property consists of necessary land, with two dwellings thereon, cannot be estimated at less than \$12,000 to \$15,000, which total amount of necessary lands, bridge approaches. filling, etc., would make the amount in the neighborhood of \$30,000—a sum too great for us tax-payers to think of for a moment.

"Second—At the time such resolution was passed, it was on a minority petition of the tax-payers, while no attention was paid to a remonstrance of a majority of the taxpayers.

"Third—Soon after the resolution was passed by the Common Council, a conference was held by the leaders of the extension, and those opposed, and it was mutually agreed that such resolution should be rescinded at the next Council meeting, and the estimated cost of such extension should be procured, and a public meeting of the taxpayers should be called for the purpose of talking the matter over and arriving at some definite understanding; but, afterwards, the party of the extension completely ignored such agreement, and instead of procuring a resolution of the vaccinding of said resolution, have constantly continued to procure such extension, and have recently secured a passage of a resolution by the

Council to procure said necessary lands by com-

mission.

"Fourth—The extension of said avenue is not necessary for the benefit of the public or the majority of the taxpayers. It will only benefit a very few next to Olean street; and we humbly pray you to withhold your consent from the incurring of any expense whatsoever on account of said extension."

The above petition is signed by sixty-three persons who would be taxed for the aforesaid improvement, and these constitute a large majority of the owners of the property within the limits described by the ordinance, and it is because of their objections that I return the resolution without my approval.

my approval.

CORNELIUS R. PARSONS, Mayor.
The chairman stated the question to be, "shall the resolution stand, notwithstanding the objections of His Honor, the Mayor.' The veto of the Mayor was sustained by the following vote:
Nays—Ald. Tracy, Sullivan, Marson, Fee, Kohlmetz, Fritzsche, Foley, Hall, Swikehard, Jndson, Stein, Keily, Thayer—13.

OFFICE OF THE EXECUTIVE BOARD, ROCHESTER, Feb. 7, 1888.

To the Common Council:

To the Common Council:

GENTLEMEN—The Executive Board has made an an examination of Glasser Park, pursuant to the terms of a resolution adopted by your Board, and beg leave to report that all conditions required by your honorable body have been complied with, except that iron, instead of stone monuments have been set. The owner of the property, however, states that he has contracted for the regulation stone monuments and they will be put in place as soon as the weather permits. Under the circumstances the Executive Board would therefore recommend the acceptance of Glasser Park as a public street. Respectfully,

ommend the acceptance of Glasser Park as a public street. Respectfully,

ROCHESTER, N. Y., Feb. 7, 1888, To the Honorable the Common Council of the City of Rochester

of Rochester. Gentlemen—In compliance with the instruction of the Board of Education, I herewith transmit the report of the Building Committee, adopted by a unanimous vote at a regular meeting held on January 31st. Respectfully, S. A. Ellis, Supt. and Clerk. Com. Kingsley, from the Building Committee, presented the following, which was adopted, and

the superintendent instructed to send a copy to the Common Council:

the Common Council:

"To the Board of Education:
"GENTLEMEN: Your Building Committee desires to call your attention to an important matter that demands your immediate attention. It is well known that the annual appropriation of \$15,000 for the purchase of sites and the erection of new school buildings was fixed at a time when our city numbered but about sixty thousand inhabitants, it now numbers, upon a conservative estimate, one hundred and twenty thousand. It stands to reason, therefore, that the appropriation named in the city now numbers, upon a conservative estimate, one hundred and twenty thousand. It stands to reason, therefore, that the appropriation named in the city charter has been wholly inadquate for years; and even the extra appropriations made from time to time have not been sufficient to enable this board to provide suitable school accommodation for all the children in daily attendance upon our schools. When No. 31 is completed and the school transferred from the rented rooms now occupied, it will be still necessary to maintain 'annexes' at Nos. 31, 18, 24 and 25. Into these 'annexes,' the rooms of which are small, poorly lighted and without means of ventilation, and with only the merest make-shifts for blackboards, are crowded nearly 300 children. A visit to one of these rooms will convince any one that they are wholly unfit for school purposes and ought to be abandoned as soon as possible. Besides, as has already been frequently shown, it is poor economy to continue their use. The annual interest upon an amount sufficient to erect an eight-room school building would be less than will be paid for the rent of these 'annexes' this year.

"It is therefore, in the interests of the physical health of several hundred children, and of a wise economy, that more money should be appropriated annually for building purposes. It will be noted that all this takes no account of the regular annual increase of pupils in attendance upon the public schools, which is between five and six hundred.

annually for building purposes. It will be noted that all this takes no account of the regular annual increase of pupils in attendance upon the public schools, which is between five and six hundred.

Besides the districts where these 'annexes' are located, there is an uncomfortable overcrowding at Nos. 3, 4, 11, 19, 20 and 30.

An addition to Nos. 3, 13, 24 and 25 seems imperative, while No. 4, 19 and 29 can only be relieved by a new building located somewhere between No. 4 and 19 and to the west of them. By the introduction of steam heating into Nos. 12, 18 and 20 School Buildings, room could be obtained, now occupied by stoves, sufficient for the year to come, at least, to provide accommodations for the natural increase of pupils in these districts and for the pupils now in the 'annex' of No. 18 School. When Governor Hill was asked to approve of the bill making an extra appropriation for school buildings in this city last year, he expressed great surprise that the annual amount for that purpose fixed by the charter was only \$15,000 and suggested that the charter be amended so as to prevent the necessity of asking the legislature each year, to authorize the raising of an extra appropriation for school buildings. 'In view of all these facts, which it would be easy to demonstrate to members of the Common Council be asked to approve of an amendment to the city charter, which should give the said Council the authority, should they see fit to appropriate \$50,000—annualy for school buildings.

Peter Sheridan, Esq., City Clerk:

Please call a special meeting of the Common Council for to-day at 12 o'clock, m., that the members of the Board may again take into consideration the following resolution presented at the last regular meeting, but action on which was post-poned until February 7th:

"By Ald. Thayer-Resolved, That the City Treasurer be, and hereby is, authorized to issue the city's note for the sum of twelve thousand dollars. city's note for the sum of twelve thousand dollars, under the authority of Section 81 of the City Charter, and credit the proceeds of said note to the Highway Fund; said note to be discounted under the direction of the Finance Committee, and to be countersigned by the Chairman of the Finance Committee and the discount thereon to be charged to Contingent Fund.

In answer to the criticisms which have been made on the expenditure of the Highway Fund by the Executive Board, that Board, through its clerk, has submitted the following:

ROCHESTER, Jan. 28, 1888.

Hon. C. R. Parsons, Mayor of Rochester:

DEAR SIR: At this date the Highway Fund is exhausted, and under the terms of the Charter the Executive Board is precluded from incurring any indebtedness against said fund, in the absence of moneys in the hands of the City Treasurer to the credit thereof.

The Executive Board has endeavored to admin-The executive Board has endeavored to administer expenditures of this fund with care and prudence, and believes that its present depleted condition is due to the fact that the requisition of the Executive Board at the commencement of the year for that fund was not honored by the Finance Committee and the Common Council.

It is very unfortunate that the highway fund should be exhausted at this particular juncture. One of the severest storms which has occurred for many years is now upon us. The streets in the outlying wards are blockaded with snow to such a very that they cannot be used for the ord. outlying warus are blockaded with show to such an extent that they cannot be used for the ordinary purposes of traffic, or the passage of the fire department in case of a conflagration. Very many working men are thrown out of employment, who are accustomed to receive such results from their paper. labor in this department as will enable them to feed their families. In view of these facts, it may be well questioned whether the failure to immediately provide funds for the continuing of work in that department may not prove an expensive mistake.

The question as to whether the Executive Board has been extravagant in its expenditures from this fund can be fully determined at the leisure of the Common Council, but the work of the department cannot cease for any extended period without great inconvenience, discomfort and financial loss to our citizens.

Your Honor's attention is respectfully invited to the annexed statement, showing the amount of the requisition made by the Executive Board for this fund at the beginning of the fiscal year, the amount allowed by the Common Council and the principal items of expenditure therefrom to date

Very much of this expenditure was because of work undertaken under the pressure of earnest personal solicitation and demand of the Aldermen of the various wards, each of whom claimed, perhaps with some justice, that as the direct and special representative of his particular ward, he was best qualified to judge of the wishes and needs of that particular locality.

of that particular locality.

In consideration of these persistent and imperative demands from individual members of the Common Council for the expenditures from the highway fund for the benefit of their several constituences, it is somewhat difficult for the ordinary observer to appreciate the manliness or justness of the hasty attempt made by some parties to unload all responsibility in the matter of expenditures from this fund upon the board having its immediate outsody, which board may have been culpable to the extent to which it yielded to the importunate demands of the parties herein before indicated.

The situation is thus briefly submitted for the

The situation is thus briefly submitted for the consideration of the chief magistrate of the city. The Executive Board has exhausted its powers in the matter, and can no longer continue the work in the highway department until the necessary funds are provided therefor.

Respectfully submitted.

THOMAS J. NEVELLE, By order Clérk.

At a meeting of the Finance Committee of the Common Council in April last, the Executive Board presented a detailed statement, by streets, of the amount of money which it was estimated would be necessary to perform the work for which the highway fund is raised. The amounts so stated were as follows

For repairs of about fifty-four miles of improved streets and alleys.......
For grading and repairs of of ninety-five miles of unimproved streets and alleys, building and repairing cross-walks, cleaning sidewalks, ditches, 25,400 00 25,250 00 For cleaning and sweeping streets, alleys, removing ashes and rubbish..... New steam roller, machinery, tools, 63,500 00 16,300 00 11,680 00 For salaries and all other expenses....

With the fact in mind that there are about 237 miles of improved and unimproved streets and alleys that need to be cleaned and maintained in the city of Rochester, the above requisition could not be deemed extraordinary, yet the Finance Committee arbitrarily decided that the sum of about \$127,000 was sufficient to defray all expenses of the Street Department for the year.

The expenditures of the Executive Board for the following purposes, to January 1, 1888, as shown

following purposes, to January I, 1888, as shown by its records, are:

For scraping, cleaning and sweeping \$23,621 00 \$2,472 00 oridge, repair and care 2,308 00 ewalks 4,108 00 streets.
For sewer repairs.
For Allen street bridge, repair and care.
For repairs to sidewalks.
For removal of ashes and rubbbish.
For care and repairs of Lyell avenue and
Brown street canal bridges. streets. 25,170 00 2,200 00 For general street repairs
For McAdam, sand and grayel..... 35,390 00 For lumber..... Steam roller.....

The above are the chief items of expenditure which, together with a large number of smaller ones, make an aggregate outlay for all purposes in the street department to January 1, 1888, \$135,000. The difference between the amount of appropriation and the amount of expenditure is made up of sundry items of other sources of income.

During the year 1886, about three miles of improved streets were constructed, which added to the cost for general repair and care in 1887.

The actual expenditure for several items was

largely in excess of the estimates, owing to unfor-seen and necessary work required to be done. There were also extraordinary outlays demanded in the repairs of Court street bridge piers, Andrew street bridge piers and abutments, and the neces-sary painting of Central avenue and East Main street bridges.

It is estimated that the board has now on hand property purchased out of this appropriation, consisting of a new cost am roller, lumber and stone, to the value of \$9,000.

In reply to the foregoing communication from said Executive Board, four members of the Finance Committee of the Common Council make response as follows:

ROCHESTER, N. Y., Jan. 28, 1888.

Hon. C. R. Parsons, Mayor:

DEAR SIR: The undersigned, members of the finance committee of the Common Council, hereby mance committee of the Common Council, hereby request you to call a special meeting of the Board of Aldermen for Monday, January 30th, 1888, at 12 m. sharp, for the purpose of considering the resolutions introduced at the last meeting of the Common Council by Alderman Thayer, chairman of the finance committee.

Your committee voted last April to give the Executive Board \$130,000.00, for the highway fund. In 1883 the Executive Board was given for that fund about \$80,000.00; in 1884, \$72,000.00; in 1886, \$117,457.00, and in 1887, \$130,000.00. We believed, and still believe, that \$130,000.00 for the highway fund was abundantly large to take care of all the streets that it is the duty of the executive board to look after. Ten months of the year have elapsed, and the finance committee of the common council are informed that the appropriation is practically exhausted. We need not or the common council are informed that the appropriation is practically exhausted. We need not say that we are surprised to learn that what we supposed was a liberal appropriation should be depleted, and but ten months of the year passed.

We are persuaded that the circumstances in which we find ourselves are circumstances over we are persuaded that the circumstances me which we find ourselves are circumstances over which we have no control. The charter puts upon us the duty of levying taxes. It also puts upon us the duty of making appropriations; but there are several departments to which we make appropriations are which as the second control of the control tions over which we have no control, and it is not possible for us to say whether or not the expendi-tures in these departments are wise, economical and just. Nevertheless, when the appropriations are exhausted all work ceases. We have to take it for granted that the work has been properly done and the affairs economically administered. If we and the affairs economically administered. If we take any other position, then the taxpapers, who have paid their obligations for certain work to be performed, condemn the Common Council for the non-performance of that work, when, as matter of fact, if every department is given to understand at the beginning of the year that it must live within the appropriations, no extraordinary emergencies occurring, the taxes would be a definite quantity, and wise economy would be absolutely necessary, and the wretched practice forced upon us of making deficiency notes would be forever done away We protest against the circumstances that compel us to make additional appropriations. We believe it is unbusinesslike and prejudicial to our best interests and of approved municipal methods.

The past year has been a year noted for the lack of rain, and, until the present week, conspicuous for the absence of any heavy snow storm. It does not appear to your committee or the Common Council, that there has been sufficient increase in Council, that there has been sufficient increase in the number of streets that are to be cared for out of the highway fund to justify the expenditure of \$130,000 within ten months. No extraordinary emergency had been apparent and yet the funds are gone, and, if we refuse to grant the additional appropriation asked for, all work upon the thoroughfares of the city ceases and

Council. members Ωf the Common the individually and collectively, receive the condemnation of the people for a condition of things for

nation of the people for a condition of things for which they are in no respect responsible.

The finance committees are on record against this anomalous condition of things. We wish to protest, here and now, most emphatically, against the relations in which we are placed, which puts upon one branch of the city government all the blame for shortsightedness, unwise expenditure, and of extravagance of other departments, especially those departments over which we have no control whatever as to how they shall expend their moneys. But it is only another illustration of the oft-quoted statement that the charter of the city of Rochester is of no practical value for a city city of Rochester is of no practical value for a city of 125,000 people.

Being, as we are, "between the devil and the deep sea," we, as gracefully as possible, submitto the annoying and unjustifiable circumstances that our mixed charter has put upon us, hoping mean-while that the citizens of Rochester will take sufficient interest in municipal politics to give us a charter that makes the responsibility equal and particular, both in the matter of raising money, in the matter of making appropriations, and in the matter of expending the same.

Had we granted every appropriation asked for by the departments, our tax levy would have been swelled several hundred thousand dollars more than it was.

Very respectfully, H. G. THAYER, JOHN H. FOLEY, GEORGE B. SWIKEHARD. GEORGE W. ELLIOTT.

It has well been said, "it is unfortunate that the Highway Fund should be exhausted at this particular juncture," The recent storm, with its heavy fall of snow, and the constant accumulation of ashes and other matters requiring prompt fremoval. have left our streets in a somewhat deplorable condition.

The loss of compensation to the men formerly employed by the Executive Board on the streets is producing unfortunate results.

The question as to where the blame may lie can be discussed later, but the best interests of our city demand that the necessary funds should be promptly provided, that the relief so urgently desired may be no longer delayed.

To the Honorable the Common Council of the City

of Rochester:
GENTLEMEN: Your Law Committee begs leave to submit the following for its report:
Your Committee recommends the payment of the following judgments, recovered by James H, Hooker against the city, for damages alleged to have been caused by the discharge of sewage from the North avenue outlet sewer through premises owned by him and others, and for costs of the several appeals in the action, the first mentioned judgment having been very recently affirmed by the Court of Appeals, thereby leaving no option with the city other than to pay the same, namely: July 14, 1883, damages \$600, costs \$200.93; July 16, 1885, costs of appeal to Court of Appeals ruary 21, 1888, costs of appeal to Court of Appeals \$97.27; the judgments also bearing interest from their respective dates.

Your Committee, under the advice of the city at-

Your committee, under the advice of the city alterney also recommend the payment of the two judgments, the first recovered by Lizzle L. Chapin against the city, for damages alleged to have been sustained from the discharge of sewage from the Monroe avenue and Nichols Park outlet sewers in the Theory great flowing agrees have premises in Monroe avenue and richors rark other sewers in-to Thomas creek, flowing across her premises, in which action the jury found a verdict in her favor for \$1,500. Judgment therein was entered on January 23, 1888, for damages \$1,502.25, costs \$148.57, togeth-er with interest thereon from said January 23, 1888. er with interest thereon from said January 25, 1888. From said judgment, however, should be deducted 75 cents prospective disbursements, for sherift's execution fees and the clerk filing execution and entering satisfaction and the other judgment being recovered by the plaintiff in the action of Margaret. A. Ferguson against the city for injuries alleged to have been sustained by her by reason of a defective nave been sustained by help by reason of a defective sidewalk on Strong street, and in which the jury rendered a verdict in her favor for \$1,100. Judg-ment thereon was entered on January 28, 1888, and ment thereon was entered on January 25, 1888, and bears interest from that date, and is for damages \$1,100; costs, \$118.61, less 76 cents prospective disbursements for sheriff's and clerk's execution fees. The amounts recovered are in the opinion of the city attorney, much lower than can reasonably be democrated in one part trials has granted thousis. expected in case new trials be granted therein, and

Your committee, after a full investigation, is of the opinion that the bill of Wm. Johnson, referred to your committee, should be paid, as we believe the services rendered are amply worth the amount

charged.

The claim of Mrs. Jennie Woodhouse for damages alleged to have been caused by the bursting of a water main at or near the corner of North Clina water main at or near the corner of North Clinton and Granger sts., should be referred to the Executive Board, with the request that that body examine into the matter and report the facts to your honorable body, with their opinion as to the disposition to be made of the same.

Your committee is of the opinion that the City Attorney and Surveyor should be directed to prepare an act, or an amendment to the charter, for passage by the Legislature dividing the city into

twenty wards.

Your committee would further recommend that a settlement be had of the actions of Mary A. Graham, as administratrix, etc., of Anna Graham, deceased, and Mary A. Graham, individually, against the City of Rootester, by the payment of the amount of judgment in the first mentioned action, namely, \$2,309.59 and interest thereon from October 25, 1887, besides \$20 costs of the appeal to the General Term to this date, and in the second action the sum of \$62, the amount of the plaintiff's costs and disbursements therein to this date. We concur with the City Attorney in the belief that such a settlement will be advantageous to the city to make, as it will dispose of the cause of action in the second action, the damages in which are stated at \$10,000.

For the above purposes we recommend the acompanying resolutions. Your committee would further recommend that a

By Ald. Marson-

To the Honorable, the Common Council of the | City of Rochester: GENTLEMEN—Your Assessment Committee begs

leave to submit the following as its report:
The application of the New York Life Insurance Company for relief from alleged water rates or assessments should be referred to the Executive Board, having charge of the water-works department, to take such action, and grant such relief as in its opinion may be just and equitable, according to the circumstances, your committee being of the opinion that such board can best determine the application upon its merits.

M. H. Fitz Simons and Robert Sterrit were assessessed for the King, Allen and Canal streets sewer cleaning upon property on Grape street owned by them in the rear of lots 30, 31 and 32 on Orange street, the amount thereof being \$11.04, which the assessors have certified is erroneous, and should be deducted from the original assessment of \$26.31, in which opinion your committee

concurs.

William Cochrane was assessed on his lot, corner of Jay and Magne streets for the cleaning of the \$9.20. The lot fronts on Jay street, and the lateral sewer of said lot is drained into the sewer in Jay street. Mr. Cochrane paid his assessment, but the assessors have certified that the same was erron-eous, and should be refunded to him, and we, there-

fore, recommend such action.

The application of Mary Smith to be relieved of an assessment of \$102.95 against her premises on the northwest corner of Troup and Julia streets for Troup street sewer, should be denied, as the assessors and your committee are of the opinion that no grounds for such relief being granted have been

The application of Alexander Heydecker to be relieved from a part of an assessment against his premises on the corner of Brown street and West avenue for the Brown street asphaltum improvement upon an alleged erroneous frontage measurement, should be granted, to the extent of 15 feet, that being the amount certified by the assessors, and the rate of assessment being \$5.73, net foot frontage, and \$6.42, assessment foot frontage, in-

cluding interest added for two years.

The application of George Blumenstock, John McMannis, Isabella Springstead, Murta Glenn and Charles King for relief from excessive lot frontage measurements in the matter of the assessment against their respective premises upon Brown street, for the Brown street asphaltum improvement, should be granted, to the following extent, such be ng certified by the assessors to be just, namely: George Blumenstock, three feet, John namely: George Blumenstock, three teek, John McMannis, one foot, Isabella Springstead, one foot, Murta Glenn, three feet, and Charles King, one Murta Glenn, three feet, and Charles King, one \$5.73 net frontage foot, or \$6.42 foot, at the rate of \$5.73 net frontage foot, or \$6.42 assessment frontage foot. Said Blumenstock having heretofore paid his assessment is therefore entitled to be repaid the sum of \$17.19.

The claim of Jane A. Bardwell, Ann M. Burkhardt, James Dellbridge, L. H. Howland, heirs of H. A. Blauw, deceased, and Christian Yakey, to have relief afforded them against the assessment made against their respective premises for the North Clinton street improvement and sewer extension, under Final Ordinance No. 3,053, should be granted in the following particulars and extent, for the following reasons, namely: It appears from the statements of the Second Assistant City Surveyor that in the improvement it became necessary to cause to be removed trees in front of their respective premises, and which would be in their respective premises, and which would be in the line of the improvement, and the same were removed at an expense of \$5 per tree, and such expense was paid to the contractor by the city; that a break occurred in the watermain in the roadway at the corner of Central avenue and North Clinton street, and that and the roadway had to be improved, which resulted in an expense of \$133.00 for extra work, which was also paid to the contractor; that the extra work upon the Surveyor's books was, through a mistake, added to the cost of removing the trees, and the total amount charged as the expense of and the total amount charged as the expense of

removing the trees, was \$213.00, instead of \$80.00, the actual expense, and the assessments of the above mentioned persons were surcharged to the greatly erroneous amount of \$10.21 per tree; said Bardwell and Yakey being each charged with three trees, and each of the others with two trees. The amount of excess charged, as certified by the said. Assistant Surveyor, is as follows: Said Jane A. Bardwell and Christian Yakey each \$28.00, and the others each \$19.00.

others each \$19.00.

Ann M. Burkhardt and James Dellbridge have paid their assesments, and, therefore, should have said sum of \$19.00 each refunded to them, while the others should have the above mentioned sums, with two years' interest added, deducted from their nearting assessments the amounts with in their respective assessments, the amounts with interest, being stated in the annexed resolution.

Your Committee, therefore, recommends the adoption of the accompanying resolutions for the purposes aforesaid.

ROCHESTER, N. Y., Feb. 21st, 1888.

To the Honoroble, the Common Council of the City of Rochester:

GENTLEMEN: I have completed the survey and maps of the territory, in the First ward of the city, included within West Main and Allen streets and State and Elizabeth streets, in accordance with a resolution of your Board, passed May 31st, 1887, and contract entered into on the second day of July, 1887, and have submitted the notes and maps of said survey to your Surveyor for examination

tion.

The area of the completed territory is 35.47 acres at \$4 per acre=\$141.88, the amount due me up to date.

Yours respectfully,
John C. Ryan.

I herepy certify that the work so far executed by John C. Ryan for a "Transit survey" of the first fourteen wards of this city has been submitted to me, and his calculations thoroughly tested, and the maps connected with this survey critically examined, and I believe that he has fully complied with the specifications accompanying his contract with the city for the aforesaid work.

Office of Executive Board, March 5th, 1888.

To the Hon. Common Council:
GENTLEMEN:—The Executive Board has duly examined Pardee terrace and would respectfully report that the street is ready for acceptance and

public use, except that monuments have not been set; but Charles H. Wiltsie has filed a bond in the sum of \$100 in the office of the Executive Board that suitable monuments, as provided by the resolution of your honorable body, will be erected to define the lines of the street, as soon as the weather will permit. Under those conditions the Executive Board would recommend the acceptance of Pardee terrace as a public street.

Respectfully,
THOS. J. NEVILLE, Clerk.
Ordered received filed and published.
By Ald. Thayer—Resolved, By the Common Council of the City of Rochester, that Pardee Terrace, heretofore dedicated to public uses by Charles H. Wiltsie be and hereby is accepted as a public street, and the City Clerk be directed to enter the same in the street Register and the Executive Board be notified to place the usual street signs.

CITY ASSESSORS' OFFICE, Rochester March 1, 1888.

To the Honorable, The Common Council of the City of Rochester:—

Gentlemen-Mr. W. J. Denny was assessed for the Mt. Vernon avenue and Cayuga place sewer cleaning four lots fronting on the east side of South avenue, total number of feet 158. He was also assessed for three lots fronting on the west side of Oakland park, about 100 feet. He

was also assessed in rear of each of these lots for a strip of land about 98 feet, which it seems he reserved when he made a division of his lots (some years since) for a garden. Mr. Denny claims that he has no outlet and this land does not front on any street, consequently he should not pay on this last mentioned piece of land. We are of the opinion that this tax is erroneous and should be canceled. The tax against said lot is \$12.75. We refer it to your honorable body to take such action as you think proper.

Yours Very Respectfully,

To the Honorable Common Council, City of

Rochester, N. Y.: GENTLEMEN—A resolution was passed last year GENTLEMEN—A resolution was passed and part your Honorable Board, authorizing the money retained as guarantee fund for the mainte nance of pavement on West avenue in your city, to be deposited in a Savings Bank instead of being invested in some securities, as at first proposed. The cash posited in a Savings Bank instead of being invested in some securities, as at first proposed. The cash order retained on Tremont street for work completed last year, amounting to \$998.96, is now due, and the money will be in the hands of the City Treasurer in a few days. This amount is too small to be successfully offered for investment, and we now respectfully petition your Honorable Board to permit the deposit of the same in some Savings Bank in Rochester as in the case of West avenue. We trust that prompt action can be taken on

Bank in Rochester as in the case of West avenue.

We trust that prompt action can be taken on this so that no time may be lost in making the deposit, and so that the money may bear interest as soon as possible.

Respectfully,

WARREN-SCHARF ASPHAIT PAVING CO.

By W. R. WARREN, Vice-President.

By Ald. Marson—Resolved, That pursuant to the foregoing request the treasurer be, and he hereby is, directed to deposit the amount of money retained from the cost of the asphaltum improvement on Tremont street for the permanancy thereof, in the Tremont street for the permanancy thereof, in the Monroe County Savings Bank, which shall be known as the 'Tremont street guaranty fund,' and to be upon the condition that no part thereof, either principal or interest, shall be drawn by any person, except pursuant to a resolution of this Common Council hereafter adopted, which change of investment, so deposited as aforesaid, shall be, at all times, at the risk and expense of said fund, and the Warren-Scharf Asphalt Paving Company, the conractors for said improvement, and shall, in no

wise, affect or invalidate the liability of said comwise, affect or invalidate the liability of said company to answer to to the city under the terms and conditions of the contract for said improvement. The interest that may accrue at any time may be drawn pursuant to future resolutions of this Common Council at any time hereafter, and be paid to said company without affecting or invalidating said fund, or the liability of said company under the guaranty of the permanancy of said improvement. ment.

TREASURER'S OFFICE, ROCHESTER, N. Y., March 7, 1888.

To the Honorable the Common Council of the City of Rochester:

of Rochester:

Gentlemen—By the terms of Final Ordinance
No. 3,199, aforesaid, \$600 of the expense is directed
to be paid from the Highway Fund. The Executive Board. which has control of said fund, permits only \$300 thereof to be paid from said fund,
leaving a balance of \$300 to be provided for by
your honorable body. It would seem that, under
the provisions of section 170 of the city charter,
said balance should be directed to be paid from the
public treasury, and inasmuch as I know of no
fund therein out of which the same could properly
be directed to be paid, except the contingent fund. be directed to be paid, except the contingent fund, I would recommend that I be directed to transfer the sum of \$300 from the contingent fund and the sum of \$5000 from the contangent rund and credit the same to the fund for sweeping and cleaning West avenue under said ordinance, and that the balance of the cost of said improvement, namely, \$1.201.83, should be directed to be assessed under the terms of the charter, and as provided in said ordinance.

Respectfully yours,

And The Assessment Committee.

To the Hon, the Common Council of the city of Rochester:

We, the undersigned, respectfully beg leave to call your attention to the fact that our signs, representing the N. Y. C. & H. R. R. R., the West Shore R. R. and Rome, Watertown & Ogdensburg R. R., have been removed from the lamp posts on the four corners, and that other signs on Main, State and Exchange streets still decorate various lamp posts and telegraph poles on these streets. We fail to see why our signs should be removed and others remain, and protest against this discrim-

ination, and would suggest to your Honorable body, that the law which required our signs to be re-moved, be repealed, or else be enforced in all cases. We favor the repeal as our signs are certainly more beautiful to the eye, and more attractive than bare poles, and at the same time convey information to the public at large and the benefit of all.

place near North Clinton street, and we are of the opinion that the amount should be paid to her.

The Miller Brewing Company preferred a claim for damages alleged to have arisen from the discharge of waters and sewage from the Lyell and Sazion street outlet sewer into the stream or ditch leading down to and through premises alleged to be owned by said company, a part of which premises said company claims to overflow each winter to secure a crop of ice for use in its brewery, the securing of which crop the said company, however, claims is seriously interfered with by reason of sewage passing into and through said ditch and onto and across said premises. Sald company have begun an action against the city to recover damages alleged to have been sustained by it, and also an injunction, which action is at issue, and now upon the present circuit calendar for trial. The company proposed to your committee to discontinue said suit, and terminate matters between them and the city, upon the condition that the city should, for ten years or more, agree to turnish to said company alter be ice, or winter season. it to fill its pond during the ice, or winter season. which proposition your committee is of the opinion should not be entertained, as it may result in the future greatly to the disadvantage of the city. I find in Williams' Business College that there is between three and four hundred scholars who, in case of fire, would be entirely cut off from any avenue of escape, and the result would be disastrous in the extreme and the loss of life would be awful to contemplate. I called on Mr. Ely and stated the condition of affairs to him and requested him to place the building in such condition as ed him to place the building in such condition as ed him to place the building in such condition as to render it safe for its occupants by providing sufficient firescapes, to which he turned a deaf ear and paid no attention to my remonstrances. From the report of your assessment committee From the report of your assessment committee relating to the assessment of Richard Patterson on his lot, 27 Atkinson tract, for the Genesee valley canal outlet sewer, I quote the following:
"The surveyor now informs your committee that such assessment was erroneous, for the reason that the sewer into which this lot drains does not have the sever into which this lot drains does not

that the sewer into which this lot drains does not touch said Genesee valley canal outlet sewer, and the same is of no benefit to said lot.'?

It is true that Mr. Patterson's premises do not find drainage, at present, into the Genesee Valley canal outlet sewer, but his lot is located within the territory deemed benefited, and the time may come when he can, and may, want to avail himself of the advantages of such an outlet. That the said Genesee Valley canal outlet sewer furnishes an Genesee Valley canal outlet sewer furnishes Genesee Valley canal outlet sewer furnishes an outlet for the particular section in which Mr. Patterson's lot is located cannot be denied, and whether or not he now finds drainage in that direction is something not now to be considered. To the Honorable, the Common Council of the City of Rochester:

of Rochester:
GENTLEMEN:—The main sewer in Brown street
between the Eric Canal bridge and King street
had been thoroughly cleaned and repaired, when
the Brown street asphaltic improvement was
made, and as the sewer in that portion of Brown
st. constituted a part of the outlet for the Romeyn
st. system of sewers, it was deemed but fair that
the abutting property owners on the portion of
Brown street specified should be exempted from
sessessment for the cleaning and requiring of the Brown street specified should be exempted from assessment for the cleaning and repairing of the Romeyn st. outlet sewer; whereas that section of the Brown st. sewer between the N. Y. C. & H. R. R. R. and King st., forms no part of the outlet named for the existing system of the Romeyn st. sewers and it seemed proper to the Assessors to charge a part of the cost of cleaning and repairs of the outlet named, to the abetting property owners on Brown st. between the N. Y. C. & H. R. R. and King st. as the sewer within the limits less. R. and King st., as the sewer within the limits last named discharges into the Romeyn st. outlet sew-

The amount assessed on this particular portion The amount assessed on this particular portion of the territory it is presumed was determined by the exercise of the best judgment of the Board of Assessors, but in fixing it they do not seem to have made sufficient allowance to the fact that the cost made sumdent allowance to the fact that the cost of cleaning and repairing the Brown street sewer was included in that for the asphaltic improvement for that street, and the part of the sewer between the N. Y. C. & H. R. R. R. and King street is liable at any time to become an outlet for the portions of Wilder and Clark streets, lying immediately north of Proving street.

portions of Wilder and Clark streets, lying immediately north of Brown street.

For these several reasons it would appear that the lots and parcels of land on each side of Brown street, between the N.Y.C.&H.R. R., and King street, should have been assessed nominally for the cleaning and repairs of the Romeyn street outlet sewer; but as these lots have already been assessed the full amount, viz.: nine cents and two wills (% 000) nor foot frontage. in all 704.5 feet. assessed the difficulty viz.: In the cents and two mills (\$.002) per foot frontage, in all 704.5 feet. There seems to be no way of affording relief except by charging the amount assessed, \$64.81, to the aforessid lots to erroneous assessments which course is recommended.

Respectfully submitted,
I. F. QUINBY, City Surveyor.

To the Honorable, The Common Council of the City of Rochester:—

GENTLEMEN—The letting for the construction of the ten (10) inch vitrified pipe sewer in Seventh avenue, under final ordinance No. 3.324, cannot be made, as both of the two bids for it exceed the estimate by a small amount.

I would therefore recommend that the said ordhance be reconsidered, and then amended, by making the estimate your obedient servant, 1. F. QUINEY, City Surveyor.

Gentlemen; On account of the difficulty of finding material in that section of the city for the large amount required for the necessary grading the letting for the construction of a plank walk on the west side of Heis park could not be awarded, as the bids received (two) exceeded the estimate. I would, therefore, recommend that final ordinance 3,30, for this improvement, be reconsidered, and then amended by making the estimate four hundred and fifty (\$450) dollars.

CITY ASSESSOR'S OFFICE, ROCHESTER, March 14, 1888.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen—Ordinance 3,181 for the improvement of Mt. Hope avenue with Medina stone calls for an assessment on "each side of Mt. Hope avenue, from the south line and south line produced by the sidewalk on the north side of the entrance to Mt. Hope Cemetery, to a point two hundred and fifty (250) feet south of the south line and south line produced of Highland avenue." This territory is award entirely on one side by the heirs or is owned entirely on one side by the heirs or tory is owned entirely on one side by the heirs or estate of H. G. Warner, and on the other by Mt. Hope Cemetery. We find, by reference to the City Charter (chapter 219), that the lands belonging to Mt. Hope Cemetery are forever exempt from taxation of any kind whatever. The tax against the estate of H. G. Warner on the one side would be \$11.272.52, and on Mt. Hope Cemetery (if assessable) \$11,066.70, making in all the sum of \$22,339.42, the amount we are ordered to raise. Inasmuch as we cannot assess the property of Mt.

Hope Cemetery, and as we think it would be an injustice for the estate of H. G. Warner to pay an assessment for both sides of the street (in fact for the whole improvement), we most respectfully ask your honorable body for further instructions.

To the Honorable the Common Council of the City of Rochester:

of Rochester:

GENTLEMEN: In the assessment for the Kelly of Rochester:

GENTLEMEN: In the assessment for the Kelly street Macadam improvement Mary I. Galen is assessed for relaying 30 feet sidewalk at 20 cents per foot, which, with wo years' interest, amounts to \$6.72. All other parties on the street have new sidewalks, which cost, including two years' interest, \$1.40 per foot. By an error or oversight of one of the clerks in the Surveyor's office his statement to us said nothing as to any new walks, consequently Mrs. Galen not only paid for the relaying of her walk, but helped pay for the new walks. Wrs. Galen should, in our opinion, be allowed to pay her bill by paying the difference between \$6.72 and \$42.00—\$33.28.

To the Common Council:

To the Common Council:

Your committee appointed to investigate the acts, etc., of the Boards of Police and Excise begs leave

We engaged the services of Hon. John Van Voorhis as counsel. We began our work November 7th. and prosecuted it as fast as the committee

ber 7th. and prosecuted it as fast as the committee and counsel could spare time therefor. We examined over forty witnesses, and we find:

That the Excise Board grants licenses to applicants upon accepted evidence of "good moral character," and that political influences and interests are largely considered in the matter.

That the Excise Board does not make any official reports to the Police Board concerning persons whose licenses are revoked for any cause, and that the Police Board is not accepted to the Police of the Police Board to the P the Police Board is not accustomed to make written reports to the Excise Board of persons convicted of crime.

That the members of the Excise Board do not concede any knowledge on their part that the sa-

loons are run in violation of law.

That there is a manifest lack of official harmony in and between the two boards that seriously compromises the motives and obstructs the action of each; and that, if the two boards had been pureach; and that, if the two boards had been purposely constituted to obstruct the enforcement of the laws, their adaptation to that end would have been an eminent success, in a lamentable lack of harmonious working for the maintenance of law and the best interests of the people.

That the Police Board does not allow officers to

enter saloons while on duty to ascertain whether or not the Sunday or other laws are being violated. That it does not feel justified in closing saloons "on common report" of law violation, although it disreputable houses and gambling resorts.

That gambling of the so-called most disreputable

and demoralizing sort prevails here to an alarming extent, working the ruination of young men and the disruption of home happiness.

That the proprietors and attaches of many of these places are plainly guilty of perjury in the contradictory and self-denied evidence given be-

That there has been a demoralizing harmony in the Excise Board and an equally demoralizing discord in the Police Board, both working to the disadvantage of law and order, and both evidently the result of "political manœuvering."

That the Mayor, as chief executive and president

of the police commissioners, utterly fails to carry out the laws, and see that others properly execute them, as his oath of office and the Charter requires

That, having the appointing power, he is justly responsible if the excise commissioners do not en-

force the excise laws.

That, being both mayor and one of the police com nissioners, we believe he could, if so disposed, compel all persons doing business of any kind to have proper respect for the laws.

That, Whereas, we expected from the mayor

generous assistance in prosecuting our search, generous assistance in prosecuting our search, whet from him in every respect, on all matters, official and personal, evasion, denial and a general want of positive knowedge of what was going on in the city, and a failure to show any satisfactory evidence of a recorded desire on his part to give the city a law abiding administration, that was painful and discouraging.

We conclude with the following recommendation, that the acompanying resolution be adopted.

Respectfully submitted,

GEORGE W. ELLIOTT, J. H. Foley, H. G. Thayer,

To the Honorable Common Council of the City of Rochester:

GENTLEMEN—The undersigned, trustees of the Western New York Institution for Deaf Mutes, and others, large taxpayers, would respectfully represent to your honorable body, that, between 1853 and 1860 the city of Rochester bought the several pieces of land now included in the premises occupied by the Deaf Mute Institution, for a Home for Idle and Truant Children at a cost of about \$4,000, upon which there were no valuable improvements.

That from 1863 to 1868 the State of New York made sufficient appropriation to cover the cost of improvements that were put upon the place.

of improvements that were put upon the place.
That the city of Rochester established and maintained a home for idle and truant children there from time of purchase in 1833 until 1876, when the home was closed and the property became vacant.
That the Western New York Institution for Deaf Mutes was organized in this city twelve years ago, and has grown to a large school, having now under its care one hundred and seventy-five of the unfortunate class, and during its existence it has not over threa hundred many of when however and had over three hundred, many of whom have gone from under its care and become useful citizens, some of them having been children of citizens of Rochester. It has expended over \$300,000 in this city in its maintenance.

city in its maintenance.

The institution has been maintained by receipts from tuition received from parents, from the State, and from the various counties having pupils in it, with no appropriation except such as the State by statute pays for the State pupils.

In 1878 the Common Council offered the trustees

of the institution a lease of the property at a nominal rent. Since the institution entered upon the property it has expended in improvements upon it over \$75,000, but the school has grown to such proportions that it has become necessary to erect another building for the accommodation of its pupils.

Several of the institutions of the same nature have received aid from the State for the erection of buildings, but in every case where such aid has been given the State has required that the title to the land upon which the improvements were to be

made should be vested in the trustees.

An act has been introduced by the Senator from this district for an appropriation of \$40,000 for the erection of a new building for the institution, which the Senator is very confident will be enacted, provided the conditions which have been required in other similar cases are complied with.

The statute under which the institution is organized does not permit that under any circumstances a trustee receive any pecuniary benefit

from the institution.

from the institution.

We need hardly say to you that in all its departments the school is second to none in the country, and that it has recently been more highly commended by a committee of the State Board of Charities than any other institution in the State.

In view of the foregoing facts, viz: The small original cost of the property to the city; that the State paid for so large a part of the improvements put upon it before the Deaf Mute Institution came into its possession; that the trustees of the institution have expended over \$75,000 upon it; the value of the institution to the city; the conditions which the State has been accustomed to require in makthe State has been accustomed to require in mak-

ing appropriations to other institutions of its class; we respectfully and confidently ask that your honorable body take such steps as will vest the title to the property in the trustees of the Western New York Institution for Deaf Mutes.

During the year the water works have been extended considerably, about one mile of pipe having been laid. The valley in the vicinity of the I. H. Dewey lot in section K has been partially filled with the intention of making desirable burnal lots, about seven thousand yards of earth having been deposited there during the season. The tunnel under section C having become partially stopped up and not doing its work satisfactorily the commissioners thought best to abandon the same and connect with the sewer in Mt. Hope avenue, which was done at an expense of twenty-two hundred dollars, a large portion of the way the digging was through quicksand and consequently very expensive

At a special meeting of Mount Hope Commissioners held Nov. 21, 1887, it was resolved that Mr. Bower be employed to make an examination of Mount Hope accounts and report to this board as early as possible, which report was presented as follows:

To Messrs. Frederick Cook, John W. Martin and Henry C. Brewster, Commissioners of Mount Hope Cemetery:

Gentlemen—At your request the undersigned has made a very careful examination of the books and accounts in the superintendent's office at Mount Hope Cemetery, and the corresponding accounts kept by the city treasury, with the sole object of reporting upon the exact status of affairs as they exist to-day, both as regards the management of the duties imposed upon and the trusts confided to the present commissioners and, as a consequence of the wide range of the investigation, involving

also the acts and responsibilities of their predecessors in office.

One reason of the investigation at this particular time, it may be well to state, in case this report is published, is to meet and silence, it truth will do it, certain defamatory rumors which have been industriously circulated during the past few months charging mismanagement and waste of the funds, and a total disregard of the provisions of law defining the powers and duties of the commissioners.

Perhaps it would be more correct to intimate that the chief animus of the defamation seems to be directed against the superintendent of Mount Hope rather than the commissioners; but legally, and morally, the latter are responsible for the acts of the former, and any attempt to make it appear otherwise is simply absurd.

Ignoring for the moment any further consideration of the charges above referred to, I will here state that after a careful examination of all the accounts pertaining to the business transactions of Mount Hope, as found in commissioners' and treasurer's annual reports, books, etc., in the respective offices of Mount Hope cemetery and the city treasurer, and comparing each with the other, I find no discrepancies; and as a result of such general and particular examination and comparison, I am prepared to affirm: That the funds have not been wasted or misapplied; that the trusts imposed have been faithfully executed in regard to the perpetual contract fund, and, as far as possible, to the repair and sinking fund—of which more below; that every dollar legitimately belonging to the several funds in the aggregate is now on deposit in the several city savings banks, or invested in good? per cent bonds; that the safeguards devised in relation to the receiving, depositing and disbursing of funds, are ample, and, even, admirable; and that the careful, accurate and systematic bookkeeping in both the superintendent's office and treasurer's cannot, I think, be improved upon.

superintendent's office and treasurer's cannot, I think, be improved upon.

Of course, I am aware that in expressing an opinion about funds having been "wasted," that on the one point of expenditures for ornamention or the creation of the beautiful, opinions may differ. Some area intensely practical that they would conduct the business of a cemetery as they would a manufactory or other business enterprise, the sole object being to show a good cash account; but not so, it may be fairly inferred, would the great majority interested in the sacred soil of Mt. Hope; and wisely, it will be generally acknowledged, the commissioners and superintendents have had an eye to the beautiful as well as the pecuniary. Thousands upon thousands of dollars have been spent with the two-fold object of beautifying and improving the grounds, and, at the same time, making lands available for burial purposes worth much more than the cost incurred. When, therefore, these two objects can be accomplished at the same time, as they are being done, and have been for a great many years past, the charge of waste of funds, or extravagance is baseless, if not absurd, so long as due regard is had to the limiting of expenditures to income and resources, present and prospective, which evidently, has hitherto prevalled, as will be manifest ere the close of this report.

I have intimated above that I should have occasion to recur again to the charges afloat in reference to waste, mismanagement, etc., and I may add here, for public information, that had it not been for the kindly spirit of fairness and justice which prompted the managing editors to make inquiry as to what could be truthfully said in reply to the serious charges made in a communication presented for publication—the public would, ere this, have seen in print the inferred, but false and foolish basis on which madam humor has built her airy castle, without this accompanying reply

But with one direct reference only to the specific charges in the communication referred to, I will pass on to give the facts as I find them, and leave these to tell their own story—generally and specifically. The writer of these strictures says: "To

" Wasted".....

fectly correct transaction too.
Thus disappear all these ominous looking figures,

Thus disappear all these ominous focking lightes, leaving, also, a small balance besides. All the rest of the writer's great display of figures is equally untrustworthy as data from which to deduce the conclusion he arrives at, and which he sums up in these startling words: "At present Mt. Hope is

bankrupt."

I will now proceed to consider in detail the "repair fund as it should be in 1887," by reporting facts—things more potent than unsupported figures or words, however dexterously or disingenuously they may be employed.

THE REPAIR AND SINKING FUND.

There are two funds belonging to the Mt. Hope department which are in the nature of trust funds. How the trust has been discharged, and in what condition they are in respectively at the present time, will now be fully considered and set forth; and first, of the fund above named. And it may be time, will now be fully considered and set forth; and first, of the fund above named. And it may be well, at this point, to state the purpose for which it was created and, incidentally, refer to one or two other related facts. On April 20th, 1866, the Legislature passed an act establishing a new commission for the care and management of Mt. Hope cemetery; and on the first Monday of May of that year, the terms of the appointees—named in the act—commenced. The present commissioners are the legal successors of the board then created. The same act contained what is now section 75 of the present city charter, and as it is important, in this connection, to know exactly what the law is, I give it in full: "The commissioners of Mt. Hope cemetery shall cause a fund to be provided from the receipts of the said cometery, by appropriating annually not less than 10 per cent of the gross receipts, which shall be applied, first, to the payment of mortgages now existing upon portions of the cemetery, and second, to create a repair fund, which shall not exceed \$50,000, which shall be invested, and as soon as it is of sufficient amount the interest thereof shall be polytoco, which shall be in vescet, and as soon as it is of sufficient amount the interest thereof shall be applied solely to the repairing of roads, lawns, hilsides, monuments, abandoned lots and public grounds, and such repair fund shall never, under any pretext or evasion, be diverted from this de-clared purpose, and the interest thereof shall be

any pretext or evasion, be diverted from this declared purpose, and the interest thereof shall be used annually as hereabove directed."

In the examination of this fund I have gone back to its genesis—now over 21 years ago—and have very carefully examined every transaction in relation to its management and funds from that time to the present. I have taken the yearly reports of the Commissioners and examined each successively and noted the facts therein reported, and have compared these again with the receipts and disbursements in the books of the City Treasurer's office, and I find no discrepancies in the several accounts. I have, also, with a like result, compared the books in the Superintendent's office running back to a time when they were last examined, some two or more years ago, and certified to as correct by a competent examiner. This examination, of course, involved a comparison of the several accounts, general fund, repair and sinking fund; and, also, perpet-

ual contract fund, established by ordinance of the Common Council, passed August 20th, 1872. I will now give, somewhat in detail, the general facts established in relation to the repair and sinkracts established in relation to the repair and sink-ing fund, and they will show clearly and conclu-sively that the law creating it was in advance of any necessity for it, at least, sixteen or seventeen years. It never had funds sufficient to meet the full payment of any of the mortagages as they be-came due, and frequently not even the interest; and thus by a forced necessity the commissioners had to draw on the funds of the general account to sumplement deficiencies to supplement deficiencies.

At the date when the last mortagage was paid, June 5, 1879, the R. and S. fund was indebted to the general fund \$19,053.14, and to-day the latter fund has a credit in its favor \$8,996.94. In other words, to adjust the two accounts and restore them to the to adjust the two accounts and restore them to the condition contemplated by the law of 1886, it will require that the sum last named should be debited to repair and sinking fund and credited to general account fund. And were the question of interest to come in, as in the settling of two estates, even at a low rate of interest, the sinking fund would, temporarily sink out of sight.

But to proceed with further particulars in relation to this fund. When the law above cited was passed and the new commissioners commenced their terms of office, the outstanding mortgages amounted to \$23,000, and by the time the last one amounted to \$23,000, and by the time the last one matured and was paid, the sum total paid out, with the interest, amounted to \$23,000, and \$92,87.71. To pay the principal, \$9,741.74 was paid from repair and sinking fund, and \$13,258.26 from the general fund; to pay the interest \$5,794.88 was drawn from the latter fund and \$4,082.83 from the former. [For details in full see schedule A.] But, notwithstanding the financial history of the past in reference to the fund under consideration, the time has undoubtedly arrived when these two accounts should be adjusted according to the existing facts; and when this is done there would not be the slightest necessity of ever disturbing them again. That is can, that the repair fund should then be held as sacred for its purposes as the perpetual contract fund is, and always has been. The 10 per cent. of the gross receipts will then steadily increase the fund until the \$50,000 limit is realized.

PERPETUAL CONTRACTS FUND.

This fund was devised for a most excellent purpose, and as it cannot be too well known it may be here quoted, and, besides, it will serve to shorten what I have to say in relation to it. It is as fol-

Sec. 29. Any person may pay to the treasurer of Mount Hope cemetery a sum of money not less than \$10 or more than \$1,000, for the purpose of keeping in order any lot or parcel of land in such cemetery; and thereafter the interest obtained on such sum shall, from time to time, as occasion may require, be expended on such lot or parcel of land by or under the direction of the commissioners of

said cemetery. Sec. 30. The treasurer of Mount Hope cemetery shall immediately deposit such sums of money in such saying bank or banks as the commissioners of said cemetery shall direct, which moneys shall be kept in special deposit, on interest, apart from all other moneys belonging to Mount Hope cemetery. Sec. 32. None other than the interest which shall

accrue on such moneys shall be drawn from such savings banks, except for permanent investment in registered bonds of the United States, the State of New York, the county of Monroe, or the city of Rochester; and such bonds shall be registered in the name of the treasurer and commissioners of

Mount Hope cemetery.

No fund, I have evidence to believe, was ever more faithfully held sacred than this. Not a dollar more faithfully held sacred than this. Not a dollar has ever been drawn from it, other than for legitimate purposes. This fund, on December 5th, was \$11,278.78, and it is all on deposit in the Rochester Savings bank. The interest is drawn yearly, and the superintendent credits each lot with the sum it is entitled to; and, as occasion may require, such amount is faithfully used for its intended purpose. By Ald. Marson-

o the Honorable, The Common Council of the City of Rochester:—

GENTLEM N: Your Assessment Committee beg leave to submit the following as its report:

The application of D. D. Williams to be relieved from assessments for the West avenue and Brown street asphaltum improvements, should, in view of the fact, that your committee is unable to agree upon the relief, if any, to be granted to him, be referred to a special committee of your board to pass upon the claim.

The petition of Alois (Alice) Mandana

pass upon the claim.

The petition of Alois (Alice) Mauder to have cancelled against his lot, No. 31, south side of Oakman street, an assessment for the North Clinton street sewer, should be granted, for the reason that his lot properly fronts on Galusha street, and he has paid his assessment for the sewer in that street.

The petition of Olive C. Randall should be granted, to the extent, that she be permitted to pay the tax mentioned in her petition, with 6 per cent, interest from the date of sale, by the Treasurer, provided such payment be made within two months from this date.

Upon the payment by John A. LaForce of one

Upon the payment by John A. LaForce of one-third of the General City Tax for 1887, against lot thirty-five of his subdivision, fronting on La Force Park, together with interest thereon from the date when interest became chargeable, the Treasurer should be directed to cancel the remainder

date when intcrest became chargeable, the Treasurer should be directed to cancel the remainder thereof, as such remainder was taken in the early part of 1887, or prior thereto, for the purposes of the opening of a street from Clifford to Norton street, commonly called the extension of Joiner street.

Margaret A. Mauder, be permitted to pay the general city taxes for 1884 against lots 15 and 17 of the J. M. Hoeltzer sub-division on Hoeltzer and North Clinton streets, respectively, with interest thereon at the rate of 6 per cent. per annum from the date of sale on March 25, 1885. It clearly appearing that the omission to pay the same before it was due to the fact that the title to the lots was in litigation, that all other taxes and assessments have been promptly paid, and that a certificate of the same are held by the city.

Charles E. White should be permitted to pay the city taxes upon any of the lots Nos. 32 and 35 of section B of the Strong tract on Plymouth avenue, of lots Nos. 1 to 7 inclusive of White's sub-division of said Strong tract on Strong street, for the years 1879, 1884, 1885, the certificates being held by the city with fnterest thereon at the rate of six per cent.

1879, 1884, 1885, the cerclineates being field by the city with finterest thereon at the rate of six per cent. from the respective dates of sale providing such payment and the payment of any and all other taxes and assessments now remaining unpaid, and due upon or against any of said lots, be made within one month from this date.

And for the foregoing purposes your committee reccommend the adoption of the following resolutions.

W. H. MARSON, D. W. SELYE, LEO. J. HALL, LEO. C. STEIN,
WM. H. SULLIVAN,
Committee.

Ordered received, filed and published.

By Ald. Marson—Resolved, That the application of D. D. Williams for relief from erroneous assessment as aforesaid be referred to a committee of three of the members of this Council to be appointed by the president thereof. Adopted.

By Ald. Marson—Resolved, That the treasurer be and he hereby is directed to cancel the assessment for the North Clinton st. stone sewer against lot 31, south side of Oakman st., amount \$9.20, as-

north side of Strong street at the time of sale thereof by him. with interest thereon at the rate of six per cent. per annum to the date of such payment, provided such payment be made within two months from this date. Adopted.

By Ald. Marson—Resolved, That the Treasurer be, and he hereby is, directed to receive from John A. La Force the one-third of the general city tax for 1857 against lot 35 of his sub-division fronting on La Force park, with interest thereon at the statutory rate from the date when the same became chargeable, and upon such payment being came chargeable, and upon such payment being came chargeable, and upon such payment being made within two months from this date, then that said Treasurer cancel the remainder of said tax and charge the Adopted. same to erroneous assessments.

Adopted.

By Ald. Marson—Resolved, That the Treasurer receive from Margaret A. Mauder the general city tax for 1884 against lots 15 and 17 of the J. M. Hoeltzer sub-division on Hoeltzer and North Clinton streets respectfully, with interest thereon from the date of sale in March 1885 until paid at the rate of six per cent per annum, providing such payment be made within two months from this deter Adopted

payment be made within two months from this date. Adopted.

By Ald. Marson—Resolved, That the Treasurer be, and he hereby is directed to receive of Charles E. White the city taxes for the years 1879, 1884 and 1885 against any of the lots specified in the foregoing report with interest at the rate of six per cent, per annum from the date of the treasurer's sale to the date of payment, provided that within cent. per annul from the date of the treasurer's sale to the date of payment, provided that within two months from this date the same, and any and all other unpaid, and due taxes, and assessments, against any or all of said lots be paid to him, said Treasurer. To the Honorable, the Common Council of the City of Rochester:

Gentlemen—The undersigned overseer of the poor of the city of Rochester, begs to offer the foregoing report of all the suits brought by him as such overseer, for and during the past year.

There have been proceedings in cases of bastardy

There have been proceedings in cases of castardy in twenty-three cases, in eight of which the parties were married in the Municipal Court and the proceedings were thereupon discontinued.

In three cases, the qefendant was discharged by the court after the trial had been had.

In three cases, the constable to whom the warrant was delivered, has been unable to arrest the defendant.

In one case the defendant was held by the court

In one case the defendant was held by the court and has appealed to the Court of Sessions, which appeal is still pending.

In one case, the defendant is now in the Monroe County Jail in default of giving a bond to support the child, and in seven cases, I have settled with the defendants in the following manner:

No. 1 paid me \$200, which I have expended as follows: I have placed the child in the Buffalo Foundling Asylum at Boffalo, N. Y., aud paid therefor, the sum of \$87.24, including traveling expenses, nursing, clothes for the child and to the asylum, for which the said asylum, assumes full control over and responsibility for said child. Leaving a balance of \$12.76 deposited in the German American bank to my order as overseen.

No. 3 paid me \$150 and I have paid the mother,

No. 3 paid me \$150 and I have paid the mother, at various times, the agregate sum of \$32 for the support of herself and child. Leaving a balance of \$118 deposited in the German American bank to

my order as overseer.

No. 4 paid me \$110, and the grandmother of the child has adopted it and given a bond to indemnify the city against any claim for the support of said

the city against any ciaim for the support of said child, and I thereupon paid her \$96.50 for the support and care of said child and its mother, leaving a balance of \$12.50 deposited in the German-American Bank subject to my order as Overseer, &c. No. 5 paid me \$100 and I have placed the child in the Buffalo Foundling Asylum at Buffalo, N. Y., and have expended the sum of \$69.06 in so doing, leaving a balance of \$30.94 deposited in the German-American Bank subject to my order as Overseer, &c.

No. 6 paid me \$110, which is deposited in the German-American Bank subject to my order as

Overseer, &c.

No. 7 paid me the sum of \$150, which is deposited in the German-American Bank subject to my or-

der as Overseer, &c.
I have refrained from mentioning the names of I nave refrained from mentioning the names of the parties in these cases as, in my opinion, the publishing the said names would result in a great deal of injury, disgrace and shame to a number of young girls who have already been sufficiently punished, and who, in many cases, have repented and reformed.

There have been proceedings had upon bonds of disorderly persons in three cases, the first of which

was settled by the defendant paying the costs of the suit and agreeing to pay the weekly allowance required by the Police Justice, and I have had no further application for relief by the wife of the disorderly person.

orderly person.

The second was decided in favor of the defendand by the Municipal Court. The third was settled by the defendant paying the costs and agreeing to pay the amount per week required by the
Police Justice, since which I have had no application for relief by the wife of the disorderly person.

All of which is respectfully submitted.

JOSEPH H. FEE,
LOW COMMITTED Law Committee.

Agreement made and entered into on the——day of ——, in the year of our Lord eighteen hundred and eighty-eight, by and between the Bell Telephone Company of Buffalo, New York, party of the first part, and the city of Rochester, a municipal corporation, party of the second part, es follows: as follows:

Whereas, At the request of the Bell Telephone Company the Common Cohneil of said city did, on the twenty-ninth day of March, 1888, duly enact an ordinance or resolution granting leave to said comordinance or resolution granting leave to said company to construct and maintain underground conduits, with wires and cables therein, and place poles in, and string wires thereon, in and along the streets, avenues and places within said city. upon condition that this contract should be executed by said company; and,

Whose The said company in consideration of

cuted by said company; and, Whereas, The said company, in consideration of the premises, and the receipt of one dollar, to it paid by said party of the second part, the receipt whereof is hereby acknowledged, said party of the first part does hereby covenant and agree to and with said second party that the following conditions shall be observed by it, at all times, as fol-

First-The said Bell Telephone Company shall,

First—The said Bell Telephone Company shall, and does hereby, from and after the date hereof, abandon the toll system in the city of Rochester aforesaid, and shall, and does hereby, establish a fat rate for all subscribers within the limits of said city, at the following rates per year:

For business stations, on single lines, sixty-four (\$4.00) dollars; and on combination lines, fifty-seven (\$57.00) dollars; for doctors and lawyers, on single lines, fifty-four (\$4.00) dollars; and on combination lines, forty-six (\$46.00) dollars; for residences, on single lines (\$45.00) dollars; and on combination lines, forty (\$49.00) dollars, with mileage at the rate per

mile of twenty (\$20.00) dollars per annum, beyond one mile, except on combination lines, where each subscriber shall be entitled to one mile: subscribers are to have special or combination lines at their option. The above mentioned rates shall not be increased, or such system changed, for five years, except that after the completion and use of each half-mile of underground conduit, not exceeding two miles, the rate of each subscriber may be increased fifty (50) cents per annum, and said company shall embody the aforesaid terms and rates in the contract which they make with subscribers. The contract which they make with subscribers. The contract made between said company and said subscribers shall, at all times, be mutual and fair in its terms and conditions, so as to secure to the telephone company the rentals of the telephones agreed upon, and to secure to the subscribers the service which is to be paid for. The form of said contract shall be submitted to, and

ANNUAL REPORT OF THE LAW COMMITTEE.

To the Honorable, the Common Council of the City of Rochester:

GENTLEMEN: By direction of the Law Commit-I hereby submit the following report regarding the actions, proceedings and matters under the charge of the law department of the city govern-ment for the past year: Two principal causes have operated to produce a

great amount of the litigation to which the city has been a party within the last year or more, one being that relating to the taking of water from Hemlock Lake for the use of the city and its inhabitants, and the other the discharge of sewage

habitants, and the other the discharge of sewage from various sewers in the city into streams leading into Irondequoit Bay and the Genesee river. The twenty-three actions begun by as many claimants for damages alleged to have accrued by the taking of water from Hemlock Lake from Janury, 1876, to September 3, 1885, were terminated, as stated in my previous report, except that ten of the plaintiffs in as many actions have intimated through their attorney, Mr. Bacon, that they intend to appeal from the judgments to the General Term, and, for that purpose, made an application to the November (1887) Special Term for additional findings of fact and conclusions of law. The Court, per Mr. Justice Dwight, by reason of the tional minings of fact and conclusions of law. The Court, per Mr. Justice Dwight, by reason of the alleged stipulation made by Mr. Beckley, then city attorney, and Mr. Bacon, at the time of the submission of the actions to the referees in May, 1886, ordered that such requests be presented to the actions for the conference for the conference but of the presented to the referees for action thereon, but only upon the condition that the same should not be presented until after appeals had been taken by the plaintiffs to the General Term, or until after motions had been made and decided, to until after motions had been made and decided, to dismiss the appeals, which was contemplated to be made by the undersigned in case such appeals were taken. Under your direction I appealed from that order to the General Term, and argued it at the January, 1888, General Term, In Buffalo, and the appeal is now awaiting decision at this present General Term. Since the argument, Hon. C. C. B. Walker, one of the referees, has died, and I am of the opinion that by reason of his death, the plaint-iffs are prevented, in case the General Term affirms the order, from acting thereunder. I also argued the order, from acting thereunder. I also argued the appeal from the order of the Special Term af-firming the allowance of the fees of the referees in nrming the anowance of the fees of the referees in said twenty-three actions, amounting to the aggregate sum of \$4,772, which appeal was argued in April last, and in October last a decision was given by the General Term reducing the fees of the referees to \$107.61 in each fees

case, making an aggregate deduction in the twenty-three actions of \$2.297.93. Appeals have since been taken by both parties from the order of the General Term to the Court of Appeals, and is now awaiting argument and decision therein.

erai Term to the Court of Appeals, and is now awaiting argument and decision therein.

The plaintiffs in the case of the Board of Health of the town of Brighton against the City to enjoin it from furthur pollution of Thomas Creek, was tried at the June, 1887, Circuit, before Mr. Justice Angle and a jury, and resulted in a verdict for the plaintiffs, on which verdict a judgment was ordered to be, and was, entered in favor of the plaintiffs for an injuction, and for costs. Under your direction I have taken an appeal from the judgment to the General Term, and the appeal is set down for argument Thursday, April 5th. The questions presented there are ones which, I think, should be decided in favor of the city, notably that of the express repeal of the act under which the plaintiffs seek to recover made by the Legislature after the action was first tried.

The action of Eliza B. Wing against the City in which she recovered a judgment for damages, and

The action of Eliza B. Wing against the City in which she recovered a judgment for damages, and an injunction for sewage pollution, was appealed to the General Term. The General Term affirmed the judgement and the case has since been appealed to the Court of Appeals. The plaintiff has since died and no one has been substituted in her place

as yet.

The judgment recovered by the New York Central & Hudson River Railroad Company and others against the City, and another for the purpose of obtaining an injunction restraining the city from connecting the Upton Park sewer with the East avenue sewer is awaiting argument and decision in the General Term.

decision in the General Term.

The following actions are now pending, either upon appeal or in the trial courts, for relief by way of damages and an injunction, by reason of the discharge of sewage from the North Avenue outlet sewer into the stream into which the same

empties:

James H. Hooker had four actions against the city, the first in which he recovered a judgment for city, the first in which he recovered a judgment for damages and costs: that judgment has since been affirmed by the Court of Appeals and has been paid, under your direction. The third action was affirmed by the General Term, but no appeal has as yet been taken to the Court of Appeals therein. The fourth action for damages and an injunction

The fourth action 12.

It is awaiting trial.

Micajah W. Jackson also begun three actions against the city, and the following is their condition:

The first and third actions, in which he re-

tion: The first and third actions, in which he recovered damages and an injunction, are now in the Court of Appeals, to which court the same were appealed under permission given by the General Term upon motion duly made to it. The second action is in the Monroe County Court, and is in the same condition as stated in my previous report. The action of Albert C. Hobbie against the City, in which the city succeeded, is in the same condition as stated in my previous report, except that the plaintiff and appellant has given an undertaking to stay execution upon his appeal to the General Term. The second action for \$6,000 damages and a perpetual injunction is awaiting trial. and a perpetual injunction is awaiting trial.

and a perpetual injunction is awaiting trial.

Barbara Alexander against the City, an action to recover \$5,000 damages, is also awaiting trial.

The following actions, brought for an injunction and damages restraining the discharge of sewage from outlet sewers into Thomas, Densmore and other creeks in the town of Brighton, are awaiting trial at the Circuit before a jury, in which the following amounts are claimed in addition to an injunction,

\$2,000; Elizabeth Mock Schake, \$3,000; James Royle, \$2,000; Frederick Roesch, \$2,000; Mary Shiel, \$1,000, and Ignatz Seltenmeyer, \$1,500. Bacon, Briggs & Beckley, plaintiffs' attorneys. James P. Bainbridge, \$1,000; Charles A. Widener, plaintiff's attorney.

gun on July 9, 1001; waiter S. Huddell, plaintins' attorney.

The action of Lizzie L. Chapin against the city to recover \$20,000 damages and an injunction, mentioned in my former report, was tried at the January, 1888, circuit, before Mr. Justice Rumsey and a jury. The Hon. George Raines and C. D. Keihel, Esq., appeared as counsel for the plaintiff. Afthr a severe contest the case was submitted to the jury, which, after deliberating for a long time, brought in a verdict of but \$1,500 in favor of the plaintiff. Upon that verdict judgment was directed to eand was entered, and was paid undor your direction, the amount being exceedingly favorable to the city. The plaintiff on March 15., 1888, begun another action for \$5,000 damages alleged to have been suffered by her from the commencement of the previous action until her conveyance of the nave been stunered by her from the commencement of the previous action until her conveyance of the property in the year 1886. The last action is now awaiting trial at the circuit before a jury.

The following actions brought to recover damages and an injunction by reason of the dis-

charge of the Lyell and Saxton street sewer into a ravine or ditch from its outlet near White street to the Genesee river, referred to in my previous report, are in the same condition as therein stated, except that the action of Melissa M. Farrar and except that the action of reclassa in. Fariar and others was settled by the city paying the plaintiff's costs, and they stipulating that the judgment for an injunction should be vacated in all respects.

an injunction should be vacated in all respects. The action of Mary Anne Frothingham is now in the General Term upon appeal.

The action of Martha Hussey for \$8,200.00, and the Miller Brewing Company for \$5,000.00 damages are awaiting trial before a jury.

The action of Sutlief T. Seward, in which the plaintiff recovered a verdict of \$525.00 in Livingston County Circuit, for damages alleged to have been sustained by reason of water escaping from the sustained by reason of water escaping from the conduit from Hemlock Lake passing through his conduit from Hennock Lake passing strough ins premises, was argued a few days ago before the Court of Appeals, and a decision will probably be rendered therein when the oourt reconvenes on

April 9th next.
The action of Frank W. Elwood against the Clty and its treasurer, or what is commonly known as the "Church Street Assessment Action" has been

The opinion of Mr. Justice Bradley was an able and very exhaustive discussion of the questions therein involved, and was a complete vindication of the charter and ordinances relating to the city sealer. Elmer Murphy against the City, an action in the County Court to recover \$500 damages for injuries to a horse alleged to have been frightened by the

steam roller during the construction of an improvesteam roller during the construction of an improve-ment on Hickory street. The contractors and their sureties were duly notified to come in and defend the action. The action was tried in April, 1887, and resulted in a nonsuit being ordered by the court, upon which judgment was entered for costs \$71.97, in favor of the city on July 19, 1887. No appeal was taken from the judgment, although the time within which to do so has long since expired. Angelina B. Foster against the City and the for-

mer members of the Executive Board and former Street Superintendent to obtain an injunction re-straining the defendants from removing a tree at the northwest corner of Chestnut park and Will-iam street. The defendant demurrod to a part of one defense, which, however, resulted in the deone defense, which, however, resulted in the demurrer being overruled, with costs, and judgment to that effect, with \$46.50 costs was entered against the plaintiff on March 1st, 1888. The action was then tried before Mr. Justice Rumsey at the February, 1888, Equity Special Term, and has not, as yet been decided, owing to inability upon my part to present to him requests for findings of fact and propositions of law, owing to the stenographer being backward in furnishing me with a copy of his minutes of the trial.

Margaret A. Ferguson against the City, an action to recover \$10,000 damages by reason of injuries sustained upon a defective sidewalk on Strong street. The executors of the former owner of the premises in front which the accident occurred were notified to come in and defend the action, and they did so, being represented by Hon. John Van Voorhis on the trial, which was had in January last, resulting in a verdict for the plaintiff of \$1,100, upon which judgment was entered with costs. That judgment was ordered by your honorable bedy to be, and was paid, as I deemed it a very advantageous judgment for the city, the amount being very small.

The action of Hannah P. Vanderbeck against the City in the Supreme Court for \$468.79 and interest from July 29, 1879, for an assessment alleged to have been paid for the Boulevard opening made against lands of her husband, Andrew A. Vanderbeck, was, as stated in my previous report, decided in favor of the city by the referee before whom the action was tried, and his judgment was affirmed on appeal by the general term. A lengthy and exhaustive opinion was written by one of the judges defining very clearly the rights of the city in opening streets and ordering assessments therefor. The plaintiff afterwards in December last appealed to the Court of Appeals, and the case is 101. The plainting afterwards in December last appealed to the Court of Appeals, and the case is awaiting argument which will not probably be had for several years, the latter court being so far behind in its business.

Mary A. Graham individually and as administratix of the estate of Anna Graham, deceased, against the City, two actions for ten thousand dolagainst the City, two actions for ten thousand dollars and five thousand dollars respectively, by reason of the death of Anna Graham, caused, as was alleged, by the giving away of one of the trusses of the Court street bridge in the early part of 1887, Notice was given to the Western Union Telegraph Company to come in and defend said actions. The administratix action was brought to trial at the October, 1887, Circuit, and resulted in a verdict of \$2,200.00. An appeal was taken to the General Term, but by reason of the plaintiff's offer to discontinue the individual action, and release the cause of action therefor preferred, she was paid the amount of the judgment entered upon the verdict and the costs judgment entered upon the verdict and the costs of the individual action, and, thereupon, the action was settled pursuant to your direction.

The contractor and his sure-

ties were notified and requested to come in and defend the matter. Notices of claim were served on June 29, 1887, but nothing further has been done,

and I presume the matter has been adjusted.

Daniel Haley against the Board or Health of the City, an action begun by John H. Keef, attorney, on July 14, 1887, to recover \$1,000 damages, and an injunction restraining the Board from enforcing its resolution directing the plaintiff to cleanse his premises on North St. Paul street, then cleanse his premises on North St. Paul street, then occupied by Italians. A temporary injunction order was obtained by the plaintiff's attorney from Mr. Justice Rumsey at Bath, but subsequently, on motion, the order was set aside by the special term, Mr. Justice Angle holding it. In August

last the action was discontinued by the paying defendant's costs.

John J. Stanton against the city, an action begun by the service of a summons by Raines Bros., attorneys, to recover damages alleged to have been received by the plaintiff on or about February 10, 1887 on a sidewalk on the corner of Market and Mill streets near the saloon of one Zimbrick by the plaintiff falling on said side walk. In September 1887, an order of injunction was granted by the Special Term, Mr. Justice Rumsey, unless the city waived a trial by jury of all the issues in the action. Believing that such order was a mere evasion to deprive the defendant of a jury trial guaranteed by the constitution, I immediately appealed from said order to the General Term, and upon the argument of the appeal, the order was modified so as to provide that the equitable issues and the plaintiff's right to an injunction should be tried at an Equity Term, and the same was tried before Mr. Justice Rumsey at the February, 1888, Equity Term, and resulted in the plaintiff's favor for an injunction after six months from the service of the injunction arter six months from the service of the judgment, and also for costs. A motion to have certain items of the plaintiff's costs taxed stricken out is now awaiting decision at the present Special Term. Your committee during the past year has caused to be placed in the offices of the City Hall new radiators, thereby effecting a saving of at least \$250 in coal per year, also a new steam boiler in the basement of the City Hall. While your committee has exercised great economy in the use of the funds entrusted to their care, yet in their judgment they feel they were justified in making these expenditures, from the fact that they were made in the interest of the taxpayers and for the purposes of economy in the future.

REPORT OF FINANCE COMMITTEE.

By Ald. Thaver:

ROCHESTER, N. Y., March 29, 1888. To the Honorable the Common Council of the City of Rochester

GENTLEMEN:-At the close of the fiscal year it is proper that your Finance Committee should, as its final duty, make a brief report of its official action

final duty, make a brief report of its official action during the year, with a general suggestion of such course in the immediate future, as, in the light of past experience, it deems advisable.

In its carefully considered recommendations for various appropriations one year ago, your committee sought to be fairly generous and thorougly just in combining the prudence of economy with what it deemed ample provisions for the requirements of the various departments for which appropriations were recommended. prlations were recommended.

From the best information and advice your committee could procure relative to the public needs. the appropriations then recommended were deemed sufficient to meet the current expenses of the year, under all ordinary circumstances; but, although no emergencies arose to necessitate extraordinary expenditures, it was found at about the expiration of nine months that the funds which had been deemed adequate for the year had been exhausted, and further appropriations were called for; and, under the presume of inventors are activations of each of the presume of inventors are activated and the presume of inventors are activated. the pressure of important considerations of public convenience and public safety, your committee was virtually compelled to a reluctant recommen-dation of the issuance of deficiency notes, as

Total,

The views of your committee were fully expressed in the premises at the time, and do not need repetition here. Whether the Finance Committee was too economical in its original recommendations, or the departments were too hasty in their disbursements, your committee will not here discuss; but it desires, here and now, to place itself squarely on record as protesting against the continuance of this annual issuance of deficiency notes, as an unmitigated and unnecessary evil \$48,000 00 continuance of this annual issuance of deficiency notes, as an unmitigated and unnecessary evil, which should be properly corrected, whether the cause shall be found in under estimates in appropriations, or in over expenditures in disbursements—an evil which, whatever else its cause, is excusable only as the result of unforsen calamities and emergencies which render special and extreme measures unavoidable in the necessary protection of public interests protection of public interests

protection of public interests.

In view of our experience during the year now closing, our advice to our successors would be and is, first: to be reasonably sure that their recommendations for appropriations are ample for all ordinary requirements, if properly expended; and second: that it be distinctly understood, in the outset, that no extra appropriations will be con-

sidered (for the same purposes) except in clear cases of emergency.

In conclusion, we desire to thank the Common Council for its uniformly courteous consideration of the measures recommended by this committee, and its fair and impartial action in reference to the same; and it affords us great pleasure to say that the honorable and hearty co-operation of the City Treasurer, in all matters relating to our arduous duties in the supervision of the financial affairs of the city, has at all times, met our unqualified commendation, and richily deserves this sincere expression of our highest appreciation of valuable suggestions and services cheerfully rendered. COMMUNICATIONS FROM THE MAYOR AND OTHER EXECUTIVE OFFICERS AND THEIR REFERENCE,

By the Clerk-

ROCHESTER, N. Y., March 28, 1888.

To the Honorable, the Common Council of the City of Rochester:

City of Rochester:

Gentlemen: The undersigned begs leave to submit herewith the following summary of the work performed under his direction during the past month in the preparation of plans for the proposed East side trunk sewer:

The topography of the entire East side of the city, and adjacent areas in the towns of Brighton and Irondequoit, has been delineated upon maps, and from these maps a large number of trial profiles of possible routes for the trunk sewer and principal tributeries have been constructed and studied. Similar profiles for storm-water outlets have likewise been proposed; and as soon as the few remaining ones now in course of preparation are finished, the work of making comparative estimates of cost and capacity will be undertaken.

From the topographical maps above mentioned, an outline map, indicating the the natural drainage lines and the boundaries of several drainage areas is being made, which will be of great assistance in formulating the general plan of interception of sewerage and the discharge of storm water.

Work in collecting statistics relating to rain fall and the corresponding discharge of sewers have flive for the collecting statistics relating to rain fall and the corresponding discharge of sewers have furthermore been prosecuted diligently in absence of local rains of sufficient magnitude to give definite results upon the sewer gauges, but it may be remarked that observations from the latter would be of vastly greater value for the work in hand than statistics derived from observations else-

be of vastly greater value for the work in hand than statistics derived from observations elsewhere.

In conclusion it may be said that a force of five men has been busily engaged upon the work, since the date of my last report and in addition thereto, others have been temporarily employed in making a few supplimentary surveys in the southeastern districts, which were omitted last fall. The study of the problem is necessarily slow, but no effort or expense is being spared to push it forward as rapidures required. ly as possible.

Respectfully submitted,
EMIL KUICHLING, Engineer in charge.

Ald. Foley moved that the vote taken on the disposition of the Mayor's communication in relation to the investigation of the Police and Excise Commissioners be reconsidered. Adopted. Ald. Foley moved that the communication be referred to the committee on investigation of the Police and Excise Commissioners.

Adopted by the following vote:

Ayes—Ald. Sullivan, Fee, Elliott, Foley, Selve, Hall, Swikehard, Stein, Kelly, Thayer—10.

Nays—Ald. Marson, Kohlmetz, Fritzsche, Judson, Bohrer—5.

By Ald Kohlmetz—

By Ald. Kohlmetz-To the Honorable the Common Council of the Ci'u of Rochester:

Gentlemen—Your Law Committee begs leave to report, that in the matter of the application of the Western New York Institution for Deaf Mutes to have conveyed to it, without consideration, the lands and premises now occupied and used by the Association, on St. Paul street, and which for many years have been, and are now, owned by the city, would respectfully report that no power apparently exists in the city to comply with such request, and upon the members of the Council voting in support of such action, and the property or estate of the city being lessened, it may create a liability against them on behalf of taxpayers under the so-called taxpayers' act.

The application should, therefore, in the opinion of your committee, be rejected, unless the corporation pay to the city a fair, reasonable appraised GENTLEMEN-Your Law Committee begs leave

or your committee, be rejected, unless the corpora-tion pay to the city a fair, reasonable appraised value of the property, except from the considera-tion of such value any improvement by way of buildings, or otherwise, made by said corporation should be deducted, after an act of the Legislature pownitting and reduction is present. permitting such reduction is passed.

Reduction is passed.

Respectfully submitted,

By Ald. Thayer—
Whereas, A certain communication submitted to this Council by Ald. Kohlmetz at a regular meeting of this Council, March 20, 1888, said communication being addressed to the honorable the Common Council of the city of Rochester and signed by Cornelius R. Parsons, appears to be a personal attack on an honorable member of this Council in the proper discharge of his official duties as chairman of a special committee, created by this board. man of a special committee, created by this board:

Whereas, Said communication implies incompe tency or duplicity on the part of the majority of said committee by treating their unanimous report as an expression of personal and political spite on the part of Chairman Elliott, to which the other members of the committee became a consenting party by their approval and endorsement; thereResolved, That we regard the said communica-tion of His Honor, the Mayor, as unworthy of its distinguished author, and disrespectful to this Board, and that it be respectfully returned to His Honor, the Mayor, without further consideration; further further.

Resolved, That the Clerk of this Board be directed by the chair to return said communication as above with a copy of these resolutions.

Also, the same in the aggregate of the fiscal year ending April 1st, 1887, and report at the next regular meeting. Adopted.

The President of the Board (Ald, Tracy) then delivered the following valedictory address.

livered the following valedictory address

GENTLEMEN OF THE COMMON COUNCIL—Another municipal year has been added to the history of our city. Your labors as a legislative body of the people are forever closed. The time has come the people are forever closed. The time has come for the going out of the old board and the coming in of the new, and for me as the presiding officer of your retiring body to thank you with all sincerity for the uniform good will with which you have constantly treated me and the courtesy which you have invariably extended to my efforts to discharge impartially the duties resting upon me. As your presiding officer I have endeavored to be fair to all and to favor none; to base my decisions on what I considered to be just, according to the custom and rules of legislative deliberation; to listen with patience to whatever arguments could fairly be urged for or against proposed measures, and to prevent as far as posssible the waste of time by needless and desultory discussion. These have been my duties, as I understand them, and I have tried to do them. How far I have failed or succeeded must receive its measure of just judgment at your hands. Your duties, as the representatives of those who sent you here, were that of devotion to the public interest; to observe the rules of legislative government; to act with gentlemanly deportment; to be guided by the intention to give honest legislation as the result of your best judgment—do that and you commend yourself to the good judgment of the public and give to your decisions the respect that belongs to them. That you have, each and all, endeavored to do your duty in every respect I have mentioned I and but honestly believe. Never have I presided for the going out of the old board and the coming do your duty in every respect I have mentioned I can but honestly believe. Never have I presided over or been connected with any like body of men where there has been less of personality exhibited, where good sense and conduct have made the duties of a presiding officer so easy of performance; where motives have

been so seldom questioned, or that has been as I believe more purely animated by the single pur-pose of giving your time and labor to the best inpose of giving your time and labor to the best interests and growth of our splendid city, and with no other object than your desire to promote the happiness of your fellow men, so far as resides in your power, by appropriate legislation. We have indeed a beautiful city destined in time to become a great one. Encircled by fertile fields, by scenes and landscapes diversified and delightful, the recepticle of its full share of foreign immigration, and drawing to its environments the best bone and sinew from the manhood, rank and file of the the Genesee valley and all Western New York. With great business interests and vast accumulated capital with an industrious and enterprising population; with schools, seminaries enterprising population; with schools, seminaries and churches and a system of public charities the equal, if not the superior, of any city of like rank, all guarantee for us a future of intelligent citizenall guarantee for us a ruture of intelligent citizenship and permanent prosperity. That as representatives of the people we have great responsibilities and difficult duties to perform is beyond question. We know that we should be careful custodians of the public money and that public funds should be voted away only for legitimate and just uses, but there is a public economy that is public detriment. A city's prosperity, like a man's character, either retrogrades or advances, that is its test of strength. Our that is public detriment. A city's prosperity, like a*man's character, either retrogrades or advances, that is its test of strength. Our city is growing richer and larger every year; it is growing more beautiful every year. Today it is our boast that we are a finely improved, cleanly kept, and beautifully lighted city. All these things have not been accomplished without measures which have been originated by the Common Council, and adopted sometimes only after unfriendly and unjust criticism. But it is this system of legislationthat is advancing our city's growth and prosperity, and of which our citizens are to-day justly proud. Whatever criticism may be advanced against us our answer is that in the public works of this city, as you find them to-day, are the evidences of the rectitude of our intentions. We are thankful that in the kindness of Providence our number remains unbroken; we go as we came, our ranks unattacked by the great destroyer. With the best wishes for you, each and all; with the kindest memories of the honor you have personally conferred upon me and the respect you have constantly shown for the place itself which I have held, I now thank you and say good-bye.

Ald Elliott moved that the valedictory address.

say good-bye.
Ald. Elliott moved that the valedictory address be received, filed and published. Adopted.
Ald. Elliott addressed the President as follows:

I desire to usurp the functions usually performed with so much grace by the a derman from the Fifteenth, and move an adjournment of this body; but, before doing so, I desire to make a few remarks.

It has been noted by those who have made a study of political institutions that the American people suffer a change of government with less harm to their institutions than any nation upon the earth. When the lamented Garfield stood upon the steps of the old treasury building in Wall street on that fateful April morning when Abraham Lincoln passed to his reward, he said:
"The government at Washington still lives,"
Death and calamity may come, political revolutions may sweep over the land, and one-half of tions may sweep over the land, and one-hair of the nation may be in armed conflict and rebel-lion against it, but "the government at Washing-ton still lives." But a few months ago, after having been in power for twenty-four years, in a period of tremendous responsibilities and during a time when every function of the body politic was taxed to its utmost, the republican party passed out of power, and the demo-cratic party took their places in the government at Washington. I say, as a republican, and I say it with satisfaction, that, though the party, as we say, that "saved the union" was not peras we say, the that was a so por-mitted longer to serve in the national adminis-tration, the democratic party came into power, and "the government at Washington still lives!" But why does it live? Why did it live through that supreme contest? Because it is not founded so much on the constitution—it is not founded so much on the institutions that our fathers made, but it is established in the heart of the people, and as long as humanity lives, and man is true to his own best impulses, "the government at Washington" will survive. When man becomes untrue to himself, it makes no difference to what party he belongs, and when the people are unworthy, the seed of death and destruction will have been sown, and "the government at Washington" will perigh.

are unworthy, the seed of death and destruction will have been sown, and "the government at Washington" will perish.

Now, Mr. Chairman, in the course of events, we, as the board of aldermen, have suffered a change. The people have decreed that some should go, and some should come, but here too the change is made without shock. In the last year we have endeavored, as you well state, Mr. Chairman, to give to the people of Rochester good government, and I speak with no small pride of the illustrious example you have set us in kindly and courteous manners. You emphasized in your address that there have been no personalities. No man has favored or opposed measures for the reason that any one man was for or against them. We have done the best we could, under the circumstances. We may admit gentlemen and fellow citizens, that we have made mistakes in judgment, but we have not been untrue to the principles, and form of American institutions. We there we bedemocrats or republicans, we believe that all of us cherish those principles, and are willing to sacrifice our lives, as we have sacrificed our time, for their interest.

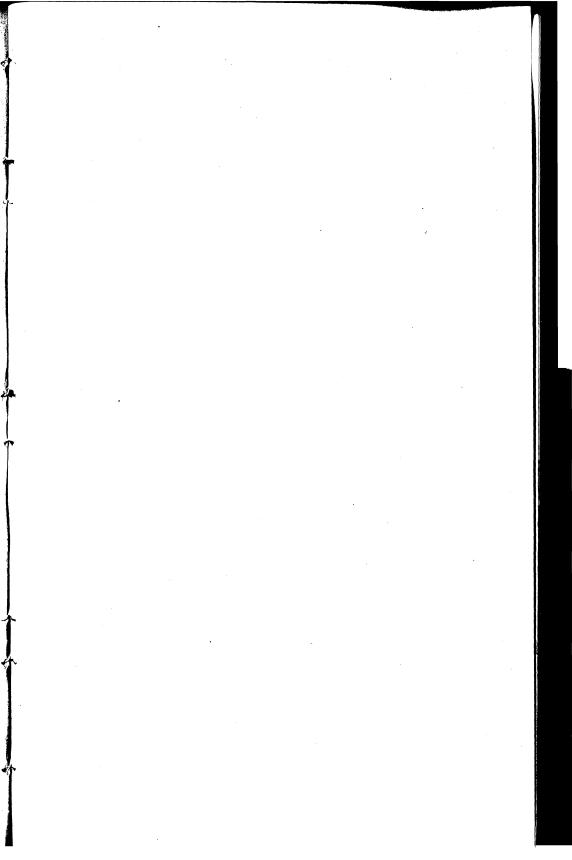

But, Mr. Chairman, we have presumed upon your good nature. We have had our pictures taken. We have had these pictures set by an artist. They tell us that a gem, even though it is

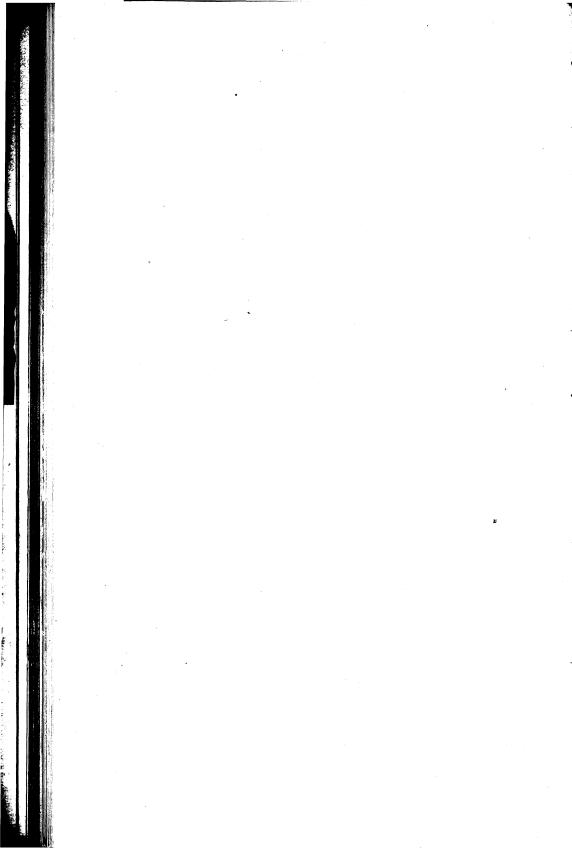

an inferior stone with a crack or flaw, if it is properly set so as to let the light properly shine through it, it will become a gem of value fit to wear upon the breast. Now, the pictures in this frame are the forms of these men who have tried to stare you out of countenance for the past year; perhaps have tried to embarrass you with motions and points of order that were unparliamentary. The artist has set these pictures in red—we do not intend to convey the impression however, that we have "painted the town red," but the artist has surrounded us with the "royal rouge," and thus diverted attention from our facial defects. They tell us that photography has been so advanced that after taking two or three hundred pictures, by placing one on top of the other, there can be formed one composite pertrait or ideal face. Here you have the features of 18 men, which taken one upon the other will produce to you, not the irregular features of each face, but a composite picture that shail leave in your heart the impression of a kindly man, who gives you his heart with his hand. As time goes on, and these pictures hang upon your walls, you can look upon these faces and remember that every man respects you, and wishes you the very best of experiences in this life, and, as I said a year ago, a warm welcome into that better realm where there is no parting.

The present consisted of the photographs of the Common Council, City Clerk and City Messenger set in garnet plush and surrounded with an elegant glit frame.

Ald. Tracy, although taken completely by sursurprise, expressed his appreciation of the gift in a few but well chosen words.

On motion of Ald. Elliott the Board adjourned sine die. Peter Sheridan, City Clerk.
