

IN COMMON COUNCIL,

Record Room

1898
Department of Engineering

In Common Council, January 3, 1899.

CHARTER MEETING.

The clerk called the meeting to order. Ald Kelly moved that Ald. Adams act as temporary chairman. Adopted.

ROLL CALL.

Present—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

Absent—Ald. Cahlan, Ward—2.

Ald. Rauber moved that the Board proceed to the election of President of the Board. Adopted.

Alderman Rauber nominated Ald. J. Miller Kelly for permanent President.

Ald. Kelly was named by :

Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

Ald. J. Miller Kelly was declared unanimously elected President of the Board.

Alderman Rauber moved that a committee of two be appointed to escort the President of the Board to the chair. Adopted.

The temporary chairman appointed Ald. Rauber and Steele as such committee. After being escorted to the chair by the committee Ald. Kelly addressed the Board as follows :

"Gentlemen, about three weeks ago I wrote my resignation as a member of this Common Council, and when I did so I did it with an honest intention, and with the thought that I had given up in the years I have been a member of this body about all the time from my private business that I could afford to do. I showed my letter of resignation to some of the members, and was asked by them to withhold it for a short time. I consented to do so. A few days later I was asked to accept the office of President of the Board to which I have been elected to-day. It is an honor to any man to be elected to the office of President of this Common Council, and taking into consideration the pleasant relations which have always existed between my associates and myself, I thought it to be my duty to accept. It will be my constant endeavor to act fairly and honestly. It will be my aim at all times to preside without prejudice, and I hope that one year from now, when this Common Council retires the citizens will have cause to say, 'Well done, good and faithful servants.'"

After he had concluded his remarks a beautiful basket of flowers was presented with the compliments of his Democratic colleagues in the Board.

Ald. Rauber moved that the Board proceed to the election of City Sealer. Adopted.

Ald. Rauber nominated Joseph F. Ribstein.

Joseph F. Ribstein was named by :

Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.
Joseph F. Ribstein was declared duly elected City Sealer.

At this point Judge Thos. E. White stepped forward and addressing Ald. Tracy spoke as follows :

"Ald. Tracy: If you will stop and think a moment, you will remember that you have been Alderman of the First ward of the city of Rochester for one-quarter of a century. Your fellow-citizens of the First ward are here to call you to account. They say, through me, that you are accountable for myriads of good deeds done them and our fair city. That there is not one single misdeed that they can lay at your door. That times past and present bear witness that no one can put his finger upon any act or thing that you have done that has not been for the weal of your ward and the whole city. That through all these years of trials and vicissitudes as their alderman, you present a stainless character. They put your record as their representative alongside of any other in the world and challenge the answer.

"As in public, so in private life, you have been affable, kind, courteous and generous to everyone. Like the rippling stream of which the poet speaks, you have watered the roots of the trees of half a mighty forest, but have told no tales of all the good you have done. But there are thousands in the city who know of the costless influences you have used that brought priceless favors to recipients, who all wish you a Happy New Year.

"It is thus your friends of the old First ward speak to you.. You have been wedded to its interests for twenty-five years. This is our silver wedding. Your present term as Alderman expires with this century. We bring you golden wishes :

"First—A Happy New Year.

"Second—An elegant grip in which you will find inclosed compliments to our present and next Alderman, William H. Tracy.

"Third—A beautiful umbrella, to ward off the Rains bill.

"We trust that you will accept these small tokens of our great appreciation of your faithful service to the public and your friends."

He then presented the Alderman with a handsome grip a beautiful silver mounted umbrella and a magnificent floral piece in the form of a heart, which was presented by his friends of the First ward in honor of his long services to them, and his zeal and fidelity in promoting the interests of the ward which he has represented so long and faithfully. Ald. Tracy was visibly affected, and responded as follows :

"I have always looked upon Judge White

as one of the warmest personal friends I had in Rochester, but if he had wanted me to continue thinking so he should have given me some inkling of this, so I could have been prepared to make some fitting reply. I am glad to be thus pleasantly informed that my efforts in this council have pleased my constituents. I shall endeavor in the future, as in the past, to merit the good feeling and well wishes of my constituents and of the citizens of the city generally, and hope that I shall merit their commendation."

By Ald. Rauber: Resolved, That the rules of 1898 governing this Common Council be and hereby are adopted by this Common Council until further ordered. Adopted.

On motion of Ald. Rauber the Board then adjourned.
Peter Sheridan,
City Clerk.

In Common Council, January 3, 1899.

REGULAR MEETING.

Ald. J. Miller Kelly, president of the Board, presiding.

Present—Alds. Tracy, Ford, Green, Rauber, Adams, Beard, Casey, Seyle, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

COMMUNICATIONS FROM THE MAYOR

By the Clerk—

Mayor's Office, Jan. 3, 1899.

To the Common Council of the City of Rochester:

The Court of Appeals, in the case of Conway against the city, decided that the Rochester Railway Company was obliged when an improvement was made on a street in which their rails were laid, to pave and repair that part of the street between its rails and two feet outside of its tracks. The statute on which the court based its decision was passed in 1890, and amended in 1892, and required the city to give a notice to the railway company requiring them to put that part of the street required to be improved by them in good order and repair. The statute further provided that if the railway company did not make the repairs required within thirty days, that the city might make the same at the expense of the railway company. It has been a disputed question for some time between the city and the railway company as to whether it could be required to pay any part of a new pavement, but this court has decided that it is so liable. Under the statute cited above, the cost of the required work, if done by the city, can only be collected of the railway company by an action, and a judgment if recovered can only be collected in the same manner as any other judgment against the company, the statute creating

no lien upon the railway company's property for the costs of the work. In the several improvements heretofore made no notice was given to the company as required by the statute. Unless some steps are taken the costs of the improvements made between the tracks and two feet outside may have to be borne by the city at large. To remedy this, I would suggest that an act be prepared and sent to Albany for passage, authorizing the assessors to assess the fair cost of the improvement which should have been paid for by the railway company, against that company, and the balance of the assessment against the abutting owners. If this can be done the cost of the improvements will not fall upon the city.

Second—I recommend the passage of an act authorizing the board of police commissioners to appoint an attorney to prosecute all charges preferred against the members of the police department, and to prosecute all cases in the police court. The public hold the board of police commissioners responsible for the enforcement of the laws and ordinances, and they would therefore be given the right to select their own counsel so as to have all cases fairly and properly presented to the court. There would be no additional expenses, as the only change would be to transfer the appointment from the corporation counsel to the board of police commissioners.

Third—In my message of January 1, 1898, I recommended that the board of education be abolished, and that a smaller board, consisting of five or seven members with all the powers and duties of the present board of education, be appointed by the mayor or elected. I further stated that from such a board the city would be more apt to receive full benefit for the large amount of money expended each year than under the present system. Since that time the legislature has passed an act making radical changes in the educational department of our city, but making no change in the number of members of the board or the manner of their election. I renew the recommendation then made, believing that such a change in the board of education would be for the best interests of the city.

In the same message I recommended that an act be passed relieving the Hemlock lake commissioners of further duty, and if any more land should be purchased that the same be purchased under the direction of the executive board, which has the control of the water system of our city. An act to accomplish this purpose was approved by the common council and sent to Albany for passage. Its passage was prevented, however, by interested parties. I renew the recommendation then made, believing that it will result in a saving to the city. Commissioners are invariably expensive, and should never be appointed when the regular officers of the city can do the same work.

I understand the charter amendment committee is engaged in drafting, or will soon draft, a bill authorizing the issuing of bonds for local improvements. It will therefore be unnecessary to discuss the same. The reports of the various departments having been made and presented to the common council for examination, there is no necessity of my reviewing the same at the present time.

In conclusion I would request, as I did a year ago, that the finance committee carefully examine all department requests for money, and to allow only such amounts as

will be sufficient to carry on the departments if economically administered.

Respectfully yours,

GEO. E. WARNER, Mayor.

Ald. Adams moved that the matter contained in the communication of the mayor which referred to the Street Railway Co. be referred to the charter amendment committee. Adopted.

The communication was then ordered received, filed and published.

To the Common Council :

Gentlemen—I am instructed by the Executive Board to inform you that the amount of money appropriated by your honorable body for street department for the last year has been expended; and, in order to carry along the work of said department until such time as the regular appropriation is made for the ensuing year, it will be necessary for your honorable body to make provision, in the meantime, to meet the expenditures of the Street Department.

I am directed by the Executive Board to request that \$20,000 be appropriated for this purpose.

Respectfully,
CHAS. M. BEATTIE, Clerk.

Ordered received, filed and published.

By Ald. Rauber—Resolved, That the City Treasurer be, and he hereby is, authorized and directed to issue, as may be necessary, in anticipation of taxes to be levied under authority of sections 80 and 81 of the City Charter, the city's note or notes for an amount not exceeding twenty thousand (\$20,000) dollars; said notes to run for a period not exceeding five months; to be negotiated under the direction of the Finance Committee and countersigned by the chairman thereof; interest or discount to be charged to the Contingent Fund and the proceeds credited to the Highway Fund.

Adopted by the following vote :

By Ald. Selye—

January 3, 1899.

To the Honorable, the Common Council of the City of Rochester :

Gentlemen—As per a verbal request of Alderman Seyle a few days ago, I append herewith a list of all of the unpaid assessments against state property with the exception of street sprinkling and sweeping and cleaning assessments. The State Comptroller contends that such assessments do not constitute local improvements under the meaning and intent of Sec. 20, Chap. 317, Laws of 1894, the provisions of which permit taxation for local improvements, when said provisions are fully complied with.

The amounts given are the actual assess-

ments without any interest added thereto. Chapter 577 of the laws of 1897, passed May 19, 1897, authorized an appropriation of twenty-two thousand dollars (\$22,000.00) for the payment of unpaid local assessments in the City of Rochester, but although we sent bills to the Comptroller's office no payment has as yet been made.

Yours respectfully,
S. B. WILLIAMS, Treasurer.

REPORTS OF STANDING COMMITTEES.

By Ald. Rauber—
Rochester, N. Y., Jan. 3, 1899.

To the Hon. Common Council :
Gentlemen—On September 30, 1898, the Finance Committee of the Board of Education sent a communication to this board, asking for an additional appropriation. The communication was referred to the Finance Committee of this board, who granted them an appropriation of \$15,000, ten thousand dollars of which was credited to the Contingent Fund of the Board of Education, and five thousand dollars (\$5,000.00) to the Building Fund of the Board of Education. It was then practically understood that in case there was an additional appropriation needed for the teachers' fund it would be granted. Your committee are informed by the City Treasurer that in order to pay the salaries of the school teachers that it will be necessary to appropriate at least the

sum of eight thousand dollars (\$8,000.00.)

Therefore, under the circumstances, your committee recommend that an appropriation for that amount be made, to be credited to the Teachers' Fund of the Board of Education.

STEPHEN RAUBER,
J. MILLER KELLY,

ACTION ON ORDINANCES.

By the Clerk—

Rochester, N. Y., Jan. 3, 1899.

To the Honorable, the Common Council of the City of Rochester :

Gentlemen—I do hereby certify that a notice, such as is required by Section 172 of the City Charter, specifying each of the improvements contemplated by the following final ordinances, the estimated expenses thereof, the amount, if any, of such expenses to be paid from the public treasury, the portion or part of the city to be assessed for the remainder of the expenses, and requiring all persons interested in the subject matter of the improvement to attend at the time appointed in such notice, was published daily for four days in two daily newspapers printed in this city, namely, the Rochester Times and the Union and Advertiser.

Respectfully submitted,
 PETER SHERIDAN,
 City Clerk.

Received, filed and published.

FINAL ORDINANCE, No. 7,333.

CARE AND EMBELLISHMENT OF SELYE TERRACE.

On motion of Ald. Beard, the Common Council proceeded to hear allegations in re-

lation to the improvement described in the following ordinance, viz.:

An Ordinance for the care and embellishment of Selye Terrace, from Lake avenue to Dewey avenue, and after hearing such allegations from all persons appearing,

The Common Council of the City of Rochester, do ordain and determine that the following improvement is necessary and should be made, to wit :

The improvement and embellishment of Selye terrace, from Lake avenue to Dewey avenue, as follows: Sweeping and cleaning the walks of all snow, ice, leaves and rubbish; cutting the grass, manuring and fertilizing and caring for the lawn, from street lines to curb, including the manuring, seeding, planting flowers and shrubs in front of each lot, replanting, removing or planting new trees and trimming the same; care of the roadway, removal of grass, weeds and all rubbish from the same. The above work to include the care of the street for one year from the 10th of February, 1899, and to be under the direction of the Superintendent of Public Parks.

And the City Engineer, under direction of this council, having made and reported as an estimate of the expense thereof, the sum of four hundred dollars, which, being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the city, which this council deems proper to be so assessed for, and will be benefited by such improvement, to wit :

One tier of lots and parcels of land on each side of Selye terrace, from Lake avenue to Dewey avenue.

Adopted by the following vote :
 Ayes—Ald. Tracy, Ford, Green, Rauber,
 Adams, Beard, Casey, Selye, Steele, Ritz,
 Pauckner, Kelly, Ernst, Meade, Judson,
 Wilson, Reichenberger—17.

FINAL ORDINANCE, No. 7,334. IMPROVEMENT OF BARTLETT STREET.

On motion of Ald. Beard, the Common Council proceeded to hear allegations in relation to the improvement described in the following ordinance, viz.:

An Ordinance to improve Bartlett street, from Genesee street to Snyder street, and after hearing such allegations from all persons appearing,

The Common Council of the City of Rochester, do ordain and determine that the following improvement is necessary and should be made, to wit :

The improvement of Bartlett street, from Genesee street to Snyder street, by the construction of an asphalt pavement therein, with a line of stone curb on each side thereof, properly connected with all lateral streets, alleys and driveways. Width of roadway to be 22 feet. Also the construction of a suitable sewer from a point near Snyder street to the sewer in Genesee street. Also the necessary manholes, surface sewers, lot laterals, water services and cement walks five feet in width on each side of the street.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

The pavement shall be guaranteed for ten years.

And the City Engineer, under the direction of this council, having made and reported as an estimate of the expense thereof, the sum of nine thousand, seven hundred dollars, which, being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the city which this council deems proper to be so assessed for, and will be benefited by such improvement, to wit :

One tier of lots and parcels of land on each side of Bartlett street, from Genesee street to Snyder street.

Adopted by the following vote :

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Beard, Casey, Selye, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

**FINAL ORDINANCE, No. 7,335.
EAST AVENUE SEWER.**

On motion of Ald. Casey, the Common Council proceeded to hear allegations in relation to the improvement described in the following ordinance, viz.:

An Ordinance to construct a sewer in East avenue, from a point near the center of Upton park to the East Side trunk sewer in Culver road, and after hearing such allegations from all persons appearing,

The Common Council of the City of Rochester, do ordain and determine that the following improvement is necessary and should be made, to wit :

The construction of a sewer of suitable form and dimensions in East avenue, from a point near the center of Upton park and connecting with the present sewers in East avenue, to the East Side Trunk Sewer in the Culver road. Also the construction of the necessary new manholes, surface sewers, lot laterals and branches, together with the connection of the existing main, surface and lot lateral sewers with the new sewer.

And the City Engineer, under direction of this council, having made and reported as an estimate of the expense thereof, the sum of thirty-five thousand dollars, which being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the city which this council deems proper to be so assessed for, and will be benefited by such improvement, to wit :

COMMUNICATIONS & REPORTS FROM OTHER CORPORATION OFFICERS, BOARDS AND DEPARTMENTS.

By the Clerk—

January 17, 1899.

To the Common Council :

Gentlemen—The following communication with reference to the relief of the Lorimer street drainage territory is respectfully referred to your honorable body for such action as is deemed advisable.

Respectfully,

CHAS. M. BEATTIE, Clerk.

Office of the City Engineer.

Rochester, N. Y., Jan. 17, 1899.

To the Executive Board :

Gentleman—In the matter of the complaint from the Ham Mfg. Co., that the present sewer in Thompson street does not afford an adequate outlet for the sewage from their lantern works, I beg leave to report as follows :

The works of the Ham Mfg. Co. front on the west side of Thompson street, between Jones avenue and Lorimer street. The drainage from said works empties into a 12-inch pipe sewer in Thompson street at a point about the center of the block, between Jones avenue and Lorimer street, the outlet being through Thompson street to Lorimer street, through Lorimer street to Fulton avenue, Fulton avenue to Phelps avenue, Phelps avenue to Lake avenue and Lake avenue to the West Side trunk sewer. The property is in the West Side sewer territory and was assessed for building said sewer. The sewer in Thompson street is a 12-inch pipe built in 1871. The depth below surface to bottom of sewer in front of the lantern works is 7 feet 1 inch. In Lorimer street the sewer is 15 inches in diameter and 8 feet deep at Thompson street. The sewer in Fulton avenue is 21-2x3 feet stone. In Phelps avenue 3x3 feet stone and in Lake avenue 3x4 feet stone, all built in 1871. The sewer in Lorimer street is entirely inadequate to serve as an outlet for the territory drained, there being a drainage area

of 40 acres coming into this sewer at Saratoga avenue. During heavy rains the water sets back in the manhole at Thompson st. and Frank street to within about 3 feet of the surface. A proper and adequate means of relief for the lantern works, which at the same time would afford a permanent relief for the entire territory, would be the deepening and enlarging the sewer in Thompson street from the lantern works to Lorimer street and in Lorimer street, from Thompson street to Fulton avenue.

In order to fully serve the entire territory as an outlet that portion of Lorimer street between Thompson street and West street should also be enlarged and deepened. This enlargement can be accomplished either by rebuilding the present sewer or by constructing a new sewer under the south walk of Lorimer street. The estimate cost is about \$10,000.00.

Another plan that would give permanent relief to the lantern works would be the construction of a sewer in Durkin alley, from the lantern works to the sewer in Lyell avenue. The estimated cost of a sewer of suitable size is \$1,300.00. While this plan would relieve the lantern works it would be of no special benefit to the rest of the territory, as the enlargement of the outlet sewer in Lorimer street would still be necessary.

A temporary relief for the lantern works may be had by connecting their sewer with the present sewer in Thompson street, between Jones avenue and Lyell avenue. This sewer could take the sewage only and would afford temporary relief pending the construction of the permanent deep sewers in Lorimer and Thompson street. The estimated cost of this work is \$300.00. Another temporary plan of relief pending the construction of the aforementioned sewers is a system of flushing both the street sewers and the lateral sewers from the building. This system is in partial use at the present time and while not entirely satisfactory can probably be made to answer the purpose if assurance was given that permanent relief was to be had without unnecessary delay.

Respectfully submitted,

E. A. FISHER, City Engineer.

On motion of Ald. Rauber referred to the Executive Board.

January 17th, 1899.

To the Honorable, the Common Council :

Gentlemen—The Executive Board directs me to request your honorable body to appropriate \$15,000 in anticipation of taxes to be levied for this year for the purpose of defraying the expenses of the Fire Department for the month of January, 1899.

Respectfully submitted,

CHAS. M. BEATTIE, Clerk.

Referred to the Finance Committee.

By the Clerk—

January 17, 1899.

To the Honorable, the Common Council:

Gentlemen—The Executive Board desires to call your attention to the desirability of securing through the city's representatives in the present session of the State Legislature a modification of the general tax law which shall exempt from taxation all property owned by the city for water works purposes outside of its corporate limits; also a modification of the penal code or the statute governing the sanitary protection of public water supplies whereby it will become practicable for this city to obtain such protection and to enforce the

existing regulations therefor in a less round about manner than as now provided.

Respectfully,

CHAS. M. BEATTIE, Clerk.

Ordered received, filed and published.

By Ald. Selye—Resolved, That the representatives of this city in the Legislature are hereby requested to use their utmost endeavors in securing a modification of the general tax law, which shall exempt from taxation all property owned by the city for water works purposes outside of its corporate limits; also an amendment of the penal code, or the statute governing the sanitary protection of public water supplies, whereby the existing regulations for preserving the purity of the water of Hemlock lake can be properly enforced. Adopted.

By the Clerk—

Rochester, N. Y., Jan. 12, 1899.

To the Finance Committee of the Common Council, Ald. Stephen Rauber, Chairman: Gentlemen—We respectfully request the Common Council to advance to this board the sum of eight thousand dollars of the appropriation for the maintenance of the parks this year, this amount being deemed necessary to meet the weekly pay rolls and ordinary expenses of this department until the annual appropriation for this board is available.

Respectfully,

JOHN H. ROCHESTER,

JOHN E. DURAND,

E. M. MOORE,

JAMES H. BROWN,

Finance Committee, Board of Park Commissioners.

By Ald. Rauber—Resolved, That the City Treasurer be, and he hereby is, authorized and directed to issue, as may be necessary, in anticipation of taxes to be levied but uncollected, under authority of sections 80 and 81 of the City Charter, the city's note or notes, for an amount not exceeding two thousand dollars (\$2,000); said note to run for a period not exceeding five months; to be negotiated under the direction of the Finance Committee, and countersigned by the chairman thereof; interest or discount to be charged to the Contingent Fund, and the proceeds credited to the Park Maintenance Fund.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—19.

Rochester, N. Y., Jan. 6, 1899.

Ald. Stephen Rauber, Chairman Finance Committee:

Dear Sir—I hereby certify that at a regular meeting of the Board of Park Commissioners, held on December 28, 1898, a resolution was adopted, of which the following is a true copy:

By Commissioner Wright—Resolved, That the Common Council be requested to assign to the Park Commission the mortgage held by the city of Rochester on the property known as the Deaf Mute Institute. The Park Commission desires to make an arrangement with the trustees of this institution in order to acquire lands and indemnify them for the removal of their heating plant. What may remain over and above, the Park Commission desires to use for the purchase and improvement of land.

In order to the further understanding in this matter, the Park Commission hereby requests the Common Council to appoint a special committee for conference with a

similar committee of the Park Commission on this subject.

Respectfully,

M. O. STONE, Secretary.

Referred to the Finance Committee.

By the Clerk—

January 17th, 1899.

To the Honorable, the Common Council of the City of Rochester, N. Y.:

The undersigned, finance committee from the Grand Army Relief Committee, respectfully request that you provide the sum of (\$3,000.00) three thousand dollars for the use of said committee until the annual appropriation is made.

Very respectfully,

A. ELWOOD,

EDWARD KENEALY,

S. P. QUICK,

Finance Committee.

Attest:

Joseph Erbeling, Commander.

F. B. Robinson, Secretary.

Ordered received, filed and published.

By Ald. Rauber—Resolved, That the City Treasurer be, and he hereby is, authorized and directed to issue, as may be necessary, in anticipation of taxes to be levied but uncollected, under authority of Sections 80 and 81 of the City Charter, the City's note for an amount not exceeding three thousand dollars, (\$3,000.00) said note to run for a period not to exceed five months; to be negotiated under the direction of the Finance Committee of the Common Council, and countersigned by the chairman thereof; interest or discount to be charged to the Contingent Fund, and the proceeds to be credited by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—19.

By the Clerk—

January 17th, 1899.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen—There will be due and payable February 1st, the city's notes Nos. 1,249, 1,250 and 1,251, issued on account of Local Improvement Fund which with interest on the same amount to \$105,851.82, (one hundred five thousand eight hundred fifty-one and 82-100 dollars). There are acceptances outstanding which are due on or before February 1st, amounting to \$44,000.00 (forty-four thousand dollars) exclusive of interest.

There will also be due February 1st, the City's note, No. 1,252, issued on account of the East Side Trunk Sewer Fund which with the interest amounts to \$16,608.75, (sixteen thousand six hundred eight and 75-100 dollars). The amount of the interest on the bonded indebtedness of the city due February 1st, is \$54,037.50, (fifty-four thousand thirty-seven and 50-100 dollars). It will be necessary to issue the city's notes to take care of the above payments, viz:

\$150,000.00 for Local Improvement Fund.
\$16,608.75 for the East Side Trunk Sewer Interest Fund.

\$54,037.50 for interest on the bonded debt.

I would ask for the adoption of the accompanying resolutions to authorize the same.

REPORTS OF STANDING COMMITTEES.

By Ald. Casey—

Rochester, N. Y., Jan. 17, 1899.

To the Honorable, the Common Council :

Gentlemen—Pursuant to a resolution adopted by your honorable body on the 29th day of December, 1898, authorizing the undersigned as corporation counsel, to offer judgment in certain actions pending against the city, arising out of the overflow of the east side trunk sewer, as follows :

To George H. Koehler, in the sum of \$100 and costs.

To Henry F. Erbland, in the sum of \$150 and costs.

To William Kloter, in the sum of \$100 and costs.

To J. Sebastian Zwerger, in the sum of \$300 and costs.

To George A. Zwerger, in the sum of \$175 and costs.

To Sepharine Costich in the sum of \$150 and costs; which actions were pending in the Supreme Court, I would respectfully report that pursuant to said resolution I did make such offers of judgment and that in all of said cases the plaintiffs have accepted the offer made by the city, and duly served upon me notices of acceptance of the same.

I would therefore recommend that an order be drawn upon the contingent fund, payable to the said parties, or their respective attorneys, for the amounts offered by the city, and accepted by them, together with the taxable costs, which said costs to be taxed by the undersigned, or by the County Clerk; and the same to be in full settlement of the said actions heretofore brought by said plaintiffs against said city.

All of which is respectfully submitted,
JOHN F. KINNEY,
Corporation Counsel.

Ordered received, filed and published.

By Ald. Casey—Resolved, That upon the certificate of the corporation counsel that proper satisfaction pieces, stipulations and releases have been filed with him, the city clerk be and he is hereby authorized and directed to draw orders payable from the Contingent Fund in favor of the following persons, or their attorney, C. D. Kiehl, in the following amounts :

Henry F. Erbland, in the sum of \$150 and taxable costs.

William Kloter, in the sum of \$100 and taxable costs.

J. Sebastian Zwerger, in the sum of \$300 and taxable costs.

George A. Zwerger, in the sum of \$175 and taxable costs.

George A. Koehler, in the sum of \$100 and taxable costs.

And also in favor of Sepharine Costich, or his attorneys, Hubbell & McGuire, in the sum of \$150 and taxable costs; that said costs be taxed by the corporation counsel or the County Clerk of Monroe County; the said amounts being in full settlement of the actions heretofore brought by the said parties against the city and now pending, and which they have accepted as the offer of judgment made by the Common Council pursuant to a resolution adopted on the 29th day of December, 1898, and being for damages by reason of the overflow of the east side trunk sewer.

Adopted by the following vote :

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—19.

ACTION ON ORDINANCES.

By the Clerk—

Rochester, N. Y., Jan. 17, 1899.
 To the Honorable, the Common Council of
 the City of Rochester:
 Gentlemen—I do hereby certify that a
 notice, such as is required by section 172
 of the City Charter, specifying each of
 the improvements contemplated by the
 following final ordinances, the estimated
 expenses thereof, the amount, if any, of
 such expenses to be paid from the public
 treasury, the portion or part of the city
 to be assessed for the remainder of the
 expenses, and requiring all persons inter-
 ested in the subject matter of the im-
 provement to attend at the time appointed
 in such notice, was published daily for
 four days in two daily newspapers printed
 in this city, namely the Rochester Times
 and the Union and Advertiser.

Respectfully submitted,
 PETER SHERIDAN,
 City Clerk.

Received, filed and published.

FINAL ORDINANCE.

FINAL ORDINANCE, NO. 7,336.

On motion of Ald. Beard, the Common
 Council proceeded to hear allegations in
 relation to the improvement described in
 the following ordinance, viz.:

An ordinance to construct a plank walk
 on McLean street, from the west end there-
 of to Genesee street, and after hearing
 such allegations from all persons appearing,

The Common Council of the City of Roch-
 este, do ordain and determine that the fol-
 lowing improvement is necessary and
 should be made, to wit:

The construction of a pine plank walk,
 four feet wide, on each side of McLean
 street, from the west end thereof to Gene-
 see street. Also the necessary sidewalk
 grading and crosswalks.

And the City Engineer, under the direc-
 tion of this Council, having made and re-
 ported as an estimate of the expense there-
 of, the sum of four hundred and fifty dol-
 lars, which, being deemed reasonable, is
 hereby approved, and the whole expense of
 such improvement is hereby directed to be
 assessed upon all the following portion and
 part of the city, which this council deems
 proper to be so assessed for and will be
 benefited by such improvement, to wit:

One tier of lots and parcels of land on
 each side of McLean street, from the west
 end thereof to Genesee street.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber,
 Adams, Edelman, Beard, Casey, Selye,
 Ward, Steele, Ritz, Pauckner, Kelly, Ernst,
 Meade, Judson, Wilson, Reichenberger—19.

Action on the final ordinance for widen-
 ing North Linden street was, on motion of
 Ald. Mead, indefinitely postponed.

The final ordinances for improvement of
 North Clinton street came up and on mo-
 tion of Ald. Ruber, postponed two weeks.

Ald. Selye moved that the asphalt im-
 provement for Thrush street be postponed
 two weeks. Adopted.

UNFINISHED BUSINESS.

By Ald. Judson—Whereas, The entire and
 aggregate expense of and connected with
 the extension of Oswego street, under final
 ordinance No. 6,836, including all amounts

paid the owners of land deemed necessary
 to be taken, and all costs and charges of
 the city in the proceedings, has been ascer-
 tained and reported as \$1,453.40, which ex-
 pense is hereby adjusted as thus reported.

Resolved, That the portion or part of the
 city on which the said expense is hereby
 directed to be assessed, and which this
 Common Council deems will be benefited
 by the improvement, are the lots and par-
 cels of land within the part of the city de-
 scribed and directed to be assessed in and
 by the final ordinance relative to the said
 improvement, and the assessors of said city,
 if they are not interested in any of the
 property or lots or parcels of land to be
 taken, or situated or being within the part
 or portion of the city deemed to be benefit-
 ed and directed to be assessed as afore-
 said, are hereby directed to apportion and
 assess the said expense and to make an
 assessment upon all the lots and parcels
 of land within the portion or part of the
 city directed to be assessed and benefited
 as aforesaid, as near as may be in propo-
 tion to the benefit which each person shall
 be deemed to receive thereby.

Allegations were called for, and after
 hearing same from all persons appearing,
 the resolution was adopted by the following
 vote:

Ayes—Alds. Tracy, Ford, Green, Rauber,
 Adams, Edelman, Beard, Casey, Selye,
 Ward, Steele, Ritz, Pauckner, Kelly, Ernst,
 Meade, Judson, Wilson, Reichenberger—19.

Action on the communication of the May-
 or appointing Park Commissioners and pub-
 lished at Page 304 Proceedings of 1898,
 came up and on motion of Ald. Rauber was
 postponed two weeks.

Action on the appointment of Health
 Commissioners by the Mayor and published
 on Page 484 came up. Ald. Rauber moved
 that action thereon be postponed two weeks.
 Adopted.

Action on the resolution of Ald. Reich-
 enberger, providing for the temporary ap-
 pointment of clerks to assist in the pre-
 paration of the East Side Trunk Sewer as-
 sessment, and published at Page 597 Pro-
 ceedings of 1898, came up. Ald. Reichen-
 berger moved that the resolution be adopt-
 ed. Ald. Steele moved as an amendment
 that the consideration of the resolution be
 postponed two weeks until it could be as-
 certained from the assessors whether it
 is necessary to have assistance in pre-
 paring the rolls. Lost by the following
 vote:

Ayes—Alds. Ford, Green, Adams, Beard,
 Steele, Pauckner, Judson, Wilson—8.

Nays—Alds. Tracy, Rauber, Edelman,
 Casey, Selye, Ward, Ritz, Kelly, Ernst,

 ma, Casey, Selye, Ward, Ritz, Kelly,
 Ernst, Meade, Reichenberger—12.

Nays—Ald. Green, Adams, Beard, Steele,
 Pauckner, Judson, Wilson—7.

Ald. Adams moved that the City Engineer
 be requested not to assign any of the clerks
 just appointed to work unless requested to
 do so by the City Assessors. The motion
 was lost.

Action on the resolution published on page
 523, proceedings of 1898, appointing Frank
 Childs temporary assistant in the Fire Mar-
 shal's office came up.

Ald. Ernst moved the adoption of the
 resolution. Adopted by the following vote:

Ayes—Ald. Tracy, Rauber, Edelman,
 Casey, Selye, Ward, Ritz, Kelly, Ernst,
 Meade, Judson, Reichenberger—12.

Nays—Ald. Ford, Green, Adams, Beard, Steele, Pauckner, Wilson—7.

By Ald. Mead—Petition for improvement of Hudson avenue, from Clifford to Norton streets.

By Ald. Judson—

January 16, 1899.

To the Honorable, the Common Council :
Gentlemen—I observe by the official proceedings of your last meeting that the City Treasurer has certified that there was something like \$36,000 in unpaid assessments for local improvements in front of the state property.

It has occurred to me to inquire whether the city has taken advantage of the appropriation carried by Chapter 577 of the laws of 1897. By that act the Legislature appropriated \$22,000 with which to meet such payments as had then become payable. It hardly seems to me possible that since that time \$36,000 additional assessments can have been levied. I would suggest that if this money has not been received from the state that steps be taken immediately to collect it.

Very respectfully yours,

Merton E. Lewis.

SPECIAL MEETING.

Ald. J. Miller Kelly, President of the board, presiding.

Present—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

Absent—Ald. Pauckner—1.

The President of the Board stated that he had called the meeting at the suggestion of several of the aldermen to take action on the death of their friend and colleague, Ald. Martin J. Calihan, and said that "Perhaps no member of the Board can realize the shock that came to me about an hour after midnight when I learned of Ald. Calihan's death. It seemed it could not be so. The Floral piece at the vacant desk here to-day speaks for all of us: 'Absent, but not Forgotten.' While Ald. Calihan differed from some of us in politics, he had as many friends in one party as in the other. Politics had nothing to do with his efforts in behalf of the needy. He was the friend of all. I am sorry to have to ask you what is your further pleasure."

By Ald. Adams—

Whereas, It is with sincere sorrow that we have learned of the death of our esteemed associate and colleague, Martin J. Calihan of the Second ward, who departed this life January 19, 1899, and who was respected and loved by his friends in this council; therefore, be it

Resolved, That a committee of five be appointed to draft suitable resolutions expressive of our sympathy to the family of our deceased friend, and have them suitably engrossed and present them to this council at its next meeting.

Resolved, Further, That the members of this Common Council attend the funeral services in a body; that the Common Council chamber be draped in mourning for a period of thirty days, and that the committee so appointed make all necessary arrangements for the attendance of the council at said funeral.

On rising to move the adoption of the resolution, Ald. Adams said: "Were I able to pronounce a eulogy or an eloquent address on the death of our beloved colleague for the Republican members of the Board present and past, I would be glad to do so. Alderman Calihan was a loyal man and a true friend of every one. He was loved and respected by all. A leader in politics, he was a good counselor, a true friend. Being the only member of the Board who came into office with him, I feel it is particularly my place to speak of the grief it has caused all of us. He was a man who will be greatly missed in this city. I ask the resolution be adopted."

Ald. Steele, in seconding the resolution, said: "I cannot refrain from saying a

word of the loss that we individually, as well as a legislative body, have sustained by the death of Alderman Callihan. He was a true American, who from an innate desire to rise to higher aims wrought out success where many would have failed. Norvalis, I

s. who says: 'Character is essentially the power of resisting temptation'—then his was most perfect, for he was free from even the smaller vices of habit so many of us succumb to. An active, loyal member of the church, a loving husband and father, the grief of those left is too hallowed, and overwhelming for me to touch upon. He was a faithful servant of the people, kindly and helpful in all his intercourse. I think I may well say we ne'er shall know his like again, and that this body and the community have met with an irreparable loss."

The resolution was then adopted by a rising vote.

The President appointed the following committee: Aids, Adams, Steele, Ford, Rauber and Tracy to make the necessary arrangements for the funeral. Ald. Ford moved that the chairman of the Board be added to the committee. Adopted.

The Board then adjourned.

PETER SHERIDAN,
City Clerk.

In Common Council, January 31, 1899.

REGULAR MEETING.

Alderman J. Miller Kelly, President of the Board, presiding.

Present—Aids, Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

Resolved, That the Law Committee be and hereby are requested to advertise immediately for proposals and report same at the next meeting of this Council.

Ald. Rauber moved that the resolution be referred to the Finance Committee.

Adopted by the following vote:

Ayes—Aids, Tracy, Rauber, Edelman, Casey, Ward, Ritz, Kelly, Ernst, Meade, Reichenberger—10.

Nays—Aids, Green, Adams, Beard, Steele, Pauckner, Judson, Wilson—7.

By Ald. Pauckner—Resolved, That the City Engineer be requested to prepare an ordinance for repaving the approaches to Monroe avenue bridge and altering the approach to Field street. Adopted.

By Ald. Mead—Whereas, The polling place designated for the First election district of the Second ward is too small and is not convenient for the purpose for which it was intended and does not answer the purpose of a polling place; therefore

Resolved, That the resolution designating the polling place of the first election district of the Second ward at Malaney's livery stable be and the same is hereby reconsidered. Adopted.

By Ald. Mead—Resolved, That the polling place for the Second district of the Second ward be and hereby is reconsidered. Adopted.

By Ald. Mead—Resolved, That the polling place for the First election district of the Second ward be and hereby is designated as the store, 375 State street. Adopted.

By Ald. Mead—Resolved, That the polling place for the Second district of the Second ward be and hereby is designated as a polling booth situated at the corner of Platt and John streets. Adopted.

By Ald. Mead—Resolved, That the City Clerk be and hereby is, directed to draw an order on the City Treasurer, payable from the Contingent Fund, for two and 64-100 (\$2.64) dollars in favor of E. C. Edelman for disbursements as per annexed bill, Starr case and ano.

Adopted by the following vote :

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade Judson, Wilson, Reichenberger—18.

Mayor's Office.

Rochester, N. Y., Jan. 24, 1899.

To the Common Council of the City of Rochester :

Gentlemen—In approving the bill of two hundred fifty dollars presented by A. J. Rodenbeck, Esq., for legal services and disbursements in connection with the investigation of the Executive Board, I desire to call attention to the fact that this investigation has cost about five hundred dollars while only two hundred was appropriated for that purpose.

I also call your attention to the fact that no report has been made by the special committee appointed to investigate the charges against the members of the Executive Board, although several months have elapsed since the evidence was closed and the briefs of the counsel submitted.

Serious charges were made against the members of the Board in reference to the performance of their duty, and all the evidence against them obtainable was presented by an able counsel. This was supplemented by a carefully prepared argument in which all the alleged wrong doings and shortcomings of the Board were presented for consideration of the committee.

The members of the Board are justly entitled by all the principles of equity, to have the evidence carefully considered and a report made. This matter should not be allowed to drag along and the charges against the members remain undisposed of.

Furthermore, the public is interested in

the investigation and is entitled to a report.

Respectfully yours,

GEORGE E. WARNER, Mayor.

On motion of Ald. Ward ordered received, filed and published and referred to the Law Committee to report.

COMMUNICATIONS and REPORTS FROM OTHER CORPORATIONS, BOARDS AND DEPARTMENTS.

By the Clerk—

January 30th, 1899.

To the Common Council :

Gentlemen—In accordance with a resolution adopted by your honorable body requesting the Executive Board to negotiate with the owners of the property which is proposed to be taken for the opening and extension of Hollenbeck street, I am directed to state, that the parties interested were invited to call at this office and state what sums they would accept, and after considering the proffers made, this Board deems said amounts excessive and, therefore, recommends that the Corporation Counsel be authorized to commence the usual condemnation proceedings to acquire said land.

Respectfully,

CHAS. M. BEATTIE, Clerk.

Referred to the Corporation Counsel.

By the Clerk—

Rochester, N. Y., Jan. 31, 1899.

To the Honorable, the Common Council :

Gentlemen—The enclosed resolution was adopted by the Board of Education at a session held this day.

Respectfully,

JAS. C. OLIVER.

By Commissioner Horcheler — Resolved, That the Common Council be requested to advance to the credit of the following funds of the Board of Education the following amounts in anticipation of the annual appropriations for 1899.

Teachers' Fund	\$40,000 00
Repair Fund	1,000 00
Contingent Fund	10,000 00

Total \$51,000 00
Referred to the Finance Committee.

By the Clerk—

To the Hon. Common Council :

We, the undersigned, the assessors of the City of Rochester, respectfully submit to your honorable board that by reason of the large number of local ordinances and personal property assessments, the work of this office has largely increased so as to necessitate additional clerk hire in the office.

We therefore respectfully ask that inasmuch as the clerk hire in the office is paid from the salaries of the assessors, our salaries be restored to the original figure, \$3,600 each.

We believe that a careful investigation of the subject will satisfy you that the request is reasonable and should be granted.

Very respectfully yours,

E. A. KALBFLEISCH,

CHAS. F. POND,

V. FLECKENSTEIN,

Assessors.

To the Common Council, City of Rochester:
Gentlemen—The Humane Society of Rochester for the Prevention of Cruelty to Animals does hereby respectively request your honorable body to re-enact the ordinance relating to dogs which was heretofore enforced in this city and a copy of which is hereto annexed.

Very respectfully yours,
J. B. Y. WARNEK, President.
SARA HYATT, Secretary.

Ordered received, filed and published.
An Ordinance Relating to Dogs.
The Common Council do ordain and establish as follows:

Section 1.—Every owner or keeper of a dog, or animal of the dog kind within the City of Rochester, shall cause the same to be registered, numbered, and described in the Office of the City Clerk of said city; the City Clerk shall keep a complete registry of all dogs in a book to be kept for that purpose, describing the same by breed, color and sex, and shall also enter the name and address of the owner or keeper as given and the number of the city license tag; he shall provide such number of metal tags which shall be of different pattern and design each year of not less than three-fourths of an inch in width, as may be necessary, bearing on the face serial numbers, and such tags shall be furnished by the City Clerk to each owner of the dog at the time of registering said dog and shall be attached to the collar of such animal. No person shall counterfeit or use any other tag than that furnished by the City Clerk. The fee for registration shall be \$1.00 for each dog per year, which shall include the metal tags, of which metal tag, however, duplicates will be furnished by the City Clerk for \$.75 each. All licenses, fines and penalties collected under this ordinance shall be placed to the credit of the Police Fund. Any person harboring a dog for two days prior to any violation of the terms of this ordinance shall be held to be the owner of said dog.

Section 2.—No dog, or animal of the dog kind, shall be permitted to run at large in the City of Rochester unless muzzled when required as hereinafter provided nor unless said dog shall wear a collar of metal or leather bearing a tag or plate such as is prescribed in this ordinance.

Section 3. No person shall suffer to run at large in said city any dog, owned or harbored by him, of ferocious and dangerous character, habit or disposition; nor shall any person keep or suffer to be kept on his

premises or the premises occupied by him within said city any dog in the habit of howling or whinnying at night, or barking at, or in any manner annoying any person or persons; any person who owns or harbors such dog or dogs shall be subject to a fine as hereinafter provided. No female dog in the time of heat shall be allowed to run at large within the city limits. Upon a second conviction for a violation of this section it may be a part of the sentence that such dog be immediately killed; and this sentence shall be executed forthwith by one of the pound keepers, to be designated by the magistrate imposing the sentence, and any owner or keeper of any such dog who refuses to deliver up the same in compliance with said judgment, shall be liable to an additional fine therefor.

Section 4. Whenever the mayor of the city of Rochester shall deem it necessary, he shall sign an order prohibiting, for a certain time therein specified, any or all dogs from running at large in any street, alley or other public place in said city unless such dogs be securely muzzled, or led by a line or chain, so as effectually to prevent them from biting any person or animal; which order shall be published in the official newspaper of the said city.

Section 5. Every person who shall violate any of the provisions of this ordinance shall for each offense, be subject to a fine or penalty of not less than \$2.00, nor more than \$10.00 for each offense, to be imposed by the police justice or judge or court before whom a suit for such fine or penalty is brought, in the discretion of such justice, judge or court, and on failure to pay such fine or penalty when recovered shall be imprisonment in the Monroe county penitentiary for a term not exceeding ten days, to be determined by such justice, judge or court in his or its discretion at the time judgment is entered.

Section 6. Every execution upon a judgment recovered for any fine or penalty or forfeiture imposed for the violation of any provision of this ordinance shall be issued immediately on the rendition of the judgment and shall command the amount to be made out of the personal property of the defendant within the city not exempt from levy and sale under an execution if such can be found, and if not, then to commit the defendant to the Monroe county penitentiary for such time as shall have been directed by the justice, judge or court rendering such judgment and may be issued to and enforced by any member of the police department of said city. Such execution may be issued by the police justice or police clerk of said city, where the judgment was rendered by the police justice of said city.

Section 7. All existing ordinances inconsistent with the terms of this ordinance are hereby repealed.

Section 8. This ordinance shall take effect immediately.

Ald Adams moved that the ordinance be received, filed and published and referred to the Law Committee to report at its next meeting.

REPORTS OF STANDING COMMITTEES.

By Ald. Adams—
Rochester, N. Y., Jan. 31, 1899.
To the Hon. the Common Council :
Gentlemen—Your committee on charter amendment would respectfully report as follows :

That since the appointment thereof by the chairman of the Common Council, it has held two meetings in relation to charter amendments. The matter for local improvement bonds being an intricate subject, has been taken up and considered by your committee and referred to a sub-committee to prepare an act for presentation to the Common Council at its next regular meeting.

At the regular meeting held January 3, 1899, a communication was received from the Mayor in relation to the legislation arising out of the litigation of Conway vs. the City of Rochester, and on motion made in the Council on that date, the matter was referred to the Charter Amendment Committee.

This committee believed that the Mayor had some recommendations to make in relation to legislation upon this subject, and notified him to appear before the committee

for such purpose at a meeting thereof held on the 27th day of January, 1899. He failed to appear or give any reason for his absence, or to offer any suggestion in relation to this legislation.

There has been introduced in the Assembly by Mr. Rodenbeck, the former corporation counsel and a member of the Legislature, a bill known as 98, which has been referred to the Committee on Affairs of Cities, and a hearing thereon set for Feb. 2.

The representatives of the Street Railway Company have also appeared before your committee, and inasmuch as this is an important subject, involving many thousands of dollars for improvements heretofore completed, your committee deems that this matter should be given a thorough consideration before any act be recommended by the Common Council to the Legislature.

The matter, therefore, has been referred to a sub-committee for the purpose of drafting proposed legislation, which committee anxiously awaits any suggestion that may be made by any member of the Common Council, or a citizen of Rochester, in respect to this matter.

There has been presented to your committee a proposed amendment to the charter in relation to the Board of Education, decreasing the number from twenty to five, and providing for the election of the members thereof on the general city ticket at the ensuing election, and also for the payment of a salary to said members.

Your committee herewith submits a proposed amendment to the charter of the city upon this subject.

Your committee also herewith submits to the Council a proposed amendment to the City Charter, extending the boundaries of said city and adding to the Nineteenth ward thereof.

All of which is respectfully submitted,
 M. B. ADAMS,
 JAS. H. CASEY,
 WM. REICHENBERGER,
 LEWIS EDELMAN,
 W. ERNST,
 JOHN M. STEELE,
 J. C. WILSON,
 Charter Amendment Committee.

Ordered received, filed and published.

AN ACT to Amend the Charter of the City of Rochester, and to provide for the election of School Commissioners.

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

Section 1. Section 123 of Title VI. of chapter 143 of the Laws of 1861, entitled "An act to amend and consolidate the several acts in relation to the charter of the city of Rochester," as amended by chapter 660 of the Laws of 1898, is hereby amended so as to read as follows :

Section 123. The commissioners of common schools in said city shall constitute a board to be styled "The Board of Education of the City of Rochester," which shall be a corporate body in relation to all the powers and duties conferred upon it by virtue of this act. The said board shall meet on the first Monday of each and every month, and at such other times as it shall from time to time appoint. Special meetings shall be called by the secretary, upon order of the president, or upon request of a majority of the said board. A majority of said board shall constitute a quorum for the transaction of business. In the absence of a quorum a minority of said board may adjourn a meeting from day to day. The said board shall, at the first regular meet-

ing in January of each year, elect one of its members president, who shall, when present, preside at all its meetings. In the absence of the president, the said board shall elect some other member to preside at such meetings and to perform the duties of the president during such absence. On and after the first day of January, 1900, the Board of Education of the City of Rochester shall be composed of five commissioners of schools to be elected by the electors of the city at large; and at the city election to be held in 1899 there shall be elected by the electors of the city at large, five commissioners of schools, three of whom shall be elected for a term of two years each, and the other two of whom shall be elected for terms of four years each. Their terms of office shall commence on January 1, 1900. At the biennial city election to be held in the City of Rochester next preceding the expiration of the terms of any of the said commissioners of schools their successors shall be elected for terms of four years each.

In case a vacancy shall occur in the office of a member of the Board of Education, for any cause, the mayor of said city shall fill such vacancy by the appointment of a suitable person; and the person so appointed shall hold office by virtue of such appointment until and including the 31st day of December following the next succeeding biennial city election, at which election a commissioner of schools for the unexpired term shall be elected by the electors of the city at large.

On and after the first day of January, 1900, each of the said commissioners of schools shall receive a salary of \$100 per month to be paid from the moneys appropriated to the use of the Board of Education.

Section 2. All acts and parts of acts of the Legislature of the State of New York, and all ordinances of the city of Rochester, so far as inconsistent with, or repugnant to, the provisions of this act, are hereby repealed, but such repeal shall not affect any action, proceeding, suit or prosecution had or commenced prior to the time when this act shall take effect.

Section 3. So much of this act as pertains to the election of commissioners of schools shall take effect September 1, 1899, and the remainder of the act shall take effect January 1, 1900.

Ald Adams moved that the charter amendment be received, filed and published, and that the clerk be directed to send to Senator Parsons and Assemblyman Rodenbeck two copies each. Adopted.

By Ald. Wilson—

By Ald. Rauber—Resolved, That the foregoing bills and estimates of the Executive Board's departments, having been certified by said Board and approved by the City Auditor and Finance Committee be, and they hereby are, approved for payment as reported by the Finance Committee.

Adopted by the following vote :
Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—16.
Nays—Ald. Pauckner.

By Ald. Meade—
Rochester, N. Y., Jan. 31, 1899.

To the Hon. the Common Council :
Gentlemen—Your Law Committee would respectfully report as follows :

In relation to the claim of Frederick B. Robinson for services, amounting to the sum of \$1,692, claim filed Jan. 9, 1899, by reason of the appointment by the Executive Board in 1896, he never having been assigned to duty or rendered any services to the city, but claimed by reason of the appointment that he was entitled to the services at the rate of \$12 a week—your committee would recommend the rejection of the said claim.

In relation to the claim of Allan Sherwood amounting to the sum of \$1,050.00 by reason of falling on an alleged defective sidewalk on University avenue in this city, your committee would recommend the rejection of the same.

In relation to the matter of Anna B. Neal the same being for damages by reason of certain riparian rights taken from her on account of the construction of the conduit lines from Hemlock Lake, the representatives of the said Anna B. Neal have appeared before your committee and seem to be willing to make an amicable and fair adjustment of the same. They claim that the damages sustained by the said Anna B. Neal amount to the sum of \$20,000, but are desirous of adjusting matters on a fair and amicable basis. The council has heretofore instructed the corporation counsel to commence proceedings for the condemnation of the riparian rights of the said Anna B. Neal, and the papers in said proceeding are already prepared; but inasmuch as it appears that there is a fair prospect of an adjustment of this claim, your committee would recommend that the Law Committee be authorized to visit the property of the said Anna B. Neal at Honeoye Falls, for the purpose of examining the property and ascertaining the damages and to make a report thereon at the next meeting of the Council.

In relation to the claim of Louis Herman for damages by reason of the overflow of the East Side Trunk Sewer, the claim for damages amounting to the sum of \$200, your committee would recommend the payment of the sum of \$100 in full settlement thereof.

In relation to the claim of David Loeber for damages by reason of the overflow of the East Side Trunk Sewer, in which the amount of damages claimed is the sum of \$150, your committee would recommend the

payment of the sum of \$75, in full settlement thereof.

In relation to the claim of George A. and Catherine Meisenzahl for damages by reason of the overflow of the East Side Trunk Sewer, the claim amounts to the sum of \$550, and your committee would recommend the payment of the sum of \$200 in full settlement thereof.

In relation to the claim of Frank X. Erb-land for the sum of \$500 by reason of the overflow of the East Side Trunk Sewer, amount of damages claimed \$500, your committee would recommend the payment of the sum of \$200 in full settlement thereof.

In relation to the claim of Richard Costich, also by reason of the overflow of the East Side Trunk Sewer, amounting to the sum of \$250, your committee would recommend the payment of the sum of \$125, in full settlement hereof.

Your committee would also recommend the appointment of the following commissioners of deeds: Joseph Hubachek, Grace M. Kernan, John J. Quirk, Robert S. Paviour, Andrew V. Smith, William J. Steinhauer, Ed. J. Ernst, F. E. Witherspoon, L. S. Whitmore, Abraham Boss, Charles F. A. Young, Thomas L. Holman, Henry T. Brown, William H. Medcalf, Mahlon B. Adams.

All of which is respectfully submitted,

CHARLES P. MEADE,
JAS. H. CASEY,
FRANK J. RITZ,
W. ERNST,
WM. REICHENBERGER,
JOHN M. STEELE,
Law Committee.

Ordered received, filed and published.

By Ald. Meade—Resolved, That the claims of Frederick B. Robinson and Allan Sherwood against the City of Rochester be and the same are hereby rejected. Adopted.

By Ald. Meade—Resolved, That the Law Committee be authorized to visit Honeoye Falls and inspect and examine the property and damages of Anna B. Neal by reason of the construction of the Hemlock Lake conduits and make a report with its recommendation at the next regular meeting of the Common Council.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

Nay—Ald. Ward—1.

By Ald. Meade—Resolved, That upon the certificate of the corporation counsel that proper releases have been executed and filed with him by the following named persons: Louis Herman, David Loeber, George A. and Catharine Meisenzahl, Frank X. Erb-land and Richard Costich, that the City Clerk be and he is hereby authorized and directed to draw orders payable from the contingent fund in favor of said persons, or their attorneys, McGuire & Wood, for the following sums:

Louis Herman	\$100 00
David Loeber	75 00
Geo. A. and Catherine Meisenzahl..	200 00
Frank X. Erb-land	200 00
Richard Costich	125 00

The said amounts being in full settlement of all claims and demands which the said parties respectively have against the City of Rochester by reason of the overflow of the East Side Trunk Sewer.

Adopted by the following vote:

Ayes—Ald. Tracey, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

Adopted.

By the Clerk—

Rochester, N. Y., Jan. 31, 1899.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen—I do hereby certify that a notice, such as is required by Section 172 of the City Charter, specifying each of the improvements contemplated by the following final ordinances, the estimated expenses thereof, the amount, if any, of such expenses to be paid from the public treasury, the portion or part of the city to be assessed for the remainder of the expenses, and requiring all persons interested in the subject matter of the improvement to attend at the time appointed in such notice, was published daily for four days in two daily newspapers printed in this city, namely the Rochester Times and the Union and Advertiser.

Respectfully submitted,

PETER SHERIDAN,
City Clerk.

Received, filed and published.

FINAL ORDINANCE, NO. 7,337.

NORTH CLINTON STREET ASPHALT IMPROVEMENT.

On motion of Ald. Beard, the Common Council proceeded to hear allegations in re-

lation to the improvement described in the following ordinances, viz.:

An Ordinance to improve North Clinton street, from the N. Y. C. & H. R. R. R., to the north line of Clifford street, and after hearing such allegations from all persons appearing.

The Common Council of the City of Rochester, do ordain and determine that the following improvement is necessary and should be made, to wit:

The improvement of North Clinton street, from the N. Y. C. & H. R. R. R. to north line of Clifford street, width of roadway to be generally 40 feet, by the construction of an asphalt pavement therein, with a line of stone curb on each side thereof, properly connected with all lateral streets, alleys and driveways; excepting therefrom that portion of the street between the tracks, the rails of the tracks and for two feet outside of the outside rails of the tracks of the Rochester Railway Company. Also the necessary manholes, surface sewers, lot laterals and water services, and the cleaning and repairing of so much of the main sewers as may be found necessary. The asphalt pavement shall be carried to the street line at all intersecting streets, alleys and driveways, where deemed necessary by the Executive Board and City Engineer to make a complete improvement. Also the construction of a Portland cement sidewalk 5 feet in width on each side of the street between the limits mentioned, except where good flag or cement walks now exist, which walks shall be relaid if not conforming to the proper grade and alignment. The asphalt pavement may be extended to the rail or to a line not more than two feet outside thereof and connected with the stone pavement in such a manner as the Executive Board and City Engineer deem advisable.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

The pavement shall be guaranteed for ten years.

And the City Engineer, under direction of this Council, having made and reported as an estimate of the expense thereof, the sum of fifty-four thousands seven hundred dollars, which being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the city which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of North Clinton street, from the N. Y. C. & H. R. R. R. to the north line of Clifford street.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Fauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

FINAL ORDINANCE, NO. 7,338.

NORTH CLINTON STREET BLOCK STONE IMPROVEMENT.

On motion of Ald. Beard, the Common Council proceeded to hear allegations in relation to the improvement described in the following ordinance, viz.:

An Ordinance to improve North Clinton street from the N. Y. C. & H. R. R. R. to

the north line of Clifford street, and after hearing such allegations from all persons appearing,

The Common Council of the City of Rochester do ordain and determine that the following improvement is necessary and should be made, to wit:

The improvement of North Clinton street, from the N. Y. C. & H. R. R. R. to north line of Clifford street, width of roadway to be generally 40 feet, by the construction of a block stone pavement therein, with a line of stone curb on each side thereof, properly connected with all lateral streets, alleys and driveways. Also excepting therefrom that portion of the street between the tracks, the rails of the tracks and for two feet outside of the outside rails of the tracks of the Rochester Railway Company, Also the necessary manholes, surface sewers, lot laterals and water services, and the cleaning, repairing or rebuilding of so much of the main sewers as may be found necessary. Also the construction of a Portland cement sidewalk, 5 feet in width, on each side of the street between the limits mentioned, except where good flag walks now exist, which walks shall be relaid if not conforming to the proper grade and alignment.

And the City Engineer, under direction of this Council, having made and reported as an estimate of the expense thereof, the sum of sixty-six thousand dollars, which, being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the City which this Council deems proper to be assessed for, and will be benefited by such so assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of North Clinton street, from the N. Y. C. & H. R. R. R. to the north line of Clifford street.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

The final ordinance for the improvement of Thrush street came up. Ald. Casey moved that action be postponed two weeks. Adopted.

UNFINISHED BUSINESS.

Action on the communication of the Mayor appointing Park Commissioners and published at Page 304 of Proceedings of 1898, came up and on motion of Ald. Rauber was postponed two weeks.

Action on the appointment of Health Commissioners by the Mayor, and published on Page 434 came up. Ald. Rauber moved that action thereon be postponed two weeks. Adopted.

EXECUTIVE BUSINESS.

Ald. Meade moved that the Board proceed to the appointment of Commissioners of Deeds for the persons recommended in the report of the Law Committee, and that the Clerk cast the ballot of the Board. Adopted.

The Clerk reported that the ballot of the Board had been cast for the following named persons and they were declared appointed Commissioners of Deeds.

Joseph Hubachek,	L. S. Whitmore,
Grace M. Kernan,	Abraham Bofs,
John J. Quirk,	Chas. F. A. Young,
Robert S. Paviour,	Thomas L. Holman,
Andrew V. Smith,	Henry T. Brown,
Wm. J. Steinhauer,	William H. Medcalf,
Edward J. Ernst,	Mahlon B. Adams,
F. E. Witherspoon,	

MISCELLANEOUS BUSINESS.

Ald. Rauber moved that the Board proceed in executive session. Adopted.

After the executive session was held, the chairman called the Board to order. Ald. Rauber moved that the salaries of the officials and clerks be placed upon the budget the same as last year and moved that the budget be adopted.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

By Ald. Rauber—Resolved, That further consideration of the salary question be postponed until the next regular meeting and that the employees and officials be paid the usual salaries for January, 1899, the Common Council reserving the right to change the salary of any officer or employee. Adopted.

By Ald. Ford—Resolved, That the City Property Committee collect the rents now due and hereafter that may be due on the city property known as the public bath property. Adopted.

By Ald. Adams—Whereas, The Police Commissioners about one year ago, against the protests of the principal merchants and taxpayers of this city, inaugurated the system of changing the beats of patrolmen every thirty days; and,

Whereas, The experiment has thus far proven a failure, burglaries and other crimes having been committed with impunity almost nightly, by reason, doubtless, of the fact that the officers being unfamiliar with the districts they were ordered to patrol and subject to frequent shifts, lacked the requisite knowledge and incentive to detect crime, apprehend criminals and secure the evidence necessary to convict. Therefore

Resolved, That the Board of Police Commissioners are respectfully requested to abrogate the system herein mentioned to the end that more intelligent and efficient work may be performed by the police officers, and that the property and rights of our citizens may be better protected and conserved. Adopted.

By Ald. Adams—Whereas, It appears that the Police Commissioners are employing and appointing many persons to positions without authority under the charter, including a surgeon and persons in control of the patrol system, and whose appointment belongs to the Common Council; therefore, be it

Resolved, That inquiry in relation to this matter be made for the purpose of establishing the legal status thereof and the power and authority of said commissioners to make such appointments.

Referred to the Police Committee.

By Ald. Judson—Resolved, That the taxpayers assessed for the asphalt improvement on Grand avenue have three years from May 29, 1898, to pay their assessments, at the rate of 6 per cent. per annum.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

By Ald. Wilson—Resolved, That the resolution presented by Ald. Wilson on November 9, 1898, on page 566 of official proceedings, be withdrawn from the Committee on Streets and Sewers and referred to the Committee on Public Improvements. Adopted.

By Ald. Ernst—
 Rochester, N. Y., Jan. 20, 1899.
 Hon. Charles B. Ernst, Police Court, City :
 Dear Sir—Cannot something be done to improve the condition of the ventilation in the Police Court room? Large numbers of people congregate there daily and the present lack of sufficient air is, I believe, detrimental to the health of all those in the Court room.

Yours respectfully,
 G. W. GOLER,
 Health Officer.

Referred to City Property Committee.
 Ald. Adams from the committee to draft a memorial on the death of Ald. M. J. Callahan, presented the following :

To the Family of Our Beloved Late Fellow Alderman, Martin J. Callihan :

While we, who knew, labored with and honored Martin J. Callihan living and cherish the memory of him dead, realize that in these first bitter hours of your great grief and irreparable loss, any words must seem cold and inadequate, yet we cannot refrain from expressing to you something of the sorrow that we too feel in the loss of him who was the noblest of God's creations—a man, in every relation of life.

You knew Martin Callihan as all that an ideal husband and father could be. We knew him as a man, quiet, unassuming, modest, whose wisdom never failed, whose counsel was always ready, whose efforts for good were untiring, who served his city and his ward so faithfully that his place cannot be filled.

We knew him, too, as the friend whose ready helpfulness to those in distress, and whose cheery nature and never-failing wit brightened the path of everyone with whom he came in contact.

To have known such a one who, "wearing the white flower of a blameless life," was so far above all reproach, will be to all who had that privilege a lasting inspiration.

In the days to come we hope there may be comfort to you in the assurance that Martin Callihan's most enduring monument will be the esteem and love which his noble fulfillment of every duty of life inspired in the hearts of all who knew him.

ALDS. ADAMS,
 STEELE,
 FORD,
 RAUBER,
 TRACY,
 KELLY,
 Committee.

Ald. Adams moved that the resolution be adopted by a rising vote and that the Clerk be directed to present the engrossed resolutions to the bereaved family of our deceased colleague. Adopted.

On motion of Ald. Rauber, the Board then adjourned.

PETER SHERIDAN,
 City Clerk.

 Rochester, N. Y., Feb. 7, 1899.
 Peter Sheridan, City Clerk :

Dear Sir—At a request of a majority of the Common Council please notify the Aldermen that there will be a special meeting of the Common Council on Tuesday evening, Feb. 7th, 1899, at 7:30 o'clock.

Subject—Reconsideration of time for special election in the Second Ward and naming a date therefor.

Yours truly,
 J. MILLER KELLY,
 President of the Common Council.

Ordered received, filed and published.
 By Ald. Rauber—Resolved, That the resolution adopted at the last meeting designating the time for holding the special election for alderman of the Second Ward on Feb. 28th, 1899, be and the same is in all things reconsidered. Adopted.

By Ald. Rauber—Resolved, That the special election for alderman of the Second Ward be held on Tuesday, March 14th, 1899, and that the Clerk notify the inspectors of election of the Second Ward of the action of the Common Council and perform such other duties as may be provided in such cases. Adopted by the following vote:

Ayes—Alds. Tracy, Ford, Green, Rauber, Adams, Edelman, Ward, Steele, Ritz, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—15.

By the Clerk—
 Rochester, N. Y., Feb. 7, 1899.

Alderman J. Miller Kelly, President of the Common Council, Rochester, N. Y. :

Dear Sir—There are a few things in the White charter regarding the financial management of the city to which I would call your special attention.

In regard to the collection of the taxes, section 282, page 24, reads : "The Common Council of the city may determine whether the city taxes shall be payable and collected at the same time with the taxes for state and county purposes, or whether they shall be payable and collected at a different time, and at what time in each year."

Section 275, page 23, reads as follows : "The Board of supervisors of the county in which the city is situated, shall deal with the assessment rolls returned to it from the several wards, as herein provided, in the manner required by the general laws of the state, except that instead of annexing to the assessment roll of each ward separately a warrant for the collection of the taxes, it may, in its discretion, combine all the rolls from the several wards into one ward and annex them to a single warrant, and except, further, that the warrant or warrants must, before the first day of January in each year, be directed and delivered to the city treasurer, commanding him to collect the taxes."

According to the above, it is the intention of the new charter that the city treasurer shall collect both the city and the county and the state taxes, is it not ?

Section 276 directs the assessors to give the rolls for collection of funds for city purposes to the city treasurer for collection.

Section 308, which demands the sale of real estate for the non-payment of a local improvement tax which remains unpaid sixty days after it is due, should be modified or stricken out; otherwise you must stop all improvements until the people are ready for them.

Sections 309 and 310 refer to the sale of unpaid city taxes. I do not find any section referring to the sale of county taxes, in the hasty reading of the proposed charter.

Section 85, page 9, reads: "The treasurer shall report to the controller, at the end of each day's business, by items, the moneys received." This cannot be done, as on several days of the year it is impossible to make one complete record of all the moneys received in the treasurer's office, let alone making a duplicate. To carry this provision out would require extra clerks. Why would not the total amounts received for each account be sufficient?

Section 281 refers to the depositing of funds as follows: "The treasurer shall daily deposit all funds received by him in the bank or banks designated as herein provided for the deposit of city moneys; and when any moneys thus deposited shall become payable to the county treasurer, the same shall be paid by drafts drawn and countersigned, as herein provided for drawing city money from the same banks."

Is it the intention of the White charter that the city treasurer shall collect the state and county taxes and turn the same over to the county treasurer, or to honor his drafts or orders?

One old friend I greatly miss in reading the charter, viz., the city's notes. Under the new order of things will none be required? If so, who is to make them? While the fiscal year begins January 1st, you will always have to brace the funds until the tax levy is available. If you force the collection of all taxes, city and county and state, January 1st, it would be a hardship to many of our citizens.

I think it is far better to consult their interest than to enforce the requirements of the proposed new charter.

Hastily yours,

SAMUEL B. WILLIAMS, Treasurer.

Ald. Wilson moved that the communication be referred to the Law Committee and the Corporation Counsel, to report back to this board as soon as possible. Adopted.

By Ald. Adams—Remonstrance of residents on Grove street against the erection of a building proposed to be built by Dr. F. Mandeville. Referred to the Building Committee and Fire Marshal.

Ald. Adams moved that the Building Committee and Fire Marshal meet on Wednesday afternoon, February 8, 1899, at 4 o'clock, for the purpose of acting on the petition of Dr. F. Mandeville for the erection and remodeling of a building, also on the remonstrance against the same. Adopted.

On motion of Ald. Rauber the Board then adjourned.

PETER SHERIDAN, City Clerk.

In Common Council, Feb. 14, 1899.

REGULAR MEETING.

Ald. J. Miller Kelly, President of the Board, presiding.

Present—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—19.

APPROVAL OF MINUTES.

The minutes of the preceding meeting were approved as published in the book of proceedings.

RESOLUTIONS.

By Ald. Rauber—Resolved, That the Executive Board be requested to advertise for proposals for the improvement of North Clinton street under final ordinance, No. 7,338, for a Medina block stone pavement; also under final ordinance No. 7,337 for an asphalt pavement, but not to award the

contract for said work until this Council reconsiders one of said final ordinances. Adopted.

By Ald. Tracy—Resolved, That the City Clerk be and hereby is directed to draw an order on the City Treasurer payable from the Poor Fund for sixteen (\$16.00) dollars in favor of Margaret E. Hodson, being for eight weeks board of Elizabeth Batterson, from December 15th, 1898, to February 9th, 1899, at \$2 per week.

Adopted by the following vote:

Ayes—Ald. Tracy, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—18.

By Ald. Adams—It is with feelings of sorrow and regret that we are once again called upon to give expressions of condolence in the loss of Ex-Alderman J. M. Pitkin, who departed this life January 21, 1899, and who served his constituents in this Common Council from 1881 to 1884 with rare fidelity and conscientiousness.

Ald. J. M. Pitkin was a business man in every sense of the term, whose advice and counsel have been of much value to this Common Council, and whose services have contributed much toward the advancement and prosperity of our beautiful city. He was a competent, progressive, public-spirited man, whose desire was to render to his constituents that service which is due them in his capacity as a public servant.

We tender to his bereaved widow and family our heartfelt sympathy in this their hour of affliction, and be it

Resolved, That the Clerk be directed to forward to the family this expression of the great loss the city has sustained in his decease.

On motion of Ald. Adams adopted by a rising vote.

By Ald. Judson—Resolved, That the taxpayers assessed for the widening of German street, be granted an extension of two years time, with interest at 6 per cent. per annum. Adopted.

By Ald. Wilson—Resolved, That the Rochester Gas and Electric Co., be and hereby is, requested to place an arc electric light on Genesee street in front of St. Monica's Church. Referred to the Lamp and Electricity Committee and City Engineer.

By Ald. Wilson—Whereas, Bartlett street from Genesee street to Snyder street is to be improved by the construction of a sewer and the laying of an asphalt roadway, and

Whereas, A water main has heretofore been ordered to be laid in said street; therefore

Resolved, That the Executive Board be and it is hereby authorized and directed to cause a six (6) inch cast iron water pipe and appurtenances to be laid in Bartlett street from Genesee street to Snyder street after said sewer is built, the cost thereof to be paid out of balance to the credit of the water pipe fund. Referred to the Lamp and Electricity Committee and City Engineer.

By Ald. Reichenberger—Whereas, the Rochester Railway Company, a street railroad corporation owning and operating a street railway in the city of Rochester upon various of the streets and avenues in said city, by resolution of the Common Council duly passed on the 27th day of May, 1890, was authorized to extend its line in West avenue from its then westerly terminus westerly to the city line; and,

Whereas, pursuant to such resolution the said Rochester Railway Company did extend and construct its said railway upon West avenue to the city line on West ave-

nue and for a portion of said distance, to wit: from the point in West avenue where the north line of Chili avenue intersects West avenue westerly to the city line, it constructed a single track situate upon the south side of the highway or avenue; and,

Whereas, The said Rochester Railway Company and the various property owners upon that portion of West avenue in which said single track was constructed are desirous that said tracks should be removed and that a double track should be constructed in the center of West avenue;

Resolved, That the consent of the city of Rochester is hereby given to the Rochester Railway Company to remove its tracks from the side of the street from the point where the north side of Chili avenue intersects West avenue westerly to the city line, and construct in that portion of West avenue a double track street railway with one track upon each side of the center of West avenue, with the necessary switches, sidings and turnouts, and the right to erect and maintain the necessary poles, and to string and maintain the necessary wires so that the cars of said company may be moved by means of the power of electricity.

Provided that said Rochester Railway Company obtain the consents in writing of a majority of the property owners owning property abutting upon that portion of West avenue in which said single track now is, and

Provided that this consent be subject to the resolution of this board authorizing the Rochester City and Brighton Railroad Company to change its motive power to electricity, passed February 18, 1890, and provided that the construction and operation of such road shall be subject to the provisions of a certain contract entered into between the Rochester City and Brighton Railroad Company and the City of Rochester, bearing date the 25th day of February, 1890; and further

Provided that the said Rochester Railway Company shall restore that portion of the street from which said single track is taken as near as practicable to its former condition, and will properly re-set and relay all curbs and pavements removed for the purposes of constructing said double track railroad, sidings, poles and appurtenances thereto.

Referred to the Railroad Committee.

GEO. E. WARNER, Mayor.

Ordered received, filed and published.

COMMUNICATIONS & REPORTS FROM OTHER CORPORATION OFFICERS, BOARDS AND DEPARTMENTS.

By the Clerk—

Feb. 14th, 1899.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen—I would respectfully report that there will be due and payable Feb. 28th, the city's notes issued on account of the East Side Trunk Sewer Fund which with interest on same amounts to \$167,712.79. There will also be due at the same date, notes issued on account of the Local Improvement Fund, which with the interest amount to \$480,086.39, making a total amount to be provided for of \$647,799.18.

These notes have been renewed from time to time, and it will be necessary to take this action once more, after which I trust you will be able to retire the Local Improvement notes, by the issuing of Local Improvement Bonds, and to pay the East Side Trunk Sewer notes from the payments on assessment roll, which will some time, I hope, be furnished for this improvement. As the rates for money are very low at present, I would suggest that the new notes be issued for 8 months time, and that the necessary authority to issue same be given the treasurer by the adoption of the accompanying resolutions.

Yours, respectfully,

S. B. WILLIAMS, Treasurer.

Ordered received, filed and published.

By Ald. Rauber—Resolved, That the City Treasurer be, and he hereby is, authorized and directed to issue under authority of Chapter 347 of the laws of 1890, as amended by Chapter 74 of the laws of 1892, the city's note or notes for an amount not exceeding one hundred sixty-seven thousand seven hundred twelve and 79-100 dollars (\$167,712.79); said notes to run for a period not exceeding eight months; to be negotiated under the direction of the Finance Committee of the Common Council and to be countersigned by the chairman thereof; interest or discount to be charged to the East Side Trunk Sewer Fund and the proceeds to be used for the purpose of renewing notes 1,255, 1,267, 1,268, 1,269 and 1,274, which were issued for East Side Trunk Sewer purposes. By Ald. Edelman—Resolved, That the Rochester Gas and Electric Company be, and they hereby are, directed to place the lamps recommended in the report of the Lamp Committee presented at this meeting, under the direction of the Chairman of the Lamp Committee and the City Engineer, and also to discontinue such lights as may, in the opinion of said Chairman and the City Engineer, be rendered unnecessary.

Adopted.

By Ald. Casey—
 Rochester, N. Y., Feb. 14, 1899.

To the Honorable the Common Council of the City of Rochester:

Gentlemen—Your Committee on Police, in respect to the resolution of Ald. Adams, adopted at your meeting held January 31, 1899, as follows :

“Whereas, It appears that the Police Commissioners are employing and appointing many persons to positions without authority under the charter, including a surgeon and persons in the control of the patrol system, and whose appointment belongs to the Common Council; therefore, be it

“Resolved, That inquiry in relation to the matter be made for the purpose of establishing the legal status of such commissioners to make such appointments.

Would respectfully report as follows :

That your committee has caused the matter to be thoroughly examined, including the provisions of the city charter and the decisions bearing upon this question.

That it has ascertained that the Common Council has the management and control of the fiscal and prudential affairs of said city and of all property, real and personal, belonging to the city, and may make such orders and by-laws relating to the same as it shall deem proper and necessary, and that it shall regulate and control the construction, laying, stringing, maintaining and removing of all wires, cables, poles, conduits and subways upon, over and under the streets, avenues, lanes, squares, parks, bridges, aqueducts and public places within said city.

That, therefore, under the provisions of the charter, absolute power in relation to the property of the city, and particularly any telegraph system owned by the city and for its benefit, is under the control of the Common Council.

We also find that this power requires the exercise of judgment and discretion, and therefore cannot be delegated to any subordinate or co-ordinate body of the city government or committees of the Common Council.

We find that the Police Department of said city shall be under the control and management of the Police Commissioners thereof, and that there are certain duties, powers and privileges conferred upon them and which alone they are authorized to exercise; that they may appoint one chief of police, a police clerk, and such a number of policemen as they may be authorized to appoint by resolution of the Common Council; that they have no power whatsoever to make any appointments of any officers or subordinates except such chief of police, police clerk and policemen.

That the powers of the police department of the city of Rochester are enumerated by the charter, and the authority to create and operate telegraph lines as an independent body is not among its enumerated powers.

That the Common Council of the city of Rochester, by a resolution passed on or about the 5th day of October, 1886, authorized the Police Commissioners to appoint three electrical operators to take charge of the telegraph system connected with the Gamewell system of police patrol, and that under that authority such appointments were made.

That this act of the Common Council was unauthorized by the charter and by the decisions of the courts of this state, and that this power of appointments could not be delegated to the Police Commissioners by the said Common Council. That the authority to make such appointment did not carry with it the power to suspend or to remove said appointees from their respective positions.

That the Common Council is authorized to control the construction and operation of all telegraphic lines belonging to the city, and they have no power or authority to delegate said power; and the fact that the Common Council acquiesced in the acts of the Police Commission to control the police telegraphic system and appoint the employees connected therewith, and also the police surgeon—although no direct authority was vested in said Police Commission—did not by such act confer upon the Police Commission authority to perform such acts.

All of which is respectfully submitted.

“Resolved, That the police telegraph system of the city of Rochester be and the same is hereby declared to be under the control and management of the Common Council of the city of Rochester, and that said Common Council has no power to delegate control thereof to the Police Commission of said city, and that the present em-

ployees of the police telegraph system of said city be retained in their respective positions and employment, and the Police Committee of the Common Council be and they are hereby instructed and directed to prepare and present to the Common Council at its next regular meeting thereof, rules, regulations and by-laws for the government and control of the said police telegraph system of the city of Rochester, N. By Ald. Ward—Resolved, That Eliza Taunton be allowed to pay the general city taxes owned by, the city against her premises, known as lot No. 18 of the Glenwood Homestead Association tract, with interest at the rate of 6 per cent. per annum, together with the necessary costs and expenses, and charge the balance to erroneous assessments. Adopted.

By Ald. Ward—Resolved, That H. F. Remington be allowed to pay the general city taxes owned by the city against his premises, known as west part of lots 23 and 24, Moulson's subdivision, Seventeenth ward, with interest at the rate of 6 per cent. per annum, together with the necessary costs and expenses and charge the balance to erroneous assessments. Adopted.

By Ald. Mead—

Rochester, N. Y., Feb. 14, 1899.

To the Honorable the Common Council :
Gentlemen—Your Law Committee would respectfully report as follows :

That your said committee visited the Neal property at Honeoye Falls, pursuant to the resolution of the Council of January 31, 1899, and has made an examination of the property for the purpose of ascertaining the damages sustained by Anna B. Neal, the owner thereof, with a view of effecting a settlement of said claim; that your said committee requires further time for investigation into this matter and ascertaining the extent of the said damages, and would therefore ask that said time be extended until the next meeting of the Common Council, at which time a report will be made in relation thereto.

In respect to the application of the Humane Society of Rochester, N. Y., for the re-enactment of the dog ordinance heretofore repealed by reason of the passing of a state law in respect to the same, which said law has been declared unconstitutional, your committee would report herewith an ordinance relating to dogs and recommend the adoption of the same by the Common Council.

By Ald. Mead—Resolved, That the Law Committee have until the next regular meeting of the Common Council to report in the matter of the claim of Anna B. Neal against the city. Adopted.

By Ald. Mead—Resolved, That the ordinance in relation to dogs be published, in accordance with the provisions of the Charter and the rules of the board, and lay over until the next regular meeting. Adopted.

AN ORDINANCE RELATING TO DOGS.
The Common Council of the City of Rochester do ordain and establish as follows:

Section 1. Every owner or keeper of a dog, or animal of the dog kind, within the City of Rochester, shall cause the same to be registered, numbered and described in the office of the City Clerk of said city; the City Clerk shall keep a complete registry of all dogs in a book to be kept for that purpose, describing the same by breed, color and sex, and shall also enter the name and address of the owner, or keeper, as given, and the number of the city license tags, which shall be of different pattern and design each year, of not less than three-fourths of an inch in width, as may be necessary, bearing on the face serial numbers, and such tag shall be furnished by the City Clerk to each owner of the dog at the time of registering said dog, and shall be attached to the collar of such animal. No person shall counterfeit or use any other tag than that furnished by the City Clerk. The fee for registration shall be \$1.00 for each dog per year, which shall include the metal tags, of which metal tag, however, duplicates will be furnished by the City Clerk for \$.75 each. Any person harboring a dog for two days prior to any violation of the terms of this ordinance shall be held to be the owner of said dog.

Section 2. No dog, or animal of the dog kind, shall be permitted to run at large in the City of Rochester unless said dog shall wear a collar of metal, or leather, bearing a tag or plate, such as is prescribed in this ordinance.

Section 3. Every person who shall violate any of the provisions of this ordinance shall for each offense be subject to a fine, or penalty, of not less than \$2.00, nor more than \$10.00 for each offense, to be imposed by the police justice, or judge or court before whom a suit for such fine or penalty is brought, in the discretion of such justice, judge or court; or the said person may, in the discretion of such justice, judge or court, elect to deliver and release to the pound master, designated by the said magistrate, at the City Pound, said dog, or dogs, in question in lieu of the said fine, or penalty imposed; and on failure to pay such fine, or penalty, when recovered, or to surrender such dog, or dogs, said person shall be imprisoned in Monroe

County Penitentiary for a term not exceeding ten days, to be determined by such justice, judge or court, in his or its discretion at the time judgment is entered.

Section 4. Every execution upon a judgment recovered for any fine or penalty, or forfeiture imposed, for the violation of any provision of this ordinance shall be issued immediately on the rendition of the judgment and shall command the amount to be paid out of the personal property of the defendant within the city not exempt from levy and sale under an execution, if such can be found, and if not, then to commit the defendant to the Monroe County Penitentiary for such time as shall have been directed by the justice, judge or court, rendering such judgment, and may be issued and enforced by any member of the police department of said city. Such execution may be issued by the police justice or police clerk of said city where the judgment was rendered by the police justice of said city.

Section 5. All existing ordinances inconsistent with the terms of this ordinance are hereby repealed.

Section 6. This ordinance shall take effect immediately.

Action postponed two weeks, under the rule.

By Ald Meade—

Rochester, N. Y., Feb. 14, 1899.

To the Honorable, the Common Council:

Gentlemen—From a hasty examination of the communication of the city treasurer, sent to your honorable body on February 7, 1899, the following opinion is given:

Under section 282 of the White charter, the Common Council may determine when and at what time county and city taxes are payable and may be collected. They may be at different times, or collected together.

Section 275 of the White charter provides that the city treasurer shall collect both the city and county taxes.

Section 308 of the White charter gives power to the Common Council to direct the payment of tax for local improvements at the expiration of sixty days after the non-payment thereof, or direct the treasurer to proceed with a sale of the lands for the purpose of enforcing the collection of the same. This provision is simply permissive and not mandatory.

Sections 309 and 310 in relation to the sale of lands for unpaid taxes appear to apply to the sale of the same for city taxes, and I am of the opinion that the lands to be sold for unpaid county taxes are governed by the general tax laws of the state, and to be made by the treasurer of the county, and not the treasurer of the city.

Section 85, which relates to each day's business items of the treasurer, is mandatory, and must be complied with.

It is the intention that the city treasurer shall collect both city and county taxes and turn over to the county treasurer the county tax, when it becomes payable, on drafts made by the city treasurer and controller, and not upon the county treasurer's draft.

In relation to the matter of city notes, would state, that while there is no provision in the White charter in relation to the same section No. 4 of the general municipal law applies, and provides that money may be borrowed on temporary loans in anticipation of taxes for current fiscal year, for purposes for which the taxes are levied, but not in an amount in excess

thereof. These notes may be issued under the directions of the Common Council (section No. 26 White charter), by such persons as may be authorized and directed by the said Common Council.

All of which is respectfully submitted,
JOHN F. KINNEY,

Corporation Counsel.

Ordered received, filed and published.

ACTION ON ORDINANCES.

By the Clerk—

Rochester, N. Y., February 14, 1899.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen—I do hereby certify that a notice, such as is required by section 172 of the City Charter, specifying each of the improvements contemplated by the following final ordinances, the estimated expenses thereof, the amount, if any, of such expenses to be paid from the public treasury, the portion or part of the city to be assessed for the remainder of the expenses, and requiring all persons interested in the subject matter of the improvement to attend at the time appointed in such notice, was published daily for four days in two daily newspapers printed in this city, namely the Rochester Herald and the Union and Advertiser.

Respectfully submitted,
PETER SHERIDAN,
City Clerk.

Received, filed and published.

FINAL ORDINANCE, No. 7,339.

CLEANING CLIFFORD STREET SEWER

On motion of Ald. Wilson the Common Council proceeded to hear allegations in relation to the improvement described in the following ordinance, viz.:

An ordinance to clean Clifford street sewer from St. Joseph street to Hudson avenue, and after hearing such allegations from all persons appearing.

The Common Council of the City of Roch-

ester, do ordain and determine that the following improvement is necessary and should be made, to wit:

The cleaning of the Clifford street sewer, from St. Joseph street to Hudson avenue, and the construction of the necessary surface sewers and catch basins.

And the City Engineer, under direction of this Council, having made and reported as an estimate of the expense thereof, the sum of \$1,200, which being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the City which this Council deems proper to be so assessed for, and will be benefited by such improvement, to wit:

All the territory included within and described by the following boundary lines, viz.: Beginning at the intersection of Clifford and St. Joseph streets; thence southerly along St. Joseph street, excluding one tier of lots on the east side thereof, to Sullivan place; thence southeasterly along Sullivan place, excluding one tier of lots on the northeast side thereof, to Widman street; thence southerly along Widman street, excluding one tier of lots on the east side thereof, to Herman street; thence easterly along Herman street, excluding one tier of lots on the north side thereof, to Hudson avenue; thence northerly along Hudson avenue, excluding one tier of lots on the west side thereof, to a point opposite the northeast corner of Hudson park and Hudson avenue; thence still northerly along Hudson avenue, including one tier of lots on the east side thereof, not exceeding one hundred and fifty feet in depth, to Clifford street; thence easterly along Clifford street, including one tier of lots on the south side thereof, to the west line of lot sixteen of the H. Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

By Ald. Judson—Resolved, That the Charter Amendment Committee be and they hereby are directed to prepare a bill providing that the City Treasurer shall receive interest on taxes paid after the 15th of September in addition to the five per cent. charged, at the rate of seven per cent. per annum instead of twelve per cent. per annum, as now provided by the charter. Adopted.

By Ald. Judson—Resolved, That the Charter Amendment Committee be and they hereby are directed to prepare a bill providing that the City Treasurer shall receive interest on taxes paid after the 15th of September in addition to the five per cent. charged, at the rate of seven per cent. per annum instead of twelve per cent. per annum, as now provided by the charter, and forward the same to the Legislature. Adopted.

By Ald. Reichenberger—Whereas, The Common Council adopted a first ordinance for the Hague street pipe sewer June 22, 1897, which provides for an assessment for the expense for the construction of said sewer upon certain territory in said city, bounded "easterly" along Cook park, and easterly along Maple street, "excluding" certain lots, and northerly along Ames street "excluding" certain lots; and,

Whereas, On June 29th, 1897, there was presented to the Common Council for adoption a final ordinance for said improvement wherein the territory to be assessed is the same as that described in said first ordinance; and,

Whereas, Said final ordinance was adopted as presented, but in printing said final ordinance in the proceedings of said Common Council, an error was made so that the territory to be assessed instead of reading as provided in the first and final ordinances as adopted, reads, "westerly" along Cook park instead of "easterly" and easterly along Maple street "including" certain lots instead of "excluding" such lots, and northerly along Ames street "including" certain lots instead of "excluding" such lots, now; therefore,

Resolved, That the Clerk be authorized and directed to correct the final ordinance

for Hague street sewer, No. 6,782, adopted June 29th, 1897, as the same appears in the printed proceedings, so that the territory to be assessed for said sewer shall read the same as the first ordinance for said improvement which appears on page 410 of the printed proceedings of the Common Council for 1897, and so as to correspond with the final ordinance which was in fact adopted.

Adopted by the following vote:
Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

By Ald. Kelly—Resolved, That the persons or property assessed for Austin street cement walk ordinance, No. 7,220, have two years from the confirmation of the assessment roll in which to pay said assessment with interest at 6 per cent. from the confirmation of said roll. Adopted.

COMMUNICATIONS FROM THE MAYOR.

By the Clerk—

The veto of the Mayor in relation to Police Patrol Operators was read by the Clerk. Ald. Rauber moved that the veto be received, filed and published.

Adopted by the following vote:

Ayes—Ald. Tracy, Rauber, Edelman, Beard, Casey, Ward, Ritz, Pauckner, Kelly, Meade, Wilson, Reichenberger—12.

Nays—Ald. Ford, Green, Steele, Ernst, Judson—5.

By the Clerk—

Mayor's Office,
Rochester, N. Y., Feb. 17, 1899.
To the Common Council of the City of Rochester:
I hereby return to you without my ap-

proval the resolution adopted at your meeting of the 14th instant, authorizing the erection of a house by Dr. F. A. Mandeville on Grove street, for the following reasons :

The application for permission to erect the building was referred to the building committee, which has never made a report on it. The committee agreed that a conference should be held by a committee from the Church of the Reformation, Dr. Mandeville, and Ald. Adams, to try to agree on the erection of the house. I understand that no conference has been had.

A personal inspection of the lot on which it is proposed to build convinced me that permission ought not to be given.

The house would be too near the church parsonage and the street and would obstruct the view from the former.

The charter makes it the duty of the Common Council to guard against fire; yet if this building should be placed where it is proposed, it would make a state of affairs very dangerous in case of fire in either place.

Respectfully yours,
GEO. E. WARNER, Mayor.

Ald. Beard moved that action on the veto be postponed until the next regular meeting. Adopted.

COMMUNICATIONS AND REPORTS FROM OTHER CORPORATION OFFICERS, BOARDS AND DEPARTMENTS.

By the Clerk—
To the Honorable, the Common Council :

Referring to the claim of Mary A. Baumann, that the walk constructed on the east side of Glasser park encroaches three feet on lot No. 12, which fronts on the south side of Masseth park, referred to me for report, I beg leave to submit the following statement: This section of the city is a portion of the Fifteenth old ward, now being surveyed; it is impossible to state what the exact conditions are in regard to this lot until a survey is made in the vicinity. The work is now going on and will soon cover this street, when I will be able to make a definite report to your honorable body and to make such recommendations as may be necessary. I have seen Mr. Baumann and he is satisfied to let the matter rest until the said survey is completed, provided he is not compelled to pay additional costs on the assessment for the walk. I would therefore recommend that the collection of this assessment be deferred until the final report is made of this matter. I would respectfully suggest that the matter be referred to the Assessment Committee.

Respectfully submitted,
EDWIN A. FISHER,
City Engineer.

Referred to the Assessment Committee.
A communication was received from the Board of Education in relation to financial estimates. Ordered received and filed and referred to the Finance Committee.

By the Clerk—
February 28, 1899.

To the Honorable, the Common Council of the City of Rochester :

Gentlemen—In order to meet the cash requirements in budget to be passed by your honorable body at the meeting to be held this evening, it will be necessary to issue the city's note or notes for sixty thousand dollars (\$60,000.00) and credit the same to the following funds :

City Property	\$1,500 00
Lamp Fund	20,000 00

Police Fund	15,000 00
Highway Fund	8,500 00
Fire Department Fund	15,000 00
	<hr/>
	\$60,000 00

By the courteous action of County Treasurer Hamilton, \$40,000.00 of the state appropriation will be advanced for the payment of the Board of Education teachers' pay-roll, the same to be made next week.

I trust that you will adopt the accompanying resolution.

Respectfully submitted,
S. B. WILLIAMS, Treasurer.

Ordered received, filed and published.
By Ald. Rauber—Resolved, That the City Treasurer be, and he hereby is, authorized and directed to issue as may be necessary, in anticipation of taxes to be levied but uncollected, under authority of sections 80 and 81 of the City Charter, the city's note or notes for an amount not exceeding sixty thousand dollars (\$60,000.00); said note to run for a period not exceeding three months; to be negotiated under the direction of the Finance Committee of the Common Council and countersigned by the chairman thereof; interest or discount to be charged to the Contingent Fund and the proceeds to be credited to the following funds :

City Property fund	\$1,500 00
Lamp Fund	20,000 00
Police Fund	15,000 00
Highway Fund	8,500 00

J. C. WILSON,

Charter Amendment Committee.

Ordered received, filed and published.

By Ald. Casey—

Resolved, That the clerk be and he hereby is directed to send two copies of the bills amending sections 170 and 198 of the City Charter, to Senator Armstrong and Assemblyman Rodenbeck, and two copies of the bill extending the boundaries of the city to Senator Armstrong and Assemblyman Gleason; and two copies of the bill relating to the assessments on Lyell avenue, Exchange street from Main street to the Erie canal, Exchange street from the Erie Canal to Clarissa street, Lake View park and West Main street, to Senator Armstrong and Assemblyman Gardiner; and two copies of the bills relating to the assessments upon Mount Hope avenue, Court street, South St. Paul street from Main to Court, and South St. Paul street from Court street to the Erie Canal, to Senator Parsons and Assemblyman Rodenbeck; and two copies of the bill relating to the assessments upon East Main street and Parsells avenue to Senator Parsons and Assemblyman Lewis. And it is further

Resolved, That the representatives to whom said bills are sent as directed above, be, and they hereby are, requested to introduce said bills in the Legislature. And the members of the Legislature representing Monroe county are hereby requested to use all honorable means to secure the passage of said bills.

Adopted.

By Ald. Ford—

To the Honorable Common Council:

Gentlemen—Your Bath House Committee wish to make the following report in relation to the proposed new bath house:

We found by a thorough examination of the old building that it is entirely unfit

to be remodeled for bath house proper; the walls and construction of the old portion which would have to be used for bathing purposes would be, at the best, only a makeshift; we could have the work done along the lines suggested by former committees for \$3,500, but after a thorough examination of plans and specifications drawn for that purpose, we have come to the conclusion that same would be a waste of money and a source of constant expense and annoyance.

After carefully looking over all conditions and inspecting baths located in several different cities, we have decided that, to ask for a new bath house is the proper course for us to pursue; therefore, we would recommend that the Council adopt the plans and specifications drawn by W. Foster Kelly for that purpose, to supply the necessary funds, which is about \$5,000, and give permission to this committee to advertise for bids and to complete the building as soon as possible.

Your committee has investigated further and found that the boiler which was recently removed from the City Hall can be utilized in connection with this work should you desire to do so.

Respectfully submitted,

T. W. FORD,
WILLIAM C. GREEN,
W. H. TRACY,
WILLIAM S. BEARD,
STEPHEN RAUBER,
FRANK J. RITZ,
Committee.

Ordered received, filed and published.

By Ald. Ford—Resolved, That the plans and specifications presented by Architect W. Foster Kelly for the erection of a building to be used for the purpose of a free public bath, at an expense not to exceed \$5,000, be and hereby are, approved and accepted by this Council.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Steele, Ritz, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—15.

Nays—Ald. Ward, Pauckner—2.

By Ald. Ford—Resolved, That the committee on free public baths be authorized to advertise at once for proposals according to the plans and specifications accepted by this Council. Adopted.

FINANCE BUDGET, No. 2.

Rochester, N. Y., Feb. 28, 1899.

By Ald. Rauber—Resolved, That in pursuance of Section 58 of the City Charter, the City Clerk be and he hereby is directed to draw warrants on the City Treasurer, in favor of the following named persons, for the amounts set opposite their respective names, and that the City Treasurer be and he hereby is directed to pay said warrants when there are funds applicable, and charge the proper funds, as follows:

 By Ald. Rauber, Resolved, That the foregoing bills and estimates of the Executive Board's departments, having been certified by said Board and approved by the City Auditor and Finance Committee be, and they hereby are, approved for payment as reported by the Finance Committee.

Adopted by the following vote :
 Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

By Ald. Wilson—
 To the Honorable the Common Council of the City of Rochester :

Gentlemen—Your Committee on Public Improvements, to whom was referred the resolution in relation to re-naming streets, would submit the following report:

A careful and laborious study of the city streets convinced your committee that many more changes should be made than was at first contemplated, and that simply a change of names where duplicated was only a small part of the reform that should be made.

In addition to duplicate names, your committee found many names the pronunciation of which is so similar that much confusion is caused in locating the streets, such as Janes and James, Warner and Werner, Flora and Floral, Harris and Har-rison and many others.

Another objectionable feature in our street names is that many streets inappropriately bear the designation of park, place avenue and terrace.

The basis from which your committee worked was as follows :

First—Two or more streets must not bear the same name.

Second—The word "park" must not be applied to a "thoroughfare" unless laid out in the form of a park, having a portion of ground set aside for lawn, flowers or shrubs.

Third—Streets with only one entrance, running to a dead end, must be called "places."

Fourth—A street to be entitled to the designation "terrace" must be built on a terrace.

Fifth—Continuous streets must be under one name.

Sixth—Short streets must not be called "avenues."

Working upon this basis, as near as possible, your committee has found it necessary to change about 125 so-called parks, places, courts and terraces to streets; about 60 parks, courts and avenues to streets, and about 65 avenues to streets, in addition to a large number of streets bearing the same name, or names the pronunciation of which is so similar as to cause confusion.

We realize that some of the changes will be distasteful to citizens, and will for a time cause inconvenience and annoyance,

but the benefits to be derived in the future will more than offset the temporary inconveniences. The necessity for these changes has been apparent for a long time, as is shown by the report of the Committee on Streets and Sewers presented on April 13, 1897, a portion of which is as follows :

"We cannot place too much emphasis on the necessity of authorizing the completion of this work at once. An imperative reason for this is that our city is now being canvassed for the 1897 directory, therefore the work of making such changes should be done before the work is issued. Many of our thoroughfares have too many names along the line of a continuous street. There are several instances where, in a long stretch of street, one short block will bear a different name from the remaining and larger portion, i. e., Weld street, Kenilworth terrace; St. Joseph street, Hyde park, and others, a system which should be abolished at once."

The urgency for the changes is even greater now than at that time, as many errors have crept in since the above report was made.

The City Engineer has rendered your committee valuable assistance in the work and he approves of the changes herewith presented.

The work of your committee is not entirely completed, but in order to expedite the matter, so that all changes may be completed in time for the 1899 Directory, we present herewith a list of all changes that have been passed upon and with your permission will present a supplemental list at the next meeting of this board.

Public Improvement Committee.
 Ordered received, filed and published.

By Ald. Wilson—Resolved, That the names of all the streets, parks, avenues, places and terraces, hereafter set forth, be and the same hereby are changed to the name set opposite the same. Laid on table two weeks under the rule.

Ald. Wilson gave notice that at the next meeting of the Common Council he would move to amend rule 24 in relation to changing the names of streets.

By Ald. Meade—
 Rochester, N. Y., Feb. 28, 1899.

To the Honorable the Common Council.
 Gentlemen—Your Law Committee beg leave to respectfully report as follows:

In relation to the claim of Anna B. Neal against the City of Rochester, your committee finds it necessary, before being able to make an offer of the amount of damages claimed to have been sustained by said Anna B. Neal, that an investigation of all the facts be made by experts engaged in the paper manufacturing business, and that a report from them be first had, and we, therefore, recommend that the corporation counsel be authorized and directed to employ such experts as may be necessary for the purpose of making such examination and report upon this matter.

Two proceedings have been commenced against the assessors of the City of Rochester, on relation of the Rochester Railway Company for the purpose of vacating assessments in the sum of \$700,000 upon the capital stock and personal property of said corporation. One of the proceedings commenced upon the assessment for the year 1897 was tried before a referee, whose report was confirmed by Justice Nash of the

Supreme Court, and an appeal taken from the final order in said matter to the Appellate Division and at the January Term thereof said order was affirmed. The order provided for a cancellation of the assessment of the sum of \$700,000 upon the capital stock of the said Rochester Railway Company and directed that the same be stricken from the assessment roll. The same questions are involved in the other proceeding brought upon the assessment for the year 1898. The action of the Appellate Division in this matter is a sufficient decision for the cancellation of these assessments, and your committee would therefore recommend that the assessment upon the capital stock of the Rochester Railway Company for the year 1897 for the sum of \$700,000, and upon the same company for the year 1898 for a like sum, be canceled as illegal, void and erroneous, and that the treasurer of the City of Rochester be authorized and directed to cancel and strike the same from the assessment rolls of the City of Rochester for said years, and that the costs of said proceedings as taxed and adjusted by the corporation counsel, and amounting to the sum of \$27 be paid to the attorneys for said railway company, Messrs. Beckley & Bissell.

In relation to the claim of Macajah W. Jackson against the City of Rochester for damages and rental value of premises alleged to have been occupied by the city, and overflow prior to the completion of the east side sewer, which claim amounts to \$66.66, your committee would recommend the rejection of the same.

The veto of His Honor, the Mayor, dated February 7, 1899, relating to the resolution authorizing the payment to the Union and Advertiser Company of the sum of \$1,574 for printing ordered by the City Clerk and referred to your committee at the last meeting of the Common Council, in relation to the same, your committee would report as follows: We find that the work performed by The Union and Advertiser Company for the City Clerk was done under the provisions of subdivision 3 of section 32 of the Election Law, and consisted in the preparation in numerical order of the street numbers of lists prepared and certified by the inspectors of election in each election district, of the names of persons registered who claim to be entitled to vote at the general election held in November, 1898. That under the statute the City Clerk was directed as soon as possible after the delivery of such lists and before the day of election to print the same in pamphlet form, and that the City Clerk did perform such duties and deliver them to The Union and Advertiser. The mayor in his veto states that judging from the manner in which the work was done, it was worth the sum allowed by the Auditor to The Union and Advertiser Company, but criticized the manner in which the City Clerk awarded the work. It appears that the number of registered votes in the city at said election was 32,440; that all the lists for said registration were not received until October 27th, and that the City Clerk had but ten days before the day of election in which to cause the preparation and printing of the same; that it was necessary that the printing should be rushed and that he gave a hurry order to The Union and Advertiser job department, and that in the performance of the same, night and Sunday work were involved; that there was not an opportunity to advertise for the bids and award con-

tracts for the same; that the clerk discharged his duty intelligently and promptly and in accordance with the provisions of the statute, and in the best interests of the public; that the work was performed in accordance with the statute, and that there is no comparison whatsoever between the work done by The Union and Advertiser Company and the work done in the city of Buffalo which does not in any manner comply with the provisions of the statute.

The bill must be paid by the city or else legal expenses will be cast upon it. And while your committee believes that the mayor had no power of vetoing this matter, in order that there may not be litigation, and people who have performed work honestly and with good intention may receive compensation for the same, your committee would recommend that the resolution of the Common Council stand, notwithstanding the veto of His Honor, the Mayor.

Your committee would recommend the appointment of the following as commissioners of deeds:

Edward Schaefer, R. C. Cartwright, Joseph H. Walburn, J. M. Raufelsen, William F. Morthorst, Amelia B. Spahn, A. W. Wilson, Saul Rosenberg, Fred W. Lang, Erastus Darrow, Theodore W. Mensing, Marquis L. Pritchard, G. William Heberling, Charles A. Keeler, G. La Du Meade, George Raines, W. T. Bradley, Isaac B. Hendrickson, Homer E. Perry, Albert E. Hauser, Walter F. Lauer, Arthur Warren, James J. Tanner, Agnes McGlynn, George Ball.

Respectfully submitted,

JAMES H. CASEY,
WILLIAM REICHENBERGER,
FRANK J. RITZ,
JOHN M. STEELE,
W. ERNST,

Law Committee.

Ordered received, filed and published.

By Ald. Meade—Resolved, That the City Treasurer be, and he hereby is, directed to cancel and strike from the assessment roll of the city of Rochester for the year 1897 the assessment of \$700,000 upon the capital stock of the Rochester Railway Company and for personal property, the same being declared erroneous, illegal and void by the Supreme Court; and also that he be authorized and directed to cancel and strike from the assessment roll of the City of Rochester for the year 1898 the assessment for \$700,000 upon the capital stock and personal property of the Rochester Railway Company, on the ground that the same is erroneous, illegal and void; the facts in the proceeding for to declare the assessment of said \$700,000 for the year 1898 appearing to be the same as in the proceeding brought for to declare the assessment for the year 1897 erroneous, illegal and void; and that the City Clerk be, and he is hereby authorized and directed to draw an order upon the contingent fund payable to Beckley & Bissell, for the sum of \$27.00, being in full payment of the costs and disbursements taxed in such proceeding, upon the Corporation Counsel filing a certificate that such judgment is satisfied in full and the proceeding commenced by said Railway Company for the cancellation of the tax for the year 1898 is discontinued.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

By Ald. Meade—Resolved, That the Corpo-

ration Counsel be, and he hereby is, authorized and directed to employ such experts as may be necessary for the purpose of ascertaining the damages alleged to have been sustained by Anna B. Neal, by reason of the diversion of the waters in Honeoye Creek from her premises by the construction of the conduits of the Rochester water works.

Adopted by the following vote:
 Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

By Ald. Meade—Resolved, That the claim of Macajah W. Jackson against the city for the sum of \$66.66 be, and the same is, hereby rejected. Adopted.

The veto of the Mayor in relation to the resolution ordering the payment to the Union and Advertiser of the sum of \$1,574 for printing ordered by the City Clerk, and which was referred to the Law Committee, came up. The Chairman stated the question to be "shall the resolution stand notwithstanding the objections of His Honor the Mayor." The resolution was sustained and the veto was overruled by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

By Ald. Edelman—

Rochester, N. Y., Feb. 28, 1899.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen—Your Lamp Committee, to whom was referred the resolutions relating to the placing conduits, beg leave to recommend as follows:

The laying of conduits in Oxford street and in Buckingham street for their entire length.

Respectfully submitted,
 LEWIS EDELMAN,
 W. H. TRACY,
 FRANK J. RITZ,
 CHAS. P. MEADE,
 WILLIAM WARD,
 Lamp Committee.

Ordered received, filed and published.

By Ald. Edelman—Resolved, That the Rochester Gas and Electric Company be, and they hereby are, directed to construct the conduits recommended in the report of the Lamp Committee presented at this meeting, under the direction of the Chairman of the Lamp Committee and the City Engineer. Adopted.

By Ald. Ward—

Rochester, N. Y., Feb. 28, 1899.

To the Honorable, the Common Council:

Gentlemen—In the matter of the petitions of Edward Schmalz, B. R. Hall, John Hanon, Chambers & Casey and John Klaeck, we recommend that the same be granted.

Respectfully submitted,
 WILLIAM WARD,
 FRANK J. RITZ,
 T. W. FORD,
 W. ERNST,
 W. C. GREEN,
 Assessment Committee.

Ordered received, filed and published.

By Ald. Ward—Resolved, That John Hanon be allowed to pay the face of the assessment on lot No. 1 on the east side of South avenue, for the South Avenue Improvement, under ordinance No. 1,741, being the sum of \$3.52, in full of said assessment, and that the City Treasurer charge the balance to erroneous assessments. Adopted.

By Ald. Ward—Resolved, That B. R. Hall be allowed to pay the face of the general

city taxes owned by the city for the years 1893 to 1898, with interest at the rate of six per cent. per annum, together with the necessary costs and expenses, and that the City Treasurer charge the balance to erroneous assessments. Adopted.

By Ald. Ward—Resolved, That George Chambers and James D. Casey be allowed to pay the general city taxes for the year 1896 on lots numbers 27, 51 and 63, on the north side of Clay avenue; lots 86, 90 and 258 on the east side of the boulevard; lots 240, 243, 350 and 384 on the south side of Electric avenue; lots 403, 447, 455, 521, 549, 553, 563 and 595 on the north side of Magee avenue, and lots 460, 462, 484, 486, 528 and 532 on the south side of Magee avenue; all in the McKee Place Tract; with interest at the rate of 6 per cent. per annum, together with the necessary costs and expenses, provided said taxes are owned by the city, and that the City Treasurer charge the balance to erroneous assessments. Adopted.

By Ald. Ward—Resolved, That the City Treasurer cancel the assessment against John Klaeck on lot No. — Klugh park, for the Colvin and Maple streets sewer under ordinance No. 4,195, and charge the same to erroneous assessments.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

By Ald. Ward—Resolved, That the City Treasurer be authorized to apply the sum of \$18.20 erroneously paid by Edward J. Schmalz for the city taxes on lot No. 12 for the year 1895, upon the city taxes of lot No. 24 for that year; that he accept the sum of \$5.98 from the said Edward J. Schmalz in full for the taxes of 1895 upon lot No. 24 and that he pay to J. H. Loid the balance due on said taxes or on the taxes of lot No. 24, together with annual interest for that year and charge the same to erroneous assessments.

Adopted by the following vote:

Ayes—Ald. Tracy, Ford, Green, Rauber, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—17.

ACTION ON ORDINANCES.

FIRST ORDINANCE.

MONROE AVENUE CANAL BRIDGE APPROACHES.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of constructing approaches to the Erie canal bridge at Monroe avenue. Adopted.

The Engineer submitted as such estimate, \$7,000.00.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The construction of a Medina stone pavement, with concrete foundation, from a point near the westerly line of the roadway in Dartmouth street to the bridge over the Erie canal; also from the east end of said bridge to a point about 150 feet easterly therefrom; this portion may be of asphalt. Also the construction of an approach from Field street, said approach to commence at a point about 100 feet southerly, in Field street, from the southeast corner of said canal bridge and running thence northerly to the pavement in Monroe avenue. Also the reconstruction of the sidewalks and the building of new sidewalks where required. The walks shall be

generally five feet in width. The width between curbs on Monroe avenue shall be generally the same as the present width, and the width between curbs of the approach from Field street shall be generally 30 feet. So much of the present curb and stone paving that may be found to be suitable may be used. The curb shall be properly connected with all intersecting streets, alleys, and driveways by new curb. The pavement shall also be carried to the street line where deemed necessary by the Executive Board and City Engineer to make the said pavement complete. The grade of the pavement northerly from the bridge shall not exceed 5 feet per 100 feet and be properly rounded off for a distance not less than 10 feet from the back walls of said bridge. The grade of the pavement southerly from the bridge, in Monroe avenue, shall not exceed 4 feet per 100 feet, and be properly rounded off for a distance not less than 10 feet from the back walls of said bridge. Excepting therefrom that portion of the street occupied by the tracks, the rails of the tracks and two feet outside the rails of the tracks of the Rochester Railway Company. Also the acquirement of the necessary right of way on the south side of Monroe avenue, westerly of the Erie canal, between the lines of Monroe avenue, as now located and shown upon a map in the City Engineer's office. Also the acquirement of the necessary right of way on the southerly side of the canal, at the southeast corner of Monroe avenue and Field street, being a strip of land averaging about 25 feet wide from Field street to Monroe avenue.

And the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$7,000.00, which, being deemed reasonable, is hereby approved.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the City, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit :

All that portion of lots and parcels of land lying within the following described boundary: Beginning at the northerly line of the Erie canal at Monroe avenue; thence easterly along the northerly line of the said Erie canal to Bowen street; thence northerly along said Bowen street to Harvard street; thence westerly along said Harvard street, excepting one tier of lots on the south side of said Harvard street to Meigs street; thence southerly along said Meigs street to Pearl street, including one tier of lots on the west side of said Meigs streets; thence easterly along said Pearl street to Sumner park, including one tier of lots on the south side of said Pearl street; thence southerly along said Sumner park, including one tier of lots on the west side of said Sumner park, and across Richards street, and the line between lots No. 86 and No. 87 of the Sumner and White tract to the northerly line of the Erie canal; thence easterly along the northerly line of said Erie canal to the place of beginning in Monroe avenue. Also the following described additional territory: Beginning at the northerly line of the Erie canal in Monroe avenue; thence easterly along the northerly line of said Erie canal to the Culver road; thence southerly along said Culver road to Monroe avenue; thence southerly on the easterly line of the city

to the southeast corner of the city; thence westerly on the southerly line of the city to Field street; thence northerly along said Field street and including one tier of lots and parcels of land on the west side of said Field street, to the place of beginning in Monroe avenue.

Adopted.

OPENING A STREET BETWEEN WEBSTER AVENUE AND NORTH GOODMAN STREET.

By Ald. Wilson—Resolved, That the following improvement is necessary, should be made and the public good requires the same to be done, viz.:

The opening of a street 50 feet wide, between Webster avenue and North Goodman street, through the lands of Dr. Williams, George Brown and the Shafer Brothers, the south line of the lands required for said opening being described as follows: Beginning at a point in the north line of Webster avenue 142 feet easterly from the southwest corner of the Shafer Brothers' land; thence northwesterly at right angles to the said north line of Webster avenue, 100 feet to a point; thence westerly, making a deflection to the left, about 301 feet to a point 25 feet southerly at right angles from the division line between lots 5 and 6 of John A. Meng's subdivision of the south part of lot 49, township 13, range 7; thence westerly parallel with said division line and 25 feet southerly therefrom about 251 feet to the east line of North Goodman street. The north line of the land required for said opening is 50 feet northerly at right angles from and parallel with the above described south line. The land to be taken for said opening is all the land lying between the above described north and south lines from Webster avenue to North Goodman street.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit :

One tier of lots and parcels of land on each side of said proposed street, from Webster avenue to North Goodman street.

Adopted.

OPENING AND EXTENSION OF PACIFIC STREET.

By Ald. Wilson—Resolved, That the following improvement is necessary, should be made, and the public good requires the same to be done, viz.:

The opening and extension of Pacific street from Bowen street to Monroe avenue, the south line of the land required for said opening and extension being described as follows: Beginning at a point in the west line of Bowen street, about 122 feet northerly from an angle in said Bowen street, said angle being about 63 feet north of the north water line of the Erie Canal; thence westerly about 591 feet to a point in the north line of Monroe avenue about 146 feet westerly from the northwest corner of Monroe avenue and Bowen street. The north line of the land required for said opening is 60 feet at right angles north of and parallel with the above described south line. The land to be taken for said opening and extension is all the land lying between the above described north and south lines from Bowen street to Monroe avenue.

Resolved, Further, that the whole ex-

pense of such improvement is hereby directed to be assessed upon all of the following described portion and part of the city, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit :

Beginning at the northeast corner of Monroe avenue and Dartmouth street; thence northerly along the east line of said Dartmouth street to the south line of Harvard street, excluding one tier of lots not exceeding 150 feet in depth on the east side of said Dartmouth street from Harvard street southerly to within one lot of said Pacific street extension; thence easterly along the south line of said Harvard street to the west line of the proposed extension of Bates street, excluding one tier of lots not exceeding 150 feet in depth on the south side of said Harvard street; thence southerly along the west line of said proposed extension of Bates street to the north line of the Erie Canal lands, excluding one tier of lots not exceeding 150 feet in depth on the west side of said proposed extension of Bates street; thence westerly along said north line of the Erie Canal lands to the north line of Monroe avenue; thence westerly along the said north line of Monroe avenue to the place of beginning.

Adopted.

CONKEY AVENUE SWEEPING AND CLEANING.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of sweeping and cleaning Conkey avenue.

Adopted.

The Engineer submitted as such estimate, \$340.00.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The sweeping, cleaning and disposition of the dirt collected on Conkey avenue, from Scramtom street to Avenue D, during the season of 1899.

And, The City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$340.00, which being deemed reasonable, is hereby approved.

Resolved, Further, that the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit :

By the Clerk—

Mayor's Office,
March 1, 1899.

Notice is hereby given of a public hearing to be had before the Mayor and the Common Council of the City of Rochester on the 7th day of March, 1899, at 4 o'clock in the afternoon, in the Council Chamber, in the City Hall, on the following act of the Legislature:

"An act to continue in office the Park Commissioners of the City of Rochester."

All persons desiring to be heard in reference to the said act are invited to be present.

GEO. E. WARNER, Mayor.

The Clerk read the following:
State of New York.

IN ASSEMBLY,

January 31, 1899.

Introduced by Mr. M. E. Lewis—(by unanimous consent)—read twice and ordered to a third reading and printed, and referred to the Committee on Affairs of Cities.

AN ACT to continue in office the Park Commissioners of the City of Rochester.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Notwithstanding the provisions of chapter one hundred eighty-two of the laws of eighteen hundred and ninety-eight, the park commissioners of the city of Rochester, and their successors in office, are hereby continued in office with all the powers and duties vested in them by chapter one hundred ninety-three of the laws of eighteen hundred and eighty-eight, and all acts amendatory thereof and supplementary thereto.

§ 2. All statutes of the state of New York inconsistent herewith, so far as they apply to the city of Rochester, are hereby repealed.

§ 3. This act shall take effect January first, nineteen hundred.

Allegations were called for and Jacob Spahn, Dr. E. M. Moore, John H. Rochester, Mathias Kondolf and A. C. Allen were heard for and against the amendment. After all persons appearing, the Chair stated the question to be, "Shall the act to continue in office the Park Commissioners of the City of Rochester" be accepted by the local authorities and directed a roll call, which resulted as follows:

Ayes—Ald. Green, Beard, Selye, Steele, Kelly, Ernst, Wilson—7.

Nays—Mayor Warner, Ald. Edelman, Ritz, Pauckner, Reichenberger—5.

By Ald. Wilson—Resolved, That the City Engineer be, and he hereby is, requested to assign proper numbers to the buildings and lots on all streets not properly numbered and to notify the owners of the buildings of the numbers assigned. Adopted.

By Ald. Wilson—Whereas, The streets of the city of Rochester are deplorably deficient in the matter of street signs, comparatively few of the street corners having any sign to indicate the name of the streets, thereby causing great annoyance and inconvenience to both citizens and strangers; and

Whereas, It is very important that all street corners should have a suitable and durable sign; therefore

Resolved, That the Committee on Public Improvements be, and hereby is, authorized and directed to investigate as to the best system of street signs available, the cost, etc., and report its findings to this council. Adopted.

By Ald. Reichenberger—Resolved, That the City Engineer furnish lines and grades to the property owners on Child street, between Maple street and Thomas park, so that the sidewalks may be built or rebuilt on a uniform line, and that if the property owners do not build or rebuild said walks where required to conform to the line and grade furnished within sixty (60) days, the City Engineer is hereby directed to prepare an ordinance for said work. Adopted.

By Ald. Adams—

To the Honorable Common Council of the City of Rochester :

We, the undersigned, owners of property fronting upon Portsmouth terrace, in the City of Rochester, in the number of feet front set opposite our names respectively, do hereby request that a tax be levied upon the property fronting on said terrace in the amount of 25 cents per lineal front foot of all land fronting on said terrace, pursuant to statute in such cases made and provided, for the purpose of defraying the expenses of making repairs and improvements on such terrace for the coming year, and we further ask that such tax shall be collected at the same time and in the same manner as the general city tax, and that the amount of such tax when collected shall be paid by the City Treasurer to William N. Cogswell.

Dated March 11, 1899.

By Ald. Adams—Resolved, That the City Assessors be, and they are hereby, directed to assess and that there be assessed twenty-five cents per foot front, upon all the lands fronting on Portsmouth terrace, and that the same be added to the general city tax for 1899 and to be apportioned equally upon all such lands so fronting upon said terrace; and the City Treasurer is hereby directed to pay the sums thus assessed, when collected by him, to William N. Cogswell, he being the person designated to receive the same by such owners; and the clerk is hereby directed to transmit to said Assessors and Treasurer a certified copy of this resolution.

Adopted by the following vote :

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—19.

By Ald. Wilson—Resolved, That the resolution passed Dec. 20th, 1898, to postpone action on the final ordinance for cement walks on Columbia park until the first meeting in April be reconsidered. Adopted.

COMMUNICATIONS FROM THE MAYOR.

By the Clerk—
Mayor's Office, March 9, 1899.
To the Common Council of the City of Rochester :

I hereby return without my approval final ordinance No. 7,664, for Caledonia avenue improvement, for the following reasons :

Caledonia avenue is one of the highways selected for the purpose of laying thirty-six inch water mains to furnish additional water supply to other portions of the city.

A main has been laid under the canal and on the upper end of Caledonia avenue as far as Bronson avenue. The city engineer states that it will be necessary to lay the rest of this main. In my opinion the street should not be paved until the water main is laid. If the pavement should be constructed now, it will be necessary in order to place the water main in the street to tear up at least one-third of the entire pavement, together with the concrete and relay it. This would cost at least \$4,000, which will have to be paid by the city at large. This amount will be saved if the main be first laid. The pavement cannot be relaid in as good condition as a new pavement.

I believe that no ordinance should be adopted for pavements in streets in which street car lines are laid until the question of the liability of the Rochester Railway Company to pay for its share of the pavement is fully settled. We already have claims against the company amounting to \$100,000 which represents its share of liability for improvements heretofore made. We have sent bills to Albany legalizing the ordinances upon which these improvements arose. Only a small portion of the expense of these improvements has been paid. As a result we have about \$400,000 besides our claims against the railroad company now uncollected.

It is now proposed to improve Caledonia avenue, Hudson avenue, Jefferson avenue and Thrush street, on which car lines are laid. If these improvements should be made it will result in tying up for some time to come at least \$150,000.

It would seem that it would be better to suspend such improvements until the liability of the railway company is determined.

Respectfully yours,
GEORGE E. WARNER,
Mayor.

The chairman stated the question to be shall the ordinance stand notwithstanding the objections of His Honor, the Mayor.

Ald. Ward moved that action be postponed two weeks. Lost by the following vote :

Ayes—Ald. Rauber, Beard, Casey, Ward, Reichenberger—5.

Nays—Ald. Tracy, Ford, Green, Adams, Edelman, Selye, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson—14.

The veto of the Mayor was overruled and the ordinance was sustained by the following vote :

COMMUNICATIONS AND REPORTS FROM OTHER CORPORATION OFFICERS, BOARDS AND DEPARTMENTS.

By the Clerk—
Rochester, N. Y., March 14, 1899.
To the Hon. the Common Council :

Gentlemen—I am directed by the Executive Board to invite your attention to the provisions of the proposed tax levy which relate to the expected income of the water works department, and to express to you the belief of the Board that such income has been considerably overestimated by your finance committee if the taxes on the conduits and lands pertaining to the water supply outside of the city limits, as well as the cost of necessary betterments of

the plant, are to be paid out of the receipts from the sale of water.

It should be remembered that such taxes were levied last year by only a portion of the different townships, and that the aggregate amount thereof was about \$6,000. Presumably all of the townships will make assessments this year, so that a considerably larger sum will doubtless be required for their payment. There is also an urgent necessity for adding another story to the repair shop building on Mill street, at a cost of about \$4,000, as the present roof is in very bad condition and more room is required for the largely increased operations of the water department. Furthermore, a few thousand dollars should be available in the fund to meet expenditures for possible extraordinary repairs to the conduits, reservoir and the pumping machinery of the Holley system.

The aggregate of these amounts may fairly be estimated at \$15,000, and the Executive Board fails to see any provision therefor in the report of the tax levy which was published last week in our local journals. From these figures it appears that the water works department will be required to pay into the city treasury during the present year the sum of \$285,000, besides paying its ordinary operating expenses of \$100,000, which do not include the items mentioned above; whereas a close estimate of its entire receipts during the year is only about \$383,500. If the aforesaid figures are correct, there will accordingly be a deficit in the water works fund at the end of the year of fully \$1,500, not counting the \$15,000 for taxes, etc., and a deficit of \$16,500 if the latter items are included.

In addition provisions should also be made to meet the claim of Mrs. Anna B. Neil; the amount of which has not yet been agreed upon by your honorable body.

The Executive Board is therefore of the opinion that the tax levy, as published, should either be properly amended, or else that the responsibility for the anticipated deficits should be fully assumed by the Common Council, now that the estimate of receipts and expenses for the year has been carefully made.

Respectfully submitted,
CHARLES M. BEATTIE,
Clerk.

To the Honorable the Common Council:
Gentlemen—It will be necessary to issue the city's note for \$16,511.47, this being for renewal of note No. 1,271, which was issued on account of the East Side Trunk Sewer interest account.

I would respectfully ask for the adoption of the accompanying resolutions.

S. B. WILLIAMS, Treasurer.

Ordered received, filed and published.
By Ald. Rauber—Resolved, That the City Treasurer be, and he hereby is, authorized and directed to issue under authority of chapter 347 of the laws of 1890, as amended by chapter 74 of the laws of 1892, the city's note for an amount not exceeding sixteen thousand five hundred eleven and 47-100 dollars (\$16,511.47); said note to run for a period not exceeding seven months; to be negotiated under the direction of the Finance Committee of the Common Council and to be countersigned by the chairman thereof; interest or discount to be charged to the East Side Trunk Sewer Fund, and the proceeds to be used for the purpose of renewing note No. 1,271, which was issued for East Side Trunk Sewer purposes.

March 6th, 1899.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen—On the 25th of March, 1897, the General City Taxes for 1896 against lot 14, assessed to A. B. Riggs, situate on the east side of Rutger street, in M. A. Culver's subdivision, amounting to \$36.25, was sold to J. H. Montgomery. This property should not have been assessed for the general city tax for that year, as the city had acquired it for the opening of Harvard street. I would, therefore, suggest that the City Treasurer be directed to cancel the same and charge the amount to the erroneous assessments account, and that Mr. Mont-

gomery be paid the amount with the interest thereon, which he is entitled to according to the City Charter.

Yours respectfully,
S. B. WILLIAMS, Treasurer.

To the Common Council, Rochester, N. Y.:
Gentlemen—In behalf of myself and several citizens associated with me, I hereby apply for a franchise to establish, construct, maintain and operate a telephone system and line: in the City of Rochester, N. Y.

We have examined the proposed franchise asked from your body by the Home Telephone Company, and now being considered by the Lamp Committee of the Council, a copy of which proposed franchise is annexed hereto.

We ask that he said franchise be granted to us, and we will pay the city therefor the sum of fifteen thousand dollars cash. That is, we will accept the same franchise contract, asked by the Home Telephone Company, will do all that the Home Company agrees to do in said contract, and pay the city in addition fifteen thousand dollars.

If your body thinks that more than fifteen thousand dollars can be obtained for said franchise, we desire an opportunity to bid for it against any person or corporation

asking the same, and will so bid, conforming to any regulations your body may prescribe.

Should any changes in said proposed franchise be made or suggested by the Common Council, or new franchise be prepared, we ask you to give us a chance to bid for the same, and we hold ourselves ready to pay the full value thereof. In short, we desire to make an offer, in cash, for any telephone franchise your body may decide to grant, or will bid for it at auction if you decide to sell it in that manner.

The gentlemen associated with me are nearly all residents of this city, and are among our most active and enterprising citizens. If a franchise be granted us we will immediately incorporate and proceed to carry out the contract of said franchise in good faith.

We will give any guarantee by bond, cheque or deposit of money, that we will in good faith and promptly carry out every agreement in said franchise, in the full spirit thereof.

In behalf of myself and my associates,
I remain most respectfully yours,

FRED GLEASON.

COPY OF FRANCHISE ASKED BY THE HOME TELEPHONE COMPANY.

Whereas, Application in writing has been made by The Home Telephone Company of Rochester, N. Y., for a franchise granting to it the right to establish, construct, maintain and operate a system or lines of telephones for public and private use in the city of Rochester, New York, and to construct conduits, subways and manholes, and to erect poles, place wires, conductors, cables and all necessary equipments and appliances, and to make house and building connections upon, along, in, over and under the streets, avenues, lanes, squares, alleys, parks, bridges, aqueducts and public places in said city, and to repair, replace, enlarge and extend the same for the business and purpose of providing means of communication between buildings, structures and places, public and private, in said city, and for such other purposes as shall be consistent with or necessary to the successful conduct of said business, therefore,

Resolved, That such franchise be, and the same hereby is, granted to the Home Telephone Company of Rochester, New York, subject to the following conditions:

(1). All poles shall be erected in places to be approved by the board or officer of said city having control of the streets thereof.

(2). No conduit or subway shall be laid where a conduit or subway for carrying electrical conductors sufficient and suitable for the purpose of said company has been or shall hereafter be maintained by the Rochester Gas and Electric Company under the agreement between it and said city relating to conduits and subways now in force except to afford necessary distributing facilities and ingress and egress to and from such conduit or subway. Whenever application is made for permission to construct a subway through a street in which there may be none which can be made use of by said Home Telephone Company, written notice thereof shall be given to said Rochester Gas and Electric Company and that company may within ten days thereafter elect to lay such conduit or subway in accordance with its said agreement with said city on said Home Telephone Company executing a lease of one or more ducts therein for a term of not less than

ten years. If said Rochester Gas and Electric Company shall so elect and shall promptly proceed to construct the same and shall prosecute the work thereon with reasonable diligence, the application by the Home Telephone Company shall not be granted. If said Rochester Gas and Electric Company shall elect not to build such conduit or subway, or having elected to build the same shall fail for space of sixty days to commence the work of making such extension the board or officer having control of the streets of said city may grant to the Home Telephone Company the right to make such extension itself for its own use and benefit, at its own expense, and thereafter to own, control and operate it, subject, however, to all the provisions, stipulations and restrictions relating to conduits and subways, contained in said contract between the Rochester Gas and Electric Company and the city of Rochester.

(3). No pole shall be erected wherever a pole suitable for or that can be made suitable for the telephone service of the applicant is maintained by any other corporation, provided the right to use such pole can be acquired at a rate per annum not exceeding ten per cent. of the cost of the pole, including the cost of erecting the same.

(4). The city shall have the exclusive use, free of expense, of one arm, or such part thereof as may be necessary, on each pole erected by said company for carrying any of the city's wires or electrical conductors except wires for power or electric lights, but such use by the city shall not unnecessarily interfere with the operation of the lines of said company.

(5). The said company shall furnish to the city such number of telephones as it may require for its business offices as a rental not to exceed \$40 each, per annum, all such telephones to be upon metallic circuits, to have long distance transmitters and the service to be unlimited day and night.

(6). Whenever the surface of any street is opened by said company for the purpose of doing any work under this franchise, the same shall be restored to its former condition and kept in good condition and repair for one year thereafter by said company. Whenever the surface of any street is opened by any other corporation for the purpose of providing distributing facilities from the conduits of said company, permission must be first obtained from the proper city board or officer and all liability for loss or damage caused thereby shall be assumed by the corporation making such opening.

(7). This franchise shall not be transferred to any competing corporation now in existence, or to any corporation that may be formed by the consolidation or merger of said company with any such existing competing corporation, without the consent of the Common Council of said city.

(8). Said company shall indemnify said city for any loss or damage which it may be compelled to pay by reason of the construction or maintenance by said company of its telephone system.

(9). If said company shall not have its telephone system in operation with at least one thousand telephones within two years from the date hereof, then this franchise shall at the option of the Common Council thereupon cease and determine.

(10). The city may revoke and annual this grant whenever it shall be finally determined by any court of competent jurisdiction that said company has failed in any material or substantial respect to comply with the conditions herein contained unless said company shall immediately upon such determination being made comply therewith.

Ordered received, filed and published and referred to Lamp Committee.

The Clerk presented a number of bills for recording deaths, marriages and births. Referred to the Law Committee.

REPORTS OF STANDING COMMITTEES.

By Ald. Rauber—

The Honorable Common Council:

Gentlemen: Your finance committee, in accordance with the requirements of the city charter, herewith submits the proposed tax levy for the current fiscal year:

Your committee has given its time and attention to solving the difficult problem placed before it, viz: The subject of paying the expenditures of the city in a just and equitable manner, and considering the growth of our city, and the many subjects involved, your committee has with pardonable pride congratulated itself that it has placed before the taxpayers of our city a levy that cannot be but just, fair and equitable; many difficulties have been met and surmounted, and we have called on some of the largest taxpayers in the city for advice, and have found that they have agreed in a great many instances with us in amounts to be expended during the current fiscal year. While the amount may seem large, the advancement and growth of our city have demanded an increased expenditure in some departments, while in others we have greatly decreased them.

The interest on the bonded indebtedness of the city is \$406,508.52, an increase of \$7,000 more than last year; this is owing to the fact that interest on watershed bonds amounting to \$200,000 is now due, and must be paid. For erroneous assessments your committee has provided the sum of \$14,992.13, an increase of \$6,547.47. This is due to the correction of erroneous assessments that had to be paid from this year's tax levy. The local assessment on city property has been placed at the sum of \$6,190.46, a decrease of \$20,302.86 from last year. The police pension fund is fixed by law at \$3,000, the same as last year. This is also true of the paid fire department pension fund, which is \$3,000, the same amount as last year. The park loan sinking fund is \$3,600. This amount is fixed by law, and cannot be changed. Your committee has decided to give to the park maintenance fund the sum of \$30,000, the same as last year, being convinced from past experience that the amount placed in their hands will be used judiciously and to good advantage.

The board of health asked for \$60,000. Last year it was allowed the sum of \$52,000. Your committee believe that if proposals for the collection of garbage are advertised for, that it can be collected for a sum far less than is paid at the present time. Under the circumstances, your committee has placed the appropriation for the health fund at \$50,000, a decrease of \$2,000.

The police fund has been given the sum of \$188,000, an increase of \$21,000. This is owing to the fact that the increase of the police force was demanded by the taxpayers and citizens of our city, for the better protection of outlying wards, and owing

to this demand twenty-five new policemen were appointed, hence the increase.

The appropriation for the lamp fund has been placed by your committee at \$234,000, an increase of \$4,000. While your committee felt constrained not to increase the fund owing to the great number of complaints from taxpayers in the outlying wards, in relation to the condition of lights on their streets, and in view of the fact that a large number of streets are about to be opened, your committee felt justified in increasing the appropriation.

The appropriation from the Poor Fund is \$95,000, an increase of \$5,000. This is due to the large demands made on the department. During the past winter over 300 new families have been placed upon the books, and although the Poor Committee has made strenuous efforts to relieve the necessities of those applying for assistance, by furnishing work for able-bodied men through the breaking of stone, still the stern reality confronted your committee of what was to be done in the future. Acting from necessity, your committee has decided to give the increase desired.

The Grand Army relief fund appropriation is placed at \$11,000, the same as last year. Your committee was of the opinion that the sum appropriated has been judiciously and wisely expended and is in good hands. The appropriation for the Contingent Fund is \$175,000, to provide for deficiency notes, etc., a decrease of \$15,000. We believe under the wise management of the Contingent Expense Committee that the sum will be sufficient to carry it through the year. For water works department fund the appropriation of \$100,000 is the same as last year. The appropriation for water pipe extension is \$25,000, a decrease of \$5,000 from last year, an amount sufficient to meet the imperative demands now made.

Your committee has decided to appropriate \$230,000 for the use of the fire department, the same as last year. This will include the expense for building underground cable work, and the additional expense of maintaining hose No. 13, and will provide for the establishment of an additional truck house in the northeastern part of the city. The appropriation for the highway fund is \$240,000, an increase of \$20,000. This amount is a necessity, on account of certain streets paved with asphalt which will have to be repaired immediately, as it is poor economy to neglect public streets. It is also necessary to examine and paint the bridges. These matters must be attended to at once and will permit of no delay.

The Board of Education, by virtue of the Dow act, is allowed the sum of \$25 per capita for each pupil, which amounts to \$583,300, an increase of \$113,000 over last year's appropriation, including a deficiency of \$15,000 from last year. Your committee did not appropriate \$40,000 to build No. 12 school house, for the reason that the Dow law repealed the act appropriating money to build said school. We might also say that the amount fixed by the Dow law does not include \$80,000, appropriated by the state for school purposes.

Your committee hereby gives warning to the various boards, officers and committees having the expenditure of the various funds mentioned in the annexed tax levy, that the appropriations are made for the needs of the ensuing year, and that their expenditures must not exceed the amount of such appropriations, as no deficiency

notes will be given to meet any such increase.

Your committee has endeavored to avoid prodigality on one hand and parsimony on the other, and have sought to combine that degree of liberality and economy which will best subservise the interests of our city and its citizens.

Respectfully,

STEPHEN RAUBER,
CHARLES P. MEAD,
WILLIAM WARD,
LEWIS EDELMAN,
Finance Committee.

REPORTS OF SPECIAL COMMITTEES

Rochester, N. Y., March 14, 1899.
 To the Honorable, the Common Council :

Gentlemen—The undersigned, the committee duly appointed at your meeting held on the 28th day of February, to investigate the charges against Louis W. Miller, superintendent of the police patrol system, contained in a communication of his Honor, the Mayor, presented to the Common Council at said meeting, would respectfully report as follows :

That we have subpoenaed before us a number of witnesses and made a careful

investigation into the facts and circumstances connected with the said charges. That said charges consisted of (1) the pulling of the police patrol box at the corner of West Main and Elizabeth street, in the City of Rochester, on the night of the 22d of November, 1898, contrary to the rules of the Police Department, and (2) in disposing of a quantity of copper and zinc scrapings of the aggregate value of about \$44.00, taken from the batteries of the police telegraph system.

We find from an examination of the records of the City Treasurer that there has not been paid into the city treasury at any time from the sale of coppers or zincs from either the police or fire alarm telegraph systems, any money whatever.

We would report that we find from the evidence presented to us that there is no published rule of the police department in relation to the pulling of patrol boxes, and that Mr. Miller did not knowingly violate any rule of the police department in relation to the pulling of the said box.

In respect to the sale of copper and zinc scrapings we would report that the evidence shows that it has been a custom of the fire and police telegraph systems to permit the linemen or other employees of said system to clean coppers and zincs, which had become useless for battery purposes and dispose of the same after they had been cleaned, and that in this manner said coppers and zincs had been cleaned by Mr. Miller or under his direction and had been disposed of by him, and that he had realized therefrom about the sum of \$44.00 within the past two years, and altogether since his connection with the department, the sum of about \$70,000; that he had paid out of his individual funds for the cleaning of the said coppers and zincs, and that he had also on a number of occasions paid from his own individual funds, linemen employed in putting the police telegraph lines in repair after storms and when breakages occurred when unable to procure the services of the linemen employed on the fire alarm telegraph system.

Your committee condemns the customs in practice in these two departments in relation to this matter, but we do not think that Mr. Miller intended to injure the city in the matter of the sale of these coppers and zincs, and on the contrary, by reason of the expenditure of money by him, was not a gainer thereby.

In corroboration of Mr. Miller's statements that he was authorized to dispose of this waste, your committee was furnished with a statement from Dr. Curran, one time mayor of the city, in which he stated that it was his recollection that he did tell Mr. Miller that he might dispose of the said waste in the manner in which he did.

The prompt acknowledgement by Mr. Miller that he had sold this material, and used the money in the manner he did, went far toward convincing your committee that he had no intention to wrong the city.

We would recommend in the future that the proceeds of the sale of all property belonging to not only the police telegraph system but other department of the city, be paid into the city treasury, and that all bills incurred in the management of the departments, including these systems, be presented to the proper city authorities for audit and be paid from the proper city funds.

All of which is respectfully submitted.
 LEWIS EDELMAN,
 CHAS. P. MEADE,
 JAS. H. CASEY,

WM. REICHENBERGER,
J. C. WILSON,
Special Committee.

Ald. Edelman moved that the report of the committee be adopted. Adopted unanimously.

ACTION ON ORDINANCES.

FIRST ORDINANCES.

EMERSON STREET ASPHALT IMPROVEMENT.

By Ald. Selye—Resolved, That the City Engineer ascertain and report to this Council the expense of improving Emerson street from Thrush street to the west end of the present asphalt pavement.

Adopted.

The Engineer submitted as such estimate, \$9,600.00.

By Ald. Wilson—Resolved That the following improvement is necessary and should be made, viz.:

The improvement of Emerson street from Thrush street to the west end of the present asphalt pavement therein, by the construction of an asphalt pavement therein with a line of stone curb on each side thereof properly connected with all lateral streets, alleys and driveways. Width between curbs to be generally 30 feet. Excepting therefrom that portion of the street between the tracks, the rails of the tracks and two feet outside of the outside rails of the tracks of the Rochester Railway Company. Also the necessary manholes, surface sewers, lot laterals, water services, and the repair, cleaning or rebuilding of the present main sewer, where necessary.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

The pavement shall be guaranteed for ten years.

And, the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof and reported the same at \$9,600, which being deemed reasonable is hereby approved.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of Emerson street from Thrush street to the west end of the present asphalt pavement.

Adopted.

FINAL ORDINANCES.

By the Clerk—

Rochester, N. Y., March 14, 1899.
To the Honorable the Common Council of the City of Rochester:

Gentlemen—I do hereby certify that a notice such as is required by section 172 of the City Charter, specifying each of the improvements contemplated by the following final ordinances, the estimated expenses thereof, the amount, if any, of such expenses to be paid from the public treasury, the portion or part of the city to be assessed for the remainder of the expenses, and requiring all persons interested in the subject matter of the improvement to attend at the time appointed in such notice, was published daily for four days in two daily newspapers printed in this city, namely the Rochester Herald and the Union and Advertiser.

Received, filed and published.

Respectfully submitted,

PETER SHERIDAN, City Clerk.

FINAL ORDINANCE, NO. 7,674.

THRUSH STREET ASPHALT IMPROVEMENT.

On motion of Ald. Beard the Common Council proceeded to hear allegations in relation to the improvement described in the following ordinance, viz.:

An ordinance to improve Thrush street from the south side of Emerson street to Driving Park avenue, and after hearing such allegations from all persons appearing.

The Common Council of the City of Rochester, do ordain and determine that the following improvement is necessary and should be made, to wit:

The improvement of Thrush street, from the south side of Emerson street to Driving Park avenue, by the construction of an asphalt pavement therein, with a line of stone curb on each side thereof, properly connected with all lateral streets, alleys and driveways. Width between curbs to be generally 38 feet. Excepting from the above that portion of the street included between lines two feet outside of the outside rails of the street railway tracks. Also the necessary manholes, surface sewers, lot laterals, water services and the repair, cleaning or rebuilding of the present main sewer. Such portion of Glenwood avenue and Lexington avenue as in the judgment of the City Engineer and Executive Board conform to the plans for Thrush street may remain.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

The pavement shall be guaranteed for ten years.

And the City Engineer, under direction of this Council, having made and reported as an estimate of the expense thereof, the sum of \$26,000, which, being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the city which this Council deems proper to be so as-

essed for, and will be benefited by such improvement, to wit:

(L. S.) CHARLES P. MEAD.
(L. S.) W. ERNST.
(L. S.) J. C. WILSON.
(L. S.) WM. REICHENBERGER.

Ald. Rauber asked and received unanimous consent to present the following:

By Ald. Rauber—

Whereas, It has been learned that strong opposition is being made in the Legislature to the passage of the bill of Hon. A. J. Rodenbeck, which provides for exempting from taxation the water conduits and appurtenances belonging to municipal corporations situated outside of the boundaries of such corporations; and

Whereas, The provisions of said bill appear to us entirely just and proper, by relieving municipalities from the burden of a large amount of double taxation which has wrongfully been imposed upon them by the existing general tax law of the state; therefore,

Resolved, That the Common Council of this city hereby approves of the bill mentioned and earnestly requests all representatives of the city in the Legislature to exert their utmost efforts to secure the early passage of said bill in both Assembly and Senate; also that the Clerk be, and he is, hereby directed to send a copy of this action to each of said representatives.

Ald. Rauber moved that the resolution be adopted.

Adopted by the following vote :

Ayes—Ald. Tracy, Ford, Green, Rauber, Adams, Beard, Ward, Ernst, Mead, Wilson, Reichenberger—11.

On motion of Ald. Rauber, the Board then adjourned.

PETER SHERIDAN,
City Clerk.

IN ASSEMBLY.

January 31, 1899.

Introduced by Mr. M. E. Lewis—(by unanimous consent)—read twice and ordered to a third reading and printed, and referred to the committee on affairs of cities.

AN ACT to Consolidate the Rochester Park Police with the Police Force of said City.

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

Section 1. All policemen and police officers, appointed by the park commissioners of the city of Rochester who have been regularly appointed pursuant to the laws and rules governing the civil service, and who are in office when this act takes effect, shall continue in office as members of the regular police force of said city with the rank of patrolmen.

Sec. 2. This act shall take effect immediately.

By the Clerk—

Mayor's Office, March 17, 1899.

Notice is hereby given of a public hearing to be had before the Mayor and the Common Council of the City of Rochester, on the 20th day of March, 1899, at two o'clock in the afternoon, in the Council Chambers in the City Hall, on the following proposed acts of the Legislature :

"An act to consolidate the Rochester park police with the police force of said city."

"An act to amend chapter one hundred forty-three of the laws of eighteen hundred and sixty-one, entitled, "An act to amend and consolidate the several acts in relation to the charter of the City of Rochester," relating to the Board of Education of such city.

All persons interested will be given an opportunity to be heard.

GEORGE E. WARNER, Mayor.

Ordered received, filed and published.

After allegations were heard from all persons appearing, the act to consolidate the Rochester Park Police with the Police Force of Rochester was disapproved by the following vote :

Ayes—Ald. Ford, Pauckner, Judson—3.

Nays—Mayor Warner, Ald. Tracy, Green, Adams, Beard, Selye, Ward, Ritz, Kelly, Wilson, Reichenberger—11.

By the Clerk—

Section 1. Section one hundred and twenty-three of title six of chapter one hundred and forty-three of the laws of eighteen hundred and sixty-one, entitled "An act to amend and consolidate the several acts in relation to the charter of the city of Rochester;" as amended by chapter six hundred and sixty of the laws of eighteen hundred and ninety-eight, is hereby amended to read as follows:

Sec. 123. The commissioners of common schools in said city shall constitute a board to be styled "The board of education of the city of Rochester," which shall be a corporate body in relation to all the powers and duties conferred upon it by virtue of this act. The said board shall meet on the first Monday of each and every month, and at such times as it shall from time to time appoint. Such meetings shall be called by the secretary upon order of the president or upon request of a majority of the said board. A majority of said board shall constitute a quorum for the transaction of business. In the absence of a quorum a minority of said board may adjourn a meeting from day to day. The said board shall, at the first regular meeting in January of each year, elect one of its members president, who shall, when present, preside at all its meetings. In the absence of the president, the said board shall elect some other member to preside at such meetings and to perform the duties of the president during such absence. On and after the first day of January, nineteen hundred, the board of education of the city of Rochester shall be composed of five commissioners of schools to be elected by the electors of the city at large; and at the city election to be held in eighteen hundred and ninety-nine there shall be elected by the electors of the city at large five commissioners of schools, three of whom shall be elected for a term of two years each, and the other two of whom shall be elected for the terms of four years each. Their terms of office shall commence on January first, nineteen hundred. At the biennial city election to be held in the city of Rochester next preceding the expiration of the terms of any of the said commissioners of schools, their successors shall be elected for terms of four years each. In case a vacancy shall occur in the office of a member of the board of education, for any cause, the mayor of said city shall fill such vacancy by the appointment of a suitable person; and the person so appointed shall hold office by virtue of such appointment until and including the thirty-first day of December following the next succeeding biennial city election, at which election a commissioner of schools for the unexpired term shall be elected by the city at large. The commissioners shall serve without pay.

Sec. 2. All acts and parts of acts of the

Legislature of the State of New York, and all ordinances of the city of Rochester, so far as inconsistent with, or repugnant to, the provisions of this act, are hereby repealed, but such repeal shall not affect any action, proceeding, suit or prosecution had or commenced prior to the time when this act shall take effect.

Sec. 3. So much of this act as pertains to the election of the commissioners of schools shall take effect September first, eighteen hundred and ninety-nine, and the remainder of the act shall take effect January first, nineteen hundred.

Ordered received, filed and published.

After allegations were called for and all persons being heard, the act to amend chapter six hundred and sixty of the laws of eighteen hundred and ninety-eight in relation to commissioners of Common Schools was approved by the following vote :

Ayes—Mayor Warner, Ald. Tracy, Ford, Green, Adams, Edelman, Beard, Selye, Ritz, Pauckner, Kelly, Wilson, Reichenberger—13.

Nays—Ald. Ward, Judson—2.

On motion of Ald. Ford, the Board then adjourned.

PETER SHERIDAN,
City Clerk.

In Common Council, March 28, 1899.

REGULAR MEETING.

Ald. J. Miller Kelly, President of the Board, presiding.

APPROVAL OF MINUTES.

The minutes of the preceding meeting were approved as published in the book of proceedings.

RESOLUTIONS.

By Ald. Ford—Resolved, That the W. N. Y. & P. R. R. Co. be requested to put up a safe and substantial railing under the direction of the Executive Board, where Ford street terminates on the top of the easterly bank of the former Genesee Valley canal, northerly of Tremont street. Adopted.

By Ald. Green—Resolved, That the City Engineer prepare an ordinance for the improvement of Stone street. Adopted.

By Ald. Rauber—Resolved, That final ordinance, No. 7,337, for the "Asphalt Improvement of North Clinton Street," passed January 31st, 1899, be reconsidered. Adopted.

By Ald. Rauber—Resolved, That final ordinance, No. 7,337, for the "Asphalt Improvement of North Clinton Street," reconsidered at this meeting be indefinitely postponed. Adopted.

By Ald. Edelman—Resolved, In accordance with rule xxi of the rules of this Common Council, notice is hereby given that at the next regular meeting of this Common Council, to be held Tuesday evening, April 12th, 1899, a resolution will be introduced providing for the granting of a franchise for the purpose of operating an independent telephone system in this city. The provisions of said franchise to be generally as set forth in the following draft. Adopted.

By Ald. Edelman—
Franchise for a competing telephone system in the city of Rochester, N. Y.:

This franchise grants the right to establish, construct, maintain and operate a system or lines of telephones for public and private use in the city of Rochester, New York, and to construct conduits, subways and manholes, and to erect poles, place wires, conductors, cables, and all necessary equipments and appliances, and to make house and building connections upon, along, in, over and under the streets, avenues, lanes, squares, alleys, parks, bridges, aqueducts and public places in said city, and to repair, replace, enlarge and extend the same for the business and purpose of providing means of communication between buildings, structures and places, public and private, in said city, and for such other purposes as shall be consistent with and necessary to the successful conduct of said business, subject, however, to the following conditions, provisions, covenants and stipulations:

1. No conduits or subways shall be constructed or poles erected where there are conduits or subways in use by the Rochester Gas and Electric Company, which can be used by the company, except by the consent of the Common Council.

2. All poles shall be erected in places to be approved by the board or officers of the said city having control of the streets, said poles to be of the kind and quality to be approved by said board or officers.

3. All wires shall be strung and placed under the direction of said board or officers.

4. All material used of any kind in the construction and operation of the telephone system shall be suitable for the purpose and of good quality, and all the work shall be performed in a safe, thorough and suitable manner.

5. The company may be required by the Common Council to construct additional conduits in streets where the public interests may require, but not more than one mile in any one year.

6. The city shall have the exclusive use, free of expense, of one arm, or such part thereof as may be necessary, on each pole erected by said company or carrying any of the city's wire or electrical conductors (except wires for power or electric light), but such use by the city shall not unnecessarily interfere with the operation of the lines of said company; said city shall also have the use of one duct in each conduit, said duct to have a capacity of at least one hundred wires.

7. All conduits, subways or other structures under ground shall be suitable and sufficient for the purpose intended, and constructed in a thorough, suitable and workmanlike manner, and in such construction no sewer, gas or water pipe shall be permanently disturbed or interfered with.

8. Before erecting any poles, an application in writing shall be filed with the proper board or officer of said city, and the locations must be approved by said board or officer and a permit granted, and the work done under the supervision of said board or officers. Before opening any street for the purpose of constructing any work under this franchise, an application in writing, together with maps and plans showing the location, character and dimensions of the work proposed to be done shall be filed with the proper city board or officer and the location of the work or works proposed shall be made satisfactory to said board or officer and a

written permit given before the work shall be commenced. The work shall be done under the direction of said board or officer. Said board or officer shall appoint the inspectors deemed necessary, who shall be present and give directions relating to the work of taking up the pavement, excavation, backfilling and replacing the pavement. Said board or officer may also appoint such other inspectors on any part of the work as deemed necessary. In case of improved streets, under guarantee of maintenance, said company, in addition to the permit from said board or officer, shall arrange with the contractor guaranteeing said street, to restore and maintain said pavement in accordance with the terms of the guarantee, providing for the restoration of the pavement over trenches opened by permit of the Executive Board or other proper officer in charge of streets. The wages of all necessary inspectors, together with all other incidental costs of inspection, shall be paid by said company monthly to the officer or board having charge of the streets of said city, on written demand of such officer or board, accompanied by a detailed statement of the expenditures incurred by said city or department of streets on account of such wages and costs of inspection. The presence of any inspector shall not relieve the said company in any manner from its obligation to restore and maintain said street pavement and surface to its original condition. In all cases where a pavement having a concrete base is opened, Portland cement concrete, made in the best manner, of the best quality of material approved by said board or officer, mixed one part cement, three parts sand, and six parts broken stone, shall be properly united with the old foundation and the pavement relaid thereon, after the same shall have sufficiently set. All work done, and materials furnished, shall be subject to the approval of the proper board or officer in charge of streets. The pavement shall be restored to as good condition in all respects as before opening, and shall be maintained in such condition for five years. Maps and plans of all new work done, made as specified by the city engineer, shall be filed in the city engineer's office within sixty days of the completion of the work in any street done under this franchise.

9. The company shall furnish to the city such bond or bonds of indemnity as may be, from time to time, required for the faithful performance by it of all the provisions of this franchise, or of any agreement to be entered into between the city and the said company in pursuance thereof; also to indemnify the city or any of its boards or officers against all damage, injury, loss or liability on account of any act or neglect of the said company. Such bond to be in such sum or sums as may be determined by the Common Council, and to be approved as to its form by the Corporation Counsel, and as to the sufficiency of the sureties by the mayor. Failure or neglect on part of said company to furnish such bond or bonds shall, at the option of the Common Council, be deemed a forfeiture of all its rights under this franchise.

10. All poles, wires, cables, conduits and all the appliances and structures of every kind, in, upon, or under any street, alley, lane, or square, or public or private place, shall be at all times kept and maintained in good order and repair.

11. The company shall not, during the life of this franchise, charge to any subscriber, within the present city limits, for the use of said telephones, any sum in excess of \$48 per year per instrument upon metallic circuits, and unlimited use day and night.

12. The company to which this franchise is granted shall give to the city of Rochester, free of expense, one telephone for each of its business offices, not exceeding, however, forty telephones in all, the places in which the same are to be located to be determined by the Common Council of the city. All telephones furnished for use of the city shall be upon metallic circuit, long distance transmitters, and the service shall be unlimited, day and night, and shall be of as good service as furnished to its regular subscribers; any additional telephones used by the city shall be at the rate of not exceeding forty dollars a year.

13. If conduits shall be built upon any street upon which poles have been erected by the said company, said poles shall be immediately removed at the expense of the company.

14. This franchise shall not be transferred to any competing corporation now in existence, including the Bell Telephone Company of Buffalo, N. Y., The American Bell Telephone Company or any of its lessees or branches, or to any corporation that may be formed by the consolidation or merging of said existing corporations, nor shall it be sold or transferred to any new corporation that may be hereinafter formed, unless the same shall continue to be used by said new corporation in competition with the Bell Telephone Company, the American Bell Telephone Company or any of its lessees or branches or any other company doing business in said city. Upon failure at any time to live up to and observe the terms of this clause of the franchise all rights granted by the franchise will cease and determine at the option of the Common Council.

15. This franchise is also granted subject to all ordinances of the Common Council and rules and regulations enacted or to be enacted by said Common Council or said Electrical Committee by virtue of the authority given them under the City Charter. It is also granted subject to such regulations as the board or officer having control of the streets of said city may hereafter prescribe, looking to the proper, safe and convenient construction, maintenance and use of electrical conductors in said city. Such rules and regulation may among other things relate to the erection, maintenance or removal of poles, the location and stringing of wires, the construction and maintenance of conduits and manholes, the manner of placing and maintaining electrical conductors in such conduits and manholes, and to other details of the construction, operation and maintenance of subways, conduits, poles, support and electrical conductors and appliances generally in said city.

16. The city may revoke and annul this franchise whenever it shall be determined by any court of competent jurisdiction that said company has failed in any material and substantial respect to comply with any one of the conditions, stipulations or provisions herein contained, unless said company shall immediately upon such determination being made comply therewith. This, however, shall not affect the right of

the city to declare the franchise forfeited for a failure to comply with sections nine and fourteen herein.

QUALIFICATIONS REQUIRED OF APPLICANTS FOR A TELEPHONE FRANCHISE IN THE CITY OF ROCHESTER.

1. Each applicant must be a regularly incorporated telephone company, authorized to build and operate a telephone system in the city of Rochester, and having a capital of at least \$150,000.00, twenty per cent. of which has been actually paid in and on deposit in a bank or banks in the city or Rochester to its credit.

2. At least eighty per cent. of the entire capital stock of such company must be actually and in good faith owned or subscribed for by residents of Rochester, and no part of such stock or such subscriptions shall have been hypothecated or pledged as collateral security to any person or company or have been transferred to the holder or holders for the purpose of making up said eighty per cent. or any part thereof or pursuant to any agreement or understanding to sell or transfer any of such shares, to any person or corporation whatsoever.

3. At least three-fourths of the directors of such company must be residents and taxpayers of the city of Rochester.

4. Said company shall not, nor shall any of its officers, directors or stockholders or stock subscribers have any contract relation, direct or indirect, express or implied, with the Bell Telephone Company of Buffalo, the American Bell Telephone Company or any licensee or branch thereof. It must also be made to appear that no one of the directors, stockholders or stock subscribers of said company has had any communication directly or indirectly with said Bell Telephone Company of Buffalo, the American Bell Telephone Company or any licensee or branch thereof, or with any officer, agent or attorney thereof, with a view to defeating the granting of a franchise in said city to a competing corporation or with a view to imposing burdensome conditions upon such competing corporation.

5. Compliance with each of the foregoing provisions on the part of each applicant must be shown by the affidavit of all of the directors thereof.

GRANTING OF FRANCHISE AND REVOCATION THEREOF.

Said franchise shall be granted subject to immediate revocation upon the failure or neglect of the applicant to comply with either or any of the following conditions:

1. The work on such telephone system must be actually begun within one month from the granting of such franchise and shall be prosecuted diligently and continuously until the same is completed.

2. The company receiving such franchise must have and exhibit to the mayor within two months from the granting of said franchise bona fide subscriptions for at least fifteen hundred telephones in said city on five years' contracts.

3. Such telephone system must be in actual operation, with at least two thousand telephones, within fifteen months from the granting of said franchise.

Upon the failure of the corporation to which said franchise shall, in the first instance, be awarded, to comply with either or any of said conditions, the franchise

shall be immediately revoked, anything in said franchise contained to the contrary notwithstanding.

Schell to erect frame building corner of Genesee and Bartlett streets; of Henry F. Steinkamp, to erect wooden building at 245 Flint street; of Henry Hastings to erect frame building at No. 95 Kenwood avenue. Referred to Building Committee and Fire Marshal, with power to act.

Ald. Wilson presented a petition of the owners of more than one-half of all the land fronting on Kenwood avenue, requesting this Common Council to levy a tax upon all the lands, so fronting, of 6 cents per foot front, for the year 1899, for the purpose of defraying the expenses of making the repairs and improvements of such park according to the provisions of chapter ninety-six of the laws of 1880, as amended by chapter 410 of the laws of 1889, and assigning H. B. Allen of this city to receive the amount of said tax, when collected, and thereupon moved the adoption of the following:

Resolved, That the City Assessors be, and they are hereby directed to assess and that there be assessed 6 cents per foot front, upon all lands fronting on Kenwood avenue, and that the same be added to the general city tax for 1899, and to be apportioned equally upon all such lands so fronting upon said park; and the City Treasurer is hereby directed to pay the sums thus assessed, when collected by him, to H. B. Allen, he being the person designated to receive the same by such owners; and the clerk is hereby directed to transmit to said Assessors and Treasurer a certified copy of this resolution.

Adopted by the following vote:

Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—19.

By Ald. Wilson—Petition of Charles Doyle asking to pay city taxes for the years of 1891, 1893, 1898 upon property situated upon Mansion street with 6 per cent. interest. Referred to the Assessment Committee.

Also applications of J. Emery Williamson and Alfred Hall for appointment as Commissioners of Deeds. Referred to the Law Committee.

By Ald. Reichenberger—Petition of Joseph Miller, to erect frame building on Hague street. Referred to Building Committee and Fire Marshal with power to act. Also petition for sewer in Ames street, from Jay street to Maple street. Referred to Engineer to prepare an ordinance; and an application of John A. Burns for appointment as Commissioner of Deeds. Referred to the Law Committee.

COMMUNICATIONS FROM THE MAYOR.

By the Clerk—

Mayor's Office, March 22, 1899.

To the Common Council of the City of Rochester:

I hereby return without my approval final ordinance No. 7,674 for Thrush street improvement, for the following reasons:

As stated in the veto of the Caledonia avenue improvement, the city has claims against the Rochester Railway Company amounting to \$100,000 for the company's share of the expense of street improvements on streets in which the lines are laid. The company disputes liability for these improvements. The city has found it necessary to cause to be drafted in its behalf and sent to the Legislature for passage several bills authorizing it to make assessments against the railway company for this amount.

The Caledonia avenue ordinance was repealed and thus was added another large sum to the already too large amount which we have not yet collected from the company.

More than \$400,000 of expenses for local improvements is tied up and the city will be unable to collect it until the question of the company's liability is determined. The city's notes have been issued for the greater part of this amount and the city's debt increased to that extent. It would seem to be exercising but ordinary prudence for the city to stop ordering improvements, for a time at least, on streets on which car lines are laid and avoid adding further to the city's debt; and also avoid further complications, as claims against the company are not preferred under the railroad law and it is possible that the city at large will have to pay the share of the street railway company.

Respectfully yours,

GEO. E. WARNER, Mayor.

On motion of Ald. Tracy action was postponed until the next regular meeting.

By the Clerk—

Mayor's Office, March 22, 1899.

To the Common Council of the City of Rochester:

I hereby return without my approval the resolution adopted at your meeting of March 14, 1899, transferring Frank Childs from the city engineer's office to the fire marshal's office, at a salary of \$60 a month, for the following reasons:

The fire marshal has having a clerk, the resolution increases the salary list \$720 a year. The civil service rules provide that a transfer may be made from one office or department to a similar position in another by the mutual consent of the heads of such offices or departments.

Mr. Childs has not been employed in the engineer's office since August, 1898. I believe the transfer in question cannot be made under such circumstances. Mr. Childs' duties in the engineer's office were those of a chairman and copyist. I think that the duties he performed in that office were not similar to those that would be required in the fire marshal's office and therefore I think that the transfer is not of the kind contemplated by the civil service regulations.

Respectfully yours,

GEO. E. WARNER, Mayor.

The chairman stated the question to be, Shall the resolution stand notwithstanding the objections of his honor, the Mayor.

The resolution was lost by the following vote :

Nays—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—19.

By the Clerk—

Mayor's Office, March 22, 1899.

To the Common Council of the City of Rochester :

I hereby return to you without my approval the resolution adopted at your meeting of the 14th inst., directing that certain notices be printed in three German newspapers, and allowing \$750 per year to each paper for the work, for the following reasons :

To carry out the provisions of this resolution would increase the cost of printing those notices \$750 a year. This was the amount paid last year for this work to each of the two German newspapers.

I am of the opinion that the cost of printing the city notices and official proceedings ought not to be increased. It has not been the custom to print notices in all the English papers and there is no reason why they should be printed in all the German papers. This question ought to be reconsidered and the printing of the notices provided for in some other manner.

Respectfully yours,

GEO. E. WARNER, Mayor.

COMMUNICATIONS & REPORTS FROM
OTHER CORPORATION OFFICERS,
BOARDS AND DEPARTMENTS.

By the Clerk—

Rochester, N. Y., March 28, 1899.

To the Hon. the Common Council :

Gentlemen—The communication of the City Engineer dated Jan. 17, 1899, and published at page 13 current proceedings, relative to the condition of the present sewer in Thompson street and the complaint of the Ham Mfg. Company that the sewer facilities in Thompson street are entirely inadequate, referred back to this Board, is respectfully returned to your honorable body with the following recommendations : The chairman of our Board, together with the City Engineer have met Mr. Ham with reference to the matter of improving the sewerage in Thompson street, and it is the opinion of the chairman of our Board and the City Engineer that the only proper and permanent means of relief for the Thompson street sewer is the enlarging and deepening of the Lorimer street sewer as recommended by the City Engineer. We therefore refer the matter to your honorable body for such action as you may see fit to take.

Respectfully,
CHARLES M. BEATTIE,
Clerk Executive Board, per F.

Referred to the Committee on Streets and Sewers.

By the Clerk—

City Engineer's Office,
Rochester, N. Y., March 28, 1899.

To the Honorable the Common Council of the City of Rochester:

Gentlemen—In the Front street sewer matter, a partial report of which was made to your honorable body on August 30, 1898, and at that time further time given for the completion of the report, I beg leave to say: That the investigation has been continued as to the best method of relieving the cellars in Front street from back water from the present sewer. There are two plans by which this may be done.

First—By deepening the present sewer. The sewer, as stated in a former report, is four feet in width and six feet in height, and at its minimum depth at bottom 13.44 feet below and at its depth at bottom 13.44 feet below the surface of the street. The excavation is in solid rock. The sewer should be deepened in order to afford permanent relief at least five feet, and at the same time the sewer should be enlarged to about six feet by six feet. This work would block up Front street for at least three months.

Second—The second plan would be to build an entirely new sewer in tunnel at a sufficient depth below the present sewer so as not to interfere with it. This tunnel could commence at the end of the present old tunnel in the gas works yard, near Central avenue, at which point the bottom of the tunnel is about 36 feet below the surface. The tunnel could be carried through Front street with shafts at sufficient distances to allow of the proper construction of the tunnel and could be done at any time without materially interfering with the traffic on the street and without disturbing any pavement which might be constructed, except for a very small area immediately over the shafts. It would not be necessary to line this tunnel, except with an invert, and the drainage carried by the present sewer could be taken into it at the shafts, so as to relieve the present sewer from all the storm water coming from other points than in the street. This would give an effective depth for drainage to the present sewer of at least five feet more than it now has in time of high water. The proposed tunnel could also be extended, if deemed desirable, to the intersection of Exchange and West Main streets, and the water from the Exchange and West Main street sewers taken in at this point, thus relieving all the cellars in this section of the city completely from all back water at any time.

The cost of the second or tunnel method would not, in my judgment, exceed that of deepening the sewer. In either case, I should estimate the cost at from \$15 to \$18 per lineal foot of tunnel or sewer.

The advantages of the tunnel over the open cut would be that the traffic on the street would not be interfered with and the pavement not disturbed, except for a very small space immediately over the shafts. The tunnel would also provide a very much better outlet than could be afforded by deepening the present sewer, as at first suggested.

I should therefore recommend that whenever it is determined to deepen the sewer in Front street that it be done by extending the tunnel as described herein and not by taking up and lowering the present sewer. It would not be necessary

to do this work previous to the paving of the street. I would also add that the sewer has recently been examined again by Mr. Freidel and no obstructions found in it.
Respectfully submitted,
E. A. FISHER, City Engineer.

To the Honorable, the Common Council of the City of Rochester:

Gentlemen—I, the undersigned, Elizabeth P. Siebert, owner of the property hereinafter described, to hereby formally dedicate to the city of Rochester for the purpose of a public street, all that tract or parcel of land situate in the city of Rochester, County of Monroe and State of New York, described as follows: Being a strip of land lying between the highway called Siebert place, on the southerly side thereof, and the adjoining lands, for a distance from the center of North Clinton street to the center of Schaumann street. Being a narrow strip one foot or more in width and being the whole or part of the same premises reserved to herself by Elizabeth P. Siebert, party of the first part.

Hereby intending to convey the strip of land formerly owned by Joseph May and wife, or either of them.
Said Elizabeth P. Siebert further certifies that she is the owner of the property herein described and has the right to dedicate the same to the said city as aforesaid, and that the same is free from all incumbrances by the city as a public street.

All of the above is respectfully submitted with the request that said property be accepted by the city as a public street.

ELIZABETH P. SIEBERT.

City Clerk.

Ordered received, filed and published.
By the Clerk—

Rochester, N. Y., March 28, 1899.

To the Honorable, the Common Council:
Gentlemen—At a meeting of the Board of Health, held March 27, 1899, the following action was taken and unanimously adopted:

By the Mayor—Whereas, G. Wilber Burne has filed liens for work done in the collection and disposition of garbage in the months of July, August, September, October, November and December, 1898, amounting to eight thousand three hundred two dollars and seventy-five cents (\$8,302.75), and A. A. Stout & Co. have filed liens for similar work during the same time, amounting to four thousand two hundred thirty-five dollars and fifty cents (\$4,235.50), making a total of twelve thousand five hundred thirty-eight dollars and twenty-five cents (\$12,538.25) to foreclose which lien an action has been brought and is now pending in the Supreme Court, and,

Whereas, Said lienors have expressed a willingness to discontinue said action without costs and to withdraw their said liens and cancel the same as against the City of Rochester, provided they were paid to apply on the amounts due them for work done in the said months, the sum of twelve thousand dollars (\$12,000), and look to their employer, Hascal A. Hogel, as receiver, and not the city for the balance coming to them for work done in said months, and

Whereas, Said Hascal A. Hogel, as receiver, has filed with the clerk of this Board his stipulation duly acknowledged, consenting that payments up to the full amount of said liens might be made to said lienors and charged as having been paid to him, all such payments to be without prejudice to the city or the Board of Health in its litigation with said Hascal A. Hogel, as receiver.

Resolved, That the claims of said lienors for work done in the months of July, August, September, October, November and December, 1898, be allowed and audited at the sum of twelve thousand (\$12,000) dollars and that the Common Council of the City of Rochester be requested to audit and allow said claims at that sum and to direct the payment thereof, such payment to be made upon the certificate of the attorney for the Board of Health that the proper papers and orders to protect the city and board have been duly filed, and also provided that satisfactory evidence shall be produced to the attorney for the Board of Health that the men who have actually labored upon this contract have been paid the amounts of money due them for such labor, and that such payments be made

subject to any claim for damages by reason of the granting and vacations of the injunctions granted in the two actions brought by Hascal A. Hogel against the City of Rochester, and further,

Resolved, That the said lienors be paid on their claims for the months of January and February at the rate of two thousand dollars (\$2,000.00), subject to the same conditions as the payment of the twelve thousand dollars (\$12,000.00) here above resolved upon; such payment to be made when there are funds available for that purpose.
Adopted unanimously.

I hereby certify that the foregoing is a true copy from the minutes of a resolution of the Board of Health, passed at a meeting held March 27, 1899, six members being present and all voting for the same.

GEORGE BELKNAP, Clerk.

March 28, 1899.

Ordered received, filed and published.

By the Clerk—

March 28, 1899.

To the Honorable, the Common Council:

Gentlemen—In order to meet the acceptances of the Executive Board due April 1st and 15th will require \$68,000.00.

It will also be necessary to renew the city's notes numbered 1,272 and 1,273, due April 6th and 18th, for \$35,840.00 and \$40,933.33 respectively, making the total requirements on account of Local Improvements Fund for the month of April \$144,596.74.

The cash in this fund is hardly enough to meet past due acceptances, which are liable to be presented at any time.

There is still delay in giving the office any new rolls for collection.

So under the circumstances will be obliged to ask your authority for the issuing of the city's notes for an amount not to exceed \$140,000.00.

As the bulk of the city's notes issued on account of local improvements will come due the last of October, I think it would be good policy to have this issue mature at the same time, with the hope that the city will then be in position to issue its bonds, and so retire the local improvement notes that have been so long with us.

Respectfully submitted,

S. B. WILLIAMS, Treasurer.

Ordered received, filed and published.

By Ald. Rauber—Resolved, That the City Treasurer be, and he hereby is, authorized and directed to issue, as may be necessary, under authority of sections 80 and 81 of the City Charter, the city's note or notes, for an amount not exceeding one hundred and forty thousand dollars (\$140,000.00); said note to run for a period not exceeding seven (7) months; to be negotiated under the direction of the Finance Committee, and countersigned by the Chairman thereof; interest or discount to be charged to the Local Improvement Fund, and the proceeds credited to the Local Improvement Fund, to be used for the renewal of the city's notes, numbered 1,272 and 1,273, due April 6th and 18th, and also for the payment of acceptances due April 1st and 15th.

Adopted by the following vote:

Ayes—Ald. Tracy, Callhan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Fauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—19.

By Ald. Rauber—Resolved, That the City Treasurer be, and he hereby is, authorized and directed to issue, as may be necessary, in anticipation of taxes to be levied but uncollected, under authority of sections 80

and §1 of the City Charter, the city's note or notes, for an amount not exceeding twenty thousand dollars (\$20,000); said note to run for a period not exceeding two months; to be negotiated under the direction of the Finance Committee, and countersigned by the Chairman thereof; interest or discount to be charged to the Contingent Fund, and the proceeds credited to the Fire Department Fund.

By Ald. Rauber—Resolved, That the foregoing bills, pay rolls and estimates of the Executive Board's departments, having been certified by said Board and approved by the City Auditor and Finance Committee be, and they hereby are, approved for payment as reported by the Finance Committee.

Adopted by the following vote :
Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Earnst, Mead, Judson, Wilson, Reichenberger—19.

By Ald. Reichenberger—
Rochester, N. Y., March 28, 1899.
To the Honorable, the Common Council of the City of Rochester :

Gentlemen—Your Map and Survey Committee, begs leave to submit the following report, relative to the salaries of the assistants in the office of the City Engineer, as directed by resolution of your Honorable Body at the meeting of March 14th :

The total amount of the salaries of said assistants employed in the ordinary work of the City Engineer's department was fixed in said resolution at the sum of \$17,000.00 for the ensuing year. We recommend that the classification of the various positions in the regular force remain substantially the same as last year, and that the salaries set opposite the said positions be paid monthly, it being understood that such classification is for the purpose of designating the various positions in the City Engineer's office only, and is not intended in any way to interfere with the duty of the City Engineer in assigning any employee to such work as he deems best for the interest of the city :

	Per Month.
One first assistant	\$125 00
One chief clerk	83 33
One chief draughtsman	116 66
One second draughtsman	70 00
One third draughtsman	30 00
One fourth draughtsman	60 00
One second assistant city survey dept., also construction work....	106 66
One office assistant	83 33
One field assistant	70 00
One transitman	50 00
One rodman	65 00
One chainman	48 33
One third assistant, department of streets and sewers.....	100 00
One transitman	66 66

One rodman	65 00
One fourth assistant, department of streets and sewers	75 00
One assistant	70 00
One rodman	60 00
One chainman and copyist.....	40 00

We further recommend that W. B. Sackett be transferred to the position of index clerk, taking the place of George E. Hatch transferred to the position of chief clerk.

W. REICHENBERGER,
W. N. TRACY,
LEWIS EDELMAN,
W. ERNST,
JAS. H. CASEY,
STEPHEN RAUBER,
Map and Survey Committee.

By Ald. Reichenberger—Resolved, That the foregoing recommendations of the Map and Survey Committee, relating to the assistants in the City Engineer's office and the salary list of the same be, and the same are, hereby adopted.

Adopted by the following vote :
Ayes—Ald. Tracy, Cahhan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—19.

By Ald. Ward—
Rochester, N. Y., March 23, 1899.

To the Hon. the Common Council :
Gentlemen—Your Assessment Committee beg leave to make the following report :
In the matter of the petition of Mary E. McRoden, we recommend that the same be granted.

Respectfully submitted,
WILLIAM WARD,
FRANK J. RITZ,
W. ERNST,
W. C. GREEN,
T. W. FORD,
Assessment Committee.

Ordered received, filed and published.

By Ald. Ward—
To the Hon. the Common Council of the City of Rochester :

The petition of Mary E. McRoden respectfully shows, that she is the owner of premises known as lot 84 of the Genesee Street Co-Operative Association tract, on Genesee street in the Nineteenth ward ; that the general city taxes for the years from 1877 to 1897 inclusive, are unpaid and are owned by the City of Rochester, as appears from the annexed tax search and bills. That your petitioner now has an opportunity to sell said premises for a sum which is less than the amount which said taxes with interest at 12 per cent. would amount to.

Your petitioner begs leave to pay said taxes upon such terms as to interest and time as your honorable board may allow.

MARY E. McRODEN.

Ordered received, filed and published.

By Ald. Ward—
Resolved, That Mary E. McRoden be allowed to pay the general city taxes owned by the city against her premises for the years from 1877 to 1897 inclusive, known as lot 84 of the Genesee Street Co-Operative Association Tract, on Genesee street in the Nineteenth Ward, with interest at the rate of 6 per cent. per annum, together with necessary costs and expenses and charge the balance to erroneous assessments.

Adopted.

By Ald. Mead—
Rochester, N. Y., March 28, 1899.

To the Hon. the Common Council :
Gentlemen—Your Law Committee would respectfully report as follows :
In relation to the judgements against the City of Rochester held by the Miller Brew-

ing Company, arising out of an action brought for the diversion of a stream of water from their property, which matter was referred to your committee at the last meeting of the Common Council, your committee would report, that they have made an investigation, and find that all legal proceedings in the matter have been taken to date, that the judgments have been affirmed by a decision of the Court of Appeals, and that no recourse is now left except that the city pay the amount thereof. We find that the total amount of judgments and interest to this date amount to the sum of \$7,601.26, and recommend that the same be paid, and that the clerk be authorized to draw an order upon the city treasurer from the contingent fund for the payment of said judgments to the said Miller Brewing Company, or to Perkins & Hays their attorneys upon the filing of proper satisfactions, releases and discharges with the corporation counsel, and his certificate that the same have been filed.

In relation to the matter of advertising for printing in accordance with the resolution adopted by your honorable body at a meeting thereof held on the 14th day of March, we would report that such advertisement has been ordered published in the Union and Advertiser and the Rochester Herald for five consecutive days, and that bids be presented in writing and filed with the chairman of your committee not later than the 4th day of April, 1899, for action, and that a report thereon will be made at the next regular meeting of the Common Council.

In relation to the resolution of Ald. Ernst referred to this committee at a meeting of the Council held on the 28th day of Feb., 1899, providing for the ratification of the arrangement made between the Board of Health and Thomas Holohan in relation to the collection of garbage, your committee would report that it has considered this matter and had before it the attorney for the Board of Health and the attorney for Mr. Hogel, the receiver; that the attorney for the Board of Health has stated that in his opinion the Board of Health has no power or authority to make a contract for the collection of the garbage, and that said power belongs exclusively to the Common Council. Your committee deemed it improper to report upon the said resolution at the present time, and would therefore recommend that the entire matter in relation to the garbage collection and contracts for the same be referred to the law committee for the purpose of examining the same and making a report to the Common Council at its next regular meeting in relation to the status thereof.

In the matter of the claim of Anna B. Neal against the City of Rochester, your committee would report that the corporation counsel has employed experts to investigate and examine into the same, and that a report has been made to the committee; that the attorney for Mrs. Neal appeared before the committee at a meeting thereof held to-day and that by an arrangement between said attorney and the corporation counsel, the matter was held open until the next meeting of the Law Committee for the purpose of making a report thereon.

Your committee recommends the appointment of the following as Commissioners of Deeds : Howard W. Sneek, John Barnett, Otto C. Popp, Ferdinand Roeser, John J. Powers, Mabel F. Powers, William M.

Molloy, Henry Kleindeinst, Henry J. Schaad, Frank M. Hills, John L. Sage, Anna D. Pike, Edward Lynn, Geo. W. Colburn, K. M. Hanam, Harry Denbow, Geo. H. True, John Stephany, Albert E. Hoeft, Anthony Ryan, Jr., S. D. Raynor, Michael J. Isselhard, A. Dix Bissell, Clarence Aikenhead, Emma E. Williams, Henry Martin, Robert C. Brown, W. D'Orville Doty, James F. Buckley.

Respectfully submitted,

By Ald. Wilson—

To the Honorable, the Common Council of the City of Rochester :

Gentlemen—Your Public Improvement Committee presents herewith a final supplemental list of proposed changes in street names.

The duties assigned your committee have been arduous, and at times disagreeable and trying, but we feel that the work has been done in a thorough manner and for the best interests of the city.

Owing to the lax manner in which names have in the past been given to streets, regardless of proper designations, and overlooking the fact that other streets in the city have the same name, or a name very similar, the conditions had become very annoying and inconvenient.

While we do not claim that all of the evils have been remedied, we believe that conditions will be greatly improved by the changes recommended by your committee. Your committee recommended that the renumbering of houses be pushed forward as fast as possible and that a uniform system of street signs be adopted and signs placed on all street corners in the city.

If the recommendations of your committee are carried out we believe they will meet the hearty approval of all citizens; and the streets of the City of Rochester, in the matters above referred to, will be in better condition than ever before.

Respectfully submitted,

**ACTION ON ORDINANCES.
 FIRST ORDINANCES.
 CONSTRUCTING APPROACHES TO THE
 ERIE CANAL BRIDGE AT MON-
 ROE AVENUE.**

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of constructing approaches to the Erie canal bridge at Monroe avenue.

Adopted.
 The Engineer submitted as such estimate, \$7,000.00.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The construction of a Medina stone pavement, with concrete foundation, from a point near the westerly line of the roadway in Dartmouth street to the bridge

over the Erie canal; also from the east end of said bridge to a point about 150 feet easterly therefrom; this portion may be of asphalt. Also the construction of an approach from Field street, said approach to commence at a point about 100 feet southerly, in Field street, from the southeast corner of said canal bridge and running thence northerly to the pavement in Monroe avenue. Also the reconstruction of the sidewalks and the building of new sidewalks where required. The walks shall be generally five feet in width. The width between curbs on Monroe avenue shall be generally the same as the present width, and the width between curbs of the approach from Field street shall be generally 30 feet. So much of the present curb and stone paving that may be found to be suitable may be used. The curb shall be properly connected with all intersecting streets, alleys, and driveways by new curb. The pavement shall also be carried to the street line where deemed necessary by the Executive Board and City Engineer to make the said pavement complete. The grade of the pavement northerly from the bridge shall not exceed 5 feet per 100 feet and be properly rounded off for a distance not less than 10 feet from the back walls of said bridge. The grade of the pavement southerly from the bridge, in Monroe avenue, shall not exceed 4 feet per 100 feet, and be properly rounded off for a distance not less than 10 feet from the back walls of said bridge. Excepting therefrom that portion of the street occupied by the tracks, the rails of the tracks and two feet outside the rails of the tracks of the Rochester Railway Company. Also the acquirement of the necessary right of way on the south side of Monroe avenue, westerly of the Erie canal, between the lines of Monroe avenue, as now located and shown upon a map in the City Engineer's office. Also the acquirement of the necessary right of way on the southerly side of the canal, at the southeast corner of Monroe avenue and Field street, being a strip of land averaging about 25 feet wide from Field street to Monroe avenue.

And the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$7,000.00, which, being deemed reasonable, is hereby approved.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the City, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit :

One tier of lots and parcels of land on each side of Monroe avenue from Goodman street to the Erie canal. Also the following described additional territory: Beginning at the northerly line of the Erie canal in Monroe avenue; thence easterly along the northerly line of said Erie canal to the Culver road; thence southerly along said Culver road to Monroe avenue; thence southerly on the easterly line of the city to the southeast corner of the city; thence westerly on the southerly line of the city to Field street; thence northerly along said Field street and including one tier of lots and parcels of land on the west side of said Field street to the place of beginning in Monroe avenue.

Adopted.
FORD STREET CEMENT WALKS.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this

Council the expense of the construction of walks on Ford street.

Adopted.

The Engineer submitted as such estimate \$2,200.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz:

The construction of a Portland cement sidewalk 5 feet wide generally in Ford street, from West avenue to Tremont street, except where good flag or cement walks now exist, which may be relaid if not conforming to the proper grade and alignment.

And the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$2,200, which being deemed reasonable, is hereby approved.

Resolved, further, that the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the city, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of Ford street, from West avenue to Tremont street.

Adopted.

The resolution as amended was then adopted.

By Ald. Casey—
Rochester, N. Y., March 28, 1899.
To the Honorable, the Common Council of the City of Rochester:

Gentlemen—At the regular meeting of the Board of Police, held March 27, 1899, the following resolution was unanimously adopted:

By Commissioner Chapin—Whereas, On account of absence by sickness, vacations, nights off, etc., there are many vacancies in the list of night patrolmen; and

Whereas, It is very desirable that the full number of night patrolmen be on duty at that time; therefore,

Resolved, That this board appoint, subject to confirmation by the Common Council, six temporary patrolmen, who shall do duty at night, in place of absentees, and draw salary at the rate of \$65 per month, and who shall be appointed to permanent positions as vacancies in the regular force take place, and further,

Resolved, That the Civil Service Board be and is hereby requested to certify to this board the names of the eligibles to appointment as patrolmen; and further,

Resolved, That the clerk of this board transmit a copy of this resolution to the Common Council.

I hereby certify that the foregoing is a true copy from the minutes.

Respectfully submitted,

RICHARD CURRAN,

Police Clerk.

Ordered received, filed and published.

By the Clerk—

AN ACT to authorize the Common Council of the City of Rochester to raise money for the purpose of purchasing sites and erecting new public school buildings thereon in such city.

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

Section 1. The Common Council of the city of Rochester shall cause to be raised the sum of one hundred thousand dollars for the purpose of purchasing necessary sites and erecting new school buildings thereon in such city, and the board of education of the city of Rochester shall prepare and adopt suitable plans and specifications for such buildings and award contracts for the proper construction thereof, as provided in the charter of such city, and cause such construction to be commenced on or before the first day of July, eighteen hundred and ninety-nine.

Sec. 2. The said amount of one hundred thousand dollars, required to be raised by this act, shall be either levied by the Common Council in the general city tax levy of eighteen hundred and ninety-nine, in addition to the amount certified by the common council to the board of education, as required by title six of the charter of the city of Rochester; or shall be raised by the issue of bonds of such city, by the common council thereof, in the amount above specified. The bonds so issued shall be countersigned by the mayor and president of the common council, shall be payable at such time and sold in such manner as the common council shall determine, at a rate of interest, however, not exceeding four per centum, and at not less than the par value thereof.

Sec. 3. The amount raised as provided in this act shall be used only for the purposes specified in section one hereof. If the

said amount of one hundred thousand dollars is levied in the general city tax levy, such levy shall be included in the levy of the other city taxes for the year eighteen hundred and ninety-nine, and the amount so levied shall be collected at the same time and in the same manner as other general city taxes are collected, and when collected shall be placed to the credit of the building fund of the board of education, and used by such board for the purposes specified in section one hereof. If such amount is raised by levy, the common council of such city shall, when necessary, raise by loan in anticipation of the taxes so levied, the whole or any part of such amount. If such amount is raised by the issue of bonds as provided in the preceding section, such bonds shall be sold on or before the first day of July, eighteen hundred and ninety-nine, and the amount realized therefrom shall be placed to the credit of the building fund of the board of education for the purposes specified in section one hereof.

Sec. 4. This act shall take effect immediately.

The act was disapproved by the mayor and approved by the Common Council by the following vote:

Ayes—Ald. Calihan, Ford, Green, Adams, Beard, Casey, Steele, Kelly, Ernst, Mead, Judson, Wilson—12.

Nays—Mayor Warner, Ald. Tracy, Rauber, Edelman, Selye, Ward, Ritz, Pauckner, Reichenberger—9.

By the Clerk—

AN ACT to amend the charter of the city of Rochester, in relation to local improvements.

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

Section 1. Section one hundred and seventy of chapter fourteen of the laws of eighteen hundred and eighty, entitled "An act to further amend chapter one hundred and forty-three of the laws of eighteen hundred and sixty-one, entitled 'An act to amend and consolidate the several acts in relation to the charter of the city of Rochester,' and to consolidate therewith the several acts in relation to the charter of said city," as amended by chapter twenty-eight of the laws of eighteen hundred and ninety-four, as amended by chapter sixty-three of the laws of eighteen hundred and ninety-eight, is hereby amended so as to read as follows:

Sec. 170. Payment of public improvements.—Whenever by order of the common council any new street or alley shall be laid out, opened or worked in said city, or any sewer, tunnel, drain, vault or bridge shall be extended to or beyond the city limits, or any other public improvement is to be made, it shall be the duty of the common council to determine what portion, if any, of the expense thereof ought to be paid from the public treasury, and what portion, if any, ought to be paid by local assessment, and to direct that the whole expense to be paid by local assessment be assessed upon all the lots and parcels of land to be benefited thereby in proportion to the benefit which each will derive therefrom. The common council may maintain, improve, embellish as it may deem advisable and protect any public park, street, square, or area in said city, and grade, sewer and pave the streets and alleys thereof, and make, grade and improve sidewalks about the same or any part thereof.

And they may cause the whole expense thereof to be assessed upon all the lots and parcels of land where the parks, streets, squares or areas are situated in proportion to the benefit which each lot or parcel will derive therefrom.

Sec. 2. This act shall take effect immediately.

The act was approved by the following vote :

Ayes—Mayor Warner, Ald. Calihan, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—19.

By the Clerk—
AN ACT to amend the charter of the city of Rochester, and to provide for the payment of local assessments in annual installments, for the issuance of bonds to defray the expenses of local improvements.

The People of the State of New York, represented in Senate and Assembly, do enact as follows :

Section 1. Section one hundred and ninety-eight of chapter fourteen of the laws of eighteen hundred and eighty, entitled "An act to further amend chapter one hundred and forty-three of the laws of eighteen hundred and sixty-one," entitled "An act to amend and consolidate the several acts in relation to the charter of the city of Rochester," and to consolidate therewith the several acts in relation to the charter of said city," as amended by chapter thirty-five of the laws of eighteen hundred and eighty-seven, as amended by chapter five hundred and sixty-one of the laws of eighteen hundred and ninety, as amended by chapter sixty-three of the laws of eighteen hundred and ninety-eight, is hereby amended so as to read as follows :

Sec. 198. How expense of improvement paid; expense reported to Common Council; assessments how paid; Common Council may authorize bonds to be issued.—Whenever the Common Council shall determine that the whole or any part of the expense of any improvement shall be defrayed by a local assessment, the expense of such improvement shall exceed in the aggregate the sum of one thousand dollars, it may be paid one-third in cash and the balance in the city's notes payable in one and two years with interest thereon not exceeding six per centum per annum, and in case such expense shall exceed ten thousand dollars it may be paid one-third in cash and the balance in the city's notes payable in one, two, three and four years respectively with interest thereon not exceeding six per centum per annum, and the city may get its notes discounted for the above purpose. The Common Council may determine at the time of fixing the amount to be assessed of the same shall exceed one thousand dollars, that the taxpayers pay their assessments in not more than three equal payments; one-third within sixty days from the time that the treasurer shall advertise the same as hereinbefore provided; one-third within one year, and one-third within two years from the time of confirmation of such roll. And in case the amounts to be assessed, ascertained as herein provided, shall exceed ten thousand dollars, the Common Council may determine, as aforesaid, that the taxpayers may pay their assessments in not more than five equal payments, one within thirty days from the time that the treasurer shall advertise the same, as hereinafter provided and the balance within one, two, three and four years respectively, after such confirmation.

The entire expense of every local improvement assessed and paid, as aforesaid, shall be ascertained by the City Treasurer, including any damages or awards for the taking of lands, rights or easements, together with any interest paid or to accrue on the orders or notes issued by the city to pay the expense of such improvement, and interest on such sums shall be reckoned to the time the last installment of such assessment shall become due. Persons or the owners of land so assessed who shall make any payment previous to the maturity of said last installment therein shall be entitled to a discount at the same rate as is paid on the city's notes or orders issued to pay for such improvement. Instead of proceeding as hereinbefore provided in this section, whenever the Common Council shall determine that the whole or any part of the expense of any improvement shall be defrayed by a local assessment, it may at the time of fixing the amount to be assessed, determine that the assessment therefor shall be and become due and payable in any number not more than ten equal annual installments, provided, however, that at the time of fixing the amount to be assessed for improving or paving Glenwood avenue, the Common Council may determine that the assessment therefor shall be and become due and payable in any number not more than fifteen equal annual installments. Thereupon the first installment thereof shall be and become due on the first day of the second month following the month in which the said assessment roll shall have been received by the city treasurer, and succeeding payments shall be due on the first day of said month in each succeeding year. When any installment shall become due and payable, the treasurer shall collect and receive, in addition to the amount due, interest thereon at the rate of five per centum per annum from the date of the confirmation of the confirmation of the assessment roll.

On all accounts not paid during the month in which they are due the treasurer shall charge interest at the rate of five per centum per annum. At any time after the assessment roll is confirmed, the person liable to pay such assessment may pay the entire assessment or any installment thereof, and accrued interest. The Common Council may from time to time cause to be issued bonds of the city to be known as local improvement bonds, the aggregate amount thereof not to exceed one million five hundred thousand dollars to be sold after competition upon sealed proposals at not less than par for such period as it may determine not exceeding twenty years, and bearing interest at a rate not exceeding four per centum per annum to provide the means necessary to pay all expenses incurred or to be incurred on account of local improvements, the expense whereof is to be collected in whole or in part by assessment from the property benefited; and to pay and take up all acceptance, notes and orders heretofore or hereafter issued on account of such local improvements. The proceeds of the sale of such bonds shall be paid into a fund which is hereby created and which shall be known as the local improvement fund. There shall be paid from this fund all notes, acceptances and orders heretofore issued upon account of said local improvements and not paid and all notes, acceptances and orders hereafter issued upon account of said local improvements, and all costs and expenses of said local improvements heretofore made or per-

formed, and not paid for, and all costs and expenses of such local improvements hereafter made and performed. There shall be turned over to the credit of said local improvement fund all moneys now in the hands of the treasurer collected from local assessments; and all amounts hereafter collected by the treasurer from assessments for said local improvements shall be paid into and credited to said fund. When any local improvement bonds shall become due, they shall be paid from the local improvement fund, and if there shall not be sufficient money in said fund to pay and redeem the bonds due, the balance thereof shall be paid from the city treasurer. Any surplus interest accruing in the local improvement fund may be applied to the payment of such other city debts as the Common Council may direct.

Sec. 2. The said section, as herein amended, shall not be deemed repealed by any general or other act heretofore passed, and shall remain in full force and effect until it is hereafter repealed or amended.

Sec. 3. This act shall take effect immediately.

Approved by the following vote :

Ayes—Mayor Warner, Ald. Tracy, Callahan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—20.

By the Clerk—

AN ACT to amend chapter three hundred and seventeen of the laws of eighteen hundred and ninety-one entitled an act to authorize the construction and maintenance of park boulevards in and near the city of Rochester, and provide for the cost and expense thereof, relating to the anticipation of the payment of local assessments.

The people of the State of New York, represented in Senate and Assembly, do enact as follows :

Section 1. Section nine of said chapter three hundred and seventeen of the laws of eighteen hundred and ninety-one, is hereby amended so as to read as follows :

Sec. 9. Whenever the Common Council shall have determined to make any improvement authorized by this act, the park commissioners of the City of Rochester shall have sole power to execute the work necessary and said improvement, and all matters and things appertaining thereto shall be under the control and management of the said park commissioners, and the said work may be done by said commissioners, either by contract or otherwise, as in the judgment of said park commissioners may seem best. By the Clerk—

AN ACT to levy an assessment for the cost and expense of constructing an improvement and pavement in, through and upon Court street in the city of Rochester, from South Saint Paul street to Clinton street, upon the property benefited thereby.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The sum of thirteen thousand seven hundred fifty-one dollars, and eight cents with interest thereon from the fifteenth day of April, eighteen hundred and ninety-eight, at four per centum per annum, being the cost and expense of improving and paving Court street in the city of Rochester from South Saint Paul street to Clinton street, excepting that portion thereof between the tracks, the rails of the tracks and two feet in width outside of the tracks of the street surface railroad or railroads maintained, used and operated upon the

aforesaid portion of said street, is hereby levied and assessed upon the following portion and part of said city of Rochester, to wit: One tier of lots and parcels of land on each side of Court street from South Saint Paul street to Union street.

Sec. 2. A sum not exceeding three thousand and one hundred thirty-six dollars and three cents with interest thereon from the fifteenth day of April, eighteen hundred and ninety-eight, at four per centum per annum, being the cost and expense of improving and paving between the tracks and rails of the tracks and two feet in width outside of the tracks of the street surface railroad or railroads maintained, used and operated upon Court street between South Saint Paul street and Clinton street, the amount thereof to be determined by the Common Council of the city of Rochester upon not less than ten days' notice to the owner or owners of the street surface railroad property herein assessed, is hereby levied and assessed upon the tracks, ties, rails, switches, easements and other street surface railroad property situate upon Court street between South Saint Paul street and Clinton street, and maintained and used for the purpose of operating a street surface railroad or railroads thereon.

Sec. 3. Said sums are hereby levied upon said portion and part of said city, and street surface railroad property as a tax and assessment to be collected by the city of Rochester and applied to the cost and expense of the construction of said improvement and pavement.

Sec. 4. The sums hereby levied and assessed shall be and become an assessment by the city of Rochester for a local improvement, and it shall have the same force and effect as any assessment for a local improvement made pursuant to an ordinance of the Common Council of the city of Rochester, and shall be laid, spread and collected in the same manner as such local assessments are laid, spread and collected in accordance with the provisions of the charter of the city of Rochester relating thereto, and the Common Council, the assessors, the treasurer, and all officers, boards of the city are hereby directed to proceed to lay, spread, levy and collect the sums hereby assessed in the manner provided by the charter of the city of Rochester for the laying, spreading, levying and collecting of an assessment for a local improvement, and the city of Rochester is hereby authorized and directed to pursue all remedies for the collection of the sums hereby assessed that it is authorized to pursue by its charter for the collection of an assessment for local improvements made pursuant to an ordinance of the Common Council.

Sec. 5. This act shall take effect immediately.

Approved by the following vote:
 Ayes—Mayor Warner, Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—21.

By the Clerk—

AN ACT to levy an assessment for the cost and expense of constructing an improvement and pavement in, upon and through East Main street in the city of Rochester, from Goodman street to the Culver road, upon property benefited thereby.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The sum of forty thousand sixty-three dollars and ninety-four cents

with interest thereon from the fifteenth day of May, eighteen hundred and ninety-nine at four per centum per annum, being the cost and expense of improving and paving East Main street in the city of Rochester, from Goodman street to the Culver road, excepting that portion between the tracks, the rails of the tracks and two feet in width outside of the tracks of the street surface railroad or railroads maintained, used and operated upon the aforesaid portion of said street, is hereby levied and assessed upon the following portion and part of said city of Rochester, to wit: one tier of lots and parcels of land on each side of East Main street from Goodman street to the Culver road.

Sec. 2. A sum not exceeding twenty thousand five hundred fifty-seven dollars and seventy-three cents with interest thereon from the fifteenth day of May, eighteen hundred and ninety-nine, at four per centum per annum, being the cost and expense of improving and paving between the tracks and rails of the tracks, and two feet in width outside of the tracks of the street surface railroad or railroads maintained, used and operated upon East Main street, between Goodman street and the Culver road, is hereby levied and assessed upon the tracks, ties, rails, switches, franchises, easements, and other street surface railroad property situate upon East Main street between Goodman street and the Culver road, the amount thereof to be determined by the common council of the city of Rochester upon not less than ten days' notice to the owner or owners of the street surface railroad property herein assessed, and maintained and used for the purpose of operating a street surface railroad or railroads thereon.

Sec. 3. Said sums are hereby levied upon said portion and part of said city, and street surface railroad property as a tax and assessment to be collected by the city of Rochester and applied to the cost and expense of the construction of said improvement and pavement.

Sec. 4. The sums hereby levied and assessed shall be and become an assessment by the city of Rochester for a local improvement, and it shall have the same force and effect as any assessment for a local improvement made pursuant to an ordinance of the Common Council of the city of Rochester, and shall be laid, spread and collected in the same manner as such local assessments are laid, spread and collected in accordance with the provisions of the charter of the city of Rochester relating thereto, and the common council, the assessors, the treasurer, and all officers and boards of the city, are hereby directed to proceed to lay, spread, levy and collect the sums hereby assessed in the manner provided by the charter of the city of Rochester for the laying, spreading, levying and collecting of an assessment for a local improvement, and the city of Rochester is hereby authorized and directed to pursue all remedies for the collection of the sums hereby assessed, that it is authorized to pursue by its charter for the collection of an assessment for local improvements made pursuant to an ordinance of the common council.

Sec. 5. This act shall take effect immediately.

Approved by the following vote:
Ayes—Mayor Warner, Ald. Tracy, Callahan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele,

Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—21.

COMMUNICATIONS FROM THE MAYOR.

By the Clerk—

Mayor's Office,

April 5, 1899.

To the Common Council of the City of Rochester :

I hereby return without my approval

that portion of the proceedings of the meeting of March 28, 1899, which deducts \$5,855 from the police fund and adds the same to the city property fund, for the following reasons:

The sum deducted represents among other items, the amount allowed for hay, grain, &c., for the use of the patrol horses, for the shoeing of the same, and for repairs to harnesses and wagons.

While under the charter the title to all property, both real and personal, in the possession of the Executive Board, the Board of Education and the Police Board is in the city, yet that fact does not authorize the Common Council to interfere with the possession of the property by the different departments, or deprive them of the right to use it for the purposes for which it was purchased and intended. Take the present case, the horses, wagons and harness were purchased for the purpose of enabling the police department to carry prisoners from the place where arrested to the station, and they have been used for that purpose for a number of years. All the men on the wagons are members of the regular department, and the purchase of all supplies needed in the barn have been made by the clerk of the police commissioners, and the barn and horses have been taken care of by the drivers of the department without extra expense to the city. It is now proposed to take away from the police commissioners the right to feed or care for the horses, the right to repair the wagons and harnesses and give it to the Common Council.

In my opinion, the Common Council have no legal right to do so, as it rests entirely with the police commissioners to say what method they should adopt and use in escorting prisoners from the place of arrest to the station; whether the officer should leave his beat and go with his prisoner to the station, or wheel him in on a handcart, or bring him in with the assistance of the patrol wagon. Having elected to use the patrol wagon it remains the duty of the Common Council to provide the police department with the amount necessary to feed the horses, and repair the wagons and harnesses.

Respectfully yours,

GEORGE E. WARNER, Mayor.

On motion of Ald. Rauber, referred to the Law Committee.

By the Clerk—

Mayor's Office,
April 5, 1899.

To the Common Council of the City of Rochester:

I hereby return to you without my approval final ordinances Nos. 7,688 and 7,689 for Jefferson avenue improvement, for the following reasons:

I am aware that the street is in need of the proposed improvement and that the residents thereon are in favor of the same; but the tracks of the Rochester Railway Company are laid in this avenue and the same questions will therefore be raised in regard to paying for the improvement as were raised in connection with that of Thrush street.

I, therefore, respectfully refer to the veto of the ordinance for that improvement for more particular reasons for my objections in this case and in all similar cases.

Respectfully yours,

GEO. E. WARNER, Mayor.

The chairman stated the question to be shall the resolution stand notwithstanding

the objections of his honor the Mayor. The resolution was adopted by the following vote:

Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—19.

COMMUNICATIONS AND REPORTS FROM OTHER CORPORATIONS, OFFICERS, BOARDS AND DEPARTMENTS.

By the Clerk—

Rochester N. Y., April 3, 1899.

Peter Sheridan, Esq., City Clerk:

Dear Sir—I hereby appoint Ald. Matthias J. Calihan, on all committees made vacant by the death of his brother, Martin J. Calihan.

Yours very truly,
J. MILLER KELLY,
President of the Common Council.

Ordered received, filed and published.

By the Clerk—

To the Honorable, the Common Council:

Gentlemen—I am directed by the Executive Board to inform you that the rear wall of the Pump House of the Holly system has become seriously injured by frost during the past winter, and will probably require entire reconstruction. The cost of this work has been estimated by a competent builder at \$5,500, but in view of various contingencies which cannot be foreseen it is believed that a sum of not less than \$6,000 should be available for this work.

The nature of the injury to said wall is such as to render it expedient to throw the pumping machinery in the rear entirely out of service, whereby four-sevenths of the capacity of the plant becomes unavailable until said wall is rebuilt.

This work should obviously be undertaken and completed as soon as possible, but inasmuch as your Finance Committee has, in the proposed tax levy, largely increased the amount which is to be paid on account of interest from the Water Works receipts, thereby leaving no funds available for emergencies like the present one, the Executive Board feels constrained to request that said amount required for payment of interest shall either be reduced sufficiently to allow the aforesaid repairs to be made, or else that the responsibility for any deficit that may occur in the Water Works Fund by reason of making said repairs shall be assumed by your body.

Respectfully submitted,

CHAS. M. BEATTIE,

Clerk.

On motion of Ald. Rauber, referred to the Finance Committee.

Rochester, N. Y., April 11, 1899.
To the Honorable the Common Council of the City of Rochester :

Since commencement of the current calendar year The Union and Advertiser has performed the office of official paper of the city, pursuant to provision of the charter. On the 14th ult. your honorable body adopted a resolution instructing its law committee to "solicit proposals from the various English daily newspapers of the city" for the performance of such service, with a proviso that "no bids shall be received from any paper not having the union label," the insignia of a body of organized printers known as Typographical Union, No. 15. The committee so advertised, requiring proposals to be filed with the chairman "not later than the 4th day of April, 1899." Up to the close of that day no proposals whatever were filed. But on the next day, April 5th, a bid was filed by the publisher of a daily paper, and that was the only one received by the commit-

tee, the publisher of the only other paper in the city eligible under the test of the union label refusing to participate. This irregular and solitary bid will, it is publicly announced, be recommended by your law committee for adoption to-night. Against this proceeding the undersigned desires to enter earnest protest, as unjust and against sound public policy.

Solicitation of competition between the five daily English newspapers of the city with the three senior and principal ones proscribed and excluded as rigidly as if mentioned by name; with neither of the other two tendering a proposal during the period fixed by the law committee; with one of these two absolutely refusing to make a bid; and with the other filing a proposal irregularly the day after the time set—is competition with competition left out.

In the resolution adopted by your honorable body you reserved the "right to reject any and all bids and to award the contract as the best interests of the city may seem to require." It is respectfully submitted that the best interests of the city require the present contract under the charter with The Union and Advertiser to be continued during the remainder of the calendar year. This can be satisfactorily demonstrated to your law committee or any other committee to which it may be referred for consideration, and the details need not be entered into here.

The Union and Advertiser is the oldest daily journal not alone in Rochester, but in the United States west of Albany and the Hudson river. It pays its compositors, a majority of whom are property owners and taxpayers, and all of whom have been in its employ for periods of time that reach in instances the limit of over fifty years, the union scale of wages or better, as they have publicly certified over their own signatures. It has for seventy-three years, dating back to 1826, when the city was a village, occupied highest position in the press, and enjoyed superior circulation among citizens and taxpayers. That position and that circulation render publication in its columns doubly valuable, while it would be merely perfunctory within limitations of those of contemporaries. Besides, its incomparable printing plant enables it to perform the duties of official paper promptly and satisfactorily, as it is not possible for that of the paper to which it is proposed to award the contract on its irregular and solitary bid to do, as proven by the incomplete and dilatory manner in which it executed the work last year, when it had the contract, for the correctness of which statement you are referred to the clerks who prepare copy and supervise publication. The Union and Advertiser will publish all proceedings and notices within less than twenty-four hours after the furnishing of copy, instead of three to four days, as was the case in 1898.

The Union & Advertiser Company.

Respectfully, &c.,

The Union & Advertiser Company.

REPORTS OF STANDING COMMITTEES

By Ald. Rauber—

To the Honorable Common Council of the City of Rochester :

Gentlemen—Your Finance Committee, to whom was referred the communication from the memorial and executive committee of the G. A. R. of this city, requesting this honorable body to appropriate, as authorized by law, the sum of five hundred (500) dollars, to defray the expenses of exercises to be held on the coming Memorial Day, May 30th, to commemorate the services and sacrifices of the soldiers and sailors of the Civil War. We respectfully recommend that the Common Council authorize the expenditure by the Memorial Association of the Grand Army of Republic, the sum of five hundred (500) dollars, to defray the expenses of the proper observance of Memorial Day.

STEPHEN RAUBER,
CHARLES P. MEAD,
WILLIAM WARD,
LEWIS EDELMAN,
DEVILLO W. SELYE,
J. C. WILSON,

Finance Committee.

Ordered received, filed and published.

By Ald. Rauber—Resolved, That the Memorial and Executive Committee of the G. A. R. of Rochester be, and hereby is, authorized to expend an amount not exceeding \$500.00 in securing a proper observance of Memorial Day; the Finance Committee of said organization to report to this council an itemized statement of the expenditures so incurred; said expenditures to be subject to the approval of the Finance Committee and City Auditor.

Adopted by the following vote:

By Ald. Mead—

Rochester, N. Y., April 11, 1899.

To the Honorable, the Common Council :

Gentlemen—Your Law Committee would respectfully report as follows :

In the matter of the payment of the claims to Hogel as receiver, and others, and also to Holohan for the collection of garbage, referred to your committee at the last regular meeting of the Common Council, and also that portion of the report of the Law Committee referred back to your committee in relation to the power of the city to collect the garbage, your committee would report that they have under investigation this entire matter, including the liability of the city for the payment for the collection of garbage since January 1, 1899, and also the power of the Common Council to award contracts for the collection thereof, but that the matter has not yet been thoroughly investigated sufficiently to make a report thereon, and we recommend that your committee have until the next regular meeting, at which a report upon this question will be submitted to the council.

In relation to the matter of Anna B Neal, which has heretofore been referred to your committee, arising out of the injunction granted by the courts restraining the city from taking the water from Hemlock lake through the conduits for the use of the city, your committee would report that they have made an investigation of this matter and have ascertained to the best of their knowledge, that the damages sustained by the said Anna B. Neal by reason of the acts of the city amount to the sum of \$7,500. That such estimate of damages is based upon reports of experts employed by your committee and the corporation counsel, and that your committee would,

therefore, recommend the payment to the said Anan B. Neal of the sum of \$7,500 in full of all past and future damages by reason of the diversion of said water from Hemlock lake and the use thereof by the city to the injury of said Anna B. Neal.

And your committee would further recommend that the corporation counsel be authorized and directed to offer to the said Anna B. Neal on behalf of said city of Rochester, said sum of \$7,500 in full liquidation of said damages, both past and future by reason of the aforesaid condition of affairs; and that in the event of the refusal of the said Anna B. Neal to accept said sum of money, that the corporation counsel be authorized and directed to institute condemnation proceedings and to procure a bond from some incorporated surety company in such a sum as may be designated by the court, and that the Mayor be, and he hereby is, authorized and directed to execute said bond, if necessary, on behalf of said city, and attach thereto, the corporate seal, or that in lieu thereof, the treasurer be authorized to make a deposit of such sum of money as may be directed by the court, from any fund available, as required by law, and upon such terms as may be suggested by the corporation counsel.

In relation to the communication of the Rochester Art Club referred to your committee, we would respectfully report that we have inquired and investigated into the matter contained in said communication and while we believe that the objects set forth in said communication to be laudable and of benefit to the city, we would recommend the rejection of the same by reason of the fact that the funds of the city could not be applied to the object requested in that communication; that city funds can only be used for city purposes and not for outside matters.

In relation to the resolution of Ald. Ward, referred to your committee on the 14th of March, 1899, upon the subject of official printing of the city, and the designation of an official paper, your committee would respectfully report that in accordance with the said resolution, notice has been duly published in two of the daily papers of the city requesting proposals for such printing in accordance with said resolution, and said notice duly published; that but one bid was received, such being from the Press News Publishing Company, to print in the Evening Times, a daily newspaper published in this city, which offered to publish the official proceedings, resolutions and ordinances of the Common Council, and the proceedings of the Executive Board for the year 1899 for 25 cents per inch, the matter to be set in nonpareil type, one column wide; also to print in the said Evening Times such other notices as are required by law to be published in said official paper of the city of Rochester, as specified in the advertisement for proposals for bids of the city printing for 20 cents per inch, nonpareil type, one column wide; said company also agreed to furnish copies of the papers specified in the advertisement for proposals for bids to the following offices: One copy to the Mayor's office, Auditor's office, Corporation Counsel's office, Poor office, Police office, Fire Marshal's office, City Engineer's office, Treasurer's office, Street Department office, Municipal Court, Executive Board, Park Board, Assessors' office, and two copies to the City Clerk's office; said company also

agreed to furnish 500 copies of the proceedings of the Common Council and 150 copies of the proceedings of the Executive Board, bound in cloth together with such extra slips as may be required from time to time by each of the departments of said city.

The proceedings to be published within forty-eight hours of receiving copy of the same from the city clerk, of the clerk of the Executive Board, or sooner if necessary; that the said Evening Times bears the union label as it has from the first day of its establishment, and is produced by union labor; and that accompanying said proposal was an affidavit made by S. W. Bowles in which he testified that he was the business manager of the Press News Publishing Company and that the paid circulation of the Evening Times is in excess of 5,000 copies in the City of Rochester; that your committee would therefore recommend the making of a contract with the said Press News Publishing Co., for the publication of such matter in the Evening Times in accordance with the proposal received from said corporation.

In the matter of the payment of the salary of Dr. Cartwright, as police surgeon, your committee would report that since the same was referred to it, an action has been commenced on behalf of Michael Cain, a taxpayer, against the city, for the purpose of restraining the payment of the salary of said Dr. Cartwright, by reason of the alleged illegality of his appointment. Your committee therefore deem it proper under the circumstances, to make no report in relation to the same until there has been an adjudication in the courts.

We recommend the appointment of the following Commissioners of Deeds: John A. Burns, J. Emery Williamson, H. G. Sauer, J. H. Johnson, Wm. B. McVea, Alfred Hall, Winfield P. Hickey, Lewis O. Sweetland, Wm. G. Davis, Chas. M. Thoms, Mae D. Murphy, Andrew Duncan, A. L. Schwartz, E. W. Furtherer, C. H. Haggerty, John F. Allen, J. G. Schleber, Jr. Wm. J. Naylon, Charles P. Mead, Joseph P. Freund, Geo. W. Palmer, J. B. Palmer, Frank J. Koch, B. G. Bennett.

All of which is respectfully submitted,
CHARLES P. MEAD,
DE VILLO W. SELYE,
FRANK J. RITZ,
W. REICHENBERGER,
JAS. H. CASEY,
W. ERNST.

Law Committee.

Ordered received, filed and published.

By Ald. Mead—Resolved, That the Corporation Counsel for and on behalf of the City of Rochester, be and he hereby is authorized and directed to offer to Anna B. Neal the sum of \$7,500, the same to be in full settlement of all past and future damages, or claims for the same, which the said Anna B. Neal has against the City of Rochester by reason of the diversion of the water from Hemlock and Canadice lakes and for the injury sustained by said Anna B. Neal thereby.

Adopted by the following vote:

Ayes.—Ald. Tracy, Callhan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—20.

By Ald. Mead—Resolved, That the Corporation Counsel be authorized to procure a bond in such sum as may be directed by the court from some incorporated surety company, to be submitted in connection with the acquirement of the necessary right of, said Anna B. Neal in and to the waters

of Hemlock and Canadice lakes, in condemnation proceedings to be instituted by the said city of Rochester, and that the Mayor, or in his absence, the president of the Common Council, be authorized and directed to execute said bond, if necessary, on behalf of said city, and attach thereto the corporate seal, or that in lieu thereof the treasurer be authorized to make a deposit of such a sum as may be directed by the court from any fund available, as required by law, and upon such terms as may be suggested by the corporation counsel.

Adopted.
By Ald. Mead—Resolved, That the Law Committee have until the next regular meeting of the Common Council to make report in relation to the garbage contract, and the claims presented against the city by Hogel, as receiver, and others, and Holoahan, arising out of the collection of garbage of said city since January 1, 1899. Adopted.

By Ald. Mead—Resolved, That the claim of Anna B. Neal against the city of Rochester, presented at a regular meeting of the Common Council of said city on the 11th day of April, 1899, for the sum of \$30,000 damages, be and the same is hereby rejected. Adopted.

By Ald. Mead—Whereas, Pursuant to a resolution of the Common Council, adopted on the 14th day of March, 1899, the Law Committee was authorized and directed to solicit proposals from the various English daily newspapers of the city for printing the official proceedings of the Common Council and the Executive Board, together with such official notices as are required to be published in the official paper, and for furnishing five hundred copies of the proceedings of the Common Council and one hundred and fifty copies of the proceedings of the Executive Board, bound in cloth, together with such slips and copies of the daily issues of such newspapers as have been heretofore furnished to the various departments; and

Whereas, It was provided in said resolution that no bids should be received from any paper not having the Union Label; and

Whereas, The Law Committee did advertise to receive bids in accordance with said resolution; and

Whereas, The publishers of the Rochester Daily Times submitted to the Law Committee the only bid for publishing the said proceedings and official notices;

Resolved, That the Mayor be, and he is hereby authorized and instructed to enter into a contract with the publishers of the Rochester Daily Times, and attach thereto the corporate seal of the city, such contract to be prepared by the Corporation Counsel, for the publication in the Rochester Daily Times of the official proceedings of the Common Council and of the Executive Board, together with such official notices as are required by law to be published in the official paper, and for furnishing five hundred copies of the proceedings of the Common Council for the current year and one hundred and fifty copies of the proceedings of the Executive Board, bound in cloth, together with such extra slips and copies of the daily issues of such newspapers as have been heretofore furnished to the various departments, at the agreed price of twenty-five cents per inch for the official proceedings and twenty (20) cents per inch for notices, solid, nonpareil type, one column wide, for each insertion, that being the lowest bid received by the said Law

Committee from the publishers of any daily newspaper having the Union Label. Said contract shall provide that in consideration of the foregoing, the publishers of said Daily Times shall furnish, free of charge, copies of the proceedings and notices so published, or of the papers containing the same, in such number as shall be required by the officers, board or department furnishing such notices and by the Common Council and the City Clerk, and shall furnish, free of charge, copies of its daily issues, as follows: One to each of the following departments or officers: Mayor's office, Corporation Counsel's office, Overseer of the Poor's office, Police Office, City Auditor's office, Fire Marshal's office, City Engineer's office, Street Department office, City Treasurer's office, Assessors' office, Municipal Court, Executive Board and two copies to the City Clerk's office, such proceedings and notices to be published within forty-eight hours after copy for the same is received.

Adopted by the following vote:
Ayes.—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—20.

Referred to Committee on Streets and Sewers and City Engineer.

By Ald. Edelman—
 To the Committee on Lamps and Electricity:

Your sub-committee appointed for the purpose of drafting a form of contract between the city and a telephone corporation to compete with the Bell Telephone Company of Buffalo respectfully submits the following and recommends its adoption.
 Dated April 10, 1899.

GEORGE E. WARNER,
 Mayor,
 JOHN F. KINNEY,
 Corporation Counsel.
 EDWIN A. FISHER,
 City Engineer.
 LEWIS EDELMAN,

Ordered received, filed and published.

Agreement made and entered into on the ___ day of April, 1899, by and between the Home Telephone Company of Rochester, New York, party of the first part and the City of Rochester, a municipal corporation, party of the second part, as follows:

Whereas, application in writing has been made by the Home Telephone Company of Rochester, New York, for a franchise granting to it the right to establish, construct, maintain and operate a system or lines of telephone for public and private use in the City of Rochester, New York, and to construct conduits, subways and manholes, and to erect poles, place wires, conductors, cables and all necessary equipments and appliances, and to make house and building connections upon, along, in, over and under the streets, avenues, lanes, squares, alleys, parks, bridges, aqueducts

and public places in said city, and to repair, replace, enlarge and extend the same for the business and purpose of providing means of communications between buildings, structures and places, public and private, in said city, and for such other purposes as shall be consistent with and necessary to the successful conduct of said business, and,

Whereas, The said company in consideration of the granting of such application and of the receipt of one dollar to it paid by said party of the second part, the receipt whereof is hereby acknowledged, does covenant and agree to and with said party of the second part, as follows:

1. No conduits or subways shall be constructed or poles erected where there are conduits or subways in use by the Rochester Gas and Electric Company, which can be used by the said company, except by the consent of the Common Council.

2. All poles shall be erected in places to be approved by the board or officers of the said city having control of the streets, said poles to be of the kind and quality to be approved by said board or officers.

3. All wires shall be strung and placed under the direction of said board or officers.

4. All material used of any kind in the construction and operation of the telephone system shall be suitable for the purpose and of good quality, and all the work shall be performed in a safe, thorough and suitable manner.

5. The company may be required by the Common Council to construct additional conduits in streets where the public interests may require, but not more than one mile in any one year.

6. The city shall have the exclusive use, free of expense, of one arm, or such part thereof as may be necessary, on each pole erected by said company or carrying any of the city's wires or electrical conductors (except wires for power or electric light), but such use by the city shall not unnecessarily interfere with the operation of the lines of said company; said city shall also have the use of one duct in each conduit, said duct to have a capacity of at least one hundred wires.

7. All conduits, subways or other structures under ground shall be suitable and sufficient for the purposes intended, and constructed in a thorough, suitable and workmanlike manner, and in such construction no sewer, gas or water pipe shall be permanently disturbed or interfered with.

8. Before erecting any poles, an application in writing shall be filed with the proper board or officer of said city, and the locations must be approved by said board or officer, and a permit granted, and the work done under the supervision of said board or officers. Before opening any street for the purpose of constructing any work under this franchise, an application in writing, together with maps and plans showing the location, character and dimensions of the work proposed to be done shall be filed with the proper city board or officer and the location of the work or works proposed shall be made satisfactory to said board or officer and a written permit given before the work shall be commenced. The work shall be done under the direction of said board or officer. Said board or officer shall appoint the inspectors deemed necessary, who shall be present and give

directions relating to the work of taking up the pavement, excavation, backfilling and replacing the pavement. Said board or officer may also appoint such other inspectors on any part of the work as deemed necessary. In case of improved streets, under guarantee of maintenance, said company, in addition to the permit from said board or officer, shall arrange with the contractor guaranteeing said street, to restore and maintain said pavement in accordance with the terms of the guarantee, providing for the restoration of the pavement over trenches opened by permit of the Executive Board or other proper officer in charge of streets. The wages of all necessary inspectors, together with all other incidental costs of inspection, shall be paid by said company monthly to the officer or board having charge of the streets of said city, on written demand of such officer or board, accompanied by a detailed statement of the expenditures incurred by said city or department of streets on account of such wages and costs of inspection. The presence of any inspector shall not relieve the said company in any manner from its obligation to restore and maintain said street pavement and surface to its original condition.

In all cases where a pavement having a concrete base is opened, Portland cement concrete, made in the best manner, of the best quality of material, approved by said board or officer, mixed one part cement, three parts sand, and six parts broken stone, shall be properly united with the old foundation and the pavement relaid thereon, after the same shall have sufficiently set. All work done and materials furnished, shall be subject to the approval of the proper board or officer in charge of streets. The pavement shall be restored to as good condition in all respects as before opening, and shall be maintained in such condition for five years. Maps and plans of all new work done, made as specified by the City Engineer, shall be filed in the City Engineer's office within sixty days of the completion of the work in any street done under this franchise.

9. The said company shall at any and all times hereafter indemnify, bear and save harmless the said city and its officers, servants and agents and each of them, of and from each and every action, suit or proceeding that may at any time hereafter be brought, instituted or maintained against said city, and its officers, agents and servants, or either of them, by any person or corporation for any damages, costs or expenses alleged to have been sustained by reason of the non-performance or negligent performance of this contract, or of any of the terms or conditions hereof, by or on the part of said company, or any of its agents or servants, or any other person or corporation for whose acts or omissions it may be responsible, and also, for the displacement, improper placing, location or breaking, at any time, of any of its wires or poles, or any wires of any lessee of it, or any negligence of any character of said company or others as aforesaid, and will also pay each and every final judgment that may be given or rendered for, or by reason of, the same against said city, and its officers, servants and agents, or any of them, and will also pay any costs and expenses incurred by, or occasioned to, said city and its officers, agents or servants, or either of them, in or by

reason of any of the suits, actions or proceedings aforesaid, and in case a recovery by final judgment is had therein, the amount thereof shall be fixed and liquidated damages, and the sum which the said company shall be liable to pay in the premises, and an action may, immediately after such recovery, and without payment, lie therefore against said company under this contract, and such judgment shall be conclusive evidence of the cause of action, and said company shall, and does hereby agree to be liable for such damages, loss and expense at and in the direct suit against it at the instance of any such person or corporation suffering the same as aforesaid, and such immediate suit may be maintained under and by virtue of this contract against the said company, and without joining as a party defendant therein said city, and its officers, agents and servants, or either of them, and said company also hereby further agrees, to pay to said city, and its officers, agents and servants, and each of them, any and all damages, loss and expense incurred, happening or occasioned from, or by reason of any of the matters, things or causes aforesaid, or any act of negligence by, or on the part of said company, or any of its agents or servants, or any person or corporation for whose acts it may be responsible. And said city also agrees that in case any such action, suit or proceeding shall, at any time be brought against it, and its officers, agents and servants, or either of them aforesaid, notice thereof shall, thereupon, be given to said company, by mail, in a postpaid enclosed envelope, addressed to it at Rochester, New York, or personally to its Rochester manager, or one of the officers of said company, and said company shall be allowed to defend, or assist in the defense of any such suit, action or proceeding.

The company shall furnish to the city such bond or bonds of indemnity as may be, from time to time, required for the faithful performance by it of all of the provisions of this franchise, or of any agreement to be entered into between the city and the said company in pursuance thereof; also to indemnify the city or any of its boards or officers against all damage, injury, loss or liability on account of any act or neglect of the said company. Such bond to be in such sum or sums as may be determined by the Common Council, and to be approved as to its form by the Corporation Counsel, and as to the sufficiency of the sureties by the Mayor. Failure or neglect on part of said company to furnish such bond or bonds shall, at the option of the Common Council, be deemed a forfeiture of all its rights under this franchise.

10. All poles, wires, cables, conduits and all the appliances and structures of every kind, in, upon, or under any street, alley, lane, or square, or public or private place, shall be at all times kept and maintained in good order and repair.

11. The company shall not, during the life of this franchise, charge to any subscriber, within the present city limits, for the use of said telephones, any sum in excess of \$48 per year per instrument upon metallic circuits, and unlimited use day and night.

12. The company to which this franchise is granted shall give to the city of Rochester, free of expense, not exceeding, however, forty telephones in all, the places in which the same are to be located to be determined by the Common Council of the

city. All telephones furnished for use of the city shall be upon metallic circuit, long distance transmitters, and the service shall be unlimited, day and night, and shall be of as good service as furnished to its regular subscribers; any additional telephones used by the city shall be at the rate of not exceeding forty dollars a year.

13. If conduits shall be built upon any street upon which poles have been erected by the said company, said poles shall be immediately removed at the expense of the company.

14. In consideration of the foregoing covenants and agreements the party of the second part hereby grants to the party of the first part the right to establish, construct, maintain and operate a system or lines of telephones for public and private use in the city of Rochester, New York, and to construct conduits, subways and manholes, and to erect poles, place wires, conductors, cables, and all necessary equipments and appliances, and to make house and building connections upon, along, in, over and under the street, avenues, lanes, squares, alleys, parks, bridges, aqueducts and public places in said city, and to repair, replace, enlarge and extend the same for the business and purpose of providing means of communication between buildings, structures and places, public and private, in said city, and for such other purposes as shall be consistent with and necessary to the successful conduct of said business, subject, however, to the following conditions, provisions, covenants and stipulations.

15. This franchise shall not be transferred to any connecting corporation now in existence, including the Bell Telephone Company of Buffalo, N. Y., The American Bell Telephone Company or any of its lessees or branches, or to any corporation that may be formed by the consolidation or merging of said existing corporations, nor shall it be sold or transferred to any new corporation that may be hereinafter formed, unless the same shall continue to be used by said new corporation in competition with the Bell Telephone Company, The American Bell Telephone Company or any of its lessees or branches or any other company doing business in said city. Upon failure at any time to live up to and observe the terms of this clause of the franchise all rights granted by the franchise will cease and determine at the option of the Common Council.

16. This franchise is also granted subject to all ordinances of the Common Council and rules and regulations enacted or to be enacted by said Common Council or said Electrical Committee by virtue of the authority given them under the City Charter. It is also granted subject to such regulations as the board or officer having control of the streets of said city may hereafter prescribe, looking to the proper, safe and convenient construction, maintenance and use of electrical conductors in said city. Such rules and regulations may among other things relate to the erection, maintenance or removal of poles, the location and stringing of wires, the construction and maintenance of conduits and manholes, the manner of placing and maintaining electrical conductors in such conduits and manholes, and to other details of the construction, operation and maintenance of subways, conduits, poles, support and electrical conductors and appliances generally in said city.

17. The work on such telephone system must be actually begun within one month

from the granting of such franchise and shall be prosecuted diligently and continuously until the same is completed.

18. Said company must have and exhibit to the Mayor within two months from the granting of said franchise bona fide subscriptions for at least fifteen hundred telephones in said city on five years' contracts.

19. Such telephone system must be in actual operation with at least two thousand telephones within fifteen months from the granting of said franchise.

20. The city may revoke and annul this franchise whenever it shall be determined by any court of competent jurisdiction that said company has failed in any material and substantial respect to comply with any one of the conditions, stipulations or provisions herein contained, unless said company shall immediately upon such determination being made comply therewith. This, however, shall not affect the right of the city to declare the franchise forfeited for a failure to comply with sections nine and fifteen herein.

By Ald. Edelman :

To the Honorable, the Common Council of the City of Rochester :

Gentlemen—Your Committee on Lamps and Electricity, to whom was referred the application of the Home Telephone Company of Rochester, and the various matters relating thereto, respectfully report that in the opinion of your committee, upon the execution and delivery of the agreement hereto annexed by said company, the rights and interests of the city and its citizens will be protected and subserved, and your committee therefore recommends the adoption of said agreement and the passage of the resolution or ordinance following or accompanying the same by your honorable body for the purposes aforesaid.

The annexed form of contract contains the same provisions as the former draft of franchise submitted to the Common Council at its last regular meeting with the addition of the first part of subdivision nine, which addition is intended to still further safeguard the interests of the city and of its citizens, and making the limit on price correspond with the contract now held by the Home Telephone Company.

It is not expedient in the opinion of your committee to offer this contract or any similar contract to the highest bidder for the reason, first, that no corporation authorized to build and operate a telephone system in the City of Rochester has expressed a desire to bid for it, and second, because the cities of the United States have not so far as we can learn offered a franchise at auction where a competing corporation already held a similar franchise, and third, there being no settled precedents or judicial rulings applicable to such a case, the probabilities of protracted and expensive litigation, as well as of delay, would be very great. Your committee are of the opinion that the citizens of Rochester desire competition in the telephone business, and that this result can be most promptly and satisfactorily attained by the granting of a franchise to The Home Telephone Company, which is regularly incorporated, is composed exclusively of citizens and taxpayers of this city, and has already a large number of subscribers.

All of which is respectfully submitted.

ACTION ON ORDINANCES.

FIRST ORDINANCE.

MONROE AVENUE IMPROVEMENT.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of improving Monroe avenue.

Adopted.

The Engineer submitted as such estimate, \$47,500.00.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The improvement of Monroe avenue, from Clinton avenue, South, to South Goodman street (excepting from the above that portion of the street between the tracks, the rails of the tracks and for two feet outside of the outside rails of the tracks of the Rochester Railway Company), by the construction of a Medina block stone pavement therein, with a line of six (6) inch Medina stone curb on each side thereof, properly connected with all streets, alleys and driveways. Width between curbs to be generally 42 feet. Also the necessary crosswalks, surface sewers, manholes, lot laterals, water services and the cleaning and repair of the main sewer where necessary. Also the adjustment to grade and repair of the sidewalks. The pavement shall be carried to the street line at intersecting streets, alleys and driveways where the Executive Board and City Engineer deem necessary. The pavement in the intersecting streets adjacent to the new pavement may be adjusted to conform to the grade of the new

pavement.

The pavement shall be guaranteed and kept in repair for five (5) years.

And, The City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$47,500.00, which, being deemed reasonable, is hereby approved.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the city, which this council deems proper to be so assessed for and will be benefited by such improvement, to wit :

One tier of lots and parcels of land on each side of Monroe avenue, from Clinton avenue, South, to South Goodman street.

Adopted.

NIAGARA STREET SPRINKLING.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of sprinkling Niagara street.

Adopted.

The Engineer submitted as such estimate, \$62.00.

By Ald. Wilson—Resolved, That the following improvement is necessary, viz.:

The sprinkling of Niagara street, from Pennsylvania avenue to Central park, during the season of 1899.

Excepting therefrom such portion not exceeding three feet in width on each side of the street as the Executive Board deems advisable for a bicycle path.

And whereas, The City Engineer, under the directions of this Council, has made an estimate of the whole expense thereof, and reports the same at \$62.00, which estimate is hereby approved.

Resolved, Further, That the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense thereof, viz.:

One tier of lots and parcels of land on each side of Niagara street, from Pennsylvania avenue to Central park.

Adopted.

FRONT STREET MEDINA BLOCK PAVEMENT.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of a Medina block stone pavement on Front street, from Mumford street to Central avenue.

Adopted.

The Engineer submitted as such estimate, \$9,000.00.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The improvement of Front street, from Mumford street to Central avenue, by the construction of a Medina block stone pavement therein, with a line of stone curb on each side thereof, properly connected with all lateral streets, alleys and driveways. Width of roadway to be generally the same as at present. Also the necessary surface sewers, manholes, lot laterals water services and crosswalks. Also the proper adjustment of the sidewalks to grade and the replacing of defective walk.

And, The City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$9,000, which, being deemed reasonable, is hereby approved.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit.:

One tier of lots and parcels of land on each side of Front street, from Mumford street to Central avenue.

Adopted.

WIDENING ALLEY FROM UPTON PK. TO RUNDEL PARK.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, and we hereby judge that the public good requires the same to be done, viz.:

The widening of the alley between Upton park and Rundel park. The north line of said alley as widened is described as follows: Beginning in the west line of Rundel park at the southeast corner of lot No. 2 of the Culver park tract; thence westerly along the south line of said lot 2 and in the continuation thereof westerly about 256 feet to a point 14.5 feet easterly of the east line of Upton park measured along said continuation of said south line of lot 2; thence on a curve to the right with a radius of about 13.58 feet to a point in the east line of Upton park, said point being the southwest corner of lot No. 4 of the Upton park tract.

The south line of the alley where widened is described as follows: Beginning at a point in the east line of the premises of John Fahy, said point being the northwest corner of the premises of A. Erickson Perkins; thence westerly in a straight line across the premises of said Fahy about 148.5 feet to a point in the west line of the premises of said Fahy, said point being the northwest corner of the premises of Helen S. Wright.

And, The City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at ———, which being deemed reasonable, is hereby approved.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the city, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit :

One tier of lots and parcels of land on the west side of Rundel park, excluding one lot at the corner of Culver park; one tier of lots on the east side of Rundel park, not exceeding 70 feet in depth, excluding one lot at the corner of Culver park; the east half of lot 4 fronting on the west side of Hawthorn street; lots 7 and 9 on the east side of Hawthorn street; one tier of lots not exceeding 150 feet in depth on the south side of the street or alley extending from Hawthorn street to Upton park; lots 3, 4 and 5 on the east side of Upton park, and lots 37, 38 and 50 feet of lot 1 on the west side of Upton park, in proportion to the benefit which each will derive therefrom.

Adopted.

ACTION ON ORDINANCES.

By the Clerk—
Rochester, N. Y., April 11, 1899.
To the Honorable, the Common Council of the City of Rochester :

Gentlemen—I do hereby certify that a notice such as is required by section 172 of the City Charter, specifying each of the improvements contemplated by the follow-

ing final ordinances, the estimated expenses thereof, the amount, if any, of such expenses to be paid from the public treasury, the portion or part of the city to be assessed for the remainder of the expenses, and requiring all persons interested in the subject matter of the improvement to attend at the time appointed in such notice, was published daily for four days in two daily newspapers printed in this city, namely the Rochester Herald and the Union and Advertiser.

Received, filed and published.

Respectfully submitted,

PETER SHERIDAN,
City Clerk.

FINAL ORDINANCES.

FINAL ORDINANCE NO. 7,703.

REYNOLDS STREET TRAP ROCK M'ADAM IMPROVEMENT.

On motion of Ald. Wilson the Common Council proceeded to hear allegations in relation to the improvement described in the following ordinance, viz.:

An ordinance to improve Reynolds street, from north side of Bartlett street to Flint street, and after hearing such allegations from all persons appearing,

The Common Council of the city of Rochester, do ordain and determine that the following improvement is necessary and should be made, to wit:

The improvement of Reynolds street, from the north side of Bartlett street to Flint street, by the construction of a Rock M'Adam pavement therein, with stone curb and gutter on each side thereof, properly connected with all lateral streets, alleys and driveways. Width of roadway to be 26 feet. Also the necessary manholes, crosswalks, surface sewers, lot laterals and water services, and the cleaning of the main sewers if found necessary.

Also a five (5) foot Portland cement walk on each side of the street from Bartlett street to Flint street, except where good flag walks now exist, which may be relaid to conform to the proper grade and alignment.

And the City Engineer, under direction of this Council, having made and reported as an estimate of the expense thereof, the sum of \$8,700, which, being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the city which this Council deems proper to be so assessed for, and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of Reynolds street, from Bartlett street to Flint street.

Adopted by the following vote:

Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Meade, Judson, Wilson, Reichenberger—20.

MONROE AVENUE CANAL BRIDGE APPROACHES.

On motion of Ald. Wilson the Common Council proceeded to hear allegations in relation to the improvement described in the following ordinance, viz.:

An ordinance to construct the approaches to Monroe avenue canal bridge and after hearing such allegations from all persons appearing,

The Common Council of the city of Rochester, do ordain and determine that the following improvement is necessary and should be made, to wit:

The construction of a Medina stone pavement, with concrete foundation, from a point near the westerly line of the roadway in Dartmouth street to the bridge over the Erie canal; also from the east end of said bridge to a point about 150 feet easterly therefrom; this portion may be of asphalt. Also the construction of an approach from Field street, said approach to commence at a point about 100 feet southerly, in Field street, from the southeast corner of said canal bridge and running thence northerly to the pavement in Monroe avenue. Also the reconstruction of the sidewalks and the building of new sidewalks where required. The walks shall be generally five feet in width. The width between curbs on Monroe avenue shall be generally the same as the present width, and the width between curbs of the approach from Field street shall be generally 30 feet. So much of the present curb and stone paving that may be found to be suitable may be used. The curb shall be properly connected with all intersecting streets, alleys, and driveways by new curb. The pavement shall also be carried to the street line where deemed necessary by the Executive Board and City Engineer to make the said pavement complete. The grade of the pavement northerly from the bridge shall not exceed 5 feet per 100 feet and be properly rounded off for a distance not less than 10 feet from the back walls of said bridge. The grade of the pavement southerly from the bridge, in Monroe avenue, shall not exceed 4 feet per 100 feet, and be properly rounded off for a distance not less than 10 feet from the back walls of said bridge. Excepting therefrom that portion of the street occupied by the tracks,

the rails of the tracks and two feet outside the rails of the tracks of the Rochester Railway Company. Also the acquirement of the necessary right of way on the south side of Monroe avenue, westerly of the Erie canal, between the lines of Monroe avenue, as now located and shown upon a map in the City Engineer's office. Also the acquirement of the necessary right of way on the southerly side of the canal, at the southeast corner of Monroe avenue and Field street, being a strip of land averaging about 25 feet wide from Field street to Monroe avenue.

And the City Engineer, under direction of this Council, having made and reported as an estimate of the expense thereof, the sum of \$7,000, which, being deemed reasonable, is hereby approved, and the whole expense of such improvement is hereby directed to be assessed upon all the following portion and part of the city which this Council deems proper to be so assessed for, and will be benefited by such improvement, to wit :

One tier of lots and parcels of land on each side of Monroe avenue from Goodman street to the Erie canal. Also the following described additional territory: Beginning at the northerly line of the Erie canal in Monroe avenue; thence easterly along the northerly line of said Erie canal to the Culver road; thence southerly along said Culver road to Monroe avenue; thence southerly on the easterly line of the city to the southeast corner of the city; thence westerly on the southerly line of the city to Field street; thence northerly along said Field street and including one tier of lots and parcels of land on the west side of said Field street to the place of beginning in Monroe avenue.

MISCELLANEOUS BUSINESS.

By Ald. Selye—Resolved, That that portion of Emerson street, from Thrush street to the end of the asphalt pavement, be-

tween the tracks, the rails of the tracks, and two feet in width outside of the tracks of the Rochester Railway Company requires paving and adjusting to grade, and that said railway company be, and hereby is, required to pave and put in permanent repair that portion of said Emerson street between the tracks, the rails of its tracks, and two feet outside of its tracks, within thirty days from the date of the serving of this notice, in accordance with the plans and specifications hereto attached, and that in case of neglect of said corporation to make such pavements or repairs after the expiration of said period of thirty days, the Executive Board be, and hereby is, directed to make the same at the expense of said railway company, and that the City Clerk be directed to notify said railroad company of the adoption of this resolution. Adopted.

By Ald. Selye—

AN ACT to levy an assessment for the cost and expense of constructing an improvement and pavement in, upon and through Lake View Park in the City of Rochester upon property benefited thereby.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The sum of twenty thousand three hundred sixty-six dollars and seventy-three cents, being the cost and expense of grading, paving erecting electric lights, moving the roadways and sidewalks and otherwise improving Lake View Park from Lake avenue to the west side of Pierrepont avenue, is hereby levied and assessed as follows: the sum of eight thousand three hundred two dollars and sixty-seven cents thereof upon the City of Rochester; the balance, being the sum of twelve thousand sixty-four dollars and six cents, upon the

following portion and part of the City of Rochester, to wit: One tier of lots and parcels of land on each side of Lake View Park from Lake avenue to the west side of Pierrepont avenue.

Sec. 2. Said sums are hereby levied upon said City of Rochester and said part of said city as a tax and assessment to be collected by the City of Rochester and applied to the cost and expense of the construction of said pavement and improvement.

Sec. 3. The sums hereby levied and assessed shall be and become an assessment by the City of Rochester for a local improvement, and it shall have the same force and effect as any assessment for a local improvement made pursuant to an ordinance of the common council of the City of Rochester, and shall be laid, spread and collected in the same manner as such local assessments are laid, spread and collected in accordance with the provisions of the charter of the City of Rochester relating thereto; and the common council, the assessors, the treasurer and all officers and boards of the city are hereby directed to proceed to lay spread, levy and collect the sums hereby assessed, in the manner provided by the charter of the City of Rochester for the laying, spreading, levying and collecting of an assessment for a local improvement, and the City of Rochester is hereby authorized and directed to pursue all remedies for the collection of the sums hereby assessed that it is authorized to pursue by its charter for the collection of an assessment for local improvements made pursuant to an ordinance of the common council.

Sec. 4. This act shall take effect immediately.

Adopted by the following vote :

Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—20.

By Ald. Selye—Resolved, That the Clerk forward copies of the foregoing bill for assessment of expense of improvement of Lake View Park to Senator Armstrong and Assemblyman Gardiner, with the request that they procure immediate enactment of the same. Adopted.

By Ald. Ward—
The Honorable, the Common Council :

Gentlemen—I hereby desire to obtain a release from the lien of taxes and tax sales upon the Warner Tract, in all cases where the city is the owner and holder of the certificate of tax sales of lot No. fifty-six (56) of subdivision No. 3 of the Warner Tract, situate on the north side of Highland avenue, as shown by a map of subdivision No. 3 of said tract on file in Monroe County Clerk's office in Liber 10 of Maps, at page 89. Said lot being fifty (50) feet wide front and rear and one hundred and twenty (120) feet deep. And I hereby covenant and agree upon consideration of such a release being granted upon the payment of such sum as your honorable body deems advisable, that such release shall in no manner affect the validity of the liens of any taxes now due upon said premises, or of the tax sales of said premises.

Dated, Rochester, N. Y., April 8, 1899.

J. B. Y. WARNEER.

To the Hon. John F. Kinney, Corporation Counsel, and to the Honorable, the Common Council :

Gentlemen—I hereby recommend that the

request of J. B. Y. Warner hereto annexed be granted upon the payment of the sum of \$100.

S. B. WILLIAMS,
City Treasurer.

Ordered received, filed and published,
Office of the Corporation Counsel,
Rochester, N. Y., April 11, 1899.

I hereby approve of the form of the accompanying resolution and recommend its adoption.

JOHN F. KINNEY,
Corporation Counsel.

By Ald. Ward—Resolved, That lot No. 56 of Subdivision No. 3 of the Warner Tract, situate on the north side of Highland avenue in the Fourteenth ward, of the City of Rochester, as shown by a map of said tract on file in Monroe County Clerk's office, in Liber 10 of Maps at page 89, and also by a map on file in the City Engineer's office, be, and the same hereby is, released from liens of all back taxes and assessments, which were assessed against said lot as a part of said tract, in all cases where such taxed liens or certificates of sale are held by the city of Rochester, upon the payment to the City Treasurer of the sum of \$100. And that said lot upon the payment of said sum be also released from the interest which the City of Rochester has in said lot 56 by virtue of tax sales heretofore conducted by the city of Rochester, and that the City Treasurer be directed to mark said lot No. 56 as released from the lien of all taxes and tax sales, in all cases where the city of Rochester holds the title thereto, and that all taxes and assessments now liens upon said lot in which the city of Rochester is interested, as owner, be and remain a lien upon the balance of said Warner Tract, the lot hereby released being fifty (50) feet wide front and rear and one hundred and twenty (120) feet deep, such rebate being made with the consent of J. B. Y. Warner, the owner of said tract, and upon the express condition that such releases shall in no wise affect the validity of the tax assessments and tax sales of the said premises.

Adopted.

By Ald. Ward—Resolved, That the City Engineer be and he is hereby directed to establish sidewalk grade on Tremont street from Reynolds street to Western New York Railroad. Adopted.

Ald. Steele moved that the resolution providing that the city assessors be directed to assess not to exceed 50 cents per foot front for the year 1899, for the purpose of defraying expenses, for making the repairs and improvements on Dartmouth st., and assigning the same to Edward Prizer to receive said tax and published at page 240, current proceedings, be reconsidered. Adopted.

Ald. Steele moved that the resolution be amended by inserting 20 cents per lineal foot front, instead of 50 cents, and that Edward Prizer be assigned to collect said tax. Adopted.

Ald. Steele moved that the resolution as amended be adopted. Adopted.

By Ald. Ernst—Resolved, That the City Property Committee be and it is hereby authorized to employ Elizabeth Weidman as charwoman in the City Hall at the compensation of \$21.66 per month. Adopted.

By Ald. Mead—Whereas, An ordinance was passed March 14, 1899, for a trap rock improvement of the roadway of Hudson avenue, from Clifford street to Norton street, and it is expedient that the existing 6-inch water pipe and appurtenances in said Avenue, from Clifford street to Emerson place

shall be replaced by 12-inch and 10-inch pipe at an estimated expense of \$5,750, and

Whereas, this expense is properly chargeable to the Water Distributing System Fund, in which there is an unexpended balance of \$4,786.90; therefore,

Resolved, That the Executive Board be, and it is hereby authorized and directed to cause said existing 6-inch water pipe and appurtenances, to be replaced by 12-inch and 10-inch pipes, in advance of said improvement, the cost thereof to be paid in part with said balance of \$4,786.90 now in said Water Distributing System Fund, and the balance of said cost amounting to \$973.10 be paid out of such funds as may be appropriated for the extension of water pipes this season; and in case no funds are so appropriated, then said balance to be paid out of such funds as may be appropriated for contingent expenses for the current year.

On motion of Ald. Steele referred to the Water Works Committee.

The Board then adjourned.

PETER SHERIDAN, City Clerk.

1st Common Council, April 25, 1899.

REGULAR MEETING.

Ald. J. Miller Kelly, president of the Board, presiding.

Present—Mayor Warner, Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—21.

By the Clerk—

COMMUNICATION FROM THE MAYOR.

Mayor's Office, April 18, 1899.

By the Clerk—
To the Common Council of the City of Rochester :

I hereby return without my approval the resolution adopted at your meeting of April 11, 1899, transferring \$30,000 from the health fund to the contingent fund for the following reasons :

The resolution recites that the transfer is made for the reason that no provision for the collection of garbage has been made by the Common Council. That is no reason. No such provision has been made for twenty years. During that time this work has been done under the direction and control of the Board of Health.

Several years ago the Board of Health made a ten-year contract for the collection of garbage. This was done with the approval of the Common Council, and the money needed by the Board of Health has since then been furnished by your body. The contractor assigned the contract, and the assignee's property went into the hands of a receiver. The Board of Health a short time ago cancelled this contract, and the garbage is now being collected pursuant to a resolution of the board, at \$2,000 per month.

Two actions have been brought against the members of the Health Board, in which it is claimed that the assigned contract is binding upon that body. The issues raised have not yet been decided and the question as to whether the Board of Health or the Common Council is the proper body to have charge of the garbage collection has not been decided. It would seem to be better for your body to await until this question is decided before depriving the health board of the means for doing the work.

The garbage can be collected for a sum not exceeding \$24,000 per year, as this is the rate at which it is now being done, and could perhaps be done for less if bids should be solicited. The resolution, therefore, takes \$6,000 more than would be necessary from the Health Board.

The sum finally appropriated for the Board (\$20,000) will not be sufficient to meet the expenses of the board for the year, as will appear from the following:

Balance on hand Dec. 29, 1898.	\$14,310 16
Appropriation	20,000 00

	\$34,310 16
Bills paid since Jan. 1, '99..	\$ 6,759 12
Collecting garbage	12,000 00
Salary, four months	5,789 88
	24,549 00
	\$9,761 16

The salary list for the remaining eight months will be \$11,579.76, or \$1,813.60 more than the funds on hand, and there will be nothing left to pay whatever other incidental expenses it may be necessary to incur.

The inconveniences which would follow from such a state of affairs may be avoided by delaying action until the questions in dispute have been settled by competent authority.

Respectfully yours,
GEORGE E. WARNER,
Mayor.

COMMUNICATIONS AND REPORTS FROM OTHER CORPORATION OFFICERS, BOARDS AND DEPARTMENTS.

By the Clerk—
City Clerk's Office,
Rochester, N. Y., April 25, 1899.

To the Common Council :
Gentlemen—I hereby certify and report that the City Assessors have delivered to me the general assessment rolls for the several wards of the city, for the general city taxes of 1899, including those taxes required to be assessed by the provisions of Section 85 of the City Charter; said rolls being duly certified and verified as required by law.

Respectfully,
JULIAN A. JANES,
Asst. City Clerk.

By Ald. Rauber—Resolved, That the general assessment rolls for the several wards of the city, as reported to this Council, being the general city taxes for the year 1899, including those taxes required to be assessed by the provisions of Section 85 of the City Charter, be and they hereby are in all things approved and confirmed.

Allegations were called for and after hearing the same from all persons appearing, the above resolution was adopted by the following vote :

Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Judson, Wilson, Reichenberger—19.

To the Common Council :
Gentlemen—In accordance with a resolution adopted by your honorable body directing the Executive Board to negotiate with the persons owning the land that is necessary to acquire for the opening of a street from Webster avenue to North Goodman street, will state that I am directed to report that all of the parties interested appeared at this office and they each made the offer to dedicate to the city the necessary land for the said extension.

Respectfully,
CHAS. M. BEATTIE,
Clerk.

To the Common Council :
Gentlemen—The Executive Board, in accordance with the resolution adopted by your honorable body, has endeavored to negotiate with the owner of the land that

is necessary to be taken for Asbury park extension.

There is but one person interested, and this Board has been unable to procure any figure from the owner for the land and I am, therefore, directed to respectfully recommend that the matter be referred to the Corporation Counsel.

Respectfully submitted,
 CHAS. M. BEATTIE,
 Clerk.

To the Common Council :
 Gentlemen—Pursuant to a resolution adopted by your honorable body requesting the Executive Board to negotiate with the owners of the land which it is proposed to acquire for the extension of Immel place, I beg to report as follows :

The several parties interested were invited to submit prices and all complied thereto, as follows:

J. H. Justice\$325 00
 B. Masseth 300 00

The amounts are, in the opinion of this Board, reasonable.

The Executive Board, therefore, at a meeting held April 18, 1899, adopted the following resolution :

“By Mr. Knebel—Resolved, That this Board recommend to the Common Council the acceptance of the proffers by the respective owners of the land required for the right of way for the extension of Immel place.”

To the Common Council :
 Gentlemen—On March 15th, 1898, your honorable body adopted a resolution directing the Executive Board to arrange for the temporary care of the drainage from the Broadway and Averill avenue sewer at the Erie canal, the expense therefor to be paid out of Contingent Fund.

This Board engaged Messrs. Whitmore, Rauber & Vicinus, who were then improving that section of the canal, to pump the sewer water and sand therefrom, and they have rendered a bill, the amount of which this Board does not feel justified in approving.

I, therefore, respectfully submit the following resolution which was adopted at a meeting of the Executive Board held April 18th, 1899 :

“By Mr. Knebel—Whereas, Messrs. Whitmore, Rauber & Vicinus refuse to accept the amount in settlement of their account as approved by this Board for pumping sewer water at Averill avenue bridge, from December 10th, 1897 to January 7th, 1898, and from January 25th, 1898, to March 2d, 1898; therefore,

“Resolved, That their claim for this work together with the City Engineer's statement be referred to the Common Council for settlement.”

Respectfully submitted,
 CHAS. M. BEATTIE, Clerk.

By the Clerk—
 City Engineer's Office,
 Rochester, N. Y., March 14, 1899.

To the Hon., The Executive Board :
 Gentlemen—At your request I herewith submit the following statement of facts relative to the claim of Whitmore, Rauber & Vicinus for pumping the drainage of the Broadway and Averill avenue sewer out of the canal during the prosecution of work on the canal improvement in that vicinity.

During the year 1897 Whitmore, Rauber & Vicinus were awarded a contract under the nine million dollar act to improve a portion of the Erie canal through the city. They commenced work on said contract a short distance easterly of Averill avenue early in December, 1897, upon the water being let out of the canal. The sewer in Broadway between Meigs street and Alexander street emptied into the Erie canal under the Averill avenue bridge over said canal. The contractors, Whitmore, Rauber & Vicinus, notified General Inspector Tubbs of the canal department, of this inflow of water and sewage and asked to have it taken care of. Mr. Tubbs sent a notice to me by Mr. Aikenhead, an employee of his department, that this drainage must be kept out of the canal. I immediately repeated the notice to the Clerk of the Executive Board by telephone. This was on or about December 17th, 1897. The Board directed Mr. F. A. Brotsch, chief inspector, to examine into the matter and see what could be done. In the meantime I prepared an ordinance for the construction of

a new sewer in Broadway, emptying into the Richards street outlet sewer in Meigs street, this being the proper drainage for this territory. On Jan. 4th, 1898, I sent a communication to the Common Council reciting the fact that the Executive Board had received a notice to make other disposition of the drainage, and recommending the adoption of an ordinance for a new sewer, which ordinance was introduced at the same meeting. I also stated that temporary arrangements had been made to pump the drainage into the East Side Trunk Sewer (see C. C. Proceedings for 1898, p. 14-15.)

From January 7th, 1898, to January 25, 1898, the drainage was pumped by men employed by the Executive Board under the charge of Mr. Freidell across the Averill avenue bridge and into the East Side Trunk Sewer. This arrangement was not satisfactory as the drainage could not be taken care of during a thaw or rain. Previous to this arrangement to pump, negotiations were had with Mr. Whitmore with reference to the firm assuming full charge of the drainage. The amount asked by him on behalf of the firm was more than the Board considered the service worth and his proposition was declined. Subsequently Mr. Whitmore came before the Board and further negotiations were had which resulted in the chairman directing me on January 22, to arrange with Whitmore, Rauber & Vicinus to pump the drainage from the said sewer at the rate of \$7.00 per day. It was supposed at that time that this pumping was to be temporary and that the contract for the Broadway sewer would soon be ready for letting, which contract would contain a provision for the care of the drainage pending the construction of the sewer. The ordinance for said sewer was postponed at the request of property owners from time to time and finally after some slight amendments passed as final on March 29, 1898, too late to be of service in taking care of any water during the working season on the canal. The delay in the passage of the ordinance for the sewer and the work in the vicinity not being near completion, the chairman of the Executive Board consulted the Corporation Counsel as to what course to pursue and upon his advice a resolution was introduced by Ald. Steele and passed by the Common Council on March 15, 1898. (see C. C. Proceedings for 1898, p 212.) directing the Executive Board to dispose of the sewage of the Broadway and Averill avenue sewer pending improvements on the canal, and charge the expense to the Contingent Fund. The Board on March 2, 1898, served a notice on Whitmore, Rauber & Vicinus to discontinue pumping and also said that the Board would not be responsible for any further work.

The foregoing statement of facts is submitted as explanatory of the bill attached. The explanation has been somewhat delayed by various causes.

Yours respectfully,

E. A. FISHER,
City Engineer.

To the Honorable, the Common Council of
the City of Rochester :

Gentlemen—I would respectfully ask your authority to issue the city's note for an amount not exceeding fifty thousand dollars (\$50,000.00) to run for a period not to exceed one month, in case the collections of the city taxes during the first few days in May, together with the moneys now in the different banks and on hand are not sufficient to meet the budget for this month.

Yours respectfully,
S. B. WILLIAMS, Treasurer.

By the Clerk—
Fire Marshal's Office,
To the Common Council of the City of
Rochester :

Gentlemen—At your meeting of April 11, 1899, the following resolutions were adopted by your honorable body, to which I would respectfully call your attention:

“Resolved, That the fire marshal be and he hereby is instructed to at once make a thorough inspection of the hotels, lodging houses, apartment houses, assembly rooms, lodge halls, public and charitable houses in Rochester, in regard to the safety of the public and their inmates from fire and accident, and cause such as he may find deficient to be at once provided with fire escapes, ropes, exits, or other appliances necessary and have those existing repaired, altered and tested wherever he may deem necessary.

“Resolved, That the fire marshal's office be hereafter kept open from 9 a. m. until 5 p. m., for the convenience of the public.”

The city charter, which creates the office of fire marshal of Rochester, provides that he “shall have such powers and perform such duties as the Common Council shall from time to time direct.” The statute is silent as to whether its creatures shall have the privilege of eating, drinking and sleeping, the same as other folks, but the fire marshal submits that these are his inalienable rights and cannot be taken from him.

As your honorable body well knows, the fire marshal has no assistant. The passage of the two aforesaid resolutions, therefore, places him astride the horns of a dilemma. The Common Council, his master, in one

breath has told him to stay in his office all day, and in the next says, "Get thee out of doors for the next few months and hustle like a good fellow." The fire marshal can't be outside and inside at the same time; yet these are his orders. What is he going to do about it?

No one, least of all the fire marshal, questions that these orders should be carried out. He has always taken the position that the public convenience demanded the one and public safety the other. But there are so many hotels, lodging houses, assembly halls, apartment houses, etc., in Rochester, that the carrying out of this order alone, which requires a thorough inspection of same, would take up possibly three months of his time, to say nothing of keeping office all day and attending to his other outside duties. In other words, to properly carry on the work of his office, the fire marshal must have assistance and he not only requires it but public safety and public convenience demand it.

What would happen, in case the fire marshal were given no assistance and he should remain in his office, as commanded, from 9 o'clock in the morning until 5 at night? His orders, by the way, allow him no time to go out for his mid-day meal, thus compelling him to take his lunch with him. Could anyone complain if he declined to put in any more hours a day and let his outdoor work go to the dogs? The result would be that building operations in the city would have to run themselves. To be sure, builders would submit, as before, their plans and specifications for the formal approval of the building committee and fire marshal; but who would see that these were carried out? Possibly the fire marshal could be persuaded to make the rounds of the city with a lantern. If he would not, Rochester would be at the mercy of dishonest contractors. Regular old fire traps would go up, in place of substantial buildings. Factories would be erected which violated public safety and would be a constant menace to their inmates. Chimneys would be built without linings; smoke flues would be defective; buildings would collapse, because of faulty construction, anarchy would reign in every form of building operations, and fire insurance rates would mount higher and higher.

The picture may be a trifle overdrawn because the public would never permit things to get that far, but it serves to emphasize the fact that the fire marshal's office is at present handicapped because of lack of assistance.

The building committee is familiar with the great mass of work which devolves upon the fire marshal, but this may not be the case with the rest of your body. For their benefit his duties are briefly summarized as follows:

First of all the fire marshal is expected to stay in his office from 9 in the morning until 5 at night. Then he must carry out all the provisions of the building ordinances. These are multifarious and should include not only an examination of all the plans and specifications before building permits are issued, but also a personal inspection from time to time of every building in the process of erection to see that they conform to plans. The amount of labor involved in this one item alone may be gathered from the fact that at the last meeting of your body, there were nearly forty applications for building permits, and to-night there are nearly as many more, and the building season is only begun. Some of the fire marshal's other duties, when he has a

little spare time on his hands, are carrying out the charter and ordinance provisions relating to the examination of premises where fireworks, gunpowder, nitro-glycerine, dynamite, crude petroleum, rock oil and other explosives are kept, and their transportation through the street; also investigations relating to storage of kerosene, gasoline, benzine and naphtha. He must approve the fire escapes, stand pipes, border lights, fire proof curtains and automatic stage sprinklers in theaters. He must cause dangerous buildings to be made safe and condemn them when necessary. It is his duty to inspect elevators, approve of electric wires in buildings, inspect hotels, theaters, lodging houses, etc., determine the bearing power of soil; distribute the city's election booths and look after storage of same, including furniture and supplies; attend to line fences and bill boards; compile records and statistics; make stated reports to the Common Council; confer with the building committee, listen to complaints and perform such other duties as the Common Council may direct.

A great deal of the above work could be done by a clerk whose duty it would be to keep the office open all day; keep the records, make memoranda of complaints and render such other clerical assistance as the fire marshal needs, thus giving the fire marshal more time for outdoor work. But besides an office assistant, the mass of work is so great that an inspector should also be appointed by your body to assist the fire marshal in the outside work. The provisions of the building ordinance, together with the varied other duties that are thrown upon the shoulders of the fire marshal, are so exacting and onerous that with a clerk in the office and an inspector there would still be more than enough work for all to do. Some eight months ago your honorable body decided that the fire marshal's office was in need of assistance and granted it temporarily. To-day in the light of the resolutions passed at your last meeting and also in view of the great increase in building operations in this city, such assistance is even more imperatively needed, and it is with confidence that the necessity will appeal to your honorable body that this petition is submitted.

Your petitioner would suggest to your honorable body that in case these recommendations meet with your approval that the civil service board be requested to at once hold examinations for the positions contemplated.

Very respectfully yours,

JOHN A. P. WALTER,
Fire Marshal.

MISCELLANEOUS COMMUNICATIONS
TO THE BOARD.

By Ald. Selye—

Rochester, N. Y., April 25, 1899.
 To the Honorable, the Common Council :
 Gentlemen—I beg leave to call your attention to the fact that there are several actions now pending against the city arising out of the pollution of the lower river, and also for damages sustained by reason of the accumulation of the sewage emptied into said river from the East Side trunk sewer. The principal of said actions has been commenced by Ellwanger & Barry, the owners of a large portion of property situate and lying between Driving Park avenue bridge and Brewer's dock. I find upon an examination of the records in the County Clerk's office and the assessors' books that the property on both sides of the river, from a short distance above Driving Park avenue bridge to near Brewer's dock, is owned and assessed to Ellwanger, Barry and others; that said Ellwanger, Barry and others have commenced an action against the city for the pollution of the stream, demanding \$2,500.00 damages per year as an injury sustained by them by reason of the depreciation of the rental value thereof; that said depreciation in the event that the case was tried at present would amount to the sum of \$17,500; that there are also actions pending by Yount and others by reason of the interference with their enjoyment of premises owned and occupied by them at the top of the high bank of the Genesee river at and near North St. Paul street, on account of offensive odors arising from said river, by reason of the accumulation of said sewage in the same, that these parties claim a large depreciation of the rental value of their property; that the Yount action was partially tried at a Special Term before Justice Davy and the question of damages was sent to the Trial Term for determination; that at the time of said trial the court directed that some action be taken by the city to the end that the nuisance alleged to have been created by reason of the emptying of this sewage into the river, be abated, and that in the event that no action was taken by the proper city authorities that the court would compel some act on the part of the city in order to remedy the condition of affairs existing there.

In order that there may be no misunderstanding in relation to the law applicable to this case, and for the purpose of relieving myself from responsibility in relation thereto, I desire to call the attention of the Common Council to several decisions of the courts of the state of New York bearing upon this question :

"A riparian proprietor is entitled to the reasonable use of the stream of water running through his premises as a part of his proprietary rights in the soil." (Townsend vs. Bell, 70 Hun, 557.)

The Court of Appeals in the case of Chapman vs. the City of Rochester, 110 N. Y., 227, has held that the filth of the city does not flow naturally as surface water finds its level, but is carried upon the lands of people by artificial arrangements prepared by the city and for which it is responsible; and that the court finds that there is no reason to doubt that a plaintiff under such circumstances is entitled not only to compensation for damages thereby occasioned, but also to such a judgment as will prevent further perpetration of the wrong complained of.

In Moody vs. Village of Saratoga Springs, 17 App. Div., 207, it was held that the village is liable to one whose stream was polluted by village sewage, and that an act

authorizing the extension of the village sewage system cannot justify a nuisance created thereby.

In the case of Smith vs. Cranford, 84 Hun, 318, and affirmed in 155 N. Y., 640, the courts held that a person is entitled to the natural flow of the water in a stream upon his land, and if another pollutes said stream the owner is entitled to recover the amount of the loss which he has sustained thereby.

These are but a small number of decisions upon this subject, and in order that there may be no criticism upon my acts by the court in relation to this matter, I desire to call the attention of the Common Council to the fact that immediate means or acts must be resorted to by the city in order to remedy the condition of affairs existing in the lower river by reason of the emptying of the sewage from the East Side trunk sewer into said river. The manner in which it may be done is a matter for the action of the council.

All of which is respectfully submitted.

JOHN F. KINNEY,
 Corporation Counsel.

Ordered received, filed and published and referred to Finance Committee.

By Ald. Selye—

Rochester, N. Y., April 20, 1899.

To the Honorable, the Common Council :
 Gentlemen—Your committee and an advisory committee of citizens, to whom was referred the matter of the purchase of the lands between the high banks of the river and the lands known as Maple grove, which was appointed to consider the recommendation of the park commissioners in relation to said purchase, the City Surveyor and the Corporation Counsel, in the matter of sewer pollution, respectfully report :

That we find that in the lands described there are between eighty and ninety acres of land. That the East Side Sewer Commission, without permission, entered upon the lands of Ellwanger & Barry with the East Side sewer and deposited the sewage of said sewer just below what is known as Goat island, on the east side of the Genesee river, and at that point, by reason of the current being on the west side of the river, forms an eddy upon which, at low water, a thick scum forms and in the entirety forms a cesspool of filth. We find on the recommendation of the proper officers that could the current of the Genesee river be changed from the west side to the east side of said Goat island that said cesspool would be done away with, by reason of the current carrying the same away until it became dissolved and diluted in the vast body of water below.

We find that Ellwanger & Barry own on both sides of the river from above Driving Park avenue bridge to the park lands below the lower landing, with the exception of about 200 feet, at which is known as Brewer's dock. We are advised that the purchase of these lands will save the city the cost of the establishment of either running a tunnel to the lake or running a tunnel to Irondequoit bay, and establishing immense paddles to force the water from Irondequoit bay into the Genesee river at low water in order to carry away this sewage. We find also that precipitating plant must be established in order to obtain the same result if these other things are not done. We find also that these lands are embraced in the area originally laid out by the park commissioners for Seneca park east and west. That if the trees of Maple

grove, the only actual forest within the limits of the city of Rochester, are once destroyed, it would take a century to replace the same.

In view of the fact that Ellwanger & Barry now have claims against the city for sewage pollution amounting to \$17,500, and that said claims will be duly relinquished upon the purchase of these lands for the sum of \$68,400, we recommend the purchase of the same for said sum, payable one dollar upon the execution of the contract, and \$5,000 annually thereafter, until the same is paid, with interest at the rate of 4 per cent. per annum. These lands eventually will have to be bought for one purpose or the other, either for park lands or to save damage suits for sewer pollution. The unfortunate result of the suits brought by people on Densmore and Thomas creeks against the city for sewage pollution, amounting to nearly \$100,000, renders it imperative that instant action be taken. Judge Davy has duly warned the mayor and the aldermen of the wards interested that unless something is immediately done to obviate these conditions that the city will be mulcted in heavy damages, which he, as a taxpayer and a good citizen, considered himself warranted to advise us to take immediate action. We are advised that Messrs. Ellwanger, Barry & Woodworth will not sell any portion of said lands, except they sell the whole.

City Engineer's Office,

To the Honorable, the Common Council:
Gentlemen—At the suggestion of the Corporation Counsel, given as the result of recent litigation regarding an alleged nuisance in the Genesee river at the outlet of the East Side Trunk Sewer, I submit the following report relative to the present condition and plans for relief in the immediate vicinity of said outlet:

A survey made on April 13th of the present year shows an island of about 850 feet in length and about 150 feet in width immediately in front of said outlet, the channel being divided by said island. The easterly channel in front of said outlet is about 85 feet in width and the maximum depth about 9 feet. The westerly, or main channel is about 180 feet in width. The depth, owing to the swift current was not taken, but it is very much more than in the easterly channel. During the stage of water at the time the survey was made, there was nothing objectionable connected with said outlet. I have, however, on file in this office a survey made at a time of low water on August 1, 1891, showing that at that time the island referred to became a peninsula, and the easterly channel was entirely closed up at the head of the island. At such times the water in the easterly channel not having any current evidently becomes offensive. Two methods of relief have been suggested. First, to excavate a channel across the peninsula from the main channel. The length of this channel would be from 600 to 800 feet. There is evidence from people in the vicinity that such a channel would afford relief from the objections caused by said slack water. I am un-

able at the present writing to estimate the cost of this channel on account of the swift current at the time of the survey rendering it impossible to get soundings.

A second plan would be to tap the steel outlet pipe coming down the bank at a point about 75 feet from its mouth, with a pipe of about 24 inches in diameter, laid diagonally across the lower end of the island to the deep channel on the westerly side. The latter method of relief I should estimate roughly, would cost not exceeding \$10,000. The first, or channel method would probably cost not nearly as much. The construction of such relief is in my judgment a portion of the work necessary to be done for the completion of the East Side Trunk Sewer and should be charged to that account. With either of the constructions I believe that all offensive odors that would cause any real trouble above the immediate river bank would be entirely done away with for some years to come, and the necessity for erecting sewage purification works postponed. I believe it is desirable, however, for the city to own the adjacent shores of the river as far as possible. It should also be stated that the city at present has not the necessary right of way required for the construction of either of the proposed schemes of relief, and further that in the above estimate the cost of the rights of way are not included. It is proper to state in this connection that no provision for clarifying the sewage before discharging the same into the river has hitherto been made for the reason that each year since the completion of the East Side Trunk Sewer there has been promise of an early increased flow in the river during the summer by the completion of the water storage project at either Mt. Morris or Portage. As soon as this project is realized the dry weather flow of the river will become so greatly increased as to postpone indefinitely the necessity for any special treatment of the sewage.

Respectfully submitted,

E. A. FISHER,
City Engineer.

I concur in the above.

Witnesseth:

That for and in consideration of the agreement of the party of the second part to take and pay for the lands and premises hereinafter mentioned, and of the payment of the sum of one dollar to the said parties of the first part on the execution of this agreement, the said parties of the first part hereby agree to sell and convey to the said party of the second part, all that tract or parcel of land situate in the City of Rochester, County of Monroe and State of New York, described as follows:

Beginning at a point in the west line of Hastings avenue, where said line intersects the north line of lands of the Brush Electric Light Company of Rochester, being 225 feet south of the south line of Driving Park avenue; thence easterly and northeasterly on the north line of said company's lands to a point in the east high bank of the Genesee river, which is 500 feet northerly from the brink of the lower falls on the east side thereof; thence northerly along the top of said high bank to the south line of lands conveyed by McCall and others to Keeler and others, by deed dated April 5, 1852, and recorded in Monroe County Clerk's office in Liber 105 of Deeds, at page 361; thence westerly along the last mentioned line to the center of the Genesee river, excepting the parcels of land excepted from the conveyance from Strong to Kelsey, by deed recorded in Monroe County Clerk's office in Liber 76 of Deeds at page 122; thence northerly along the center of said river to the north line of lot No. 10, township No. 1, of the short range of townships, west of the Genesee river, or that land extended eastward; thence westerly along said last mentioned land to the top of the west high bank of the Genesee river; thence southerly along the top of the said high bank and the west line of the way known as Buell avenue, that is, along the east line of lands conveyed by the said George Ellwanger and others to the Maplewood and Lake Avenue Co-Operative Building Lot Association, by deed dated June 11, 1872, and recorded in Monroe County Clerk's office in Liber 273 of Deeds at page 36, to the southeast corner of the lands so conveyed to said association; thence westerly along the south line of said association's said lands 40 73-100 feet to the top of the west high bank of the Genesee river; thence southerly along the top of said high bank 82 feet; thence westerly on a line at right angles to Maplewood avenue about 200 feet to the center of Maplewood avenue; thence southerly along the center line of Maplewood avenue about 680 feet to the point where the south line of lot No. 39 as designated on Horace Jones' map of a subdivision of lots Nos. 18 to 20 of the 20,000 acre tract extended westward would intersect said center line; thence westerly along the south line of said lot No. 39 and lot No. 38 of said subdivision and the extension thereof westerly to the center line of Lake avenue; thence southerly along the center line of Lake avenue about 745 feet to the north line extended westerly to the center of Lake avenue of the lands conveyed to Samuel Bull, by deed dated February 13, 1873, and recorded in Monroe County Clerk's office in Liber 262 of Deeds, at page 439; thence easterly along said north line and that line extended about 540 feet to the west line of said Buell avenue; thence southerly along the west line of Buell avenue across Driving Park avenue and along the west line of Hastings avenue to the place of beginning, with all the hereditaments and appurtenances thereto for the sum of sixty-eight thousand four hundred dollars (\$68,400), which said party of the second part hereby agrees to pay to the said parties of the first part, as follows: One dollar on the execution of this agreement, which is the same payment hereinbefore mentioned, and the further payment of five thousand dollars (\$5,000) or more, at the option of the said party of the second part, on the first day of June in each year hereafter, until the whole of said principal sum of sixty-eight thousand

four hundred dollars be fully paid, and interest at 4 per cent. per annum on the part of the said principal sum which may remain unpaid, to be paid annually at the time of the payments upon the principal as aforesaid.

The said party of the second part also agrees to pay all taxes and assessments which may be assessed on said premises from the date hereof until said sum shall be fully paid as aforesaid.

The said parties of the first part agree that when said sum shall be fully paid as aforesaid they will execute and deliver to the said party of the second part, its successors and assigns, a good and sufficient warranty deed of said premises, and convey to said party of the second part the title in fee to the said premises free and clear of all encumbrances or liens of any kinds.

It is mutually agreed that the said party of the second part shall have possession of the said premises on the execution of this agreement, and the first payment thereon as aforesaid; and that it shall keep the said premises in as good condition as they are now in until the said sum shall be fully paid as aforesaid; and that if said party of the second part fails to perform this on its part the said parties of the first part may sue for any part of said purchase moneys then due or declare this agreement void and sue for damages for the breach thereof by the said party of the second part.

The agreements hereto to bind the heirs, executors, administrators, successors and assigns of the respective parties hereto.

In witness whereof, the said parties of the first part have hereto set their hands and seals, and the said party of the second part has caused its corporate seal to be hereunto affixed, and this instrument to be subscribed in its name by its proper officer, the day and year first above written.

By Ald. Selye—Resolved, That the Mayor of the City of Rochester be, and he hereby is, authorized and directed to execute the foregoing contract for and on behalf of the city of Rochester, and attach thereto the seal of said city with George Ellwanger, Cornelia B. Ellwanger, his wife; William C. Barry, Minnie G. Barry, his wife; Charles P. Barry, Julia D. Barry, his wife; John H. Barry, Grace H. Barry, his wife; Harriet H. Barry, Harriet E. ACTION ON ORDINANCES.

FIRST ORDINANCE.

TERRY STREET SPRINKLING.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of sprinkling Terry street.

Adopted.

The Engineer submitted as such estimate, \$60.00.

By Ald. Wilson—Resolved, That the following improvement is necessary, viz.: The sprinkling of Terry street, from Jefferson avenue to Brown street, during the season of 1899.

Excepting therefrom such portion thereof not exceeding three feet in width on each side of the street as the Executive Board deems advisable for a bicycle path.

And whereas, The City Engineer, under the direction of this Council, has made an estimate of the whole expense thereof, and reports the same at \$60.00, which estimate

is hereby approved,

Resolved, Further, That the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense thereof, viz.:

One tier of lots and parcels of land on each side of Terry street, from Jefferson avenue to Brown street.

Adopted.

OXFORD STREET ELECTRIC LIGHTS AND POLES.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of furnishing seven electric light poles and the maintenance of nine incandescent arc lights on Oxford street until July 1, 1902.

Adopted.

The Engineer submitted as such estimate, \$2,300.00.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The furnishing of seven electric light poles and the maintaining nine incandescent arc lights on Oxford street until July 1, 1902.

And, The City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$2,300.00, which, being deemed reasonable, is hereby approved.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of Oxford street, from Park avenue to Monroe avenue.

Adopted.

ORCHARD STREET (SEC. 4) SPRINKLING.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of sprinkling Orchard street.

Adopted.

By Ald. Wilson—Resolved, That the following improvement is necessary, viz.:

The sprinkling of Orchard street (Sec. 4), from Campbell street to Maple street, during the season of 1899.

Excepting therefrom such portion thereof not exceeding three feet in width on each side of the street as the Executive Board deems advisable for a bicycle path.

And whereas, The City Engineer, under the direction of this Council, has made an estimate of the whole expense thereof, and reports the same at \$60.00, which estimate is hereby approved,

Resolved, Further, That the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense thereof, viz.:

One tier of lots and parcels of land on each side of Orchard street, from Campbell street to Maple street.

Adopted.

MT. VERNON AVENUE SPRINKLING.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of sprinkling Mt. Vernon avenue.

Adopted.

The Engineer submitted as such estimate \$54.00.

By Ald. Wilson—Resolved, That the following improvement is necessary, viz.:

The sprinkling of Mt. Vernon avenue from Cayuga street to Nicholson street during the season of 1899.

Excepting therefrom such portion thereof not exceeding three feet in width on each side of the street as the Executive Board deems advisable for a bicycle path.

And whereas, The City Engineer, under the directions of this council, has made an estimate of the whole expense thereof, and reports the same at \$54.00, which estimate is hereby approved,

Resolved, Further, That the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense thereof, viz.:

One tier of lots and parcels of land on each side of Mt. Vernon avenue, from Cayuga street to Nicholson street.

Adopted.

HEBARD STREET SPRINKLING.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of sprinkling Hebard street.

Adopted.

The Engineer submitted as such estimate, \$64.00.

By Ald. Wilson—Resolved, That the following improvement is necessary, viz.:

The sprinkling of Hebard street, from Central park to Bay street, during the season of 1899.

Excepting therefrom such portion thereof not exceeding three feet in width on each side of the street as the Executive Board deems advisable for a bicycle path.

And whereas, The City Engineer, under the directions of this Council, has made an estimate of the whole expense thereof, and reports the same at \$64.00, which estimate is hereby approved,

Resolved, Further, That the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense thereof, viz.:

Adopted.

The Engineer submitted as such estimate, \$76.00.

By Ald. Wilson—Resolved, That the following improvement is necessary, viz.:

The sprinkling of Alexander street (Sec. 3), from South avenue to Clinton avenue South, during the season of 1899.

Excepting therefrom such portion thereof not exceeding three feet in width on each side of the street as the Executive Board deems advisable for a bicycle path.

And whereas, The City Engineer, under the directions of this Council, has made an estimate of the whole expense thereof, and reports the same at \$76.00, which estimate is hereby approved,

Resolved, Further, That the following portion of said city is deemed benefited and properly ought to be assessed by a local assessment for the whole expense

thereof, viz.:

One tier of lots and parcels of land on each side of Alexander street, from South avenue to Clinton avenue South.

Adopted.

UNIVERSITY AVENUE ASPHALT AND STONE PAVEMENT.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of improving University avenue.

Adopted.

The Engineer submitted as such estimate, \$46,500.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The improvement of University avenue, from the west line of Beacon street, through the subway, to the easterly line of Crouch street, by constructing a Medina block stone pavement therein, except between Beacon street and Jersey street where it will be asphalt, with a line of six (6) inch curb on each side thereof. Excepting therefrom that portion of the street between the tracks, the rails of the tracks and two feet in width outside the outside rails of the tracks of the Rochester Railway Company.

Also the construction of a sewer of suitable form and dimensions in said University avenue, on the west side of the subway, from the west end of the present sewer to a point 25 feet east of Anderson avenue.

Also the construction of the necessary crosswalks, manholes, surface sewers, lot laterals and water services.

Width between curbs to be generally 32 feet, except through the subway, and for a distance of about 100 feet on each side thereof, where it will be from 32 to 40 feet in width.

Also the construction of a Portland cement walk on each side of the avenue between the limits mentioned, said walks to be generally 5 feet in width except through the subway and for a distance of about 100 feet on each side thereof, where they will be from 5 to 8 feet in width.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

And, the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$46,500, which, being deemed reasonable, is hereby approved.

Resolved, further, that the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of University avenue, from the west line of Beacon street to the east line of Crouch street, including the lands of the N. Y. C. & H. R. R. R. Company.

Adopted.

IRVING PLACE ASPHALT PAVEMENT.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of improving Irving place.

Adopted.

The Engineer submitted as such estimate, \$3,800.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The improvement of Irving place from Main street to the Erie canal by the construction of an asphalt pavement therein.

Also the construction of a Medina stone curb — inches wide on each side thereof, properly connected with all streets, alleys and driveways. The width between curbs shall be generally the same as at present.

The pavement may be extended to the street line at all intersecting streets, alleys, and driveways where in the opinion of the Executive Board and City Engineer it is necessary, in order to make a complete improvement.

Also the construction of the necessary manholes, surface sewers, lot laterals, water services and crosswalks. Also the cleaning, repair or rebuilding of so much of the main sewer as may be found necessary. Also the repair and adjustment to grade of the sidewalks.

The pavement shall be guaranteed and kept in repair for 10 years.

So much of the present curb on the street as can be made to conform to the specifications may be redressed and reset. The pavement and walks of intersecting streets adjacent to said street may be adjusted to the grade of the improvement.

Also the construction of the necessary street laterals within the limits of the pavement.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

And, the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$3,800, which, being deemed reasonable, is hereby approved.

Resolved, further, that the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of Irving place from Main street to Erie Canal.

Adopted.

LAWRENCE STREET ASPHALT PAVEMENT.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of improving Lawrence street.

Adopted.

The Engineer submitted as such estimate, \$4,900.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The improvement of Lawrence street, from East Avenue to Charlotte street by the construction of an asphalt pavement therein.

Also the construction of a Medina stone curb six (6) inches wide on each side thereof, properly connected with all streets, alleys and driveways. The width between curbs shall be generally 20 feet.

The pavement may be extended to the

street line at all intersecting streets, alleys, and driveways where in the opinion of the Executive Board and City Engineer it is necessary, in order to make a complete improvement.

Also the construction of the necessary manholes, surface sewers, lot laterals, water services and crosswalks. Also the cleaning, repair or rebuilding of so much of the main sewer as may be found necessary. Also the repair and adjustment to grade of the sidewalks.

The pavement shall be guaranteed and kept in repair for 10 years.

So much of the present curb on the street as can be made to conform to the specifications may be redressed and reset. The pavement and walks of intersecting streets adjacent to said street may be adjusted to the grade of the improvement.

Also the construction of the necessary street laterals within the limits of the pavement.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

And, the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$4,900, which being deemed reasonable, is hereby approved.

Resolved, further, that the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of Lawrence street from East avenue to Charlotte street.

Adopted.

ELM STREET MEDINA BLOCK STONE PAVEMENT.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of improving Elm street.

Adopted.

The Engineer submitted as such estimate, \$8,000.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The improvement of Elm street from East Main street to Chestnut street by the construction of a Medina block stone pavement therein.

Also the construction of a Medina stone curb six (6) inches wide on each side thereof, properly connected with all streets, alleys and driveways. The width between curbs shall be generally 40 feet.

The pavement may be extended to the street line at all intersecting streets, alleys, and driveways where in the opinion of the Executive Board and City Engineer it is necessary, in order to make a complete improvement.

Excepting from the above that portion of the street between the tracks, the rails of the tracks and for two feet outside of the outside rails of the tracks of the Rochester Railway Company.

Also the construction of the necessary manholes, surface sewers, lot laterals, water services and crosswalks. Also the

cleaning, repair or rebuilding of so much of the main sewer as may be found necessary. Also the repair and adjustment to grade of the sidewalks.

The pavement shall be guaranteed and kept in repair for 5 years.

So much of the present curb on the street as can be made to conform to the specifications may be redressed and reset. The pavement and walks of intersecting streets adjacent to said street may be adjusted to the grade of the improvement.

Also the construction of the necessary street laterals within the limits of the pavement.

And, the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$8,000, which being deemed reasonable, is hereby approved.

Resolved, further, that the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of Elm street from East Main street to Chestnut street.

Adopted.

WASHINGTON STREET ASPHALT PAVEMENT.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of improving Washington street

Adopted.

The Engineer submitted as such estimate, \$10,000.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The improvement of Washington street from Main street to Allen street by the construction of an asphalt pavement therein.

Also the construction of a Medina stone curb 6 inches wide on each side thereof, properly connected with all streets, alleys and driveways. The width between curbs shall be generally 34 feet.

The pavement may be extended to the street line at all intersecting streets, alleys and driveways where in the opinion of the Executive Board and City Engineer it is necessary, in order to make a complete improvement.

Also the construction of the necessary manholes, surface sewers, lot laterals, water services and crosswalks. Also the cleaning, repair or rebuilding of so much of the main sewer as may be found necessary. Also the repair and adjustment to grade of the sidewalks.

The pavement shall be guaranteed and kept in repair for 10 years.

So much of the present curb on the street as can be made to conform to the specifications may be redressed and reset. The pavement and walks of intersecting streets adjacent to said street may be adjusted to the grade of the improvement.

Also the construction of the necessary street laterals within the limits of the pavement.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities

to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

And, the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$10,000, which, being deemed reasonable, is hereby approved.

Resolved, further, that the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this council deems proper to be assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on each side of Washington street from Main street to Allen street.

Adopted.

FRANKFORT STREET WALK.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of constructing walks on Frankfort street.

Adopted.

The Engineer submitted as such estimate, \$50.00.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The construction of a pine plank walk three feet wide on the west side of Frankfort street, from Brown street to Jay street except where good plank walks now exist. Also the necessary crosswalks and sidewalk grading.

And, the City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$50.00, which being deemed reasonable, is hereby approved.

Resolved, further, that the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be so assessed for and will be benefited by such improvement, to wit:

One tier of lots and parcels of land on west side of Frankfort street in front of which the proposed walk is to be constructed.

Adopted.

COMMUNICATIONS FROM THE MAYOR.

By the Clerk—

Mayor's Office, May 2, 1899.

To the Common Council of the City of Rochester:

I hereby return without my approval final ordinance No. 7,726, for the improvement of Childs street, for the following reasons:

A majority of the persons owning property on this street are opposed to the improvement. They will have to pay for it, and their wishes should be respected and the improvement allowed to go over until some other time. The best way to do is to call the property owners together and let them decide whether or not they want the improvement, and if they do, let them also decide its kind.

Respectfully yours,
GEORGE E. WARNER,
Mayor.

The chair stated the question to be shall the ordinance stand notwithstanding the disapproval of his honor the mayor.

Adopted by the following vote:

Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—19.

Nay—Ald. Ward—1.

By the Clerk—

Mayor's Office, May 2, 1899.

To the Common Council of the City of Rochester:

I hereby return without my approval final ordinance number 7,725 for Monroe avenue improvement, for the following reasons:

The tracks of the Rochester Railway

Company are laid on this avenue. The city claims that under the law the company is obliged to pay for the improvement between the tracks and for two feet on each side of them, but the company disputes its liability. As I have said heretofore in a number of vetoes, a large amount of money is tied up by reason of this difference of opinion. I do not consider it for the best interests of the city to continue passing ordinances under such circumstances, and running the risk of the city's being obliged to pay for a part of all these improvements.

Several remonstrances have also been filed, and I am informed that a majority of the property owners on the avenue are opposed to the proposed improvement. Nothing can be more unjust than to compel people to make and pay for an improvement which they do not want.

The ordinance should be laid over until the obstacles mentioned have been removed.

Respectfully yours,
GEORGE E. WARNER,
 Mayor.

The chair stated the question to be shall the ordinance stand notwithstanding the disapproval of his honor the mayor.

Adopted by the following vote :
 Ayes—Ald. Tracy, Callihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—19.
 Nay—Ald. Ward—1.
 By the Clerk—

Mayor's Office, May 3, 1899.

To the Common Council of the City of Rochester :

I hereby return without my approval that part of a resolution adopted at your meeting of April 25, 1899, which provides for the payment to Richard L. Saunders of the sum of \$50 for salary as investigating clerk for the month of April, for the following reasons :

Mr. Saunders has rendered no services to the city since April 7, at which time he left the city for a pleasure trip to Europe.

I do not believe that he is entitled to be paid during the time covered by his contemplated absence.

Respectfully yours,
GEORGE E. WARNER,
 Mayor.

On motion of Ald. Rauber referred to Law Committee.
 By the Clerk—

Mayor's Office, May 2, 1899.

To the Common Council of the City of Rochester :

I hereby return without my approval the resolution adopted at your meeting of April 25, 1899, directing the payment to Dr. Geo. W. Goler of \$335 for services rendered in taking care of smallpox cases from December 11, 1898, to March 14, 1899, for the following reasons :

Dr. Goler is the health officer for the city, for which he receives a salary. In addition to his salary he has presented claims against the Board of Health during the past fifteen months, which, including this bill, amount to about \$2,000, all for such cases as the present ones.

On September 7, 1898, I disapproved one of Dr. Goler's bills for the reason that I did not believe that he was legally entitled to recover for the services, as they were part of his duties as health officer. The Board of Health differed with me in this respect, and employed Dr. Goler to perform the services at the priced agreed upon.

Dr. Goler has performed excellent services, and they may be worth the sum charged; but they are exactly what he was employed to do as health officer, and I am still of the opinion that I was when I vetoed his other bill: That he should not be paid twice for the same work.

Respectfully yours,
GEORGE E. WARNER,
 Mayor.

On motion of Ald. Rauber referred to Law Committee.
 By the Clerk—

Mayor's Office, May 2, 1899.

To the Common Council of the City of Rochester :

I hereby return without my approval that part of a resolution of your body, passed at the meeting held on the 25th of April, which appropriates the sum of \$45.57 to pay the salary of William H. Kearns as extra operator of the police patrol system, for the following reasons :

Since the transferring of the operation of the police patrol system to the Common Council no rules for its management have been adopted.

The Common Council did not authorize the employment of Mr. Kearns and, I am informed, neither did the city property committee. The employment was unnecessary. When the system was in charge of the police commissioners, bills of this nature were not incurred. An arrangement has been in existence for several years between the executive board and the police commissioners, by which employees of the former performed all labor in repairing wires and doing other work, without extra expense to the city.

The work charged for should have been performed under the direction of the executive board or by the superintendent of the police patrol system.

Respectfully yours,
GEORGE E. WARNER,
 Mayor.

On motion of Ald. Rauber referred to Law Committee.

**COMMUNICATIONS AND REPORTS
 FROM OTHER CORPORATION
 OFFICERS, BOARDS AND
 DEPARTMENTS.**

By the Clerk—

Office of the Executive Board,
 Rochester, N. Y., May 9, 1899.

To the Hon. The Common Council :

Gentlemen—I am directed by the Executive Board to call you attention to the fact that the numerous roadway improvements for which ordinances have already been passed and are now pending, will entail unusually large expenditures from the Water Works Fund for the examination and repair of the existing main and service pipes in such streets. The estimated cost of this work is about \$9,000, and it cannot properly be charged to the various local improvement funds, but must be paid out of the said Water Works Fund; and as you have already been advised in a former communication that the available amount of said fund is insufficient to meet other demands, it follows that unless this fund is suitably increased, the Executive Board cannot be held responsible for any deficit which may occur therein before the close of the year on account of the work mentioned.

The Executive Board also directs me to notify you that in several of said streets the existing water mains are too small to

comply with present demands, and that the same should be replaced by pipes of larger diameter; furthermore, that in some of said streets the large mains of the new water distributing system are projected to be laid, and that no provision therefor has yet been made. The Board is strongly of the opinion that it will be for the best interest of the city to make all required enlargements an extensions of the water distributing systems before the expensive new roadway improvements are completed, so as to avoid both the annoyance to the public from the subsequent tearing up of the pavements, and the large extra expense for the trenching, which latter may in some cases amount to as much as \$1.50 per lineal foot.

The streets in which such new water pipe work is involved at the present time are as follows: Caledonia avenue, from Bronson avenue to the Erie canal, new 36-inch main, estimated cost, \$23,970; Hudson avenue, from Clifford street to Emerson place, new 16, 12 and 10-inch pipe in place of old 6-inch pipe, estimated cost, \$5,750; Stone street, from East Main street to Court street, new 6-inch pipe in place of old 4-inch pipe of Hemlock system, estimated cost, \$1,400; Jefferson avenue, from Seward street to Plymouth avenue, new 8 and 4-inch pipe in place of old 1-inch pipe, estimated cost \$450; Front street, from East Main street to Mumford street, new cast-iron 24-inch pipe in place of old 24-inch wrought-iron supply-pipe from Carroll and Fitzhugh race to Pump House, and new 6-inch pipe in place of old 4-inch pipe of Holly system from Market street to Mumford street, estimated cost \$4,700; University avenue, from Anderson avenue to Crouch avenue, new 8-inch pipe, estimated cost \$3,900; Fourth street, from Glenwood park to Glenwood avenue, 6-inch pipe, estimated cost \$330; Elizabeth street, from Hill street to Allen street, new 36-inch pipe, and New 6-inch pipe in place of old 4-inch pipe of Hemlock system, estimated cost \$5,500; and Elm street from East Main street to Chestnut street, new 6-inch pipe in place of old 4-inch pipe, estimated cost \$900. The total of these items is \$46,800, which sum is entirely independent of the aforesaid cost of examining and repairing the existing main and service pipes in the remaining portion of said streets and the fourteen other streets where new mains are not required.

It should be noted that several of these street improvements are now in progress and that contracts for others will soon be awarded; hence it become urgent that the necessities of the water distributing systems shall receive your prompt attention. If the means for procuring the pipe are not provided in season, the Executive Board cannot be held responsible for the reproaches which will certainly be made by the taxpayers when they become aware that important betterments of the water works have been omitted.

Respectfully submitted,
CHARLES M. BEATTIE, Clerk.

League of American Municipalities.
Office of the Secretary,
108 Fulton St. N. Y. City,
New York, May 3, 1899.

Dear Sir—I am requested by the Executive Committee of the League of American Municipalities to mail you the enclosed communication and resolution, and also ask that you present the same at the next council meeting, for the purpose of having your city become a member of this league. Your compliance with this request will be appreciated by the committee, and

Yours very respectfully,
B. F. GILKISON, Secretary.

League of American Municipalities.

Dear Sir—As mayors of cities which have belonged to the League of American Municipalities since its organization, we want to assure you that our experience with the association has been highly satisfactory. We are convinced that this league is the proper medium through which to bring about improved service in all municipal departments, and that every progressive city should enjoy the many advantages of membership in it. The membership of a city carries with it individual membership for every department head and every council member of that city. We know, from experience, that the league accomplishes these important results:

First—Through its annual conventions it brings out interesting and valuable discussions of municipal questions by competent speakers of experience in municipal administration.

Second—Through its permanent bureau of information in New York city it provides to all inquiring members at any time statistical and other information on all subjects relative to municipal affairs.

Third—It brings the municipalities of this country into a powerful union for their mutual protection and advancement.

We have joined in sending this letter to you for the purpose of impressing you with the importance of the league and its work and of urging you to have your city take

membership. We believe that every patriotic municipality should take its share in this work of inducing better city government throughout the country. We know that you and your associates in your city government will find membership in the league a great aid in your endeavors to provide for your people the best of municipal service. As it has helped us, so it will help you.

There are over one hundred cities in the league at present and new members are being added constantly. We hope soon to see every important municipality in the United States enrolled.

Will you transmit this letter and the accompanying resolution to your council, with your recommendation that your city take membership? Please reply to the Secretary of the League, B. F. Gilkison, Downing Building, New York City.

Yours very truly,

Whereas, The League of American Municipalities has been successfully organized and is now working on a substantial, permanent basis; and,

Whereas, We believe that such an organization, bringing, as it does, the municipalities of America together in a united effort to secure improved municipal service,

should be supported by the patriotic officials of every city and town in this country; and,

Whereas, We consider that the services of the Bureau of Information of this League would be a direct and valuable aid to all our municipal departments; therefore,

Resolved, That in conformity with the provisions of the constitution of said League, as follows:

"Any municipality in the United States or Canada may become a member of this organization.

"Each and every municipality becoming a member of this organization shall pay an annual membership fee as follows: Cities under 25,000 population, \$20; between 25,000 and 50,000, \$30; between 50,000 and 100,000, \$40; between 100,000 and 200,000, \$50; over 200,000, \$60."

The city of _____ hereby becomes a member of the said League of American Municipalities; and also,

Resolved, That the comptroller be, and is hereby, authorized to draw an order payable to B. F. Gilkison, Secretary of the League of American Municipalities, in the sum of _____ dollars, in payment of one year's dues in said organization.

James C. Oliver, Secretary,
Rochester, N. Y., May 2, 1899.

To the Common Council and City Treasurer:

Gentlemen—I hereby certify that a regular session of the Board of Education of this city, held May 1, 1899, the sum stated in the certificate of the Council to said Board, under date of April 17, 1899, was divided and apportioned as follows:

For Teachers' Salaries	\$338,872 10
For repairs to School Buildings...	25,000 00
For Library Purposes	4,000 00
For Building Purposes	78,226 90
For Contingent Fund	137,201 00

Total

\$583,300 00
The amount above apportioned does not exceed in any fund the amount originally certified to the Common Council in February last as necessary to be raised for such fund.

By order of the Board.

Respectfully,

JAMES C. OLIVER Secretary.

Referred to Finance Committee.

By the Clerk—Claim of Nicholas L. Brayer for one hundred thirty-three dollars and thirty-nine cents for stone chips delivered April 3, 1896. Referred to Poor Committee.

Also claim of Hascal A. Hogel as Receiver of Flower City Reduction Company for twenty-three thousand three hundred and six dollars and fifty-six cents (\$23,306.56). Referred to the Law Committee.

By the Clerk—

City Clerk's Office,
City of Niagara Falls, N. Y.,
April 25th, 1899.

To the City Clerk of the City of Rochester, N. Y.:

Dear Sir—Pursuant to instructions from the Common Council of the City of Niagara Falls, N. Y., at a meeting of said Council held on April 24th, 1899, I enclose herewith

copy of resolutions adopted at said meeting opposing the passage of the bill now before the legislature to permit electric railways to operate upon the state reservation, and request that you submit said resolutions to the Council of your city for their consideration and that they take action thereon.

Very respectfully yours,

S. F. ARKUSH, City Clerk.

Whereas, On the 19th day of April, 1899, an act was introduced by our Senator Ellsworth in the Senate of the State of New York, read twice and ordered to a third reading to amend the General Railroad Law of the State, which amended act is to read as follows:

Section 108. Road not to be constructed upon ground occupied by public buildings or in public parks. No street surface railroad shall be constructed or extended upon ground occupied by buildings belonging to any town, city, county or to the State or the United States, or in public parks, except in tunnels, to be approved by the local authorities having control of such parks provided, however, that the Commissioners of the State Reservation at Niagara Falls by and with the consent of the Commissioners of the Land Office may construct without expense to the State, street railroad tracks upon and along that part of Riverway, so-called, between Falls and Niagara streets in the City of Niagara Falls, and in their discretion may grant revokable licenses to street surface railroad companies to use such tracks upon such terms as said Commissioners may prescribe, and

Whereas, It has been the policy of all the former law makers of the State of New York to prohibit the operation of electric railways or any other like enterprise upon the public grounds belonging to any town, city or county or to the State, and the amendment heretofore recited is the only exception to this rule and will undoubtedly be followed by numerous applications on behalf of other street railway corporations situate in the different cities of this State for the like privileges, and

Whereas, Said amendment gives a special and valuable franchise to the electric railway companies, permitting them to use the State property for the purpose of private gain, in fact making it a vast depot for their exclusive use, and in all fairness if this privilege be granted a like privilege should be extended to all the citizens of this State who desire to do business of any kind upon our State Reservation, and

Whereas, The said bill is being rushed through the Legislature without an opportunity being afforded the public to examine into its extent and probable operation; now therefore be it

Resolved, That the Common Council of the City of Niagara Falls does hereby express its unqualified disapproval of said bill and does hereby call upon its representatives in Senate and Assembly to use all reasonable measures to defeat the said bill, and be it further

Resolved, That the Common Council of the City of Niagara Falls hereby invites the governing bodies of the other cities of this State to unite with it and further its opposition to the said bill; and be it further

Resolved, That copies of these resolutions be sent to our Representatives in Senate and Assembly and to the Governor.

Resolved, That the Mayor be and he is hereby requested to write to Governor Roosevelt to ask for a public hearing upon

the bill to permit the electric railways to operate upon the State Reservation if said bill comes before him for his consideration; and be it further

Resolved, That the Mayor appoint a committee of four, consisting of the Mayor, City Attorney and two members of this body to attend such hearings and oppose such bill and that the expenses of such committee be borne by the city; and be it further

Resolved, That the City Clerk be and he is hereby directed to send to the City Clerks of each city of this state a copy of the resolutions opposing the passage of the said bill and requesting the governing body of said cities to take action thereon.

I, S. F. Arkush, City Clerk of the City of Niagara Falls, and Clerk of the Common Council of said city, do hereby certify that at a meeting of said Common Council of said City held on Monday, April 24, 1899, the accompanying resolutions were unanimously adopted.

In testimony whereof, I have hereunto set my hand this 25th of April, 1899.

S. F. ARKUSH,

City Clerk of the City of Niagara Falls, N. Y.

By Ald. Steele—Resolved, That the Common Council of the City of Rochester are opposed to the maintaining of Electric Railways on the State Reservation at Niagara Falls, as its quietness and natural scenery are its greatest charms, and we earnestly urge the Governor to veto any bill that will permit this desecration, and further

Resolved, That a copy of this resolution be sent to the Governor of the State. Adopted.

REPORTS OF STANDING COMMITTEES.

By Ald. Reichenberger—

Rochester, N. Y., May 9, 1899.

To the Honorable, the Common Council :

Gentlemen—Pour Map and Survey Committee would respectfully report: That the City Engineer, under the direction of this committee, solicited proposals for the furnishing of not to exceed 200 street monuments and received the following bids :

William F. Fuhrmann, each	\$2 20
Wm. & Chas. H. Carson, each.....	1 60
Whitmore, Rauber & Vicinus, each....	1 40
Elmer L. Oliver, each.....	1 36

And your committee recommends that the City Engineer be authorized to purchase not to exceed 200 monuments from the lowest bidder, Elmer L. Oliver, at \$1.36 each.

Respectfully submitted,

WM. REICHENBERGER,
STEPHEN RAUBER,
JAS. H. CASEY,
LEWIS EDELMAN,
W. H. TRACY,
CHAS. V. JUDSON,
W. ERNST,
Map and Survey Committee.

By Ald. Reichenberger—Resolved, That the City Engineer be authorized to purchase not to exceed 200 street monuments from Elmer L. Oliver at \$1.36 each and charge the expense to the contingent fund. Adopted by the following vote :

Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—20.

By Ald. Mead—

Rochester, N. Y., May 9, 1899.

To the Honorable, the Common Council of the City of Rochester :

Gentlemen—Your Law Committee beg leave to report as follows :

In relation to the resolution of Aid. Adams adopted at a meeting of the Common Council held on the 11th day of April, 1899, directing your committee to present an ordinance or an amendment to the present ordinance which prohibits the standing of push carts on the streets of the city during business hours, your committee would report that it has made an investigation of this matter and finds that section one of the penal ordinances, passed April 14, 1896, provides that no person shall at any time offer for sale any provisions or merchandise at retail in any manner within any of the public streets or places or from house to house within the city of Rochester without having procured a license as provided by the terms of this ordinance; that section two provides that it is discretionary with the Mayor to grant any such persons or persons a license to sell any provisions or merchandise at retail in any of the public streets or places or from house to house within said city. We are, therefore, of the opinion that the further enactment of any ordinance is unnecessary; that the present ordinances cover the condition of affairs existing and complained of by the public, principally upon Main street, if properly enforced.

In respect to the collection of garbage, which has been referred to your committee and arising out of the condition of affairs existing by reason of the alleged contract of Hogel as receiver, with the city and the employment of Holahan, for the collection of garbage since the month of February, 1899, by the Board of Health, your committee would beg leave to report that under the advice of the Corporation Counsel it believes that the collection and disposition of garbage is a matter entirely within the discretion of the Common Council; that the Board of Health had no power to enter into the contract made with it and the Reduction Companies in relation to the collection and disposition of garbage, and which is now claimed to be held by Hogel as receiver, as section 10 of the city charter expressly provides that the Board of Health shall not have power to make any contract or incur any debt or liability in any year beyond the amount raised and appropriated for the Board of Health for that particular year, and that the provisions of any statute so far as inconsistent with said section shall not apply to the city of Rochester. We are also advised from a consideration and examination of the law under which the Board of Health was created and under the Health Law of the state that no power is given to the Board of Health to collect and dispose of garbage. That, therefore, the contract with the Reduction Companies which are now represented in Hogel as receiver, is absolutely void and of no effect, and that as far as we are able to ascertain there has been no ratification of the same on the part of the proper city authorities, and there can be no liability as far as the city is concerned under the said contract. We would also report that we are advised by the Corporation Counsel that there is no action now pending in which Hogel as receiver is plaintiff, or otherwise, against the City of Rochester, in which these questions are involved and in which a determination may be made, and that the city is not a party to any action or proceeding in which these questions may at present be adjudicated.

We would therefore recommend that a contract for the collection and disposition of the garbage of the city and also dead animals be let to some responsible person or persons in such manner and under such conditions and restrictions as the Common Council may adopt.

In relation to the resolution of Ald. Judson presented at a meeting of the Common Council held on the 28th of March, 1899, providing for the payment of the sum of \$3,653 to McGuire & Wood, Lewis & McKay and Slocum & Denton, attorneys for the lienors and Hascal A. Hogel as receiver for the collection and disposition of the garbage of the city for the month of January and up to and including the 23d day of February, 1899; and also another resolution for the payment to Thomas Holahan of the sum of \$2,000 for the collection and disposition of garbage and the removal of dead animals from February 28 to March 23, 1899, inclusive, under an agreement between the said Holahan and the Board of Health, your committee would recommend that they are advised that the Board of Health had no power to make any contracts in relation to this matter, but that inasmuch as such services were performed by the said parties for the benefit of the city and that the city having received the benefit thereof, they are equitably and justly entitled to receive compensation for the same.

We would therefore recommend that the amounts provided by said resolution be paid to the said parties from contingent fund instead of from the Health Fund of the city, there being sufficient funds in the contingent fund to meet the payment of the same.

Your committee would recommend the appointment of the following Commissioners of Deeds :

William B. Zimmer, Jared A. Barber, Jno. C. Koesterer, Stephen Ziellinski, Joseph P. Dailey, August J. May, H. Fred Parris, Thomas Baker, Egbert F. Ashley, Elmer E. Chilson, J. M. Reddington, Paul Stahlbrodt, Douglas Arnold, Chas. H. Carson, Wm. N. Goldwater, Rose Rothschile, Emmett S. Ray, B. B. Chase, W. W. Barnard, Lewis Hensler, Eugene D. W. Parsons, Julian C. Bowen, Hugh J. O'Brien, Wendell Ernst.

All of which is respectfully submitted,
 CHARLES P. MEAD,
 JAS. H. CASEY,
 D. W. SELYE,
 FRANK J. RITZ,
 W. REICHENBERGER,
 W. ERNST,
 Law Committee.

Ordered received, filed and published.

By Ald. Mead—Resolved, That the City Clerk be and he is hereby authorized and directed to draw an order on the treasurer payable from the contingent fund for the sum of \$3,653, in favor of McGuire & Wood, Lewis & McKay, and Slocum & Denton, attorneys for the lienors and Hascal A. Hogel as a receiver, being for the collection and disposition of garbage for the month of January and to and including February 23, 1899, being the amount requested to be paid by resolution of the Board of Health; said payment to be made upon the certificate of the attorney of the Board of Health and the corporation counsel that the terms of said resolution of the Board of Health have been complied with; and also

Resolved, That the City Clerk be and he is hereby authorized and directed to draw an order on the treasurer payable

from the contingent fund for the sum of \$2,000, in favor of Thomas Holahan, being for collection and disposition of garbage and removal of dead animals from February 28 to March 23, inclusive, as per agreement between the Board of Health and said Thomas Holahan.

Ald. Green moved a division of the question. Adopted.

The resolution to pay McGuire & Wood, Lewis & McKay and Slocum & Denton, was adopted by the following vote :

Ayes—Ald. Tracy, Calihan, Ford, Green, Rauber, Adams, Edelman, Beard, Casey, Selye, Ward, Steele, Ritz, Pauckner, Kelly, Ernst, Mead, Judson, Wilson, Reichenberger—20.

On motion of Ald. Ford the resolution was reconsidered.

Ayes and nays were called for and the motion to reconsider was adopted by the following vote :

Ayes—Ald. Tracy, Ford, Rauber, Edelman, Casey, Selye, Ward, Ritz, Kelly, Ernst, Mead, Reichenberger—12.

Nays—Ald. Calihan, Green, Adams, Beard, Steele, Pauckner, Judson, Wilson—8.

Corporation Counsel Kinney stated that the council had been enjoined against paying Thomas Holahan for the collection and disposition of garbage.

By Ald. Calihan—

The Engineer submitted as such estimate, \$25,600.

By Ald. Wilson—Resolved, That the following improvement is necessary and should be made, viz.:

The improvement of Jay street, from Childs street to city line, by the construction of an asphalt pavement therein. Also

the construction of a Medina stone curb, 6 inches wide, on each side thereof, properly connected with all streets, alleys and driveways. The width between curbs, from Childs to Ames street, shall be generally 30 feet, and from Ames to city line generally 26 feet. The pavement may be extended to the street line at all intersecting streets, alleys and driveways where in the opinion of the Executive Board and City Engineer it is necessary, in order to make a complete improvement. Excepting from the above that portion of the street between the tracks, the rails of the tracks and for two feet outside of the outside rails of the tracks of the Rochester Railway Company. Also the construction of the necessary manholes, surface sewers, lot laterals, water services and crosswalks. Also the cleaning, repair or rebuilding of so much of the main sewer as may be found necessary. Also the construction of a Portland cement walk five feet in width on each side of the street, except where good cement or flagstone walks of the proper width now exist, which may be relaid if not conforming to the proper grade or alignment.

The pavement shall be guaranteed and kept in repair for 10 years.

So much of the present curb on the street as can be made to conform to the specifications may be redressed and reset. The pavement and walks of intersecting streets adjacent to said street may be adjusted to the grade of the improvement.

Also the construction of the necessary street laterals within the limits of the pavement.

The asphalt surface shall be composed of one of the standard mixtures laid in this city for the past five years, or any other asphalt mixture that can be shown to the satisfaction of the Executive Board to have been laid in sufficient quantities to fairly test its quality, and to have worn well and satisfactorily for a period of not less than three years.

And, The City Engineer, under the directions of this Council, having made an estimate of the whole expense thereof, and reported the same at \$25,600, which, being deemed reasonable, is hereby approved.

Resolved, Further, That the whole expense of such improvement is hereby directed to be assessed upon all of the following portion and part of the City, which this Council deems proper to be assessed for and will be benefited by such improvement, to wit :

One tier of lots and parcels of land on each side of Jay street, from Childs street to city line.

Adopted.

ELIZABETH STREET ASPHALT PAVEMENT.

By Ald. Wilson—Resolved, That the City Engineer ascertain and report to this Council the expense of improving Elizabeth street.

Adopted.

The Engineer submitted as such estimate, \$7,500.
