

Private Columbarium

*P*rivate columbaria are structures installed above ground for the inurnment of cremated remains. A columbarium may be personalized in design and accommodate a variable number of niches.

Private Family Lot

*P*rivate family lots are available for the interment of full body and cremated remains and may be purchased to accommodate a specified number of family members. Multiple interments are allowed in any grave space up to a maximum of three; either one full body and two cremation burial, or three cremation burials. An additional right of interment fee is assessed for the second and third burials in a grave space.

A Natural Place of Lasting Peace

Private Family Crypts

*F*amily crypts are structures installed for above-ground interment of casketed remains. Unlike a private mausoleum, crypts do not have walk-in vestibules. Crypts may be personalized in size and design. Crypts may be purchased from Riverside or a third party at the discretion of the purchaser and approval of the cemetery. The land is purchased from the cemetery before the installation of the crypts.

Where Do You See Yourself in 100 Years?

Riverside Cemetery has been committed to providing the Rochester community with unique interment options since its inception nearly 120 years. In keeping with this tradition, the cemetery offers family estates for private mausoleums, crypts, columbaria and burial lots. An estate affords the ability to personalize a space, including the placement of benches and landscaping. Securing a space for family members to be interred close to one another is a special way to commemorate and honor their lives for the generations that follow.

Private Mausoleum

*M*ausoleums are structures built for above-ground interment of casketed or cremated remains. Riverside works with a prospective client to select a desirable location for erection of a mausoleum. The land is purchased from the cemetery before construction. The mausoleum design and structure are purchased and constructed by a third party at the discretion of the purchaser and approval of the cemetery. At the time of construction, a private trust is established in an amount equal to 15% of the construction cost for the permanent upkeep of the mausoleum.
